No. 1.] LAHORE, FRIDAY, JANUARY 7, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 3rd January 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1 Supply of fodder. 2 Water-supply for— (a) Drinking. (b) Canal irrigation. 3 Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
1	Hissar ...	...	1. Insufficient ... 2. (b) Perennial canals flowing, supply sufficient. 3. Good.	Wheat, 6¾ ... Gram, 7¼. Bajra, 6½. Bejhar, 8½. Prices generally between normal and warning rates.	Picking of cotton continues. Yield normal.	Rain badly wanted. Standing irrigated crops good and unirrigated fair.
2	Rohtak ...	...	1. Sufficient ... 2. (a) Scarce except in Rohtak Tahsil. (b) Canal closed. 3. Good.	Wheat, 7 ... Gram, 7½. Barley, 8. Jowar, 9. Bajra, 7. Prices between normal and warning rates.	Standing irrigated sugarcane below average. Pressing of sugarcane continues. Yield below normal.	Standing irrigated crops average, and unirrigated below average.

1961 PGG

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for — (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
3	Gurgáon ...	...	1. Sufficient ... 2. (a) Do. (b) Canal flowing; supply sufficient. 3. Good.	Wheat, 6 to $7\frac{1}{4}$ ... Barley, $8\frac{1}{2}$ to $9\frac{1}{2}$. Gram $7\frac{3}{8}$ to $8\frac{1}{4}$. Jowar, 7 to $8\frac{3}{4}$. Bajra, $7\frac{1}{4}$ to $7\frac{1}{2}$. Maize, 4 to 8. Prices generally between normal and warning rates.	Pressing of sugarcane continues. Yield below normal.	Rain badly wanted. Standing irrigated crops good and unirrigated poor.
4	Ambála ...	...	1. Sufficient ... 2. (a) Sufficient except in parts. (b) Canal flowing; supply adequate. 3. Generally good.	Wheat, $6\frac{3}{8}$ ... Gram, $7\frac{1}{8}$. Barley, $9\frac{1}{16}$. Maize, $8\frac{5}{8}$. Bajra, $7\frac{3}{4}$. Prices generally between normal and warning rates.	Standing irrigated sugarcane average, and unirrigated below average. Pressing of sugarcane continues. Yield normal on irrigated and below normal on unirrigated area.	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Crops being damaged by white ants in Ambála and Jagádhri Tahsils.
5	Jullundur ...	0·35 at Nawánshahr	1. Scarce ... 2. (a) Sufficient. 3. Cattle are weak owing to hard work and scarcity of fodder.	Wheat, $7\frac{1}{4}$ ... Barley, $8\frac{1}{2}$. Gram, $7\frac{1}{2}$. Maize, 9. Prices generally between normal and warning rates.	Pressing of sugarcane continues. Yield normal.	Rain badly wanted. Standing irrigated crops average and unirrigated below average.
6	Ferozepore ...	...	1. Insufficient ... 2. (a) Sufficient. 3. Good.	Wheat, 7 ... Gram, $7\frac{1}{2}$. Prices between normal and warning rates.	...	Rain badly wanted. Standing irrigated crops average and unirrigated below average.
7	Lahore ...	...	1. Insufficient ... 2. (a) Sufficient. (b) Canals dry. 3. Average.	Wheat, $7\frac{1}{4}$ ... Gram, $7\frac{5}{8}$. Prices between normal and warning rates.	Standing irrigated sugarcane below average. Picking of cotton and pressing of sugarcane continue on irrigated area. Yield below normal.	Standing irrigated crops average and unirrigated below average. Sowings of barley, fodder and rapeseed continue on irrigated area and are below normal. Reaping of toria continues. Yield expected to be below normal.
8	Amritsar ...	...	1. Sufficient ... 2. (b) Canals flowing by rotations; supply sufficient. 3. Good.	Wheat, $7\frac{1}{4}$ ... Gram, $6\frac{15}{16}$. Barley, $10\frac{1}{2}$. Maize, $8\frac{1}{4}$. Jowar, 11. Bajra, $6\frac{3}{4}$. Prices generally between normal and warning rates.	Pressing of sugarcane continues. Yield below normal.	Rain badly wanted. Standing irrigated crops average and unirrigated below average.
9	Siálkot ...	...	1. Scarce; sugarcane being used as fodder. 2. (a) Sufficient. (b) Canal closed. 3. Average.	Wheat, $6\frac{3}{4}$ to 7 ... Barley, 10 to $10\frac{1}{2}$. Gram, 7 to $7\frac{1}{4}$. Maize, $8\frac{1}{4}$ to $8\frac{1}{2}$. Prices between normal and warning rates.	Standing irrigated crops average and unirrigated below average. Yield of sugarcane normal.	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Sowings of wheat and barley continue and are normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
10	Shahpur ...	...	1. Sufficient, except in parts. 2. (b) Lower Jhelum Canal flowing by rotations. 3. Fair.	Wheat, 6½ to 7½ ... Bajra, 7 to 7½. Maize, 7½ to 9. Barley, 9½ to 11. Prices between normal and warning rates.	Standing irrigated crops fair to good and unirrigated below average. Picking of cotton and pressing of sugarcane continue. Yield normal.	Rain badly wanted. Standing irrigated crops fair to good and unirrigated below average. Sowings of wheat continue in Bhalwal Tahsil to some extent.
11	Ráwalpindi ...	0·16 at Kahúta ...	1. Scarce ... 3. Good.	Wheat, 6 ... Barley, 9¾. Gram, 7½. Maize, 7¾. Bajra, 6½. Jowar, 7¾. Prices between normal and warning rates.	...	Standing crops below average.
12	Miánwáli ...	...	1. Insufficient ... 2. (b) Canals flowing; supply sufficient. 3. Fair.	Wheat, 6½ ... Barley, 10. Gram, 8. Jowar, 7. Bajra, 7. Prices between normal and warning rates.	...	Standing irrigated crops average, and unirrigated below average.
13	Lyallpur ...	0·05 at Sadr ... 0·05 at Samundri.	1. Sufficient ... 2. (b) Canals flowing by rotations; supply sufficient. 3. Good.	Wheat, 7 ... Gram, 7½. Prices between normal and warning rates.	Standing crops average. Picking of cotton and pressing of sugarcane continue. Yield of sugarcane normal and of cotton below normal.	More rain wanted. Standing crops average. Sowings of wheat continue and are normal.
14	Multán ...	...	1. Insufficient ... 3. Fair.	Wheat, 7½ ... Barley, 9¾. Gram, 7¾. Jowar, 10¾. Bajra, 7. Maize, 8½. Prices between normal and warning rates.	Standing crops average. Picking of cotton finished. Yield below normal.	Rain badly wanted. Standing crops below average to average.

GENERAL REMARKS.

Except for light showers in parts of a few districts weather remained dry. Rain is badly wanted for standing crops which are generally average on irrigated and below average on unirrigated area. Picking of cotton nearly completed and pressing of sugarcane continues. Yield below normal to normal. Wheat and barley being sown in some districts. Area sown below normal to normal. Reaping of toria in progress. Expected yield generally below normal. Cattle are generally healthy, but fodder is scarce in parts of most districts. Water is generally sufficient. Prices are generally stationary and range between normal and warning rates. Prices of wheat :—Ráwalpindi 6, Ambála 6¾, Ferozepore and Lyallpur 7 and Lahore 7½ seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB AND THE NORTH-WEST FRONTIER PROVINCE DURING OCTOBER 1920.

Station.	Pressure.		Wind.		Temperature in Shade.						Humidity at 8 hrs.	Vapour tension at 8 hrs.	Amount of cloud, 10 = overcast.
	Barometer at 8 hrs. reduced to 32°, to constant gravity at 45° Lat. and to sea level.	Departure from normal.	Mean direction and velocity in miles per hour, October 1920.	Normal direction and velocity in miles per hour, October.	8 hrs.	Mean maximum.	Departure from normal.	Mean minimum.	Departure from normal.	Mean monthly departure from normal.

* Not reduced to sea level.
(a) = Aneroid.

Four disturbances of the winter type appeared in north-west India, but only one of these (13th to 15th) gave appreciable rain in the hills of the Punjab and of the North-West Frontier Province. There was practically no rain in the plains.

Pressure and Winds.—Atmospheric pressure was in slight to moderate defect in the plains with the exception of the east Punjab where it was normal. Winds were much weaker than usual at Murree, Peshávar and Cherát, and stronger at Ambála. The direction was very abnormal at Ambála, Ráwalpindi, Murree and Multán.

Temperature.—Mean maximum temperature was 3° or more above normal at Hissar, Ambála, Ludhiána, Khusháb, Ráwalpindi and Peshávar, and minimum temperature at Ambála, Lahore, Ráwalpindi, Murree, Multán, Dera Ismail Khan and Cherát.

The following table shows for each day of the month the departure from normal of the mean temperature of the Punjab and the North-West Frontier Province, with the highest maximum temperature registered and the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

„ 16th ...	+3·4	101·9	Hissar.				

Humidity and Cloud.—Humidity was below normal generally in the east and north Punjab and cloud amount was low in the latter area. In the North-West Frontier Province both humidity and cloud were in defect at Cherát and Drosh.

Rainfall.—The month was rainless except for a few light falls at the hill stations of the Punjab and the North-West Frontier Province; Cherát was the only station which received its normal fall.

The following table gives the rainfall data for the Punjab and the North-West Frontier Province stations for October 1920:—

Station.	Actual rainfall in October 1920.	Normal rainfall in October.	Departure from normal in October 1920.	Station.	Actual rainfall in October 1920.	Normal rainfall in October.	Departure from normal in October 1920.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 25th December 1920 there were 997 births registered in the 31 large municipal towns (516 males and 481 females), giving a birth-rate of 50 *per mille* of population, and 732 deaths were registered (386 males and 346 females), giving a death-rate of 37 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 47 against 34 in the corresponding week of the previous year; Amritsar 33 against 35; and Multán 41 against 37.

There were four deaths registered from small-pox in Multán and one in Jhelum. Of the five deaths from plague, four occurred in Multán and one in Ráwalpindi.

Standing irrigated crops average and unirrigated below average.

No.	Reporting station.	Rain.	1. Supply of fodder 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
10	Shahpur ...	...	1. Generally insufficient. 2. (b) Lower Jhelum Canal closed. 3. Fair.	Wheat, 7 to 7½ ... Maize, 8 to 10. Gram, 8 to 8½. Barley, 10 to 11. Prices between normal and warning rates.	Standing irrigated crops fair to good and unirrigated below average. Picking of cotton and pressing of sugarcane continue. Yield below normal.	Rain badly wanted. Standing irrigated crops fair to good and unirrigated below average. Sowings of wheat finished.
11	Ráwalpindi ...	...	1. Scarce ... 3. Good.	Wheat, 6 ... Barley, 9¾. Gram, 7½. Maize, 7¾. Bajra, 6½. Jowar, 7¾. Prices between normal and warning rates.	...	Standing crops below average.
12	Miánwáli ...	...	1. Insufficient ... 2. (b) Canals flowing; supply insufficient in Namal Canal. 3. Fair.	Wheat, 6½ ... Gram, 8½. Barley, 10. Bajra, 7. Jowar, 7½. Prices between normal and warning rates.	...	Standing irrigated crops average, and unirrigated below average.
13	Lyallpur ...	...	1. Sufficient ... 2. (b) Canal flowing by rotations; supply sufficient. 3. Good.	Wheat, 7 ... Gram, 7½. Prices between normal and warning rates.	Picking of cotton and pressing of sugarcane continue. Yield of sugarcane normal and of cotton below normal.	Standing crops average. Sowings of wheat continue and are normal.
14	Multán ...	...	1. Insufficient ... 3 Fair.	Wheat, 7½ ... Barley, 10½. Gram, 7¾. Jowar, 10¾. Bajra, 7. Maize, 8. Prices between normal and warning rates.	Standing sugarcane average. Yield of sugarcane normal.	Rain badly wanted. Standing crops below average to average.

GENERAL REMARKS.

Weather remained dry. Rain is badly wanted for standing spring crops which are average on irrigated and below average on unirrigated area. Pressing of sugarcane and harvesting of toria in progress. Yield below normal to normal. Sowings of spring crops nearly completed, and are below normal to normal. Cattle are generally healthy, but fodder is scarce in most districts. Water is generally sufficient, but canals are closed in some districts. Prices are generally stationary and range between normal and warning rates. Prices of wheat :—Ráwalpindi 6, Ambála 6¾, Ferozepore and Lyallpur 7 and Lahore 7½ seers per rupee.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 1st January 1921 there were 1,068 births registered in the 32 large municipal towns (545 males and 523 females), giving a birth-rate of 52 *per mille* of population, and 911 deaths were registered (509 males and 402 females), giving a death-rate of 44 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 54 against 40 in the corresponding week of the previous year; Amritsar 44 against 31; and Multán 46 against 46.

There were four deaths recorded from plague in Multán. Only 1 death occurred from small-pox in Kasúr.

Barley, 10. Gram, 7. Maize, 9½. Prices generally between normal and warning rates.	Pressing of sugarcane continues. Yield normal.	Rain, though useful for standing crops, was insufficient and more is badly wanted. Standing irrigated crops average and unirrigated below average.
6	Ferozepore ...	0·71 at Sadr ... 0·47 at Moga. 0·12 at Ferozepore Cantonment.	1. Insufficient ... 2. (a) Sufficient. 3. Good.	Wheat, 7 ... Gram, 7½ Prices between normal and warning rates.	...	Standing irrigated crops average and unirrigated below average.
7	Lahore ...	0·05 at Chúnián ...	1. Insufficient ... 2. (a) Sufficient. (b) Canals dry. 3. Average.	Wheat, 7½ ... Gram, 7¼. Prices between normal and warning rates.	Standing irrigated sugarcane below average. Pressing of irrigated sugarcane continues. Yield below normal.	Standing irrigated crops average and unirrigated below average. Reaping of toria continues on irrigated area. Expeced yield below normal. Sowings of extra spring crops commenced.
8	Amritsar ...	0·14 at Sadr ... 0·24 at Tarn Táran. 0·53 at Ajnála.	1. Sufficient ... 2. (b) Canals flowing by rotations; supply sufficient. 3. Good.	Wheat, 7½ ... Gram, 6½. Barley, 10¾. Maize, 8½. Jowar, 9½. Bajra, 6¾. Prices generally between normal and warning rates.	Standing irrigated crops average and unirrigated below average. Pressing of sugarcane continues. Yield below normal.	Standing irrigated crops average and unirrigated below average. Reaping of toria continues. Expected yield below normal.
9	Siálkot ...	0·26 at Sadr ... 0·26 at Zafarwál. 0·24 at Pasrúr. 0·18 at Raya. 0·22 at Daska.	1. Scarce; sugarcane being used as fodder. 2. (a) Sufficient. (b) Canal closed. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, 7 to 7½ ... Barley, 10 to 10½. Gram, 6½ to 7. Maize, 8 to 8½. Prices generally between normal and warning rates.	Standing irrigated crops average and unirrigated below average. Yield of sugarcane normal.	More rain badly wanted. Standing irrigated crops average and unirrigated below average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
10	Shahpur ...	0·04 at Sadr ... 0·27 at Bhalwal.	1. Generally insufficient. 2. (b) Lower Jhelum Canal closed. 3. Fair.	Wheat, 7 to 7¼ ... Maize, 6½ to 10. Gram, 8 to 8½. Barley, 10 to 11. Prices between normal and warning rates.	Standing irrigated crops fair to good and unirrigated below average. Pressing of sugarcane continues. Yield below normal.	Standing irrigated crops fair to good and unirrigated below average. Sowings of wheat finished. Harvesting of toria continues.
11	Ráwalpindi ...	0·77 at Sadr ... 0·30 at Gujar Khan. 0·70 at Kahúta. 0·76 at Murree.	1. Scarce ... 3. Good.	Wheat, 6 ... Barley, 8½. Gram, 7¼. Maize, 8. Bajra, 6. Jowar, 7¾. Prices between normal and warning rates.	...	Standing crops below average.
12	Miánwáli ...	0·08 at Sadr ... 0·11 at Isa Khel.	1. Insufficient ... 2. (b) Canals flowing; supply insufficient in Namal Canal. 3. Fair.	Wheat, 6½ ... Barley, 10. Gram, 8 3/16. Bajra, 7. Jowar, 7. Prices between normal and warning rates.	...	Standing irrigated crops average, and unirrigated below average.
13	Lyallpur ...	0·07 at Sadr ... 0·05 at Jaránwála.	1. Sufficient ... 2. (b) Canal flowing by rotations; supply sufficient. 3. Good.	Wheat, 7 ... Gram, 7¼. Prices between normal and warning rates.	Standing crops average. Picking of cotton and pressing of sugarcane continue. Yield of sugarcane normal and of cotton below normal.	Rain was insufficient. Standing crops average. Sowings of wheat almost finished and are normal.
14	Multán ...	0·03 at Sadr ... 0·05 at Lodhrán. 0·05 at Mailsi. 0·04 at Khánewál.	1. Scarce ... 2. (b) Lower Bari Doab Canal flowing; supply inadequate. 3. Fair.	Wheat, 7⅝ ... Barley, 10⅝. Gram, 7¾. Jowar, 10⅜. Bajra, 7⅝. Maize, 8⅝. Prices between normal and warning rates.	Standing sugarcane average. Yield of sugarcane normal.	Rain was insufficient and more is badly wanted. Standing crops below average to average.

GENERAL REMARKS.

Light rain fell in parts of all the reporting districts. Rain, though slightly useful, was quite insufficient, and more is **badly wanted** everywhere for spring crops. Condition of standing crops is generally average on irrigated and below average on unirrigated area. Pressing of sugarcane and harvesting of toria in progress. Yield below normal to normal. Cattle are generally healthy, but fodder is scarce in most districts. Water is generally sufficient. Prices are generally stationary and range between normal and warning rates. Prices of wheat :—Ráwalpindi 6, Ambála 6⅜, Ferozepore and Lyallpur 7 and Lahore 7¼ seers per rupee.

MAHBUB SHAH, Supdt.,

rain-gauge station.

averages have been fixed.

MAHBUB SHAH, Supdt.,
Office of Director of Land Records, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab for the month of December 1920.

1.—Hissar District.

Weather remained dry. Rain is badly wanted. Standing crops on irrigated area are in good condition. Condition of gram on irrigated area is average. Sowings of wheat and barley on irrigated area continued. Picking of cotton continued. Yield normal. Cattle in good condition. Fodder got scarce and was imported from outside by rail. State of public health good. Water in perennial canals running. Prices of food-grains stationary. Grain stock sufficient.

2.—Rohtak District.

Sowings of irrigated wheat, barley, gram and sarshaf continued. Area sown below average. Germination is good. Condition and expected yield of irrigated sugarcane below average; of irrigated wheat barley, gram and sarshaf average and of unirrigated crops below average. Cattle are generally in good condition. Fodder is sufficient. Water is scarce, except in Rohtak Tahsil. Health of people is generally good. Canal water is sufficient.

3.—Gurgaon District.

Rain is urgently wanted for rabi sowings. Wheat, barley, gram, sarshaf and taramira are being sown on both irrigated and unirrigated areas where moisture exists. The crops on irrigated area are still in good condition, but those on unirrigated area fair. Cattle in good condition Fodder sufficient at present. Health of people generally good. Canal running, but supply of water is insufficient.

4.—Karnal District.

Rain is badly needed. Sowings of rabi crops completed. Condition of irrigated crops is average, and of unirrigated crops below average owing to lack of moisture. Condition of cattle is good. Scarcity of fodder and water is being felt. The state of public health is generally good. Canal water is short of the demand. The Sarsuti inundatory canal remained closed. Prices still remain high. Anxiety of famine is felt by the zamindars.

5.—Ambala District.

Rainfall was insignificant during the month. More rain is wanted. Condition of sugarcane is average on irrigated and below average on unirrigated area. Sugarcane is being pressed. Yield is average on irrigated and below average on unirrigated area. Cattle are generally in good condition. Fodder supply is sufficient, water drying up in many places and cattle are watered from wells. Public health is generally good. Western Jumna Canal flowed continuously and water was adequate. Prices have fallen to some extent.

6.—Simla District.

Rainfall in both tahsils totally inadequate. Sowings completed in Kot Khái Tahsil. In Simla Tahsil wheat and barley have been sown to the extent of two-thirds. Condition of cattle good. Fodder and grazing sufficient. Public health good. Water in hill streams sufficient.

7.—Kangra District.

Rainfall during the month was below average. Sowings were made to a small extent. Condition of rabi crops is fair on irrigated area. Crops on unirrigated area which were suffering for want of rains have improved by recent rains. Cattle are in fair condition. Fodder was generally sufficient. Public health was generally good. Water in streams and kuhls was sufficient for irrigation purposes.

8.—Hoshiarpur District.

Rainfall was quite insufficient. The standing crops are withering. Condition of cattle good. Fodder insufficient. Public health generally good. Shah Nahr Canal flowed; supply insufficient. Prices are rising.

9.—JULLUNDUR DISTRICT.

Rain was much below average in Nawashahr Tahsil and none elsewhere. It is very badly wanted. Sowings of wheat on chahi lands completed and were below normal. Condition of standing irrigated rabi crops average, and unirrigated below average. Pressing of sugarcane continues; yield average. Cattle are generally weak owing to hard work and scarcity of fodder. Public health generally good. Prices of food-grains stationary.

10.—LUDHIANA DISTRICT.

Rainfall during the month was too little to be of any effect. Rain is badly needed for rabi crops, mostly on barani land. The sowings on irrigated land completed. Standing crops on irrigated lands are average and on unirrigated lands below average. Condition of cattle is satisfactory. Dry fodder available, but its rates are high. Public health on the whole good.

11.—FEROZEPORE DISTRICT.

Condition of standing rabi crops is satisfactory on irrigated and very poor on unirrigated area. Cattle are in fairly good condition. Fodder is scarce in the Bet tract. Public health remained satisfactory. Sirhind Canal worked fairly well.

12.—LAHORE DISTRICT.

Wheat, gram, barley and chara were sown on irrigated area. Area sown below normal. Condition of standing crops average on irrigated and below average on unirrigated area. Condition of cattle average. Fodder is insufficient. Public health fair. Perennial canals flowing. Supply of water insufficient. Prices high.

13.—AMRITSAR DISTRICT.

Rain badly wanted. Sarson, wheat and barley were sown during the month. Condition and expected yield of standing crops on irrigated area are average, and on unirrigated area below average. Condition of cattle is good. Public health is generally good. Canals are working by rotation. Supply sufficient.

14.—GURDASPUR DISTRICT.

Practically there was no rain during the month. Rabi sowings on irrigated, low-lying and sailab lands have been completed, but most of the unirrigated area has not been sown owing to draught. Condition of rabi crops on irrigated areas is average to good, but crops on unirrigated areas are badly suffering for want of rains. Pressing of cane is in progress, but scarcity of rains has badly affected the yield. Cattle are generally good. Scarcity of fodder is keenly felt in some parts of the district. Public health generally good. Government canals are flowing, but not irrigating lands. Prices are almost stationary.

15.—SIALKOT DISTRICT.

Rain is badly wanted. Sowings of wheat and barley continued and are normal. Condition of standing kharif and rabi crops average on irrigated and below average on unirrigated area. Yield of cotton and sugarcane average. Condition of cattle generally average. Bhoosa scarce and cane is used as fodder. Public health generally good. Canal closed. Irrigation by jhallars continued. Supply of food-grains and water sufficient.

16.—GUJRANWALA DISTRICT.

No rain fell during the month. It is badly wanted. Sowings of wheat and barley finished. The general condition of rabi crops is below average owing to want of rain. Picking of cotton almost finished. Yield of cotton and sugarcane is estimated to be below normal. Condition of cattle is fair. White bhoosa and green fodder are insufficient. Public health generally good. Canals were running by rotational turns.

17.—SHEIKHUPURA DISTRICT.

There was a slight shower of rain at Khangah Dográn. Sowings of wheat, barley, senji (fodder) has nearly completed. Harvesting of toria has commenced. Condition and expected yield of standing crops below normal. Condition of cattle good; stocks of fodder have decreased. The health of people is generally good. Canals were working by rotational closures, but Mián Ali Distributary remained closed.

18.—GUJRAT DISTRICT.

Practically no rainfall was received during the month. Sowings of rabi crops finished. Condition of crops on irrigated lands below average to average. Barani crops are badly sufferring for want of rain. Picking of cotton and pressing of sugarcane in canal tracts in

progress. The yield is estimated to be below average to average. Sugarcane is being used as fodder in parts. Harvesting of toria commenced. The yield is reported to be average. Cattle are getting weak owing to scarcity of fodder. Public health generally good. Canals running, but water is not reported to be sufficient.

19.—SHAHPUR DISTRICT.

There were slight showers of rain during the last week of the month at Bhalwal and Shahpur which did little good. Sowings of wheat nearly finished, but it is still being sown in Bhalwal Tahsil; area sown below normal. Germination is fair. Condition of standing kharif and rabi crops is fair to good on irrigated and below average on unirrigated lands. Picking of cotton and pressing of sugarcane continued. Outturn normal on irrigated and below normal on unirrigated area. Condition of cattle has been fair. Fodder is sufficient in Sargodha Tahsil and Bar assessment circle of Bhalwal Tahsil, and fair to very scarce elsewhere. Public health has been satisfactory. Lower Jhelum Canal flowed with rotational closures.

20.—JHELUM DISTRICT.

Slight rain fell at Chakwál. The standing rabi crops are in very poor condition. Fodder scarcity is very acute. Public health on the whole is good.

21.—RAWALPINDI DISTRICT.

Very little rain fell during the month. The standing crops are withering for want of rain. Fodder is scarce. Condition of cattle is not good. No grazing available. Public health generally good.

22.—ATTOCK DISTRICT.

Weather remained practically dry. The condition of crops is bad on unirrigated area. The estimated yield per acre of the main kharif crop is as below :—

	Bajra.	*Cotton.*	*Maize.*
	Seers.	Seers.	Seers.
Irrigated	340	160	640
Unirrigated	80	15	...

The condition of cattle is growing worse on account of scarcity of fodder. Public health on the whole good. Water is sufficient in the wells. The prices are rising.

23.—MIANWALI DISTRICT.

There has been no rain during the month. Sowings of rabi crops continued. Area sown below normal. Condition of standing rabi crops is normal on irrigated and below normal on unirrigated area. Condition of cattle is fair. Fodder and grazing are insufficient. Drinking water is sufficient. Public health is generally good. Namal Canal in Miánwáli and Kurram Canals in Isa Khel running.

24.—MONTGOMERY DISTRICT.

No rain fell during the month. Wheat sowings continued. Standing crops on chahi lands are in average condition, but on nahri and sailab lands in bad condition. Yield is expected to be below average on nahri and sailab areas, and average on chahi areas. Cattle are in good condition. Public health is generally good. Lower Bari Doab Canal stopped for most part of the month, and this accounts for the crops not being in good condition. Prices are yet very high, except cotton which is falling day by day.

25.—LYALLPUR DISTRICT.

Rain received during the month was insignificant. Condition of all standing crops normal. Sowings of wheat in progress. Picking of cotton and pressing of cane in progress. Yield is expected to be 5 maunds and 22 maunds per acre, respectively. Condition of cattle good. Public health generally good. Canal working by rotational closures. No complaint of water supply.

26.—JHANG DISTRICT.

Very light showers of rain fell in the Jhang and Shorkot Tahsils. Wheat and senji are being sown. Condition of crops is average. Mash, mung and til are being harvested. Gur being produced from sugarcane. Cattle are generally good. Canals flowing. Prices high.

27.—MULTAN DISTRICT.

Light showers fell in Shujabad and Multán during the month. It had, in fact, a good but little effect. Sowings of wheat completed. The condition of standing crops is below average on the area irrigated by Chenab inundation canals and average on the area irrigated by Sidhnai. Cotton being picked. Yield below average. Condition of cattle generally average. Fodder is insufficient. Public health generally good. The inundation and Sidhnai canals are dry. The Lower Bari Doab Canal also remained closed during the month. Prices stationary.

28.—MUZAFFARGARH DISTRICT.

There has been light rain in Sinánwán. Rain is badly wanted throughout the district. Sowings of wheat and vegetables have been in progress during the month. Condition of standing crops was average, except in Muzaffargarh Tahsil where these were below average. Pressing of sugarcane and picking of cotton in progress. Outturn average. Cattle were in good condition. Fodder insufficient in Leiah and Sinanwán Tahsils, but was available in others. Canals have been irrigating lands in the Sinánwán Tahsil. Water supply is insufficient. Prices of foodgrains are still high.

29.—DERA GHAZI KHAN DISTRICT.

Weather remained practically dry. Sowings of rabi crops completed. Condition of standing crops is satisfactory. Gram in Dera Ghâzi Khan Tahsil and on unirrigated areas in Rájanpur Tahsil has suffered to some extent. Fodder is available. The Nur Dhundi and Qutab Dhundi Canals are giving a small supply of water in Jámpur and Rájanpur Tahsils. Prices are stationary.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 8th January 1921 there were 1,279 births registered in the 37 large municipal towns (629 males and 650 females), giving a birth-rate of 56 *per mille* of population, and 1,278 deaths were registered (703 males and 575 females), giving a death-rate of 56 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 54 against 37 in the corresponding week of the previous year; Amritsar 44 against 29; and Multán 64 against 50.

There were 5 deaths recorded from plague in Multán. Of the 6 deaths from small-pox, 4 were registered in Multán and 1 each in Siálkot and Chiniot.

Sanitary Commissioner's Office,

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
3	Gurgáon ...	0·68 at Sadr ... 0·24 at Rewári. 0·91 at Núh. 1·30 at Fírozpur. 1·05 at Palwal. 0·71 at Ballabgarh.	1. Sufficient 2. (a) Do. (b) Canal flowing; supply sufficient. 3. Generally good.	Wheat, 6 to 7¼ ... Barley, 8¾ to 9¼. Gram, [illegible]½ to 8. Jowar, 7 to 9. Bajra, 6½ to 7¼. Maize, 4 to 8. Prices generally between normal and warning rates.		Rain was very useful for standing crops.
4	Ambála ...	3·02 at Sadr ... 2·07 at Jagádhri. 2·47 at Naraingarh. 2·25 at Kharar. 2·64 at Rúpar. 3·64 at Kasauli.	1. Sufficient ... 2. (a) Do. (b) Canal flowing; supply adequate. 3. Generally good.	Wheat, 6⅜ ... Gram, 7½. Barley, 9¼. Maize, 8½. Bajra, 7½. Prices generally between normal and warning rates.	Standing irrigated sugarcane average, and unirrigated below average. Pressing of sugarcane continues. Yield normal on irrigated and below normal on unirrigated area.	Rain was very useful for standing crops, which are average on irrigated and below average on unirrigated area.
5	Jullundur ...	0·35 at Sadr ... 0·30 at Nakodar. 0·47 at Phillaur. 1·55 at Nawashahr	1. Scarce ... 2. (a) Sufficient. 3. Cattle generally weak owing to hard work and scarcity of fodder.	Wheat, 7½ ... Gram, 7. Barley, 9. Maize, 9. Prices generally between normal and warning rates.	Pressing of sugarcane continues. Yield normal.	Rain was useful for standing crops, but more is badly wanted. Standing irrigated crops average and unirrigated below average.
6	Ferozepore ...	0·41 at Sadr ... 0·52 at Zira. 1·61 at Muktsar. 0·12 at Abohar.	1. Insufficient ... 2. (a) Sufficient. 3. Good.	Wheat, 7 ... Gram, 7½. Prices between normal and warning rates.	...	Standing irrigated crops average and unirrigated below average.
7	Lahore ...	...	1. Scarce ... 2. (a) Sufficient. (b) Canals dry. 3. Fair.	Wheat, 7½ ... Gram, 7½. Prices between normal and warning rates.	Standing irrigated sugarcane below average. Pressing of irrigated sugarcane continues. Yield below normal.	Rain badly wanted. Standing irrigated crops average and unirrigated below average.
8	Amritsar ...	0·01 at Sadr ... 0·12 at Tarn Táran. 0·17 at Ajnála.	1. Sufficient ... 2. (b) Canals flowing by turn; supply sufficient. 3. Good.	Wheat, 7½ ... Gram, 6⅝. Barley, 10¼. Maize, 8½. Jowar, 9½. Bajra, 6¼. Prices between normal and warning rates.	Standing irrigated sugarcane average and unirrigated below average. Pressing of sugarcane continues. Yield below normal.	Standing irrigated crops average and unirrigated below average. Reaping of toria continues. Yield below normal.
9	Siálkot ...	0·04 at Sadr ... 0·37 at Zafarwál. 0·15 at Raya. 0·01 at Daska.	1. Scarce; sugarcane being used as fodder. 2. (b) Canal closed. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, 7 to 7½ ... Maize, 8 to 8½. Barley, 10 to 10½. Gram, 6¾ to 7. Prices generally between normal and warning rates.	Standing irrigated sugarcane average and unirrigated below average. Yield of sugarcane normal.	More rain badly wanted. Standing irrigated crops average and unirrigated below average.

No.	Reporting station.	Rain.	1. Supply of fodder 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
10	Shahpur ...	...	1. Generally insufficient. 2. (b) Lower Jhelum Canal flowing by rotations. 3. Fair.	Wheat, 7 to 7½ ... Barley, 10 to 11. Maize, 8 to 10. Gram, 8 to 8½. Prices between normal and warning rates.	Standing irrigated sugarcane fair to good and unirrigated below average. Pressing of sugarcane continues on irrigated area. Yield below normal.	Rain badly wanted. Standing irrigated crops fair to good and unirrigated below average. Harvesting of toria in progress. Yield normal.
11	Ráwalpindi ...	0·38 at Murree ...	1. Scarce ... 3. Good.	Wheat, 6 ... Barley, 9½. Gram, 7½. Maize, 7½. Bajra, 6½. Jowar, 7½. Prices between normal and warning rates.	...	Standing crops below average.
12	Miánwáli ...	...	1. Insufficient ... 2. (b) Canals flowing; supply insufficient in Namal Canal. 3. Fair.	Wheat, 6½ ... Barley, 10. Gram, 8½. Bajra, 7. Jowar, 8. Prices between normal and warning rates.	...	Standing irrigated crops average, and unirrigated below average.
13	Lyallpur ...	...	1. Sufficient ... 2. (b) Canal flowing by rotations; supply sufficient. 3. Good.	Wheat, 7½ ... Gram, 7½. Prices between normal and warning rates.	Standing sugarcane average. Pressing of sugarcane continues. Yield normal.	Standing crops average.
14	Multán ..	0·05 at Mailsi ...	1. Generally scarce ... 2. (a) Sufficient except in parts. (b) Canals dry. 3. Fair.	Wheat, 7¾ ... Barley, 10½. Gram, 7¾. Jowar, 10¾. Bajra, 7¾. Maize, 8½. Prices between normal and warning rates.	Standing sugarcane average. Yield of sugarcane below normal.	Rain badly wanted. Standing crops below average to average. Harvesting of toria continues. Yield below normal.

GENERAL REMARKS.

EXCEPT in the west light rain has fallen in parts of nearly all the reporting districts. It was beneficial to standing crops, but more rain is badly needed everywhere. Pressing of sugarcane and harvesting of toria continue. Yield below normal to normal. Standing spring crops are generally average on irrgated and below average on unirrigated area. Cattle are generally healthy, but fodder is scarce in most districts. Water is generally sufficient. Prices are generally stationary and range between normal and warning rates. Prices of wheat :—Ráwalpindi 6, Ambála 6¾, Ferozepore 7 and Lahore and Lyallpur 7½ seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

13	Lyallpur ...	...	1. Sufficient ... 2. (b) Canal flowing by rotations; supply sufficient. 3. Good.	Wheat, 7½ ... Gram, 7¾. Prices between normal and warning rates.	Picking of cotton and pressing of sugarcane almost finished. Yield normal.	Standing crops average. Harvesting of toria continues. Yield normal.
14	Multán	...	1. Scarce ... 2. (a) Sufficient except in parts. (b) Canals dry. 3 Fair.	Wheat, 7¾ ... Barley, 10½. Gram, 7¾. Jowar, 10⅝. Bajra, 7⅝. Maize, 9. Prices between normal and warning rates.	Standing sugarcane average. Yield below normal.	Rain badly wanted. Standing crops below average to average.

GENERAL REMARKS.

Weather remained dry. Rain is urgently wanted for spring crops. Pressing of sugarcane and harvesting of toria continue. Yield below normal to normal. Condition of standing wheat and other spring crops is generally average on irrigated, and much below average on unirrigated area. Cattle are generally healthy, but fodder is scarce in most districts. Sugarcane is being used as fodder in some districts. Water generally sufficient. Prices are generally stationary and range between normal and warning rates. Prices of wheat :—Ráwalpindi 6, Ambála 6½, Ferozepore 7, Lahore and Lyallpur 7½ seers per rupee.

MAHBUB SHAH, Supdt.,

for *Director of Land Records, Punjab.*

* Not reduced to sea level.
(a) Mean of 29 days.
(c) = Aneroid.

Four winter depressions entered north-west India during the month, but the associated precipitation was small and was confined to the hills of the North-West Frontier Province. No rain fell in the plains of the Punjab or of the North-West Frontier Province.

Pressure and Winds.—Barometric pressure was below normal everywhere with the exception of Simla. The direction of wind was very abnormal at Ambála, Montgomery, Lahore, Ráwalpindi, Murree, Multán and Pesháwar. The air movement was stronger than usual at Hissar, Ambála and Khusháb, and was below normal at Cherat and Pesháwar.

Temperature.—In the plains of the Punjab and of the North-West Frontier Province as a whole, weather was warmer than usual during the first seventeen days, more especially on the 1st, 2nd, 11th, 16th and 17th when mean temperature was upwards of 5° above the average.

On the average of the month maximum temperature was above normal by 3° to 5° at Hissar, Ambála and Ludhiána; and minimum temperature was above the average by similar amounts at Lahore, Ráwalpindi, Murree, Multán and Dera Ismail Khan.

The following table shows for each day of the month the departure from normal of the mean temperature of the Punjab and the North-West Frontier Province, with the highest maximum temperature registered and the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

Humidity and Cloud.—Humidity was very low at Hissar, Ambála and Ráwalpindi, and about the average elsewhere. Skies were on the whole clouded to about the usual extent.

Rainfall.—The month was rainless except at the hill stations of Páráchinar and Drosh.

The following table gives the rainfall data for the Punjab and the North-West Frontier Province stations for November 1920 :—

Station.	Actual rainfall in November 1920.	Normal rainfall in November.	Departure from normal in November 1920.	Station.	Actual rainfall in November 1920.	Normal rainfall in November.	Departure from normal in November 1920.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 22nd January 1921, there were 1,064 births registered in the 38 large municipal towns (554 males and 510 females), giving a birth-rate of 46 *per mille* of population, and 1,119 deaths were registered (614 males and 505 females), giving a death-rate of 49 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 52 against 30 in the corresponding week of the previous year; Amritsar 48 against 27; and Multán 59 against 49.

There were 15 deaths recorded from plague and 4 from small-pox in Multán.

Sanitary Commissioner's Office,
Lahore:
The 2nd February 1921.

R. C. JENNINGS, Supdt.,
for *Sanitary Commissioner, Punjab.*

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
3	Gurgáon ...	...	1. Sufficient ... 2. (a) Do. 3. Good.	Wheat, $5\frac{3}{4}$ to $7\frac{1}{4}$ ... Barley, 8 to $9\frac{1}{2}$. Gram, $7\frac{1}{4}$ to $8\frac{1}{4}$. Jowar, 7 to $9\frac{1}{2}$. Bajra, $6\frac{1}{2}$ to $7\frac{1}{4}$. Maize, 6 to 9. Prices generally between normal and warning rates.	...	Rain is wanted. Condition of standing irrigated crop good and unirrigated fair. Yield of toria normal.
4	Ambála ...	0·23 at Sadr ... 0·14 at Jagádhri. 0·44 at Naraingarh. 0·04 at Rúpar. 0·50 at Kasauli.	1. Sufficient ... 2. (a) Do. (b) Canal flowing. 3. Generally good.	Wheat, $6\frac{1}{2}$ ... Gram, $7\frac{5}{16}$. Barley, $7\frac{3}{4}$. Maize, $8\frac{1}{8}$. Prices generally between normal and warning rates.	Standing irrigated sugarcane average, and unirrigated below average. Pressing of sugarcane continues. Yield normal on irrigated and below normal on unirrigated area.	Rain was useful for standing crops which are good on irrigated and below average on unirrigated area. Yield of toria normal.
5	Jullundur ...	0·15 at Sadr ... 0·42 at Nakodar.	1. Scarce ... 2. (a) Sufficient. 3. Cattle are generally weak owing to hard work and scarcity of fodder.	Wheat, $6\frac{3}{4}$ ... Gram, 7. Barley, $9\frac{1}{2}$. Maize, $9\frac{3}{4}$. Prices generally between normal and warning rates.	Pressing of sugarcane continues. Yield normal.	More rain badly wanted. Standing irrigated crops average and unirrigated below average.
6	Ferozepore ...	...	1. Insufficient .. 2. (a) Sufficient. (b) Sirhind canal flowing; supply sufficient. 3. Good.	Wheat, $6\frac{3}{4}$ ... Gram, $7\frac{3}{4}$ Pri detween norma wnb warning rates.	...	Standing irrigated crops average and unirrigated below average.
7	Lahore ...	0·05 at Sadr ...	1. Insufficient ... 2. (a) Sufficient. (b) Perennial canals flowing; supply insufficient. Inundation canals dry. 3. Generally fair.	Wheat, $7\frac{1}{2}$ ... Gram, $7\frac{1}{4}$. Prices between normal and warning rates.	Pressing of sugarcane continues on irrigated area. Yield below normal.	Standing irrigated crops average and unirrigated below average. Sowings of extra spring crops commenced on irrigated area and are below normal.
8	Amritsar ...	0·12 at Sadr ... 0·08 at Tarn Taran. 0·31 at Ajnála.	1. Sufficient ... 2. (b) Canals flowing by rotations; supply sufficient. 3. Good.	Wheat, $7\frac{1}{4}$ ... Gram, $6\frac{15}{16}$. Barley, $8\frac{3}{4}$. Maize, $8\frac{1}{4}$. Jowar, $9\frac{1}{2}$. Bajra, $6\frac{3}{4}$. Prices between normal and warning rates.	Standing irrigated sugarcane average and unirrigated below average. Pressing of sugarcane continues. Yield below normal.	More rain badly wanted. Standing irrigated crops generally average and unirrigated below average. Harvesting of toria is progress. Yield below normal.
9	Siálkot ...	0·41 at Sadr ... 0·54 at Zafarwál. 0·57 at Pasrúr. 0·43 at Raya.	1. Scarce; sugarcane being used as fodder. 2. (a) Sufficient. (b) Canal closed. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, $6\frac{1}{2}$ to $6\frac{3}{4}$ ... Maize, 8 to $8\frac{1}{2}$. Barley, 10 to $10\frac{1}{2}$. Gram, 7 to $7\frac{1}{2}$. Prices generally between normal and warning rates.	Standing irrigated sugarcane average and unirrigated below average. Yield of sugarcane normal.	Standing irrigated crops average and unirrigated below average. Yield of toria normal. Sowings of extra spring crops commenced and are normal.

No.	Reporting station.	Rain	1 Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
10	Shahpur	0·02 at Sadr ... 0·11 at Bhera. 0·12 at Shahpur. 0·43 at Khusháb.	1. Generally scarce ... 2. (b) Lower Jhelum Canal flowing by rotations, supply insufficient. 3. Fair.	Wheat, 6¾ to 7¼ ... Maize, 6¾ to 10. Bajra, 7½ to 8. Gram, 7½ to 8½. Barley, 10. Prices between normal and warning rates.	Standing irrigated sugarcane fair and unirrigated poor. Pressing of sugarcane continues in parts. Yield below normal.	More rain badly wanted. Standing irrigated crops fair and unirrigated poor. Harvesting of toria continues in parts. Yield below normal.
11	Ráwalpindi ..	1·56 at Sadr ... 0·94 at Kahúta. 0·94 at Gujar Khan. 3·00 at Murree.	1. Scarce ... 3. Good.	Wheat, 6 ... Barley, 9¼. Gram, 7. Maize, 7¾. Bajra, 6¼. Jowar, 5¾. Prices generally between normal and warning rates.	...	Standing crops below average.
12	Miánwáli ...	0·05 at Bhakkar ...	1. Insufficient ... 2. (b) Canals flowing; supply insufficient in Namal Canal. 3. Fair.	Wheat, 6½ ... Barley, 10. Gram, 8 3/16. Bajra, 7. Jowar, 8. Prices between normal and warning rates.	...	Standing irrigated crops average, and unirrigated below average.
13	Lyallpur ..	0·26 at Jaranwála. 0·15 at Samundri.	1. Sufficient ... 2. (b) Canal flowing by rotations; supply sufficient. 3. Generally good.	Wheat, 7 ... Gram, 7¾. Prices between normal and warning rates.	Standing sugarcane average.	Standing crops average. Harvesting of toria continues. Yield normal.
14	Multán ..	...	1. Scarce ... 2. (a) Sufficient except in parts. (b) Canals closed. 3. Fair.	Wheat, 7¼ ... Barley, 9½. Gram, 7½. Jowar, 9½. Bajra, 7¾. Maize, 9. Prices between normal and warning rates.	Standing sugarcane average. Yield below normal.	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Sowings of extra spring crops continue.

GENERAL REMARKS.

Light rain has fallen in parts of all the reporting districts except in the south-east and west. It was beneficial to standing crops but more rain is urgently needed. Pressing of sugarcane and harvesting of toria continue. Yield below normal to normal. Standing wheat and other spring crops are generally average on irrigated and below average or poor on unirrigated area. Sowings of irrigated extra spring crops commenced in some districts. Cattle are generally healthy. Fodder is scarce in most districts. Shortage of canal water is reported from Lahore, Shahpur and Miánwáli. Water for drinking purposes is generally sufficient. Prices have risen slightly in some districts and are stationary in others. They range between normal and warning rates. Prices of wheat :—Ráwalpindi 6, Ambála 6¾, Ferozepore 6¾, Lyallpur 7 and Lahore 7¼ seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 29th January 1921, there were 995 births registered in the 38 large municipal towns (502 males and 493 females), giving a birth-rate of 43 *per mille* of population, and 906 deaths were registered (505 males and 401 females), giving a death-rate of 39 *per mille* of population. The death-rates registered in the three largest towns were as follows:—Lahore 42 against 38 in the corresponding week of the previous year; Amritsar 38 against 29; and Multán 57 against 40.

There were 13 deaths recorded from plague in Multán. Of the 4 deaths from small-pox, 2 were registered in Multán and 1 each in Jhelum and Ráwalpindi.

Maize, 8 to 8½. Barley, 10 to 10½. Gram, 7 to 7½. Prices generally between normal and warning rates.	Pressing of sugarcane continues. Yield normal.	Rain is badly wanted. Standing irrigated crops average and unirrigated below average. Yield of toria normal. Sowings of extra spring crops commenced and are normal.

No.	Reporting station.	Rain.	1 Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
10	Shahpur ...	...	1. Scarce ... 2. (b) Lower Jhelum Canal flowing; supply insufficient. 3. Fair.	Wheat, 6½ to 7½ ... Gram, 7½ to 8½. Bajra, 7¼ to 8. Maize, 8½ to 10. Barley, 10 to 11. Prices between normal and warning rates.	Pressing of sugar-cane continues in parts. Yield below normal.	Rain badly wanted. Standing irrigated crops fair and unirrigated generally poor. Harvesting of toria in progress in parts. Yield below normal.
11	Rávalpindi ...	...	1. Scarce ... 3. Good.	Wheat, 6 ... Barley, 9½. Gram, 7. Maize, 7½. Bajra, 6½. Jowar, 5½. Prices generally between normal and warning rates.	...	Standing crops below average.
12	Miánwáli ..	...	1 Scarce ... 2. (b) Canals flowing; supply insufficient in Namal Canal. 3. Fair.	Wheat, 6 ... Gram, 8. Barley, 10. Bajra, 7. Jowar, 7½. Prices between normal and warning rates.	...	Standing irrigated crops average, and unirrigated below average.
13	Lyallpur ...	...	1. Sufficient ... 2. (b) Canal flowing by rotations; supply sufficient. 3. Good.	Wheat, 7 ... Gram, 7½. Prices between normal and warning rates.	...	Standing crops average. Harvesting of toria continues. Yield normal.
14	Multán	...	1. Scarce ... 2. (b) Canals closed. 3 Fair.	Wheat, 7½ ... Barley, 9½ Gram, 7½. Jowar, 9½. Bajra, 7½. Maize, 9. Prices between normal and warning rates.	Pressing of sugar-cane continues. Yield below normal.	Rain badly wanted. Condition and expected yield of standing irrigated crops average and unirrigated below average. Sowings of extra spring crops in progress.

GENERAL REMARKS.

WEATHER remained dry. Rain is badly wanted everywhere. Pressing of sugarcane and harvesting of toria continue in some districts. Yield below normal to normal. Condition and prospects of irrigated wheat and other spring crops slightly below normal and of unirrigated crops poor to below normal. Sowings of extra spring crops in progress. Cattle are generally healthy. Fodder is scarce in most districts. Water for drinking purposes is generally sufficient. Canal water supply is short in Lahore, Shahpur and Miánwáli. Prices are generally stationary and range between normal and warning rates. Prices of wheat :— Ráwalpindi 6, Ambála 6½, Ferozepore 6½, Lahore 7½ and Lyallpur 7 seers per rupee.

MAHBUB SHAH, SUPDT.,

rain-gauge station.

averages have been fixed.

December 1920 to 26th January 1921 was above normal.

MAHBUB SHAH, SUPDT.,
Office of Director of Land Records, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab for the month of January 1921

1.—HISSAR DISTRICT.

Light showers of rain were received at Fatehabad, Bhewáni and Budhláda and were slightly beneficial to the standing irrigated crops. Wheat, gram, barley and sarshaf on irrigated area were in fairly good condition. Sowings of wheat on irrigated area continued to a normal extent. Picking of cotton continued. Yield normal. Cattle are in good condition. Fodder stock got scarce and was imported by rail. The state of public health was good. Water in perennial canals, which flowed only in the first week of the month, was insufficient. Prices remained stationary.

2.—ROHTAK DISTRICT.

Light rain fell during the month and was beneficial to standing crops. Condition and expected yield of irrigated sugarcane below average and of wheat, gram and sarshaf average, but those of unirrigated gram and sarshaf bad. Cattle are generally in good condition. Fodder is sufficient. Water is scarce. Health of people generally good. Canal water is insufficient.

3.—GURGAON DISTRICT.

There was generally good winter rain which did much benefit to standing crops which are in good condition on irrigated area and fair on unirrigated area. Cattle are generally in good condition. Fodder sufficient at present. Health of people generally good. Canal running; supply of water sufficient.

4.—KARNAL DISTRICT.

The rainfall received during the month was beneficial to standing crops. More rain is badly wanted. The condition of standing crops is average on irrigated while poor on unirrigated area. The condition of cattle is generally good. Scarcity of fodder and water is being felt. The state of public health is generally good. The canals worked, but water was short of the demand. Prices high.

5.—AMBALA DISTRICT.

Rainfall was sufficient and has done much good to the standing crops. Barley and masar are being sown in some places. Condition of sugarcane and rabi crops is average on irrigated and below average on unirrigated area. Sugarcane being pressed; yield average on irrigated and below average on unirrigated area. Cattle are generally in good condition. Fodder and water supply sufficient. Public health is generally good. Western Jamna Canal flowed continuously and water was adequate. Prices remained stationary.

6.—SIMLA DISTRICT.

Rainfall received during the month was good. Sowings completed in Simla tahsil. Condition of standing crops average. Condition of cattle generally good. Fodder and grazing sufficient. Public health generally good. Water in hill streams sufficient.

7.—KANGRA DISTRICT.

The rainfall was generally above the average except at Núrpur, Dehra, and Nagar, where it was below average. It proved beneficial to the standing crops. Standing rabi crops are generally fair. Cattle were in fair condition. Fodder scarce. Public health generally fair. Water in streams (*kuhls*) generally sufficient.

8.—HOSHIARPUR DISTRICT.

Rainfall, though insufficient, was very beneficial to the standing crops which are satisfactory on plain tracts and poor on hilly tracts. Sugarcane is being pressed; outturn normal. Condition of cattle generally good. Fodder insufficient. Public health generally good. Shah Nahr Canal closed. Prices stationary.

9.—JULLUNDUR DISTRICT.

Rainfall was below average, except at Nawashahr where it was above average. More rain is badly wanted for unirrigated crops. Condition of standing rabi crops average on irrigated and below average on unirrigated area. Pressing of sugarcane continues; yield normal. Cattle are reported to be weak owing to hard work and scarcity of fodder. Public health is generally good. Prices of food-grains stationary.

10.—Ludhiana District.

The rainfall which was below average did some good to the standing crops which are generally average. Yield expected to be satisfactory. Dry fodder is available, but its rates are high. Public health on the whole satisfactory.

11.—Ferozepore District.

Light rain was received during the month and benefited the barani crops. The condition of barani crops is not very hopeful, but that of irrigated crops is fair. Condition of cattle is fair. Fodder is scarce in Bet and Rohi tracts. The health of people satisfactory. Sirhind Canal worked satisfactorily.

12.—Lahore District.

Light showers fell during the month except in Lahore Tahsil, which were slightly beneficial to standing crops. Vegetables were sown in Kasur tahsil. The condition and expected yield of rabi crops average on irrigated and below average on unirrigated area. Condition of cattle average. Fodder is scarce. Public health fair. Perennial canals remained closed during the month for annual repairs. Inundation canals dry. Prices high.

13.—Amritsar District.

Rain badly wanted. Condition of standing crops average on irrigated and bad on unirrigated area. Condition of cattle is good. Public health is generally good. Canals are working by rotation. Water-supply sufficient.

14.—Gurdaspur District.

Rainfall during the month was much below the average. It has benefited the rabi crops to some extent, but more rain badly wanted. Condition of cattle generally good. Scarcity of fodder is being felt. Public health generally good. Government canals are flowing as usual, but not irrigating lands. Prices are stationary.

15.—Sialkot District.

Sowings of wheat and barley continued about the beginning of the month to a normal extent. Condition of standing crops average on irrigated and below average on unirrigated area. Yield of sugarcane and toria normal. Cattle weak on account of overwork. Public health generally good. Canal closed. Irrigation by jhallars continued. Supply of food-grains and water sufficient. Bhusa scarce and sugarcane being used as fodder.

16.—Gujranwala District.

Rainfall during the month, though much below the normal, was useful for standing rabi crops which are generally below average for want of rain. The yield of toria is estimated to be normal on irrigated and below normal on unirrigated area. Condition of cattle generally fair. Fodder and grazing are insufficient and green wheat is being used as fodder. Canals are running by rotational closures.

17.—Sheikhupura District.

There was slight rainfall during the month which had practically no effect on the standing crops. Sowings of wheat finished. Condition of standing crops on irrigated area normal and on unirrigated area below normal. Harvesting of toria nearly finished. Yield below normal. Fodder scarce. Condition of cattle fair. Public health generally good. Mián Ali Distributary of the Lower Chenab Canal remained closed till 24th and is again working from the 25th January.

18.—Gujrat District.

Light showers fell in parts of the district. Rain is badly wanted. Sowings of rabi crops have been made to a little extent on barani lands. Condition of crops on irrigated lands below average to average and on barani lands generally bad. Cattle are weak owing to scarcity of fodder. Canals running. Water supply deficient.

19.—SHAHPUR DISTRICT.

Light showers of rain were received during the month. More rain is badly wanted everywhere. Area sown with wheat is below normal. Condition of standing crops is fair on irrigated but bad on unirrigated lands owing to drought. Pressing of sugarcane and harvesting of toria continued in canal colony. Outturn of sugarcane below normal and of toria normal. Condition of cattle is generally fair. Fodder is becoming scarce in Tahsil Sargodha and Chak Bar of Bhalwal Tahsil. Public health generally good. Lower Jhelum Canal flowed with rotational closures.

20.—JHELUM DISTRICT.

There was practically no rain during the month. The standing rabi crops are in very poor condition. Fodder scarcity is very acute. Public health generally good.

21.—RAWALPINDI DISTRICT.

Practically no rain fell during the month. Standing crops are below average. Fodder and grazing scarce. Condition of cattle not good. Public health generally good.

22.—ATTOCK DISTRICT.

There has been very little rainfall during the month. Rabi sowings finished. Condition of crops on unirrigated area is not good. Condition of cattle growing worse on account of scarcity of fodder. State of public health on the whole good. Water insufficient in wells. Prices high.

23.—MIANWALI DISTRICT.

Slight rain fell during the month in Miánwáli and Isa Khel Tahsils, which was useful for the standing crops to a small extent. More rain is badly wanted. Condition of standing rabi crops is average on irrigated and below average on unirrigated area. Condition of cattle fair. Fodder and grazing insufficient. Public health is generally good. Nammal canal in Miánwáli Tahsil was watering lands to a small extent, while Kurram Canal in Isa Khel Tahsil watering lands to a normal extent.

24.—MONTGOMERY DISTRICT.

Practically no rain fell during the month. Owing to want of rain and shortage of water in canals the standing crops are in bad condition, especially in nahri and barani tracts. Cattle generally in good condition. Fodder insufficient. Public health is generally good. Lower Bari Doab Canal worked for 10 days in the month. Prices of food-grains very high.

25.—LYALLPUR DISTRICT.

Slight rain fell during the month, which was insufficient. More rain is wanted. Standing crops average. Sowings of wheat, picking of cotton and pressing of sugarcane almost finished. Yield of cotton 5 maunds and of sugarcane 22 maunds per acre. Reaping of toria commenced. Expected yield 8 maunds per acre. Condition of cattle and public health generally good. Canals flowing by rotations; supply sufficient.

26.—JHANG DISTRICT.

Statement not received.

27.—MULTAN DISTRICT.

Practically no rain fell during the month. Tobacco and green vegetables were sown to some extent. Standing crops below average. Picking of cotton finished. Yield below normal. Condition of cattle average. Fodder scarce. State of public health average. Canals dry. Prices of all food-grains, excepting wheat, have fallen slightly.

28.—MUZAFFARGARH DISTRICT.

There was no rainfall during the month. It is badly wanted. Sowings of extra spring crops continue. Condition of standing irrigated crops average and of unirrigated crops below average in Muzaffargarh, Leiah and Alipur Tahsils and poor in Sanáwán Tahsil. Pressing of sugarcane in progress. Yield normal. Cattle generally in good condition. State of public health good. Prices of food-grains still high.

29.—DERA GHAZI KHAN DISTRICT.

No rain fell during the month. Rain is badly wanted. Sowings of extra spring crops continued to some extent. Standing irrigated crops average and unirrigated below average. Condition of cattle fair. Fodder scarce. State of public health generally good. Kalapani flowing in Jámpur Tahsil; Kutub Dhundi and Nur Dhundi canals also flowing. Prices remained stationary.

MAHBUB SHAH, SUPERINTENDENT,

for Director of Land Records, Punjab.

Weekly return of births and deaths registered at the undermentioned Municipal Towns in the Punjab during the week ending Saturday, the 5th February 1921.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 5th February 1921, there were 983 births registered in the 38 large municipal towns (496 males and 487 females), giving a birth-rate of 43 *per mille* of population, and 851 deaths were registered (440 males and 411 females), giving a death-rate of 37 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 38 against 31 in the corresponding week of the previous year; Amritsar 32 against 30; and Multán 52 against 47.

There were 12 deaths recorded from plague in Multán. Of the 6 deaths from small-pox, 3 were registered in Multán and 1 each in Jalálpur, Jhelum and Ráwalpindi.

No. 8.] LAHORE, FRIDAY, FEBRUARY 25, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M. Monday, the 21st February 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
1	Hissar ...	...	1. Insufficient ... 2. (b) Perennial canals dry. 3. Fair.	Wheat, $6\frac{3}{4}$ ... Gram, $7\frac{1}{2}$. Barley, 9. Bajra, $6\frac{1}{2}$. Prices generally between normal and warning rates.	...	Rain badly wanted. Standing irrigated crops fairly good and unirrigated very poor.
2	Rohtak	...	1. Sufficient ... 2. (a) Generally scarce. 3. Generally good.	Wheat, $6\frac{1}{2}$ .. Gram, 7. Barley, $8\frac{1}{4}$ Jowar, 9 Bajra, $6\frac{3}{4}$. Prices generally between normal and warning rates.	Pressing of sugarcane continues. Yield below normal.	Standing irrigated crops average and unirrigated bad.

3402 PGG

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
3	Gurgáon ...	...	1. Sufficient .. 2. (a) Do. (b) Canal flowing; supply sufficient in Palwal and Nuh Tahsils. 3. Good.	Wheat, 6¼ to 7¾ ... Barley, 8¼ to 9½. Gram, 7 to 9. Jowar, 6½ to 9. Bajra, 6½ to 7¼. Maize, 4 to 8. Prices generally between normal and warning rates.	..	Rain wanted. Condition and expected yield of standing irrigated crops good and of unirrigated crops fair. Yield of toria normal.
4	Ambála ...		Report not	received.		
5	Jullundur ...	...	1. Scarce 2. (a) Sufficient. 3. Cattle are generally weak owing to hard work and scarcity of fodder.	Wheat, 7¼ ... Gram, 7¼. Barley, 8½. Maize, 8. Prices generally between normal and warning rates.	Pressing of sugarcane continues. Yield normal.	Rain badly needed. Standing irrigated crops average and unirrigated below average. Sowings of extra spring crops continue.
6	Ferozepore ...	...	1. Insufficient .. 2. (a) Sufficient. 3. Good.	Wheat, 6¾ ... Gram, 7¾. Prices between normal and warning rates.	...	Standing irrigated crops average and unirrigated below average. Yield of toria normal.
7	Lahore ...	...	1. Scarce ... 2. (a) Sufficient. (b) Perennial canals flowing; supply insufficient. Inundation canals dry. 3. Average.	Wheat, 7¼ ... Gram, 7¼. Prices between normal and warning rates.	Pressing of sugarcane continues on irrigated area. Yield below normal.	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Sowings of extra spring crops continue on irrigated area and are below normal.
8	Amritsar ...	...	1. Sufficient ... 2. (b) Canals flowing by rotations; supply sufficient. 3. Good.	Wheat, 7¼ ... Gram, $6\frac{15}{16}$. Barley, 8½. Maize, 8¼. Jowar, 9½. Bajra, 6¾. Prices between normal and warning rates.	Pressing of sugarcane continues. Yield below normal.	Rain badly wanted. Standing irrigated crops average and unirrigated below average.
9	Siálkot ...	...	1. Bhusa scarce; green fodder available. 2. (b) Canal closed. 3. Cattle weak on account of hard work and scarcity of fodder.	Wheat, 6½ to 6¾ ... Maize, 8 to 8½. Barley, 10 to 10½ Gram, 7 to 7¼. Prices between normal and warning rates.	Yield of sugarcane normal.	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Yield of toria normal. Sowings of extra spring crops continue and are normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for—(a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
10	Shahpur	...	1. Fodder is getting scarce. 2. (b) Lower Jhelum Canal flowing by rotations; supply insufficient. 3. Fair.	Wheat, 6½ to 7½ ... Gram, 7½ to 8. Bajra, 7½ to 8. Maize, 8 to 10. Barley, 10 to 11. Prices between normal and warning rates.	Pressing of sugarcane continues. Yield below normal.	Rain badly wanted. Standing irrigated crops fair and unirrigated poor. Harvesting of toria in progress in parts. Yield below normal.
11	Ráwalpindi ...	...	1. Scarce ... 3. Good.	Wheat, 6 ... Barley, 9½. Gram, 7. Maize, 7½. Bajra, 5½. Jowar, 5½. Prices generally between normal and warning rates.	...	Standing crops below average.
12	Miánwáli	...	1. Scarce ... 2. (b) Canals flowing; supply insufficient. 3. Fair.	Wheat, 5½ ... Gram, 7½. Bajra, 7½. Jowar, 7. Barley, 10. Prices generally between normal and warning rates.	...	Standing irrigated crops average, and unirrigated below average. Sowings of extra spring crops commenced in Bhakkar Tahsil and are below normal.
13	Lyallpur	...	1. Sufficient ... 2. (b) Canal flowing by rotation; supply sufficient. 3. Good.	Wheat, 7 ... Gram, 7½. Prices between normal and warning rates.	...	Standing crops average. Harvesting of toria in progress. Yield normal.
14	Multán	...	1. Scarce ... 2. (b) Lower Bari Doab Canal flowing; supply sufficient. 3. Fair.	Wheat, 7½ Barley, 9½. Gram, 7½. Jowar, 9½. Bajra, 7½. Maize, 9. Prices between normal and warning rates.	...	Rain badly wanted. Sowings of extra spring crops continue. Standing irrigated crops average and unirrigated below average.

GENERAL REMARKS.

WEATHER remained dry. Rain is urgently wanted everywhere for unirrigated crops. Harvesting of toria nearly completed and pressing of sugarcane continues in some districts. Yield below normal to normal. Condition and prospects of standing wheat and other spring crops are slightly below normal on irrigated and poor or below normal on unirrigated area. Extra spring crops are being sown. Cattle are generally healthy. Fodder is scarce in most districts. Water for drinking purposes generally sufficient. Shortage of canal water is reported in Lahore, Shahpur and Miánwáli. Prices are generally stationary and range between normal and warning rates. Prices of wheat :—Ráwalpindi 6, Ferozepore 6½, Lyallpur 7 and Lahore 7½ seers per rupee.

* Not reduced to sea level.
(a) Aneroid.
(b) = Mean of 26 days.
(c) = Mean of 28 days.
(d) = Mean of 19 days.
(e) = Mean of 22 days.

Six western disturbances affected the weather in north-west India during the month. Two of these gave no appreciable rain while three others occasioned precipitation only on the hills of the North-West Frontier Province. The fifth, that of the 22nd to 26th, was a fairly deep depression which followed a more southerly path than the others and caused widespread rain or snow on the hills around the Punjab, with a few falls in the Punjab plains.

Pressure and Winds.—Atmospheric pressure was in decided defect of the normal almost everywhere. Winds were stronger than usual at Hissar, Ambála, Khusháb and Ráwalpindi, and very weak at Pesháwar. The direction of movement differed considerably from the normal at many stations.

Temperature.—On the mean of the month maximum temperature was 4° or more above the average at Ambála, Simla and Ludhiána, and 3° below normal at Drosh. Minimum temperature was appreciably higher than usual in the hill districts of the Punjab, and 3° to 5° below normal at Siálkot and Khusháb.

The following table shows for each day of the month the departure from normal of the mean temperature of the Punjab and the North-West Frontier Province, with the highest maximum temperature registered and the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

" 16th ...	+2·3	81·7	Multán.				

Humidity and Cloud.—The air was appreciably drier than usual over both the Punjab and the North-West Frontier Province with the exception of Siálkot, Pesháwar and Drosh. Cloud proportion was normal or in defect except at Drosh where it was in slight excess.

Rainfall.—The total rainfall of the month was largely below normal at all the observing stations.

The following table gives the rainfall data for the Punjab and the North-West Frontier Province stations for December 1920 :—

Station.	Actual rainfall in December 1920.	Normal rainfall in December.	Departure from normal in December 1920.	Station.	Actual rainfall in December 1920.	Normal rainfall in December.	Departure from normal in December 1920.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 12th February 1921, there were 975 births registered in the 38 large municipal towns (475 males and 500 females), giving a birth-rate of 42 *per mille* of population, and 814 deaths were registered (423 males and 391 females), giving a death-rate of 35 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 34 against 37 in the corresponding week of the previous year; Amritsar 36 against 34; and Multán 64 against 51.

There were 20 deaths recorded from plague in Multán and 2 in Ráwalpindi. Of the 3 deaths from small-pox, 2 were registered in Multán and 1 in Jhelum.

Sanitary Commissioner's Office,
Lahore :

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
3	Gurgáon ...	...	1. Sufficient ... 2. (a) Do. (b) Canal flowing; supply insufficient in Palwal and Nuh Tahsils. 3. Good.	Wheat, 6 to $7\frac{1}{2}$ ... Barley, $7\frac{1}{2}$ to $9\frac{1}{2}$. Gram, 7 to $8\frac{1}{2}$. Jowar, 8 to 9. Bajra, $6\frac{3}{4}$ to 8. Maize, 4 to 8. Prices generally between normal and warning rates.	Sugarcane being sown in Palwal and Nuh Tahsils.	Rain wanted. Condition and expected yield of standing irrigated crops good and of unirrigated crops fair. Yield of toria normal.
4	Ambála ...	...	1. Insufficient ... 2. (a) Sufficient. (b) Canal flowing; supply adequate. 3. Generally good.	Wheat, $6\frac{1}{2}$ ... Gram, $7\frac{3}{16}$. Barley, $9\frac{3}{4}$. Maize, $7\frac{3}{4}$. Prices of wheat and barley between normal and warning rates, and of other food grains between warning and scarcity rates.	Pressing of sugarcane continues. Yield normal on irrigated and below normal on unirrigated area. Sugarcane being sown in places.	Rain badly wanted.
5	Jullundur ...	...	1. Scarce ... 2. (a) Sufficient. 3. Cattle are generally weak owing to hard work and scarcity of fodder.	Wheat, $6\frac{3}{4}$ ... Gram, $7\frac{1}{4}$. Barley, 8. Maize, $7\frac{3}{4}$. Prices of wheat and barley between normal and warning rates and of other food grains between warning and scarcity rates.	Pressing of sugarcane nearly finished. Yield normal. Sowings of sugarcane commenced.	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Sowings of extra spring crops in progress.
6	Ferozepore ...	...	1. Insufficient ... 2. (a) Sufficient. 3. Good.	Wheat, $6\frac{3}{4}$ ... Gram, $7\frac{3}{4}$. Prices between normal and warning rates.	...	Standing irrigated crops average and unirrigated below average.
7	Lahore ...	...	1. Scarce ... 2. (a) Sufficient. (b) Perennial canals flowing; supply sufficient. Inundation canals dry. 3. Average.	Wheat, $7\frac{1}{4}$ ... Gram, $7\frac{1}{4}$. Prices between normal and warning rates.	...	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Sowings of extra spring crops continue on irrigated area and are below normal.
8	Amritsar ...	...	1. Sufficient ... 2. (b) Canals flowing by rotation; supply sufficient. 3. Good.	Wheat, $7\frac{1}{4}$ ... Gram, $6\frac{15}{16}$. Barley, $10\frac{1}{2}$. Maize, $8\frac{1}{4}$. Jowar, $9\frac{1}{2}$. Bajra, $6\frac{3}{4}$. Prices between normal and warning rates.	Pressing of sugarcane continues. Yield below normal.	Rain badly wanted. Standing irrigated crops average and unirrigated below average.
9	Siálkot ...	...	1. Bhusa scarce; green fodder and sugarcane available. 2. (a) Sufficient. (b) Canal closed. 3. Cattle weak on account of hard work and scarcity of fodder.	Wheat, $6\frac{1}{2}$ to $6\frac{3}{4}$ ... Maize, $7\frac{1}{2}$ to 8. Barley, 10 to $10\frac{1}{2}$ Gram, 7 to $7\frac{1}{4}$. Prices between normal and warning rates.	Yield of sugarcane normal.	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Sowings of extra spring crops continue and are normal.

No.	Reporting station.	Rain	1. Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
10	Shahpur	...	1. Fodder is getting scarce. 2. (b) Lower Jhelum Canal flowing by rotations; supply insufficient in parts. 3. Fair.	Wheat 6½ to 7½ ... Gram, 7½ to 8. Maize, 8 to 10. Bajra, 7½ to 8. Barley, 9½ to 11. Prices between normal and warning rates.	Pressing of sugarcane continues in parts. Yield below normal.	Rain badly wanted. Standing irrigated crops fair and unirrigated poor. Harvesting of toria continues in parts. Yield below normal.
11	Ráwalpindi	...	1. Scarce ... 3. Good.	Wheat, 6 ... Barley, 9¼. Gram. 7. Maize, 7½. Bajra, 5¾. Jowar, 5¾. Prices generally between normal and warning rates.	...	Standing crops below average.
12	Miánwáli	...	1 Insufficient ... 2. (b) Canals flowing; supply insufficient. 3. Fair.	Wheat, 5¾ ... Gram, 7¾. Bajra, 6¾. Jowar, 7 Barley, 10. Prices generally between normal and warning rates.	...	Standing irrigated crops average, and unirrigated below average. Sowings of extra spring crops continue in Bhakkar Tahsil and are below normal.
13	Lyallpur	...	1. Sufficient ... 2. (b) Canal flowing by rotations; supply sufficient. 3. Good.	Wheat, 7 ... Gram, 7½. Prices between normal and warning rates.	...	Standing crops average. Harvesting of toria finished. Yield normal.
14	Multán	...	1. Scarce; green wheat being used as fodder. 2. (a) Generally sufficient. (b) Inundation canals dry; Lower Bari Doab Canal flowed for a few days in Khanewál Tahsil. 3 Generally fair.	Wheat, 7½ ... Barley, 9. Gram, 7. Jowar, 9. Bajra, 7. Maize, 8. Prices between normal and warning rates.	...	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Sowings of extra spring crops continue.

GENERAL REMARKS.

WEATHER remained dry. Rain is badly wanted for standing crops. Condition and prospects of irrigated wheat and other spring crops slightly below normal and of unirrigated crops generally poor. Sowings of extra spring crops continue and are below normal. Pressing of sugarcane nearly completed. Yield below normal to normal. Cattle are generally healthy. Fodder is scarce in most districts. Water is generally sufficient. Canal water supply is short in Gurgáon, Shahpur and Miánwáli. Prices are generally stationary and range between normal and warning rates. Prices of wheat :—Ráwalpindi 6, Ambála 6½, Ferozepore 6¾, Lyallpur 7 and Lahore 7½ seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

Standing irrigated crops average, and unirrigated below average. Sowings of extra spring crops continue in Bhakkar Tahsil, and are below normal.	...
13	Lyallpur	...	1. Sufficient ... 2. (b) Canal flowing by rotation; supply sufficient. 3. Good.	Wheat, 7 ... Gram, 7½. Prices between normal and warning rates.	Standing crops average ...	...
14	Multán	...	1. Scarce; green wheat being used as fodder. 2. (b) Canals closed. 3 Generally fair.	Wheat, 7¼ .. Barley, 9. Gram, 7. Jowar, 10½. Bajra, 7¼. Maize, 8. Prices between normal and warning rates.	Rain badly wanted. Sowings of extra spring crops continue. Standing irrigated crops generally average, and unirrigated below normal.	...

GENERAL REMARKS.

Weather remained dry. Rain is badly wanted for standing spring crops which are generally average on irrigated and poor on unirrigated area. Sowings of extra spring crops continue, and of sugarcane commenced in some districts and are below normal. Cattle are generally healthy, but fodder is scarce in most districts. Water for drinking and irrigation purposes generally sufficient. Prices are generally stationary, and range between normal and warning rates. Prices of wheat :—Ráwalpindi 6, Ambála 6¼, Ferozepore 6¾, Lyallpur and Lahore 7 seers per rupee.

MAHBUB SHAH, Supdt.,

NOTES.—Prices of rice as shown in the statement are for the quality in common demand.

Variations in prices are due to fluctuations in imports and exports.

In the statement for the fortnight ending 15th January 1921 against "Lyallpur" *read* "Rs. 1-6-0" *for* "Rs. 2-4-0."

OFFICE OF DIRECTOR OF LAND RECORDS, PUNJAB:

Lahore, dated the 8th March 1921.

KATTI RAM, HEAD ASST. OF STATISTICS,

Office of Director of Land Records, Punjab.

SUMMARY OF REMARKS ON THE KHARIF CROP OF THE PUNJAB FOR THE YEAR 1920.

1. *Season.*—In January the rainfall was scanty except in the Multan Division. In February and March also it was in defect except in the montane and submontane tracts. April was practically dry. In May the rainfall was above normal nearly everywhere. The monsoon set in about the end of the third week of June and gave a fair amount of rain in parts of the south-east and in some montane and submontane districts, but light or no rain elsewhere. In July and August it was very weak and practically failed to penetrate the south-western districts; and the total rainfall of these months was below normal nearly throughout the province. The rainfall was also deficient in September. According to the data published by the Meteorological Department, the total rainfall of the Punjab from June to September was 43 per cent. below normal. October, November and December were rainless. Water was short in canals and rivers were low. Climatic conditions were thus unfavourable both for the sowing and the maturing of autumn crops.

2. *Area sown.*—The total area sown decreased by 6 per cent. as compared with last year, but increased by 4 per cent, as compared with normal *viz.*, the average area sown of the five years 1914-15 to 1918-19. The actual figures are as follows :—

	Irrigated.	*Unirrigated.*	*Total.*
	Acres.	Acres.	Acres.
1920	4,893,390	6,378,293	11,271,683
1919	5,048,800	6,904,501	11,953,301
Normal	4,094,069	6,751,588	10,845,657

Kangra, Mianwali and Dera Ghazi Khan are the only districts where there was an increase in the area sown as compared with the preceding kharif. In Kangra the rainfall, though below normal, was ample for sowing purposes. In Mianwali it was considerably above normal. In Dera Ghazi Khan it was probably more timely than in the preceding year.

The following variations occurred in the areas under the principal crops, as compared with the preceding year :—

Crop.	1920.	1919.	Difference.	Difference.
	Acres.	Acres.	Acres.	Per cent.
Rice	920,428	963,441	−43,013	−4·5
Jowar	920,972	1,020,014	−99,042	−9·7
Bajra	2,420,629	2,675,056	−254,427	−9·5
Maize	1,063,282	1,155,515	−92,233	−8·0
Til	107,586	110,200	−2,614	−2·4
Sugarcane	457,070	481,525	−24,455	−5·1
Cotton	1,956,363	2,070,527	−114,164	−5·5
Chari	1,455,938	1,401,569	+54,369	+3·9
Mung and Mash	422,343	426,968	−4,625	−1·1

The increase under chari was due partly to the shortage of other fodder and partly to the fact that a considerable portion of jowar was cut for purposes of fodder and was consequently shown as chari. The decreases under the other crops were due to the adverse climatic con-

ditions described above. The price of cotton was much lower than in the preceding year; and the decrease under it was also partly due to this cause.

3. *Outturn:—Rice.*—The outturn per acre of the irrigated crop was ¾ths of the normal in Karnal, Ambala, Gujranwala, Sheikhupura and Muzaffargarh and normal or about normal elsewhere, while that of unirrigated crop was normal or about normal in Dera Ghazi Khan, Kangra and Hoshiarpur and 25 to 75 per cent. of the normal in the other districts, in which the crop is important.

Jowar.—Irrigated jowar is important only in a few districts. In Jhang and Dera Ghazi Khan, the yield per acre was normal and in Ferozepore and Multan 20 per cent. below normal. The yield of unirrigated jowar was normal in Dera Ghazi Khan and 30 to 45 per cent. of normal in the other districts where the crop is important.

Bajra.—The irrigated yield was normal in Rawalpindi, Attock and Mianwali and 55 and 80 per cent. of normal in Ferozepore and Shahpur, respectively. In districts in which unirrigated bajra is important the yield was half or ¾ths of normal except in Ferozepore and Jhelum (20 per cent.) and Hissar, Gujrat and Attock (25 per cent).

Maize.—The yield of irrigated maize was normal or about normal in Ludhiana, Ferozepore, Lahore and Amritsar and half or more than half of normal in the other districts where the crop is important. The unirrigated crop is most important in the montane and submontane tracts where the yield varied from 30 to 60 per cent. of normal.

Sugarcane—The outturn on irrigated area was normal in Amritsar, Sialkot and Lyallpur and about ¾ths of normal in the other important cane-growing districts. The unirrigated outturn was ¾ths of the normal in all important districts except Ambala where it was 45 per cent. of normal. In some districts a considerable portion of the crop was used as fodder owing to the shortage of other fodder crops.

Cotton.—Owing to the insufficiency of the monsoon rains and the long continued drought the season was unfavourable for the crop. On irrigated land the yield was normal or about normal in all districts in which the crop is important except in Shahpur, Montgomery, Lyallpur, Jhang and Multan where the yield was from 20 to 55 per cent. below normal. On unirrigated land the yield was generally poor ranging from 5 to 75 per cent. of normal.

4. *Area matured and failed.*—The total matured area amounts to 7,204,495 acres, as compared with 9,920,656 acres in 1919, and an estimated normal of 8,540,337 acres. The total failed area amounts to 4,067,188 acres or 36 per cent. of the sown area as against 17 per cent last year.

The following percentages show as regards each division (1) how the area sown and the matured, respectively, compare with the normal and (2) the extent of crop failure :—

Division.	Sown Area.			Matured Area.			Percentage of failed to sown area.
	Irrigated.	Unirrigated.	Total.	Irrigated.	Unirrigated.	Total.	
Ambala	+14	+4	+5	+19	−37	−29	54
Jullundur	+21	−4	+4	+19	−29	−12	28
Lahore	+17	−24	+1	+18	−36	−1	16
Rawalpindi	+34	−14	−4	+35	−64	−40	51
Multan	+19	−32	+11	+11	−36	+4	21
Total ...	+20	−6	+4	+17	−40	−16	36

5. *Summary.*—The total matured area of the harvest was 16 per cent. less than the estimated normal and 27 per cent. less than the last year's matured area. On 15th December 1920 the prices of rice, bajra and sugar (raw) were respectively [illegible], 3 and 2 per cent. higher and those of jowar, maize and cotton (cleaned), respectively 8, 2 and 49 per cent., lower than on 15th December 1919. The fall in the price of cotton was due to the lack of export demand.

RAHIM BAKHSH,

Director of Land Records, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 26th February 1921, there were 910 births registered in the 38 large municipal towns (453 males and 457 females), giving a birth-rate of 40 *per mille* of population, and 752 deaths were registered (402 males and 350 females), giving a death-rate of 33 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 29 against 26 in the corresponding week of the previous year; Amritsar 33 against 26; and Multán 50 against 38.

There were 20 deaths recorded from plague in Multán and 2 in Wazírabad. Of the 16 deaths from small-pox. 8 were registered in Multán, 2 in Ráwalpindi and 1 each in Hoshiárpur, Wazírabad, Gujrát, Jalálpur, Jhelum and Lyallpur.

Sanitary Commissioner's Office,
Lahore :
The 9th March 1921.

Barley, 10 to 10½. Gram, 7 to 7½. Prices between normal and warning rates.	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Sowings of extra spring crops continue and are normal.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Shahpur	...	1. Scarce ... 2. (b) Lower Jhelum Canal flowing by rotations; supply insufficient in parts. 3. Generally fair.	Wheat, 6¼ to 6¾. Gram, 7½ to 8. Barley, 8½ to 11. Bajra, 7 to 8. Maize, 8 to 9. Prices between normal and warning rates.	Rain badly wanted. Standing irrigated crops fair and unirrigated poor. Harvesting of toria nearly finished. Yield normal.	Pressing of sugarcane nearly finished. Yield normal.
11	Ráwalpindi	...	1. Scarce ... 3. Good.	Wheat, 5½ ... Barley, 9½. Gram, 7. Maize, 6¼. Bajra, 5½. Jowar, 5½. Prices generally between normal and warning rates.	Standing crops below average.	...
12	Miánwáli	...	1. Insufficient ... 2. (b) Canals flowing; supply insufficient. 3. Fair.	Wheat, 5½. Gram, 7¾. Barley, 9¼. Jowar, 7½. Bajra, 6¾. Prices generally between normal and warning rates.	Standing irrigated crops average, and unirrigated below average. Sowings of extra spring crops continue and are below normal.	...
13	Lyallpur	...	1. Sufficient ... 2. (b) Do. 3. Good.	Wheat, 6½ ... Gram, 7. Prices between normal and warning rates.	Standing crops average. Sowings of extra spring crops continue and are normal.	...
14	Multán	...	1. Scarce; green wheat, etc., used as fodder. 2. (b) Lower Bari Doab Canal flowing. 3. Generally fair.	Wheat, 7¾. Barley, 8¾. Gram, 7. Jowar, 9½. Bajra, 7½. Maize, 8. Prices between normal and warning rates.	Rain badly wanted. Standing irrigated crops average, and unirrigated below average. Sowings of extra spring crops in progress.	...

GENERAL REMARKS.

WEATHER remained dry. Rain is urgently wanted for standing crops which are suffering from drought. Condition of irrigated wheat and other spring crops is generally average and of unirrigated crops very poor. Sowings of extra spring crops and sugarcane continue, and are below normal. Cattle are generally healthy, but fodder is scarce in most districts. Water is generally sufficient. Prices are generally stationary, and range between normal and warning rates. Prices of wheat:—Ráwalpindi 5½, Ambála and Lyallpur 6½, Ferozepore and Lahore 6¼ seers per rupee.

rain-gauge station.
slight rainfall.
averages have been fixed.

January to 25th February 1921 was below average.

MAHBUB SHAH, Supdt.,
Office of Director of Land Records, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab for the month of February 1921.

1.—Hissar District.

Weather dry. Standing crops on irrigated area are fairly good and on unirrigated area very poor. Cattle in fair condition. Fodder is insufficient. It is being imported by rail from outside. Public health was good on the whole. Perennial canals flowed only in the last week of the month; watersupply insufficient. Prices stationary. Grain stock was sufficient.

2.—Rohtak District.

Weather dry. Condition and expected yield of irrigated wheat, gram, barley and sarsaf are average and of unirrigated crops bad. Cattle are generally in good condition. Fodder is sufficient. Water is scarce. Health of people is generally good. Supply of canal water has been normal.

3.—Gurgaon District.

Rain is wanted for standing crops. Irrigated sugarcane, tobacco, onion, etc., were sown to a small extent. Standing crops have been damaged by winds. Condition and expected yield of standing crops are good on irrigated and fair on unirrigated area. Cattle in good condition. Fodder is sufficient. Health of people generally good. Canal running with insufficient supply of water.

4.—Karnal District.

There were slight showers of rain at Karnal and Thanesar. Ploughing for sugarcane commenced in Panipat. Extra rabi crops were sown in some places on irrigated area. Condition of irrigated crops is generally average. Unirrigated crops are withering for want of rain and are very poor. Scarcity of fodder and water is keenly felt. Grazing not available. Cattle are being taken away to the Ganges Khadar for grazing from some tracts of the district. The state of the public health is generally good. Canals worked to some extent, but the supply was not equal to the demand. Prices are high.

5.—Ambala District.

Rainfall, though slight, benefited the standing crops. Sowings of extra rabi crops and sugarcane are in progress. Condition of standing rabi crops on irrigated area is good and on unirrigated area below average. Yield of sugarcane on irrigated area is average and on unirrigated area below average. Cattle are generally in good condition. Water-supply is sufficient. Fodder is insufficient in some places. Public health is generally good. Western Jumna Canal flowed continuously with an adequate supply of water for irrigation purposes. Prices are falling.

6.—Simla District.

Rainfall was insufficient. Condition of standing crops below average. Condition of cattle good. Fodder and grazing sufficient. Public health good. Water in hill streams sufficient.

7.—Kangra District.

Rainfall during the month was below the average and was insufficient for the standing crops, which are suffering for want of rain. Cattle are in fair condition. Fodder is scanty in unirrigated tracts. Public health generally good. Water in streams and kuhls was insufficient for irrigation purposes.

8.—Hoshiarpur District.

Rainfall during the month was quite insufficient. Condition of standing crops is not satisfactory. The outturn of sugarcane is normal. Condition of cattle good. Fodder insufficient. Public health good. Shah Nahar Canal continued to flow. Prices are generally rising.

9.—Jullundur District.

Rain fell in Jullundur and Nawashahr and was much below the average. It is badly needed throughout the district. Sowings of vegetables and sugarcane commenced. Frost has somewhat damaged the standing rabi crops The condition of irrigated crops is average and of unirrigated crops below average. Pressing of sugarcane nearly finished. Yield normal. Cattle are reported to be weak owing to hard work and scarcity of fodder. Public health is generally good. Prices of food grains have risen slightly.

10.—LUDHIANA DISTRICT.

There was a very slight rainfall during the month. It is badly wanted. Sowings of extra spring crops commenced. Condition of standing crops on irrigated lands is average and on unirrigated lands below average. Condition of cattle is satisfactory. Dry fodder is available, but its rates are high. Public health is on the whole satisfactory.

11.—FEROZEPORE DISTRICT.

Weather remained dry. The condition of irrigated crops is not very good. Unirrigated crops are withering from drought. Fodder is generally scarce. Public health is on the whole satisfactory. Sirhind Canal worked fairly well.

12.—LAHORE DISTRICT.

Practically no rain fell during the month. Onions, vegetables and tobacco were sown during the month. Condition and expected yield of standing crops are average on irrigated and below average on unirrigated area. The condition of cattle is fair. Public health is fair. Perennial canals ran by system. Water-supply was insufficient. Inundation canals dry. Prices high.

13.—AMRITSAR DISTRICT.

Rain badly wanted. Condition and expected yield of standing rabi crops are average on irrigated and bad on unirrigated area The condition of cattle is generally good. Public health is generally good. Canals are working by rotation ; supply sufficient.

14.—GURDASPUR DISTRICT.

The rainfall during the month has been much below the average. It was slightly beneficial to standing crops. More rain is badly needed. Sowings of extra spring crops continued. Condition of cattle generally good. Scarcity of fodder is being felt. Public health generally good. Government canals are flowing, but not irrigating lands. Prices are stationary.

15.—SIALKOT DISTRICT.

Rain is badly wanted. Sowings of vegetables and tobacco continued to normal extent. Condition of standing rabi crops is average on irrigated and below average on unirrigated area. Yield of sugarcane is normal. Cattle are weak on account of overwork. Bhusa scarce. Green fodder and sugarcane available. Public health generally good. Canal closed. Irrigation by jhallars continued. Supply of food grains and water sufficient.

16.—GUJRANWALA DISTRICT.

The rain during the month, though much below normal, was beneficial to rabi crops. Sowings of extra rabi crops are in progress. The condition of rabi crops is generally below average for want of rain. The general condition of cattle is fair ; fodder and grazing are insufficient, green wheat is being used as fodder. The state of public health is good. Canals were running by rotational turns.

17.—SHEIKHUPURA DISTRICT.

There was a slight rainfall during the month. Tobacco and onions were sown in some places to a small extent. Condition of standing crops is not satisfactory. The dust wind of the night between 27th and 28th February damaged the standing gram and wheat crops. Harvesting of toria finished. Outturn below normal. Fodder is scarce. Public health is generally good. Canals flowing.

18.—GUJRAT DISTRICT.

Slight showers of rain were received during the month which proved beneficial to standing crops. Condition of irrigated spring crops is below average to average, and unirrigated crops are generally bad and withering for want of rain. Cattle are weak owing to scarcity of fodder. Public health good. Canal running ; water-supply is deficient.

19.—SHAHPUR DISTRICT.

There were slight showers of rain during the first week of the month, which did a little good to the standing crops in parts of Khushab Tahsil. Rain is badly wanted. Condition of standing crops is fair on irrigated and generally poor on unirrigated lands owing to drought. A duststorm on 28th February also had a bad effect on the crops. Pressing of sugarcane and harvesting of toria continued in canal colony ; outturn below normal. Condition of cattle generally fair. Fodder is becoming scarce in Sargodha and Chak Bar of Bhalwal Tahsils because it is being exported to other districts. Toria stalks are being fed mixed with green wheat. Public health is generally fair. Lower Jhelum Canal flowed with rotational closures ; water-supply insufficient.

20.—JHELUM DISTRICT.

Practically no rain fell during the month. Condition of standing crops is very poor. Fodder scarcity is very acute. Public health good.

21.—RAWALPINDI DISTRICT.

The rainfall during the month proved beneficial to standing crops which are below average. Fodder is scarce. Condition of cattle is not good. Public health is good.

22.—ATTOCK DISTRICT.

Rainfall was below average. Condition of standing crops is poor. Scarcity of fodder is keenly felt. Cattle are in a bad condition. The state of public health on the whole is good. Water in wells sufficient. Prices are rising.

23.—MIANWALI DISTRICT.

Practically no rain fell during the month. Rain is badly wanted. Sowings of extra rabi crops commenced in Bhakkar Tahsil and are below normal. Condition of standing rabi crops is normal on irrigated and below normal on unirrigated area. Condition of cattle is fair. Fodder and grazing are insufficient. Public health is generally good. Nammal Canal in Miánwáli and Kurram Canal in Isa Khel flowing; water-supply insufficient.

24.—MONTGOMERY DISTRICT.

Extra rabi crops were sown during the month. Standing crops are somewhat in bad condition owing to the shortage of water in canals and to drought. Condition of cattle fair. Fodder is not procurable. Public health is generally good. Lower Bari Doab Canal worked for a few days in the month. Prices generally remained stationary.

25.—LYALLPUR DISTRICT.

Rain received during the month was insufficient. Condition of standing crops is average. Threshing of toria finished. Yield was 9 maunds per acre. Sowings of zaid rabi crops commenced. Condition of cattle generally good. Public health generally good. Canal are working by rotational closures.

26.—JHANG DISTRICT.

Weather remained dry. Onions, tobacco, vegetables and sugarcane are being sown. The standing crops are below average for want of rain. Cattle generally good. Fodder is scarce. Public health is generally good. Canals flowing; water-supply insufficient. Rivers very low. Prices of fodder and food grains still high.

27.—MULTAN DISTRICT.

Sowings of vegetables, tobacco and sugarcane continued. Condition of standing crops below average. Condition of cattle fair. Fodder insufficient. State of public health average. Lower Bari Doab Canal worked for a few days; other canals dry.

28.—MUZAFFARGARH DISTRICT.

Rain is badly wanted everywhere. Sowings of vegetables and tobacco continued throughout the district and of sugarcane in Alipur Tahsil. The condition and expected yield of standing crops on irrigated lands are average and on unirrigated lands below average. Condition of cattle on the whole good. Public health generally good. Fodder scarce. Some canals are running in Sanawan Tahsil with a small supply of water. Prices of food grains still high.

29.—DERA GHAZI KHAN DISTRICT

Rain badly wanted. Ploughings for extra spring crops continued. The condition of standing crops is average in Sanghar, below average in Jampur, and poor in the Rájanpur Tahsil. The yield of the standing irrigated crops is expected to be fair and of unirrigated crops below average. Condition of cattle is generally fair. Fodder insufficient. Public health is generally good. River falling. Kalapani Canal flowing in Jampur Tahsil, and Kutub Dhundi and Nur Dhundi Canals in the Rajanpur Tahsil. Prices are stationary.

MAHBUB SHAH, SUPDT.,

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 5th March 1921, there were 917 births registered in the 38 large municipal towns (4[illegible] males and 429 females), giving a birth-rate of 40 *per mille* of population, and 743 deaths were registered (432 male[illegible] 311 females), giving a death-rate of 32 *per mille* of population. The death-rates registered in the three largest [illegible] were as follows :—Lahore 27 against 29 in the corresponding week of the previous year; Amritsar 29 against [illegible] and Multán 60 against 35.

There were 45 deaths recorded from plague in Multán and 2 in Wazírabad. Of the 8 deaths from small[illegible] 4 were registered in Multán, and 1 each in Siálkot, Gujrát, Khusháb and Jhelum.

PUNJAB AND ITS DEPENDENCIES:

Published by Authority.

No. 12. LAHORE, FRIDAY, MARCH 25, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M. Monday, the 21st March 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
1	Hissar ..	...	1. Insufficient ... 2. (b) Canals dry. 3. Fair.	Wheat, 6½ ... Gram, 7½. Barley, 8¾. Bajra 6¼. Prices generally between normal and warning rates.	Rain badly wanted. Standing irrigated crops fair and unirrigated very poor.	...
2	Rohtak	...	1. Sufficient ... 2. (a) Scarce. 3. Generally good.	Wheat, 6¼ .. Barley, 8½ Jowar, 9. Bajra, 6¼. Prices between normal and warning rates.	Standing irrigated crops average and unirrigated bad. Harvesting of irrigated sarshaf in progress.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for—(a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
3	Gurgaon ...	...	1. Sufficient ... 2. (a) Do. (b) Canal flowing; supply insufficient in Núh Tahsil. 3. Good.	Wheat, 6 to 7¼ ... Barley, 7¼ to 9½. Gram, 7 to 8. Jowar, 7 to 9. Bajra, 6½ to 7. Maize, 4 to 8. Prices generally between normal and warning rates.	Standing irrigated crops fair and unirrigated bad. Yield expected to be normal on irrigated and below normal on unirrigated area. Sowings of extra spring crops continue on irrigated area in parts.	...
4	Ambála ...	Slight rain at Sadr 0·16 at Jagádhri. 0·50 at Naráingarh. 0·33 at Kharar. 0·37 at Rúpar. 0·07 at Kasauli.	1. Scarce ... 2. (a) Sufficient. (b) Canal flowing; supply adequate. 3. Generally good.	Wheat, 6½ ... Gram, 7. Barley, 9¾. Maize, 7½. Prices of wheat and barley between normal and warning rates, and of other food-grains between warning and scarcity rates.	Rain was slightly useful for standing crops which are average on irrigated and below average on unirrigated area. Yield expected to be normal on irrigated and below normal on unirrigated area. Reaping of sarshaf continues in places. Yield expected to be below normal.	Sowings of sugarcane continue in places and are below normal.
5	Jullundur ...	...	1. Scarce ... 2. (a) Sufficient. 3. Cattle are generally weak owing to hard work and scarcity of fodder.	Wheat, 6½ ... Gram, 6¼. Maize, 9. Barley, 8. Prices between normal and warning rates.	Rain badly wanted. Standing irrigated crops average and unirrigated below average, and have been slightly damaged by high winds. Sowings of extra spring crops continue.	Sowings of sugarcane continue.
6	Ferozepore ...	...	1. Insufficient .. 2. (a) Sufficient. 3. Good.	Wheat, 6¾ ... Gram, 8. Prices between normal and warning rates.	Standing irrigated crops average and unirrigated below average. Sowings of extra spring crops continue to a small extent.	...
7	Lahore ...	...	1. Insufficient ... 2. (a) Sufficient. (b) Sufficient, except in Chúnián. 3. Fair.	Wheat, 6¾ .. Gram, 7¼. Prices between normal and warning rates.	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Reaping of rapeseed commenced. Yield expected to be below normal. Sowings of irrigated extra spring crops continue, and are below normal.	Sowings of irrigated sugarcane continue and are below normal.
8	Amritsar ...	...	1. Scarce ... 2. (b) Canals flowing by rotation; supply sufficient. 3. Good.	Wheat, 7 ... Gram, 7. Barley, 12. Maize, 7½. Jowar, 9½. Bajra, 5½. Prices generally between normal and warning rates.	Rain badly wanted. Standing irrigated crops average and unirrigated bad. Sowings of extra spring crops continue on irrigated area and are below normal.	...
9	Siálkot ...	...	1. Bhusa scarce; green fodder available. 2. (a) Sufficient. (b) Canal closed. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, 6½ to 7 ... Maize, 7. Barley, 10 to 10½. Gram, 7 to 7½. Prices between normal and warning rates.	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Sowings of extra spring crops continue and are normal.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
10	Shahpur	...	1. Dry fodder scarce... 2. (b) Lower Jhelum Canal flowing by rotations; supply insufficient. 3 Generally fair.	Wheat 5¾ to 6½ ... Gram, 7½ to 7¾. Barley, 8½ to 11. Bajra, 7 to 8. Maize, 7 to 9. Prices between normal and warning rates.	Rain badly wanted. Standing irrigated crops fair and unirrigated poor.	Sowings of sugarcane commenced on irrigated area in Bhalwal Tahsil and are below normal.
11	Ráwalpindi	1·77 at Murree ...	1. Scarce ... 3. Good.	Wheat, 5¾ ... Barley, 9½. Gram, 6¾. Maize, 6. Bajra, 5¾. Jowar, 5¾. Prices generally between normal and warning rates.	Standing crops poor ...	...
12	Miánwáli	...	1 Insufficient ... 2. (b) Canals flowing; supply insufficient. 3 Fair.	Wheat, 5½ Gram, 7½. Bajra, 6¾. Jowar, 6½. Barley, 9½. Prices generally between normal and warning rates.	Standing irrigated crops below average and unirrigated very poor. Sowings of extra spring crops continue and are below normal.	...
13	Lyallpur	...	1. Sufficient ... 2. (b) Do. 3. Good.	Wheat 6½ ... Gram, 6¾. Prices between normal and warning rates.	Standing crops average. Sowings of extra spring crops continue and are normal.	Sowings of sugarcane commenced.
14	Multán	...	1. Scarce; green wheat, etc., being used as fodder. 2. (b) Lower Bari Doab Canal flowing. 3 Generally fair.	Wheat, 7½ Barley 8½ Gram, 7. Jowar, 9½. Bajra, 7½. Prices between normal and warning rates.	Rain badly wanted. Sowings of extra spring crops continue and are normal on irrigated and below normal on unirrigated area.	...

GENERAL REMARKS.

WEATHER remained dry. Rain is urgently wanted for standing crops which are suffering from drought. Condition of irrigated wheat and other spring crops is generally average and of unirrigated crops very poor. Sowings of extra spring crops and sugarcane continue, and are below normal. Cattle are generally healthy, but fodder is scarce in most districts. Water is generally sufficient. Prices are generally stationary, and range between normal and warning rates. Prices of wheat:—Ráwalpindi 5¾, Ambála 6½, Lyallpur 6½, Ferozepore and Lahore 6¾ seers per rupee.

MAHBUB SHAH, SUPDT.,

*Under enquiry.

(a) Elephant Brand. (b) Victoria Brand. (c) Sun Brand.

Quotations have not been shown in cases in which there have been no wholesale transactions.

NOTES.—Prices of rice as shown in the statement are for the quality in common demand.

Variations in prices are due to fluctuations in imports and exports.

In the statement for the fortnight ending 15th December 1920 against "Ferozepore" under "bajra" *read* "Rs. 5-11-6" *for* "Rs. 7-11-6."

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 12th March 1921, there were 984 births registered in the 38 large municipal towns (500 males and 484 females), giving a birth-rate of 43 *per mille* of population, and 816 deaths were registered (428 males and 388 females), giving a death-rate of 36 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 38 against 31 in the corresponding week of the previous year; Amritsar 39 against 28 and Multán 64 against 52.

There were 59 deaths recorded from plague in Multán and 1 in Ráwalpindi. Of the 8 deaths from small-pox 7 were registered in Multán, and 1 in Lahore.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 19th March 1921, there were 822 births registered in the 37 large municipal towns (413 males and 409 females), giving a birth-rate of 41 *per mille* of population, and 692 deaths were registered (383 males and 309 females), giving a death-rate of 35 *per mille* of population. The death-rates registered in the two largest towns were as follows :—Lahore 31 against –1 in the corresponding week of the previous year and Multán 64 against 36.

There were 48 deaths recorded from plague in Multán and 1 each in Wazirábad and Ráwalpindi. Of the 11 deaths from small-pox 7 were registered in Multán, 2 in Jhelum and 1 each in Ráwalpindi and Jhang-Maghiána.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 4th April 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Insufficient, but improving. 2. (b) Canals partly flowing. 3. Fair.	Wheat, 6 ... Gram, 7½. Bajra, 6½. Barley, 8¼. Prices generally between normal and warning rates.	Rain badly wanted. Standing irrigated crops fair. Reaping of sarshaf, gram and barley continues. Yield expected to be below normal.	...
2	Rohtak ...	...	1. Sufficient ... 2. (a) Scarce. 3. Good.	Wheat, 6¼ ... Barley, 8½. Gram, 7¼. Jowar, 9. Bajra, 6¼. Prices between normal and warning rates.	Condition and expected yield of standing irrigated crops average and of unirrigated bad.	Sowings of irrigated sugarcane continue.

15 PGG

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for — (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
3	Gurgaon ...	...	1. Sufficient ... 2. (a) Do. (b) Canal flowing; supply insufficient in Palwal. 3. Good.	Wheat, $5\frac{1}{2}$ to $7\frac{1}{4}$ ... Barley, $7\frac{1}{4}$ to 11. Gram, 7 to $8\frac{1}{2}$. Bajra, $6\frac{1}{2}$ to $7\frac{1}{2}$. Jowar, 7 to 9. Maize, 6 to 9. Prices between normal and warning rates.	Standing irrigated crops fair and unirrigated bad. Sowings of extra spring crops continue in parts on irrigated area. Reaping of wheat, barley, gram and sarshaf in progress. Yield expected to be normal on irrigated and below normal on unirrigated area.	Sowings of irrigated sugarcane continue in places.
4	Ambála ...	...	1. Scarce ... 2. (a) Insufficient. (b) Canal flowing. 3. Generally good.	Wheat, $6\frac{1}{2}$ ... Gram, $7\frac{1}{2}$. Barley, $9\frac{3}{4}$. Maize, $8\frac{1}{4}$. Prices of wheat and barley between normal and warning rates, and of other food-grains between warning and scarcity rates.	Standing irrigated crops average and unirrigated below average. Reaping of wheat, barley and gram in progress. Yield expected to be normal on irrigated and below normal on unirrigated area.	Sowings of sugarcane continue in places and are normal.
5	Jullundur ...	...	1. Scarce ... 2. (a) Sufficient. 3. Cattle are generally weak owing to hard work and scarcity of fodder.	Wheat, 6 ... Gram, $6\frac{1}{2}$. Maize, 7. Barley, 7. Prices at or below scarcity rates.	Rain badly wanted. Heavy wind damaged the standing crops. Sowings of extra spring crops continue and are normal. Reaping of wheat and barley on unirrigated area commenced. Yield expected to be below normal.	Sowings of sugarcane continue and are normal.
6	Ferozepore ...	...	1. Insufficient ... 2. (a) Sufficient. 3. Good.	Wheat, 6 ... Gram, $7\frac{1}{2}$. Prices between warning and scarcity rates.	Standing irrigated crops average and unirrigated below average. Sowings of extra spring crops continue to a small extent.	...
7	Lahore ...	...	1. Insufficient ... 2. (a) Sufficient. (b) Canal water sufficient in Kasúr and insufficient in Chúnián Tahsil. 3. Average.	Wheat, $6\frac{3}{4}$ ... Gram, 7. Prices of wheat between normal and warning rates and of gram at scarcity rate.	Standing irrigated crops average and unirrigated below average. Reaping of barley, gram and rapeseed in progress. Yield expected to be below normal. Sowings of irrigated extra spring crops continue, and are below normal.	Sowings of irrigated sugarcane and chari continue and are below normal.
8	Amritsar ...	...	1. Scarce ... 2. (b) Canals flowing by rotation; supply sufficient. 3. Good.	Wheat, 7 ... Gram, 7. Barley, 12. Maize, $7\frac{1}{2}$. Jowar, $9\frac{1}{2}$. Bajra, $5\frac{1}{2}$. Prices between normal and scarcity rates.	Rain badly wanted. Standing irrigated crops about average and unirrigated bad. Reaping of wheat, barley and gram in progress.	Sowings of sugarcane continue and of cotton commenced. Sowings are below normal.
9	Siálkot ...	...	1. Bhusa scarce; green fodder available. 2. (a) Sufficient. (b) Canal closed. 3. Cattle weak on account of hard work and scarcity of fodder.	Wheat, $6\frac{1}{2}$ to 7 ... Barley, 10 to $10\frac{1}{2}$. Gram, $6\frac{3}{4}$ to 7. Prices generally between warning and scarcity rates.	Rain badly wanted. Standing irrigated crops nearly average and unirrigated much below average. Sowings of extra spring crops continue and are normal.	Sowings of sugarcane and cotton continue and are normal.

No.	Reporting station.	Rain.	1. Supply of fodder 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
10	Shahpur ...	...	1. Scarce ... 2. (b) Lower Jhelum Canal flowing; supply sufficient. 3 Fair.	Wheat, 5¼ to 6¼ ... Gram, 7½ to 8. Maize, 7 to 9. Bajra, 6¼ to 8. Prices of wheat and gram between warning and scarcity rates, of maize and bajra between normal and warning rates.	Rain badly wanted. Standing irrigated crops fair and unirrigated poor. Reaping of barley continues. Yield expected to be below normal.	Sowings of sugarcane continue and are normal.
11	Ráwalpindi ...	...	1. Scarce ... 3. Good.	Wheat, 5¾ ... Barley, 9¼. Gram, 6¼. Maize, 6. Bajra, 5¼. Jowar, 5¾. Prices generally between warning and scarcity rates.	Standing crops much below average.	...
12	Miánwáli ..	...	1. Insufficient ... 2. (b) Canals flowing; supply insufficient. 3. Fair in Kacha circle and poor in Thal circle.	Wheat, 5½ ... Gram, 7. Bajra, 6¼. Jowar, 6¾. Barley, 9½. Prices of jowar and barley between normal and warning rates and of others between warning and scarcity rates.	Standing irrigated crops below average and unirrigated very poor. Sowings of extra spring crops continue and are below normal.	...
13	Lyallpur ...	...	1. Sufficient ... 2. (b) Do. 3. Good.	Wheat, 6½ ... Gram, 7. Prices between warning and scarcity rates.	Standing crops average. Sowings of extra spring crops continue and are normal.	Sowings of sugarcane and cotton continue and are normal.
14	Multán ..	...	1. Insufficient; green wheat, etc., being used as fodder. 2. (b) Lower Bari Doab Canal flowing by rotation. 3 Generally fair.	Wheat, 6½ ... Barley, 8½ Gram, 7. Jowar, 8¼. Bajra, 7½. Maize, 7½. Prices generally between normal and warning rates.	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Sowings of extra spring crops continue.	...

GENERAL REMARKS.

WEATHER remained dry. Rain is urgently wanted. Condition of standing crops is generally average on irrigated and very poor on unirrigated area. Reaping of spring crops continues. Expected yield below normal. Sowings of extra spring crops and sugarcane and cotton in progress and are below normal. Cattle are generally healthy. Fodder is scarce almost everywhere. Water generally sufficient. Prices have risen slightly in some districts and are stationary in others. Prices of wheat and gram are generally between warning and scarcity and of other food-grains between normal and warning rates. Prices of wheat:—Ráwalpindi 5¾, Ferozepore 6, Ambála 6¼, Lahore and Lyallpur 6½ seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB AND THE NORTH-WEST FRONTIER PROVINCE DURING JANUARY 1921.

Station.	Pressure.		Wind.		Temperature in shade.								
	Barometer at 8 hrs. reduced to 32°, to constant gravity at 45° Lat. and to sea level.	Departure from normal.	Mean direction and velocity in miles per hour, January 1921.	Normal direction and velocity in miles per hour, January.	8 hrs.	Mean maximum.	Departure from normal.	Mean minimum.	Departure from normal.	Mean monthly departure from normal.	Humidity at 8 hrs.	Vapour tension at 8 hrs.	Amount of cloud. 10 = overcast.

(c) = Mean of 23 days.
(d) = Mean of 22 days.
(e) = Mean of 28 days.
(f) = Mean of 18 days.
(g) = Mean of 20 days.
(i) Aneroid.

Several western disturbances entered north-west India during the month, but only two of these occasioned appreciable precipitation in north-west India: the first caused between the 13th and 15th fairly general rain or snow on the hills of the Punjab and the North-West Frontier Province with local rain in the submontane districts. The second entered northern India on the 19th and caused windespread, and for the time of the year, unusually heavy rain in the east Punjab on the 20th and 21st.

Pressure and Winds.—Atmospheric pressure was either normal or in slight excess. Winds were weaker than usual at Montgomery, Murree, Pesháwar and Cherát, and above normal strength at Ambála and Ráwalpindi; their direction was abnormal at Hissar, Ludhiana, Lahore, Siálkot and Ráwalpindi.

Temperature.—Maximum temperature was slightly above normal in the plains, but below it at Drosh; the minimum was sensibly normal except at Khusháb where it was lower than usual.

The following table shows for each day of the month the departure from the normal of the mean temperature of the Punjab and the North-West Frontier Province, with the lowest minimum temperature registered and the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Lowest minimum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Lowest minimum temperature recorded during the previous 24 hours.	Station at which registered.

" 16th ...	—0·4	36·2	Do.				

Humidity and Cloud.—Humidity was below normal except at a few stations. Cloud amount was in excess at Ambála and Drosh, but in defect at Ludhiána, Lahore, Ráwalpindi, and the greater part of the North-West Frontier Province.

Rainfall.—The total rainfall of the month was below normal everywhere with the exception of Simla and Ambála, where it was in marked excess. Little or no rain fell in the south-west Punjab and the neighbouring districts of the North-West Frontier Province.

The following table gives the rainfall data for the Punjab and the North-West Frontier Province stations for January 1921 :—

Station.	Actual rainfall in January 1921.	Normal rainfall in January.	Departure from normal in January 1921.	Station.	Actual rainfall in January 1921.	Normal rainfall in January.	Departure from normal in January 1921.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 26th March 1921, there were 860 births registered in the 38 large municipal towns (431 males and 429 females), giving a birth-rate of 37 *per mille* of population, and 783 deaths were registered (439 males and 344 females), giving a death-rate of 34 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 29 against 28 in the corresponding week of the previous year; Amritsar 41 against 29 and Multán 70 against 58.

There were 32 deaths recorded from plague in Multán, 3 in Ráwalpindi and 1 in Rohtak. Of the 18 deaths from small-pox 7 were registered in Multán, 5 in Ráwalpindi, 2 in Siálkot and 1 each in Hoshiárpur, Gujránwála, Bhera and Jhelum.

Sanitary Commissioner's Office,
Lahore :
The 6th April 1921.

R. C. JENNINGS, Supdt.,
for *Sanitary Commissioner, Punjab.*

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	PROSPECTS OF Spring.	PROSPECTS OF Autumn.
3	Gurgaon ...	...	1. Sufficient ... 2. (a) Do. (b) Canal flowing; supply sufficient 3. Good.	Wheat, $5\frac{3}{4}$ to $7\frac{1}{4}$ ... Barley, $7\frac{1}{2}$ to 10. Gram, 7 to $8\frac{1}{4}$. Bajra, 6 to $7\frac{1}{4}$. Jowar, 7 to 9. Maize, 4 to 9. Prices between normal and warning rates.	Standing irrigated extra rabi crops in good condition. Sowings of extra spring crops continue in parts on irrigated area. Reaping of wheat, barley, gram and sarshaf in progress. Yield expected to be normal on irrigated and below normal on unirrigated area.	...
4	Ambála ...	0·19 at Ambála ... 0·13 at Naráingarh. 0·10 at Kharar. 0·35 at Kasauli.	1. Scarce ... 2. (a) Insufficient. (b) Canal flowing; water adequate. 3. Generally good.	Wheat, $6\frac{3}{16}$ ... Gram, $7\frac{1}{2}$. Barley, $9\frac{3}{4}$. Maize, $8\frac{3}{4}$. Prices of wheat and barley between normal and warning rates, of others between warning and scarcity rates.	Standing irrigated crops average and unirrigated below average. Reaping of wheat, barley and gram in progress. Yield expected to be normal on irrigated and below normal on unirrigated area.	...
5	Jullundur ...	0·21 at Phillour ...	1. Scarce ... 2. (a) Sufficient. 3. Cattle are generally weak owing to hard work and scarcity of fodder.	Wheat, $6\frac{1}{4}$ ... Gram, 7. Maize, $7\frac{1}{4}$. Barley, $7\frac{1}{4}$. Prices of wheat and barley between warning and scarcity rates; and of others at or above scarcity rates.	Rain badly wanted. Sowings of extra spring crops continue and are normal. Reaping of barley and massar completed and of wheat continues. Yield expected to be below normal.	Sowings of sugarcane continue and are normal.
6	Ferozepore ...	...	1. Insufficient ... 2. (a) Sufficient. 3. Good.	Wheat, 6 ... Gram, $7\frac{1}{2}$. Prices between warning and scarcity rates.	Standing irrigated crops slightly below average and unirrigated crops much below average. Reaping of rabi crops in progress.	...
7	Lahore ...	...	1. Insufficient ... 2. (a) Sufficient. (b) Water supply sufficient in perennial canals. Inundation canals dry. 3. Average.	Wheat, 7 ... Gram, $7\frac{1}{4}$. Prices of wheat between normal and warning rates and of gram between warning and scarcity rates.	Standing irrigated crops average and unirrigated below average. Reaping of wheat, barley and gram in progress. Yield expected to be below normal. Sowings of irrigated extra spring crops continue, and are below normal.	Sowings of irrigated cotton and chari continue and are below normal.
8	Amritsar ...	...	1. Scarce ... 2. (b) Canals flowing by rotation; supply sufficient. 3. Good.	Wheat, 7 ... Gram, 7. Barley, 12. Maize, $7\frac{1}{4}$. Jowar, $7\frac{1}{2}$. Bajra, $5\frac{1}{2}$. Prices between normal and scarcity rates.	Rain badly wanted. Standing irrigated crops about average and unirrigated crops bad. Reaping of wheat, barley and gram in progress.	Sowings of sugarcane continue and are below normal.
9	Siálkot ...	0·14 at Siálkot ... 0·15 at Daska. 0·21 at Pasrúr.	1. Bhusa scarce ... 2. (a) Sufficient. (b) Canal closed. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, $6\frac{1}{2}$ to $7\frac{1}{2}$ ... Maize, 6. Barley, 10 to $10\frac{1}{2}$. Gram, $6\frac{3}{4}$ to 7. Prices generally at warning rates.	Standing irrigated crops nearly average and unirrigated much below average. Sowings of extra spring crops continue and are normal. Reaping of barley and massar nearly completed. Expected yield about normal.	Sowings of sugarcane and cotton continue and are normal.

No.	Reporting station.	Rain.	1. Supply of fodder 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
10	Shahpur	...	1. Scarce ... 2. (a) Lower Jhelum Canal flowing; supply sufficient. 3. Fair.	Wheat, 6¼ to 6¾ ... Gram, 6¾ to 8. Maize, 8 to 9. Bajra, 6¾ to 8. Prices of wheat and gram between warning and scarcity rates, and of maize and bajra between normal and warning rates.	Rain badly wanted. Standing irrigated crops fair and unirrigated poor. Crops damaged by dust storm. Reaping of barley continues and of wheat and gram commenced.	Sowings of sugarcane continue and of cotton commenced on irrigated area. Normal area is expected to be sown.
11	Ráwalpindi ...	...	1. Scarce ... 3. Good.	Wheat, 5¾ ... Barley, 9½. Gram, 6¾. Maize, 6. Bajra, 5¾. Jowar, 5¾. Prices generally between warning and scarcity rates.	Standing crops much below average.	...
12	Miánwáli	...	1. Insufficient ... 2. (a) Sufficient in kacha and insufficient in Thal circle. 2. (b) Canals flowing; supply insufficient. 3. Fair in kacha and poor in Thal circle.	Wheat, 5¾ ... Gram, 7¾. Barley, 9½. Bajra, 6¾. Jowar, 6½. Prices of jowar and barley between normal and warning rates and of others between warning and scarcity rates.	Condition and expected yield of standing rabi crops below normal on irrigated and very poor on unirrigated area. Reaping of rabi crops in progress.	...
13	Lyallpur	...	1. Sufficient ... 2. (b) Canal working by rotation. Supply sufficient. 3. Good.	Wheat, 6¾ ... Gram, 7. Prices between warning and scarcity rates.	Condition of standing crops average. Sowings of extra spring crops in progress. Reaping of rabi crops commenced.	Sowings of sugarcane and cotton in progress.
14	Multán	...	1. Insufficient; green wheat, etc., being used as fodder. 2. (b) Lower Bari Doab Canal flowing by rotation. Supply insufficient. 3. Generally fair.	Wheat, 6½ .. Barley, 8½ Gram, 7. Jowar, 8½. Bajra, 7½. Maize, 7½. Prices generally between normal and warning rates.	Standing irrigated crops average and unirrigated below average. Sowings of extra spring crops continue.	Sowings of chari continue.

GENERAL REMARKS.

Except for light showers in parts of a few submontane districts weather remained dry. Condition of standing irrigated crops is generally average and of unirrigated crops very poor. Wheat and other spring crops are being reaped. Expected yield below normal. Sowings of irrigated extra spring crops, sugarcane, cotton and chari continue and are below normal. Cattle are generally weak owing to scarcity of fodder. Water generally sufficient. Prices are generally stationary and range between normal and scarcity rates. Prices of wheat :—Ráwalpindi 5¾, Ferozepore 6, Ambála $6\frac{1}{16}$, Lyallpur 6¾ and Lahore 7 seers per rupee.

MAHBUB SHAH, Supdt.,
for Director of Land Records, Punjab.

rain-gauge station.
averages have been fixed.
report.

February to 25th March 1921 was very deficient.

MAHBUB SHAH, Supdt.,
Office of Director of Land Records, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab for the month of March 1921.

1.—HISSAR DISTRICT.

Weather remained dry. Standing crops on irrigated area fair and on unirrigated area very poor. Harvesting of barley and gram commenced in some villages; outturn reported to be Re. 0-8-0 in a rupee. Cattle in fair condition. Fodder insufficient and is being imported from other districts by rail. Public health on the whole good. Canal water supply insufficient. Prices have risen slightly.

2.—ROHTAK DISTRICT.

There was no rainfall during the month. Condition of irrigated wheat, gram, barley and sarshaf is average and of unirrigated crops bad. Reaping of irrigated barley and sarshaf completed and of wheat and gram continued; yield is expected to be average. Cattle are generally in good condition. Fodder is being exported to Hissar District by rail. Health of people generally good. Supply of canal water normal.

3.—GURGAON DISTRICT.

Irrigated sugarcane and extra spring crops were sown to some extent in parts. Condition of standing crops on irrigated area fair and on unirrigated area bad. Sarshaf, barley gram and wheat are being reaped. Outturn is expected to be normal on irrigated and below normal on unirrigated area. Cattle are in good condition. Fodder is sufficient at present. Health of people generally good. Canal running with insufficient supply of water.

4.—KARNAL DISTRICT.

Weather remained dry. Sowings of extra rabi crops completed. Sugarcane was sown on irrigated area in Pánipat tahsil only. Reaping of sarson and gram is in progress. The dry westerly winds have badly affected the standing crops. The condition of irrigated crops is average and of unirrigated poor. Yield expected to be normal on irrigated area and ½th of normal on unirrigated area. The condition of cattle is becoming poor for want of fodder and water. The village ponds are getting dry. Public health is generally good. Canals flowing but water is short of the demand. Symptoms of famine are causing anxiety to zamindars. Prices are rising.

5.—AMBALA DISTRICT.

Rainfall, though slight, proved beneficial to standing crops. Sowings of sugarcane and extra rabi crops in progress and are below normal. Condition of standing rabi crops is average on irrigated and below average on unirrigated area. Reaping of taramira and sarshaf is in progress. Yield expected to be below average. Cattle are generally in good condition. Water is drying up in tanks. Fodder is insufficient. Public health is generally good. Western Jamna Canal flowed continuously. Water-supply adequate. Prices stationary.

6.—SIMLA DISTRICT.

Statement not received.

7.—KANGRA DISTRICT.

Rainfall during the month was much below the average. Sugarcane was sown to some extent in Hoshiárpur tahsil. Crops on irrigated area in fair condition while those on unirrigated tracts have failed owing to scarcity of rain. Yield of irrigated crops is expected to be much below the average. Cattle are in poor condition. Fodder scarce. Public health generally fair. Water in streams and kuhls was not sufficient for irrigation purposes. Prices are very high.

8.—HOSHIARPUR DISTRICT.

Sugarcane, cotton and tobacco were sown during the month. The condition of standing crops is getting worse owing to drought. Condition of cattle good. Fodder insufficient. Public health good. Shah Nahr Canal continued to flow. Prices rising.

9.—JULLUNDUR DISTRICT.

High winds damaged the standing rabi crops which are below average. Reaping masar, barley and wheat on barani land commenced. Expected yield average. Cattle are reported to be weak owing to hard work and scarcity of fodder. Public health is generally good. Prices have slightly risen.

10.—LUDHIANA DISTRICT.

Weather remained dry. Rain is badly needed. Extra rabi crops continued to be sown during the month. Condition of standing crops on irrigated lands is average and on unirrigated lands poor. Yield expected to be below average. Condition of cattle is satisfactory. Dry fodder is available but rates are high. Public health on the whole satisfactory.

11.—FEROZEPORE DISTRICT.

Condition of chahi crops on te whole good, of nahri crops average and of barani crops very poor Sarshaf has been reaped. Yield expected to be below normal. Scarcity of fodder is being felt. Condition of cattle is not very satisfactory. Public health satisfactory. Sirhind Canal worked satisfactorily.

12.—LAHORE DISTRICT.

Sugarcane and extra spring crops were sown during the month. Area sown below normal. Condition and expected yield of standing crops is average on irrigated and below average on unirrigated area. Condition of cattle average. Fodder insufficient. Public health fair. Perennial canals flowed. Water-supply short. Prices high.

13.—AMRITSAR DISTRICT.

Rain badly wanted. Sugarcane was sown to a small extent. The condition and expected yield of standing crops is average on irrigated and bad on unirrigated area. Condition of cattle is generally good. Public health is generally good. Canals are working by rotation; supply sufficient.

14.—GURDASPUR DISTRICT.

Sugarcane, cotton and melon are being sown on irrigated and sailab lands. Condition of crops on the whole below average. Barley and masar are being reaped; yield is expected to be below average. Condition of cattle generally good. Scarcity of fodder is being felt owing to failure of rains. Public health generally good. Government canals are flowing. Prices are stationary.

15.—SIALKOT DISTRICT.

Rain is badly wanted. Sowings of extra spring crops, sugarcane and cotton continued and are normal. Condition of standing crops about average on irrigated and much below average on unirrigated area. Cattle are weak on account of hard work and scarcity of fodder. Bhoosa scarce but green fodder is available. Public health good. Canal closed. Irrigation by jhallars continued. Supply of food grains and water sufficient.

16.—GUJRANWALA DISTRICT.

Rain though much below normal, was beneficial to rabi crops. Sowings of extra rabi crops, sugarcane and cotton are in progress. The general condition of rabi crops is below average on account of drought. Yield is expected to be below normal. General condition of cattle is fair. Fodder and grazing are insufficient. The state of public health is good. Canals are running by rotational turns and there is a general complaint of insufficient water-supply.

17.—SHEIKHUPURA DISTRICT.

Sowings of cotton, sugarcane, vegetables and chari are in progress. Condition of the standing crops is unsatisfactory on account of winds and lack of rain. Harvesting of toria finished. Yield below normal. Fodder scarce. Condition of cattle fair. Public health generally good. Canals remained working during the month.

18.—GUJRAT DISTRICT.

Weather remained practically dry. Sowings of cotton, sugarcane and extra rabi crops are in progress on irrigated lands. Condition of irrigated crops is below average to average and of barani crops generally bad. The continued drought coupled with the severe winds is injuriously affecting the crops. The yield is expected to be about ⅝th and ¼th of normal on irrigated and unirrigated areas, respectively. Cattle are generally weak for want f fodder. Public health generally good. Canals running, but water-supply is deficient.

19.—SHAHPUR DISTRICT.

There were very slight showers of rain on 22nd instant in some places and a small shower of hail in the riverain tract of the Shahpur Tahsil. Sowings of extra rabi crops and sugarcane commenced. Area sown expected to be normal. Condition of standing rabi crops is fair on irrigated but poor on unirrigated lands for want of rain. Reaping of barley commenced. Expected outturn below normal. Condition of cattle fair. Dry fodder scarce. Public health generally fair. Lower Jhelum Canal flowed with adequate water-supply.

20.—JHELUM DISTRICT.

Condition of standing crops and cattle poor. Fodder very scarce. Public health good.

21.—RAWALPINDI DISTRICT.

Light rain fell in Kahúta and Murree tahsils. Standing spring crops are withering from drought and are much below average. Condition of cattle is not good owing to scarcity of fodder. No grazing is available. Public health good.

22.—ATTOCK DISTRICT.

Weather remained practically dry. Condition of crops is bad on unirrigated and below average on irrigated area. Condition of cattle is growing worse on account of scarcity of fodder. Many people have sold their cattle on a very low price. Public health on the whole good. Water in wells insufficient. Prices are rising.

23.—MIANWALI DISTRICT.

Rain is badly wanted. Sowings of extra rabi crops in progress and are below normal. Condition and expected yield of standing rabi crops is below normal on irrigated and very poor on unirrigated area. Condition of cattle is fair in kachha circles but poor in Thal. Fodder and grazing are insufficient. Public health is generally good. Nammal Canal in Miánwáli and Kurram Canal in Isa Khel watering lands. Water-supply insufficient.

24.—MONTGOMERY DISTRICT.

Extra rabi crops were sown during the month. Standing crops are in bad condition owing to drought. Yield is expected to be much below the average. Fodder is scanty. Public health is generally good. Lower Bari Doab Canal continued flowing. Prices are very high.

25.—LYALLPUR DISTRICT.

No rain. Condition of standing crops average. Sowings of Zaid rabi crops, and cotton and sugarcane in progress. Condition of cattle good. Public health generally good. Canals working by rotational closure. Water-supply sufficient.

26.—JHANG DISTRICT.

Rain is most urgently wanted for the standing crops. Tobacco, vegetables, cotton, sugarcane and onions are being sown. Standing crops are below average. Cattle are weak owing to scarcity of fodder. Public health generally good. Canals flowing as usual but irrigation is below average for want of water. Rivers are still very low. Prices are rising.

27.—MULTAN DISTRICT.

Rain badly wanted. Sowings of tobacco, sugarcane and vegetables continued. Condition of standing irrigated crops is average and of unirrigated crops below average. Reaping of barley and gram commenced. Fodder insufficient. State of public health is generally good. Inundation canals are dry. Lower Bari Doab Canal at Khánewál is working by rotation.

28.—MUZAFFARGARH DISTRICT.

Rain is badly wanted. Sowings of extra rabi crops, sugarcane and cotton in progress. Condition of standing crops on irrigated lands average and on unirrigated lands poor. Condition of cattle is not good owing to scarcity of fodder. Public health is generally good. Canals are dry except two canals in Sanáwán Tahsil which are running with small flow of water. Prices of foodstuffs are high.

29.—DERA GHAZI KHAN DISTRICT.

Sowings of extra rabi crops completed. Condition and expected yield of irrigated crops is fair and of unirrigated crops below normal. Reaping of oilseeds completed, and of wheat commenced. Fodder insufficient. The Kala Páni Canal is regularly flowing in the Jámpur Tahsil. Núr and Qutab Dhundi Canals are also flowing and the supply of water in the Rájanpur canals is sufficient. Prices are stationary.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 2nd April 1921, there were 777 births registered in the 35 large municipal towns (403 males and 374 females), giving a birth-rate of 41 *per mille* of population, and 684 deaths were registered (365 males and 319 females), giving a death-rate of 36 *per mille* of population. The death-rates registered in the two largest towns were as follows :—Lahore 31 against 24 in the corresponding week of the previous year; and Multán 58 against 70.

There were 24 deaths recorded from plague in Multán, and 1 in Ráwalpindi. Of the 7 deaths from small-pox 3 were registered in Multán, 2 in Jhelum and 1 each in Rewári and Bhera.

Sanitary Commissioner's Office,
Lahore :
The 12th April 1921.

No. 16. LAHORE, FRIDAY, APRIL 22, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M. Monday, the 18th April 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Insufficient, fodder is being imported. 2. (b) Canals dry. 3. Fair.	Wheat, 6⅜ ... Gram, 7⅛. Bajra, 6⅝. Barley, 8½. Prices generally between normal and warning rates.	Rain badly wanted. Standing irrigated crops fair. Reaping of sarshaf, gram and barley continues. Yield expected to be below normal.	...
2	Rohtak ...	...	1. Sufficient ... 2. (a) Scarce. 3. Good.	Wheat, 6 to 6¼ ... Barley, 8 to 8½. Gram, 7 to 7¼. Jowar, 8½. Bajra, 6½. Prices generally between normal and warning rates.	Condition of standing irrigated crops average. Reaping of irrigated spring crops continues. Expected yield average.	Sowings of irrigated sugarcane continue, and are below normal. Germination good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
3	Gurgaon ...	0·01 at Gurgaon... 0·19 at Núh. 0·11 at Ballabgarh.	1. Sufficient ... 2. (a) Do. (b) Canal flowing; supply insufficient in Palwal and Núh Tahsils. 3. Generally good.	Wheat, 5¾ to 7½ Barley, 7¼ to 10. Gram, 7 to 8½. Bajra, 6 to 7½. Jowar, 7 to 9. Maize, 4 to 9. Prices between normal and warning rates.	Standing extra rabi crops in good condition. Sowings of extra spring crops continue in parts on irrigated area. Reaping of rabi crops in progress. Yield expected to be normal on irrigated, and below normal on unirrigated area.	Sowings of sugarcane continue in parts on irrigated area.
4	Ambála ...	...	1. Scarce ... 2. (a) Insufficient. (b) Canal flowing; water adequate 3. Cattle are generally weak owing to scarcity of fodder	Wheat, 6½ ... Gram, 7¼. Barley, 9¾. Maize, 8¾. Prices of wheat and barley between normal and warning rates, and of others between warning and scarcity rates.	Standing irrigated crops average, and unirrigated below average. Reaping of wheat, barley and gram in progress. Yield expected to be normal on irrigated, and below normal on unirrigated area.	...
5	Jullundur ...	...	1. Scarce ... 2. (a) Sufficient. 3. Cattle are generally weak owing to hard work and scarcity of fodder.	Wheat 6½ ... Gram 6½. Maize, 8. Barley, 8. Prices of wheat and barley between warning and scarcity rates, and of others at or above scarcity rates.	Rain badly wanted. Sowings of extra spring crops continue, and are normal. Reaping of wheat completed, expected yield below normal.	Sowings of Sugarcane continue, and are normal. Sowings of cotton also commenced.
6	Ferozepore ...	...	1. Insufficient .. 2. (a) Sufficient. 3. Good.	Wheat, 6½ ... Gram, 7¾. Prices between normal and scarcity rates.	Standing irrigated crops slightly below average, and unirrigated crops much below average. Reaping of rabi crops in progress.	...
7	Lahore ...	...	1. Sufficient ... 2. (a) Do. (b) Perennial canals running with sufficient supply of water. 3. Average.	Wheat, 7 ... Gram, 7. Prices of wheat between normal and warning rates, and of gram at scarcity rates.	Standing irrigated crops average. Reaping of wheat, barley and gram in progress. Yield expected to be below normal.	Sowings of irrigated cotton and chari continue, and are below normal.
8	Amritsar ...	...	1. Scarce ... 2. (b) Canals flowing by rotation; supply sufficient. 3. Good.	Wheat, 7 ... Gram, 7. Barley, 12. Maize, 7½. Jowar, 6. Bajra, 5½. Prices between normal and scarcity rates.	Standing irrigated crops about average, and unirrigated crops bad. Reaping of wheat, barley and gram in progress.	Sowings of sugarcane continue, and are below normal.
9	Siálkot ...	0·06 at Siálkot ...	1. Scarce ... 2. (a) Sufficient. (b) Canal closed. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, 6¼ to 7½ ... Maize, 6¼. Barley, 10 to 10¾. Gram, 6¾ to 7. Prices generally between normal and warning rates.	Condition and expected yield of standing irrigated crops below average, and of unirrigated crops much below average. Sowings of extra spring crops continue.	Sowings of sugarcane and cotton continue.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
10	Shahpur	...	1. Scarce ... 2. b Lower Jhelum Canal flowing; supply sufficient. 3 Fair.	Wheat, 6 to 6¾. Gram, 7½ to 8. Maize, 6½ to 9. Bajra, 6¼ to 8. Prices of wheat and gram between warning and scarcity rates, and of maize and bajra between normal and warning rates.	Rain badly wanted. Standing irrigated crops fair, and unirrigated poor. Reaping of wheat and gram continue.	Sowings of sugarcane and cotton continue on irrigated area. Normal area is expected to be sown.
11	Ráwalpindi	0·02 at Ráwalpindi	1. Scarce ... 2. (a) Do. 3. Fair.	Wheat, 5¾ ... Barley, 9½. Gram, 6¾. Bajra, 5¾. Jowar, 5¾. Prices generally between warning and scarcity rates.	Standing crops poor ...	...

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 9th April 1921, there were 857 births registered in the 36 large municipal towns (433 males and 424 females), giving a birth-rate of 38 *per mille* of population, and 851 deaths were registered (457 males and 394 females), giving a death-rate of 38 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 38 against 28 in the corresponding week of the previous year ; Amritsar 38 against 32 and Multán 66 against 76.

There were 25 deaths recorded from plague in Multán, 6 in Wazírabad, and 1 in Gujránwála. Of the 11 deaths from small-pox 3 each were registered in Wazírabad and Multán, 2 in Jhelum and 1 each in Lahore, Gujrát and Lyallpur.

Sanitary Commissioner's Office,
Lahore :
The 20th April 1921.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 16th April 1921, there were 808 births registered in the 34 large municipal towns (404 males and 404 females), giving a birth-rate of 38 *per mille* of population, and 823 deaths were registered (481 males and 342 females), giving a death-rate of 39 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 34 against 34 in the corresponding week of the previous year; Amritsar 46 against 40 and Multán 63 against 77.

There were 13 deaths reported from plague in Multán, 2 in Ráwalpindi, and 1 each in Gujránwála and Wazírabad. Of the 5 deaths from small-pox 2 each were registered in Siálkot and Jhelum and 1 in Ráwalpindi.

R. C. JENNINGS, Supdt.,

for *Sanitary Commissioner, Punjab.*

Sanitary Commissioner's Office,
Lahore :
The 27th April 1921.

Gram, 6½. Barley, 9. Bajra, 6. Jowar, 5½. Prices generally between warning and scarcity rates.	Condition of standing crops below average on irrigated, and very poor on unirrigated area. Reaping of rabi crops in progress. Expected yield below normal on irrigated and very poor on unirrigated area.	...
13	Lyallpur	0·24 at Jaránwála	1. Sufficient ... 2. (b) Canal working by rotation; supply sufficient. 3 Good.	Wheat, 6½ ... Gram, 6½ Price of wheat between warning and scarcity rates and of gram above scarcity rate.	Condition of standing crops average. Sowings of extra spring crops in progress. Reaping of rabi crops finished. Yield expected to be normal.	Sowings of cotton in progress and of sugarcane finished.
14	Multán	0·08 at Kabirwala	1. Scarce ... 2. (b) Lower Bari Doab Canal flowing by rotation; supply insufficient. 3 Fair.	Wheat, 6½ Barley, 8 Gram, 6 Jowar, 6¼. Bajra, 6¾. Maize, 6¾. Prices generally between warning and scarcity rates.	Standing irrigated crops below average to average and unirrigated below average. Sowings of extra spring crops continue. Reaping of wheat, gram and barley in progress. Yield expected to be normal.	Sowings of chari, maize, jowar and cotton continue on irrigated area.

GENERAL REMARKS.

Except for light showers in parts of a few districts weather remained dry. Condition of standing irrigated crops is generally average and of unirrigated crops very poor. Wheat and other spring crops are being reaped. Expected yield below normal. Sowings of irrigated extra spring crops, cotton and chari, etc., continue and are generally below normal. Cattle are generally weak owing to overwork and scarcity of fodder. Water is insufficient in parts of some districts. Prices have risen slightly in some districts and are stationary in others. They range between normal and scarcity rates. Prices of wheat :—Ráwalpindi 5¾, Ferozepore and Ambála 6½, Lyallpur and Lahore 6½ seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB AND THE NORTH-WEST FRONTIER PROVINCE DURING FEBRUARY 1921.

Station.	Pressure.		Wind.		Temperature in shade.								
	Barometer at 8 hrs. reduced to 32°, to constant gravity at 45° Lat. and to sea level.	Departure from normal.	Mean direction and velocity in miles per hour, February 1921. (a) = Mean of 21 days.
(b) = Mean of 17 days.
(c) = Mean of 27 days.
(d) = Mean of 22 days.
* Not reduced to sea level.
(e) = Aneroid.
(f) = Mean of 25 days.

Five winter disturbances entered north-west India during the month, but only one of them, the first, caused appreciable rain or snow, precipitation being fairly widespread in the hills surrounding the Punjab on the 3rd and 4th, and extending to the Punjab plains on the latter date. The other four disturbances gave no rain except a few occasional light falls in the hill districts.

Pressure and Winds.—Atmospheric pressure was in decided defect generally in the plains. Wind direction was very abnormal at Ludhiána, Khusháb and Murree. Wind velocity was greater than usual at Ambála, Lahore, Khusháb and Ráwalpindi, and was very low at Pesháwar.

Temperature—The mean maximum temperature was very much above normal; minimum temperature was also above normal, though to a less extent than the maximum. Over the plains of the Punjab and the North-West Frontier Province as a whole, temperature was much higher than usual on the 3rd, 4th and from the 17th to the end of the mouth.

The following table shows for each day of the month the departure from the normal of the mean temperature of the Punjab and the North-West Frontier Province, with the lowest minimum temperature registered and the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Lowest minimum temperature recorded during the previous 24 hours.	Station at which registered.

Humidity and Cloud.—The air was very much drier than usual, and the amount of cloud was also generally in defect.

Rainfall.—Practically no rain fell at Hissar, Ludhiána, Montgomery, Lahore Lyallpur, Multán and Dera Ismail Khan, and there was a large detect at the other stations, with the exception of Drosh which received its normal fall.

The following table gives the rainfall data for the Punjab and the North-West Frontier Province stations for February 1921 :—

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 23rd April 1921, there were 800 births registered in the 37 large municipal towns (397 males and 403 females), giving a birth-rate of 36 *per mille* of population, and 993 deaths were registered (547 males and 446 females), giving a death-rate of 44 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 47 against 37 in the corresponding week of the previous year; Amritsar 52 against 42 and Multán 81 against 59.

There were 3 deaths recorded from cholera in Ráwalpindi, 2 each in Ambála and Amritsar and 1 each in Gujrát, Chiniot and Multán. Of the 11 deaths from small-pox, 7 deaths were registered in Multán and 1 each in Rewári, Gujránwála, Gujrát and Jhelum. There were 12 deaths reported from plague in Multán, 4 in Wazírabád and 1 in Gujránwála.

R. C. JENNINGS, Supdt.,
for Sanitary Commissioner, Punjab.

Sanitary Commissioner's Office,
Lahore:
The 4th May 1921.

Registered No. L. 864.

SUPPLEMENT TO THE

Government Gazette.

PUNJAB AND ITS DEPENDENCIES.

No. 19. LAHORE, FRIDAY, MAY 13, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M. Monday, the 9th May 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Insufficient, fodder is being imported. 2. (b) Perennial Canals flowing, supply sufficient. 3. Fair.	Wheat, 5¾ ... Gram, 6½. Barley, 8¼. Bajra, 5. Prices generally between warning and scarcity rates.	Rain badly wanted. Standing irrigated extra spring crops fair.	...
2	Rohtak ...	...	1. Sufficient ... 2. (a) Scarce. 3. Good.	Wheat, 5¾ to 6 Barley, 8¼. Gram, 6¾. Jowar, 6¾. Bajra, 6. Prices generally between warning and scarcity rates.	Condition of irrigated extra spring crops average. Reaping of irrigated tobacco continues. Yield expected to be normal.	Sowings of irrigated sugarcane continue, and are below normal. Germination good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
3	Gurgaon ...	...	1. Sufficient ... 2. (a) Do. (b) Canal running with sufficient supply of water. 3. Generally good.	Wheat, 5½ to 6½ ... Barley, 8½ to 9. Gram, 6½ to 7. Bajra, 6 to 7. Jowar, 6 to 8. Maize, 4 to 8. Prices generally between normal and warning rates.	Reaping of extra rabi crops continues and their yield is expected to be normal.	Sowings of irrigated cotton continue in parts. Sowings of chari commenced in parts on irrigated area.
4	Ambála ...	...	1. Sufficient ... 2. (a) Insufficient. (b) Canal flowing; water adequate. 3. Generally good.	Wheat, 5½ ... Gram, 6 7/16. Barley, 8¾. Maize, 7¾. Prices generally at or above scarcity rate.	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Threshing continues. Yield expected to be normal on irrigated and below normal on unirrigated area.	...
5	Jullundur ...	0·21 at Sadr ... 0·05 at Phillaur. 0·09 at Nawanshahr	1. Scarce ... 2. (a) Insufficient. 3. Cattle are generally weak owing to hard work and scarcity of fodder.	Wheat, 6½ ... Gram, 6. Maize, 8. Barley, 8. Prices between warning and scarcity rates.	Rain badly wanted. Threshing of wheat completed. Yield is below normal both on irrigated and unirrigated area.	Sowings of sugarcane completed. Sowings of cotton and fodder continue on irrigated area and are normal.
6	Ferozepore ...	...	1. Scarce ... 2. (a) Sufficient. (b) Sirhind Canal flowing; supply adequate. Grey Canal closed. 3. Fair.	Wheat, 6 ... Gram, 6¼. Barley, 7½. Price of wheat at warning rate and of others above scarcity rates.	Standing irrigated crops average. Yield of rabi crops expected to be normal on irrigated and below normal on unirrigated area.	Sowings of chari, etc., in progress and are normal.
7	Lahore ...	...	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Average.	Wheat, 5¾ ... Gram, 5¾. Price of wheat between warning and scarcity rates, and of gram above scarcity rate.	Standing irrigated crops average. Yield of wheat expected to be below normal both on irrigated and unirrigated area.	Sowings of irrigated cotton and chari continue and are below normal.
8	Amritsar ...	...	1. Sufficient ... 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Good.	Wheat, 6¼ .... Barley, 9. Gram, 6. Maize, 7 1/16. Jowar, 5½. Bajra, 5½. Prices generally between warning and scarcity rates.	Condition of standing extra rabi crops about average on irrigated and bad on unirrigated area. Reaping of wheat and gram continues. Yield expected to be below normal.	Sowings of sugarcane and cotton continue and are below normal.
9	Sialkot ...	0·01 at Daska ...	1. Scarce ... 2. (a) Sufficient. (b) Canal flowing. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, 5½ to 6½ ... Barley, 8½ to 9. Maize, 5. Gram, 5½ to 5¾. Prices generally between warning and scarcity rates.	Condition of standing irrigated crops below average and unirrigated much below average. Yield of wheat below normal on irrigated and poor on unirrigated area.	Sowings of fodder and cotton continue and are below normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
10	Shahpur	0·10 at Sadr ...	1. Scarce in parts ... 2. (a) Scarce in parts. (b) Lower Jhelum Canal flowing; supply sufficient. 3. Generally fair.	Wheat, 6¼ to 6½ ... Gram, 6¼ to 7. Bajra, 7. Maize, 6 to 6½. Barley, 8 to 10 Prices are generally between warning and scarcity rates.	Rain badly wanted. Standing irrigated crops fair and unirrigated poor. Sowings of extra spring crops continue on irrigated area. Reaping of wheat continues. Yield below normal.	Sowings of cotton continue on irrigated area. Germination fair.
11	Ráwalpindi .	0·13 at Sadr ... 0·19 at Murree.	1. Scarce ... 2. (a) Do. 3. Fair.	Wheat, 5¾ ... Barley, 7¾. Gram, 6. Bajra, 4¾. Jowar, 4. Prices generally at or above scarcity rates.	Standing irrigated extra rabi crops good. Harvesting of rabi crops over. Yield below normal.	...
12	Miánwáli	0·15 at Sadr ...	1. Insufficient ... 2. (a) Sufficient in Kucha and insufficient in Thal Circle. (b) Canals flowing; supply insufficient. 3. Fair in Kucha and poor in Thal Circle.	Wheat, 5½ ... Gram, 6½. Barley, 9. Bajra, 6. Jowar, 5½. Prices generally between warning and scarcity rates.	Standing extra rabi crops above average on irrigated and average on unirrigated area. Harvesting of rabi crops over. Yield below normal on irrigated and very poor on unirrigated area.	...
13	Lyallpur	...	1. Sufficient ... 2. (b) Canal working by rotation; supply sufficient. 3 Good.	Wheat, 6½ ... Gram, 6. Price of wheat between warning and scarcity rates and of gram above scarcity rate.	Standing crops average. Sowings of extra spring crops in progress and are normal. Threshing of rabi crops in progress. Yield expected to be normal.	Sowings of cotton nearly finished.
14	Multán	...	1. Scarce ... 2. (b) Lower Bari Doab Canal flowing by rotation; supply insufficient. 3 Generally fair.	Wheat, 6¼ ... Barley, 7¾ Gram, 6½. Jowar, 6¾. Bajra, 5½. Prices generally at or above scarcity rates.	Standing irrigated extra spring crops below average to average. Sowings of extra spring crops continue. Reaping of wheat, gram and barley in progress. Yield expected to be below normal.	Sowings of maize, jowar and cotton continue on irrigated area.

GENERAL REMARKS.

EXCEPT for light showers in parts of a few districts weather remained dry. Condition of standing irrigated crops is generally average and of unirrigated crops very poor. Wheat and other spring crops are being reaped. Expected yield generally below normal. Sowings of irrigated extra spring crops, cotton, chari, etc., continue and are generally below normal. Cattle are generally weak owing to overwork and scarcity of fodder. Water is insufficient in parts of some districts. Prices have risen slightly in some districts and are stationary in others. They range between normal and scarcity rates. Prices of wheat :—Ráwalpindi and Lahore 5¾, Ferozepore 6, Ambála 5½, and Lyallpur 6½ seers per rupee, respectively.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 30th April 1921, there were 770 births registered in the 35 large municipal towns (396 males and 374 females), giving a birth-rate of 35 *per mille* of population, and 876 deaths were registered (487 males and 389 females), giving a death-rate of 40 *per mille* of population. The death-rates registered in the three largest towns are as follows :—Lahore 42 against 43 in the corresponding week of the previous year; Amritsar 43 against 32 and Multán 45 against 56.

There were 4 deaths recorded from cholera in Amritsar, 2 each in Jhelum, Ráwalpindi and Multán and 1 each in Lahore and Gujrát. Of the 11 deaths from small-pox, 4 were registered in Multán, 2 each in Kasúr, Jhelum and Ráwalpindi and 1 in Lyallpur. There were 2 deaths reported from plague in Multán and 1 in Gujránwala.

No. 20. LAHORE, FRIDAY, MAY 20, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M. Monday, the 16th May 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar	...	1. Insufficient, fodder is being imported. 2. (b) Perennial Canals flowing, supply insufficient. 3. Fair.	Wheat, 5¾ .. Gram, 6¼ Barley, 8¼. Bajra 5¾. Price of barley between normal and warning rates and of others generally between warning and scarcity rates.	Rain badly wanted. Standing irrigated extra spring crops fair.	Sowings of chari and cotton continue on irrigated area in the Hissar Tahsil.
2	Rohtak	...	1. Sufficient ... 2. (a) Scarce. 3. Good.	Wheat, 5¾ to 6 ... Barley, 8½ Gram, 6¼. Jowar, 6¾. Bajra, 6 Price of barley between normal and warning rates and of others generally between warning and scarcity rates.	Condition of standing irrigated extra spring crops average.	Sowings of chari and cotton continue on irrigated area Standing irrigate.d crops average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for — (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
3	Gurgaon ...	...	1. Sufficient ... 2. (a) Do. (b) Canal running; supply sufficient. 3. Generally good.	Wheat, 5½ to 6¾ ... Barley, 8 to 9½. Gram, 6¼ to 7⅛. Bajra, 5½ to 7. Jowar, 6 to 7. Maize, 6 to 8. Prices generally between normal and warning rates.	Reaping of irrigated extra rabi crops commenced. Yield expected to be normal.	Sowings of cotton and chari continue on irrigated area in the Palwal Tahsil.
4	Ambála ...	...	1. Sufficient ... 2. (a) Scarce. (b) Canal flowing; water adequate. 3. Generally good.	Wheat, 5⅝ ... Gram, $6\frac{1}{16}$. Barley, 8. Maize, 7½. Prices at above scarcity rates or between warning and scarcity rates.	Rain badly wanted. Standing extra spring crops below average.	Standing crops below average.
5	Jullundur ...	...	1. Scarce ... 2. (a) Insufficient. 3. Cattle are generally weak owing to hard work and scarcity of fodder	Wheat, 6 ... Gram, 6. Maize, 7. Barley, 8½. Price of barley between normal and warning rates and of others at or above scarcity rate.	Rain badly wanted. Standing irrigated extra spring crops average. Yield expected to be normal	Sowings of cotton and fodder continue on irrigated area to a normal extent. Condition of sugarcane is average.
6	Ferozepore ...	...	2. (a) Sufficient ... (b) Sirhind Canal flowing; supply sufficient. Grey Canal closed. 3. Fair.	Wheat, 6 ... Gram, 6. Barley, 8½. Prices generally between warning and scarcity rates.	Standing irrigated extra rabi crops fair. Yield expected to be below normal.	Sowings of irrigated chari, &c., in progress and are normal.
7	Lahore ...	...	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Average.	Wheat, 6 ... Gram, 6. Price of wheat at warning rate and of gram above scarcity rate.	Standing irrigated extra spring crops average. Yield of wheat about normal on irrigated area.	Sowings of irrigated cotton, chari and maize continue and are normal. Standing crops average.
8	Amritsar ...	...	1. Sufficient ... 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Good.	Wheat, 6¼ .. Barley, 9 Gram, 6. Maize, $7\frac{1}{16}$ Jowar, 5½. Bajra, 5½. Prices generally between warning and scarcity rates.	Rain badly wanted. Condition of standing extra rabi crops about average on irrigated and bad on unirrigated area. Harvesting of wheat continues. Yield below normal.	Sowings of irrigated cotton continue and are below normal.
9	Sialkot ...	...	1. Scarce ... 2. (a) Sufficient. (b) Canal flowing. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, 5½ to 6½ ... Barley, 8½ to 9. Maize, 5. Gram, 5½ to 5¾. Price of barley between normal and warning rates and of others generally above scarcity rate.	Condition of standing irrigated crops below average and of unirrigated crops much below average. Yield of wheat below normal on irrigated and poor on unirrigated area.	Sowings of fodder and cotton continue and are below normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
10	Shahpur	...	1. Scarce in parts ... 2. (a) Do. (b) Lower Jhelum Canal flowing; supply sufficient.	Wheat, 6¼ to 6½ ... Gram, 6 to 6⅛. Barley, 8 Maize, 7. Prices generally between warning and scarcity rates.	Rain badly wanted. Standing irrigated extra spring crops fair. Sowings of extra rabi crops nearly finished and are below normal. Harvesting of wheat continues. Yield below normal.	Sowings of cotton nearly finished, and are below normal. Standing irrigated crops fair.
11	Ráwalpindi ...	...	1. Scarce ... 2. (a) Do. 3. Poor.	Wheat, 5½ ... Barley, 7¾. Maize, 6¼. Gram, 5¾. Bajra, 4¾. Jowar, 4. Prices of wheat and barley between warning and scarcity rates and of others above scarcity rate.	Standing irrigated extra rabi crops good.	...
12	Miánwáli ...	...	1. Insufficient ... 2. (a) Sufficient in Kacha and insufficient in Thal Circle. (b) Canals flowing; supply insufficient. 3. Fair in Kacha and poor in Thal Circle.	Wheat, 5¼ ... Gram, 6¼. Barley, 8. Bajra, 5¼. Jowar, 5½. Prices generally between warning and scarcity rates.	Standing extra rabi crops average on irrigated and below average on unirrigated area.	...
13	Lyallpur	...	1. Sufficient ... 2. (b) Canal working by rotation; supply sufficient. 3. Good.	Wheat, 6¼ ... Gram, 5½. Price of wheat between warning and scarcity rates and of gram above scarcity rate.	Standing extra spring crops average. Sowings of extra spring crops in progress and are normal. Threshing of wheat in progress. Yield normal.	Sowings of cotton nearly finished. Standing crops average.
14	Multán	...	1. Scarce ... 2. (b) Lower Bari Doab Canal flowing by rotation; supply insufficient. 3. Generally fair.	Wheat, 6¼ ... Barley, 7¾. Gram, 6⅛. Jowar, 6¾. Bajra, 6¾. Maize, 6½. Prices generally between warning and scarcity rates.	Standing irrigated extra spring crops below average to average. Harvesting of wheat, barley and gram in progress. Yield poor.	Sowings of cotton, jowar and maize continue on irrigated area. Standing crops below average to average.

GENERAL REMARKS.

WEATHER remained dry. Rain is badly wanted. Harvesting of wheat and other spring crops nearly completed. Yield normal on irrigated and very poor on unirrigated area. Sowings of extra spring crops completed and of irrigated cotton and fodder, etc., continue. Area sown below normal. Condition of standing extra spring and autumn crops is below average to average. Cattle are generally weak owing to overwork and scarcity of fodder. Water is insufficient in parts of some districts. Prices are generally stationary and range between warning and scarcity rates. Prices of wheat :—Rawalpindi 5½, Ambála 5⅞, Ferozepore and Lahore 6 and Lyallpur 6¼ seers per rupee.

rain-gauge station.
averages have been fixed.

MAHBUB SHAH, Supdt.,
Office of Director of Land Records, Punjab.

Notes on the condition and prospects of crops, etc, in each district of the Punjab for the month of April 1921

1.—Hissar District.

No rain fell during the month. Standing crops on irrigated area are in fair condition. Harvesting of barley and gram finished. Outturn below normal. Cattle are in fair condition. Fodder is insufficient and is being imported by rail from other districts. Public health on the whole good. Water supply in canals insufficient. Prices rising.

2.—Rohtak District.

Light showers of rain were received at Gohána only. Sowings of irrigated sugarcane continued and are normal. Condition and expected yield of irrigated sugarcane onions and tobacco are good. Cattle are generally in good condition. Supply of canal water inadequate.

3.—Gurgaon District.

Light showers of rain were received during the month. Sugarcane, cotton, onions, etc, were sown to some extent on irrigated area. Reaping of rabi crops finished. Standing extra rabi crops are in good condition. Outturn of rabi crops is generally normal on irrigated and below normal on unirrigated area. Cattle generally in good condition. Fodder sufficient. Health of people generally good. Canal running; supply of water sufficient.

4.—Karnal District.

There was a slight rainfall at Karnál and Kaithal. Sowings of sugarcane finished on irrigated area. Condition of standing irrigated crops average and of unirrigated crops much below average. Harvesting of rabi crops nearly completed. Threshing is in full swing. The expected yield of wheat, barley, gram and oilseeds is normal on irrigated and nearly half the normal on unirrigated area. Condition of cattle is generally good. Bhoosa of rabi crops is now available to some extent. Grazing is quite exhausted in jungles. Public health is generally good. Canals worked. Prices still remain high and are being felt by people.

5.—Ambala District.

Rainfall during the month was below normal. Sugarcane was sown to a small extent. Condition of standing extra rabi crops and sugarcane on irrigated area is normal and on unirrigated area below normal. Cattle are generally in good condition. Water in tanks has dried up. Fodder supply insufficient. Public health is generally good. Western Jumna Canal flowed continuously and water was adequate for irrigation purposes. Prices are practically stationary though some articles have an upward tendency.

6.—Simla District.

Rainfall during the month was entirely inadequate. One-third of the area in Kotkhái Tahsil was sown with rice. Condition of crops poor. Condition of cattle good. Fodder and grazing insufficient. Public health good. Water in hill streams insufficient.

7.—Kangra District.

Rainfall during the month was below the average and insufficient. Sugarcane and cotton are being sown on irrigated tracts in the Kángra Tahsil. Standing crops on irrigated area are in fair condition while those on unirrigated area generally poor. Yield of irrigated spring crops is below average. Cattle are in poor condition. Fodder scarce. Public health generally fair. Water in streams and kuhls was insufficient for irrigation purposes. Prices are very high.

8.—Hoshiarpur District.

Weather remained dry. Sugarcane, cotton, tobacco and other extra rabi crops were sown on irrigated area. Harvesting of rabi crops completed. Outturn below normal. Condition of cattle good. Fodder insufficient. Public health is good. Shah Nahar Canal remained closed. Prices are slightly rising.

9.—Jullundur District.

There was no rainfall during the month. It is badly needed. Sowings of extra rabi crops, cotton and sugarcane finished and are normal. Reaping of rabi crops finished. Outturn below average. Threshing continues. Condition of irrigated extra rabi crops, cotton and sugarcane is average. Cattle are generally weak owing to hard work and scarcity of fodder. Public health is generally good. Prices of food grains have slightly risen.

10.—LUDHIANA DISTRICT.

Light showers were received during the month at Ludhiána only. Sugarcane and extra rabi crops are being sown. Condition of standing crops is average on irrigated and poor on unirrigated area. Yield is expected to be below normal. The condition of cattle is generally satisfactory. Public health on the whole satisfactory.

11.—FEROZEPORE DISTRICT.

Weather remained dry. Zaid rabi corps are so far in fair condition. Yield of wheat is expected to be normal on irrigated and below normal on unirrigated area. Fodder is scarce especially in Bet Ilaqa. The condition of cattle is not very satisfactory. Sirhind Canal worked satisfactorily. Grey canals remained closed.

12.—LAHORE DISTRICT.

Slight showers of rain fell at Lahore. Vegetables, cotton, sugarcane, tobacco, and chari were sown. Condition of standing crops on irrigated lands is average. Yield of rabi crpos expected to be normal on irrigated area. Condition of cattle average. Fodder insufficinet. Perennial canals ran regularly. Prices high.

13.—AMRITSAR DISTRICT.

Weather generally remained dry. Rain is badly wanted. Sugarcane and cotton were sown during the month. The condition and expected yield of standing extra rabi crops are about average on irrigated and bad on unirrigated area. Condition of cattle is generally good. Public health is generally good. Canals are working by rotation. Supply sufficient. Drinking water is sufficient.

14.—GURDASPUR DISTRICT.

Rainfall during the month was much below the average. Sowings of sugarcane, cotton and chari continued on irrigated and low-lying lands. Standing crops are suffering badly for want of rains. Wheat, barley and gram have been harvested Outturn reported to be below average. Condition of cattle generally good. Scarcity of fodder is being keenly felt owing to the failure of rains. Public health generally good. Government canals are flowing but not irrigating lands. Prices have slightly risen.

15.—SIALKOT DISTRICT.

Sowings of cotton, sugarcane, tobacco, melons, vegetables and chari continued to a normal extent. Condition of standing crops is below average on irrigated and much below average on unirrigated area. Yield of wheat and barley is below normal on irrigated and very poor on unirrigated area. Cattle are weak on account of hard work and scarcity of fodder. Public health good. Irrigation by jhallars and canal continued. Supply of food-grains and water sufficient. Bhoosa scarce.

16.—GUJRANWALA DISTRICT.

No rain fell during the month. Sowings of extra rabi crops and cotton are in progress and those of sugarcane finished. Condition of extra rabi crops fair. Yield of wheat and gram below normal. Harvesting is in progress. Condition of cattle fair. Fodder and grazing are insufficient. State of public health is good.

17.—SHEIKHUPURA DISTRICT.

Sowings of cotton, chari, sugarcane, maize, bajra were in progress during the month. Condition of standing extra rabi crops is average on irrigated area. Yield expected to be normal on irrigated and below normal on unirrigated area. Condition of cattle generally good. Public health is generally good. Canals working.

18.—GUJRAT DISTRICT.

Practically no rain fell during the month. Sowings of cotton, sugarcane and extra rabi crops on irrigated lands practically finished. Harvesting of rabi crops in progress. The yield is estimated to be ¾th and ¼th of the average on irrigated and unirrigated areas, respectively. Cattle are weak owing to the scarcity of fodder and are being taken to River Belas from many parts. Public health is good. Canals are running.

19.—SHAHPUR DISTRICT.

Weather remained dry. Rain is badly wanted everywhere. Sowings of extra rabi crops and cotton continued to a normal extent. Germination fair. Condition of standing crops is fair on irrigated but poor on unirrigated area. Harvesting of barley, gram and wheat continued. Outturn is below normal. Condition of cattle fair. Dry fodder is scarce. Public health generally fair. Lower Jhelum Canal flowed; water supply adequate. Inundation canals are also flowing; water supply insufficient.

20.—Jhelum District.

Weather remained dry. Standing crops are in poor condition. Condition of cattle poor. Fodder scanty. Public health good.

21.—Rawalpindi District.

Slight showers of rain fell during the month. Condition of standing crops is below average. The cattle are weak on account of the scarcity of fodder. No grazing is available. Public health is good.

22.—Attock District.

Light showers of rain were received during the month. Condition of standing crops is average on irrigated area. Condition of cattle very poor on account of scarcity of fodder. Public health good. The water in hill torrents is becoming less on account of drought.

23.—Mianwali District.

Very slight rain fell in Miánwáli Tahsil. Rain is badly wanted. Sowings of extra rabi crops completed. Harvesting of rabi crops completed. Yield expected to be normal on irrigated and very poor on unirrigated area. Condition of cattle fair. Fodder and grazing are insufficient. Drinking water is sufficient in kacha but insufficient in Thal tracts Public health is generally fair. Namal Canal in Miánwáli and Kurram canals in Isa Khel are watering lands; supply insufficient. Scarcity now amounts to famine.

24.—Montgomery District.

Weather remained dry. Sowings of extra rabi crops, sugarcane and cotton continued. Condition of cattle good. Fodder scanty. Public health good. The Lower Bari Doab Canal continued flowing during the month. Inundation canals remained dry. Prices are very high.

25.—Lyallpur District.

Slight rain fell at Jaránwála only. Condition of standing crops average. Sowings of sugarcane and cotton nearly finished Wheat and other rabi crops are being threshed. Yield average. Condition of cattle good. Public health generally good. Canal working by rotational closure.

26.—Jhang District.

Light showers fell in Jhang. Cotton, chari and maize, etc., are being sown. Crops on irrigated land are below average and on unirrigated bad. Wheat, gram, barley and masur are being harvested. Outturn reported to be below average. Cattle are becoming weak owing to scarcity of fodder. Public health is generally good. Canals flowing. Rivers still low. Prices very high.

27.—Multan District.

Slight rain fell at Kabírwála. Extra rabi crops, cotton and sugarcane are being sown on well irrigated area. Condition of standing crops on irrigated area is below average to average and on unirrigated below average. Expected yield below average. Harvesting of wheat and gram continued. Condition of cattle fair. Fodder is insufficient. Health of people is generally fair. Inundation and Sidhnai Canals are dry while Lower Bari Doab Canal is working by rotation. Prices are rising.

28.—Muzaffargarh District.

There was no rainfall during the month. It is badly wanted. Sowings of extra rabi crops and cotton were in progress in parts. Condition of standing crops below average on irrigated and poor on unirrigated area. Harvesting of wheat continues. Yield is reported to be 6 to 8 maunds on irrigated and 4 to 6 maunds per acre on unirrigated area. Condition of cattle not good on account of scarcity of fodder. Public health is generally good. Canals are generally dry. Rivers are low.

29.—Dera Ghazi Khan District.

Except for light showers in parts weather remained dry. Rabi crops have been reaped. Yield below normal. Condition of standing zaid rabi crops average. Condition of cattle generally fair. Dry fodder sufficient except in parts of Jámpur Tahsil. Public health is good. There has been a flood in the hill torrents of the Sanghar Tahsil which irrigated the lands to some extent. The river is rising. Nur, Qutab Dhundi and Kalapáni Canals are flowing. Prices are stationary.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 7th May 1921, there were 750 births registered in the 36 large municipal towns (385 males and 365 females), giving a birth-rate of 34 *per mille* of population, and 918 deaths were registered (463 males and 455 females), giving a death-rate of 40 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 47 against 49 in the corresponding week of the previous year ; Amritsar 52 against 42 and Multán 59 against 47.

There were 5 deaths recorded from cholera in Amritsar, 3 in Lahore, 2 each in Gujrát and Jhelum and 1 in Ráwalpindi. Of the 19 deaths from small-pox, 7 were registered in Multán, 3 in Siálkot, 2 each in Shahpur, Gujránwála and Ráwalpindi and 1 each in Lahore, Gujrát and Jhelum. Only 1 death was reported from plague in Wazírabad.

Sanitary Commissioner's Office,
Lahore :
The 18th May 1921.

No. 21. LAHORE, FRIDAY, MAY 27, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 23rd May 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Insufficient, fodder is being imported. 2. (b) Perennial Canals flowing, supply sufficient. 3. Fair.	Wheat, 6½ ... Gram, 6½. Barley, 8½. Bajra, 2¼. Price of barley between normal and warning rates and of others generally between warning and scarcity rates.	Rain badly wanted. Standing irrigated extra spring crops fair.	Sowings of chari and cotton continue to a small extent on irrigated area in the Hissar Tahsil.
2	Rohtak ...	...	1. Sufficient ... 2. (a) Scarce. 3. Good.	Wheat, 5¾ ... Barley, 8¼ Gram, 6¼. Jowar, 6½. Bajra, 6 Price of barley between normal and warning rates and of others generally between warning and scarcity rates.	...	Sowings of chari and cotton continue on irrigated area. Standing crops average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
3	Gurgaon ...	...	1. Sufficient ... 2. (a) Do. (b) Canal running; supply insufficient. 3. Generally good.	Wheat, 5½ to 6½ ... Barley, 8 to 9. Jowar, 6 to 7. Gram, 6 to 7½. Bajra, 5¾ to 6¼. Maize, 4 to 7. Prices generally between normal and warning rates.	Reaping of irrigated extra rabi crops continues. Yield expected to be normal.	Sowings of cotton and chari continue on irrigated area in the Palwal Tahsil. Standing irrigated crops good.
4	Ambála ...	...	1. Sufficient ... 2. (a) Scarce. (b) Canal flowing; water adequate. 3. Generally good.	Wheat, 5⅞ ... Gram, $6\frac{3}{16}$. Barley, 8. Maize, 7⅞. Prices at above scarcity rate or between warning and scarcity rates.	Rain badly wanted. Standing irrigated extra spring crops average and unirrigated below average. Reaping of extra rabi crops in progress. Yield expected to be below normal.	Standing irrigated crops average and unirrigated below average.
5	Jullundur ...	...	1. Scarce ... 2. (a) Insufficient. 3. Cattle are generally weak owing to hard work and scarcity of fodder.	Wheat, 6 ... Gram, 6. Maize, 7. Barley, 8¾. Price of barley between normal and warning rates and of others at or above scarcity rates.	Rain badly wanted. Standing irrigated extra spring crops average.	Sowings of cotton and fodder continue on irrigated area to a normal extent. Condition of sugarcane is average.
6	Ferozepore ...	...	1. Scarce ... 2. (a) Sufficient. (b) Sirhind Canal flowing; supply sufficient. Grey Canal closed. 3. Fair.	Wheat, 6 ... Gram, 6. Barley, 9. Prices generally between warning and scarcity rates.	Standing irrigated extra rabi crops fair. Yield expected to be below normal.	Sowings of irrigated chari, &c., in progress and are normal.
7	Lahore ...	...	1. Sufficient except in Hithar of Tahsil Chúniân. 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Average.	Wheat, 5¾ ... Gram, 5¼. Price of wheat between warning and scarcity rates and of gram above scarcity rate.	Standing irrigated extra spring crops average. Yield of melons below normal.	Sowings of irrigated cotton, chari and maize continue and are below normal. Standing crops average.
8	Amritsar ...	...	1. Sufficient ... 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Good.	Wheat, 6⅛ ... Barley, 9. Gram, 5¾. Maize, $7\frac{1}{16}$. Jowar, 5½. Bajra, 5½. Prices generally between warning and scarcity rates.	Rain badly wanted. Condition of standing extra rabi crops about average on irrigated and bad on unirrigated area. Harvesting of wheat continues. Yield below normal.	Sowings of irrigated cotton continue and are below normal.
9	Sialkot ...	...	1. Scarce ... 2. (a) Scarce. (b) Canal flowing. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, 5½ to 6¼ ... Barley, 8½ to 9. Maize, 5. Gram, 5½ to 5¾. Price of barley between normal and warning rates and of others generally above scarcity rate.	Standing extra rabi crops below average on irrigated and much below average on unirrigated area. Yield of melons average.	Sowings of fodder and moth continue and are below normal. Standing crops below average on irrigated and much below average on unirrigated area.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
10	Shahpur ...	...	1. Scarce in parts ... 2. (a) Do. (b) Lower Jhelum Canal flowing; supply sufficient.	Wheat, 5¾ to 6½ ... Gram, 5¼ to 6½. Maize, 6½ to 6¾. Barley, 8 to 10. Prices generally between warning and scarcity rates.	Rain badly wanted. Standing irrigated extra spring crops fair. Sowings of extra rabi crops nearly finished and are below normal. Harvesting of wheat continues. Yield below normal.	Sowings of cotton nearly finished, and are below normal. Standing irrigated crops fair.
11	Ráwalpındi ...	...	1. Scarce ... 2. (a) Do. 3. Poor.	Wheat, 5¼ ... Barley, 7¾. Maize, 6¼ Gram, 5¾. Bajra, 4¾. Jowar 4 Prices of wheat and barley between warning and scarcity rates and of others above scarcity rate.	Standing irrigated extra rabi crops good.	...
12	Miánwáli ..	...	1. Insufficient ... 2. (a) Sufficient in Kacha and insufficient in Thal Circle. (b) Nammal Canal closed, Kurram Canal flowing; supply insufficient. 3. Fair in Kacha and poor in Thal Circle.	Wheat, 5½ Gram, 6¼. Barley, 8. Bajra, 5¼ Jowar, 5. Prices generally between warning and scarcity rates.	Standing extra rabi crops average on irrigated and below average on unirrigated area.	...
13	Lyallpur ..	...	1. Sufficient ... 2. (b) Canal working by rotation; supply sufficient. 3 Poor.	Wheat, 6¼ ... Gram, 5¾. Price of wheat between warning and scarcity rates and of gram above scarcity rate.	Standing extra spring crops average. Threshing of wheat finished. Yield normal.	Sowings of cotton finished. Standing crops average.
14	Multán ..	...	1. Scarce ... 2. (b) Lower Bari Doab Canal flowing by rotation. 3 Generally fair.	Wheat, 6¾ ... Barley, 7½ Gram, 6⅛. Jowar, 6¾. Bajra, 6¾. Maize, 6¾. Prices generally between warning and scarcity rates.	Standing irrigated extra spring crops below average to average. Harvesting of wheat, barley and gram in progress. Yield poor.	Sowings of cotton, jowar and maize continue on irrigated area. Standing irrigated crops below average to average.

GENERAL REMARKS.

WEATHER remained dry. Rain is badly wanted. Sowings of cotton and other autumn crops continue on irrigated area. Area sown below normal. Standing extra spring and autumn crops are below average to average. Cattle are generally weak owing to over-work and scarcity of fodder. Water for drinking purposes is scarce in parts of some districts. Prices are generally stationary and range between warning and scarcity rates Prices of wheat :—Ráwalpindi 5¼, Lahore 5¾, Ambála 5⅞, Ferozepore 6 and Lyallpur 6¼ seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
3	Gurgaon ...	...	1. Sufficient ... 2. (a) Do. 3. Generally good.	Wheat, 5½ to 6¾ ... Barley, 8 to 9½. Jowar, 6 to 7. Gram, 6 to 7. Bajra, 6 to 6½. Maize, 4 to 6. Prices generally between normal and warning rates.	Standing irrigated extra spring crops good. Reaping of irrigated extra rabi crops continues. Yield expected to be normal.	Sowings of chari continue on irrigated area in the Nuh Tahsil. Standing irrigated crops good.
4	Ambála ...	...	1. Insufficient ... 2. (a) Scarce. (b) Western Jumna Canal flowing; water adequate. 3. Cattle are generally suffering owing to scarcity of fooder	Wheat, 5¼ ... Gram, $6\frac{1}{16}$. Barley, 8. Maize, 7⅞. Prices above scarcity rate or between warning and scarcity rates.	Rain badly wanted. Standing extra spring crops below average.	Standing crops below average.
5	Jullundur ...	..	1. Scarce ... 2. (a) Insufficient. 3. Cattle are generally weak owing to hard work and scarcity of fodder.	Wheat, 6 ... Gram, 6. Maize, 7. Barley, 8½. Price of barley between normal and warning rates and of others at or above scarcity rate.	Rain badly wanted. Standing irrigated extra rabi crops average. Yield expected to be average.	Sowings of cotton and fodder continue on irrigated area to a normal extent and of maize commenced. Condition of sugarcane is average.
6	Ferozepore ...	...	1. Scarce ... 2. (a) Sufficient. (b) Sirhind Canal flowing; supply sufficient. Grey Canal closed. 3. Fair.	Wheat, 6 ... Gram, 6. Barley, 9. Prices generally between warning and scarcity rates.	Standing irrigated extra rabi crops fair. Yield expected to be below normal.	Sowings of irrigated chari, &c., continue and are normal.
7	Lahore ...	...	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Average.	Wheat, 6 ... Gram, 5¾ to 6. Price of wheat at warning rate and of gram above scarcity rate.	Standing irrigated extra spring crops average. Yield of melons average.	Sowings of irrigated cotton, chari and maize continue and are normal. Standing crops average.
8	Amritsar ...	0·06 at Sadr ... 0·22 at Tarn Táran	1. Sufficient ... 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Average.	Wheat, 6¼ ... Barley, 9. Gram, 5¾. Maize, $7\frac{1}{16}$. Jowar, 5½. Bajra, 5½. Prices generally between warning and scarcity rates.	Condition of standing extra rabi crops about average on irrigated and bad on unirrigated area.	Sowings of rice commenced on irrigated area and are below normal.
9	Siálkot ...	...	1. Scarce ... 2. (a) Scarce. (b) Canal flowing. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, 5¾ to 6½ ... Barley, 8 to 8½. Maize, 6. Gram, 5½ to 5¾. Price of barley between normal and warning rates and of others generally above scarcity rates.	Standing extra rabi crops below average on irrigated and poor on unirrigated area. Yield of melons average.	Sowings of fodder continue in parts and are below normal. Standing crops below average on irrigated and poor on unirrigated area.

No.	Reporting station.	Rain.	1 Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3 Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Shahpur	...	1. Scarce in parts ... 2. (a) Do. (b) Lower Jhelum Canal flowing; supply sufficient.	Wheat, 5½ to 6 ... Gram, 5¾ to 6. Maize, 5½ to 5¾. Barley, 8. Prices at or above scarcity rate.	Rain badly wanted. Standing irrigated extra rabi crops fair.	Sowings of bajra and maize commenced on irrigated area. Standing irrigated crops fair.
11	Rawalpindi ...	...	1. Scarce ... 2. (a) Do. 3. Poor.	Wheat, 5¼ ... Barley, 7¾. Maize, 6½. Gram, 5¾. Bajra, 4¾. Jowar, 4. Prices of wheat and barley between warning and scarcity rates and of others above scarcity rate.	Standing irrigated extra rabi crops average.	...
12	Miánwáli ...	...	1. Insufficient ... 2. (a) Sufficient in Kacha and insufficient in Thal Circle. (b) Nammal Canal closed, Kurram Canal flowing; supply insufficient. 3. Fair in Kacha and poor in Thal Circle.	Wheat, 5¼ .. Gram, 6. Barley, 8. Bajra, 5½. Jowar, 3. Price of barley at warning rate and of others generally at or above scarcity rate.	Standing extra rabi crops average on irrigated and below average on unirrigated area.	...
13	Lyallpur	...	1. Sufficient ... 2. (b) Canal working by rotation; supply sufficient. 3 Good.	Wheat, 6¼ ... Gram, 6. Price of wheat between warning and scarcity rates and of gram above scarcity rate.	Standing extra spring crops average.	Sowings of cotton finished. Standing crops average.
14	Multán	..	1. Scarce ... 2. (b) Lower Bari Doab Canal flowing by rotation. 3 Fair.	Wheat, 6¼ Barley, 7¼ Gram, 6½. Jowar, 6¾. Bajra, 6¾. Maize, 6¾. Prices generally between warning and scarcity rates.	... Standing irrigated extra spring crops below average to average.	Sowings of cotton and jowar continue on irrigated area. Standing irrigated crops below average to average.

GENERAL REMARKS.

EXCEPT for light rain in parts of Amritsar weather remained dry. Rain is badly wanted for autumn sowings and for standing crops which are below average to average. Sowings of irrigated cotton, fodder and other autumn crops continue and are below normal. Extra spring crops are being reaped in parts of the south-east. Yield expected to be below normal to normal. Fodder is scarce in most districts. Cattle are generally weak. Water for drinking purposes is scarce in some districts. Prices have risen slightly in some districts and are stationary in others. They generally range between warning and scarcity rates. Prices of wheat:— Rawalpindi 5¼, Ambála 5¾, Ferozepore and Lahore 6 and Lyallpur 6¼ seers per rupee.

Barley, 8 to 8½. Maize, 6 to 6¼. Gram, 5½ to 5¾. Price of barley between normal and warning rates and of others generally above scarcity rate.	Standing extra rabi crops below average on irrigated and poor on unirrigated area. Yield of melons average.	Sowings of fodder continue in parts and are below normal. Standing crops below average on irrigated and poor on unirrigated area.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
10	Shahpur ...	0·02 at Sadr ... 0·20 at Bhera ...	1. Scarce in parts ... 2. (a) Do. (b) Lower Jhelum Canal flowing; supply sufficient. 3. Fair.	Wheat, 5¼ to 6 ... Gram, 5⅞ to 6. Maize, 5½ to 6¾. Barley, 8. Prices at or above scarcity rate.	Rain badly wanted. Standing irrigated extra rabi crops fair.	Sowings of bajra and maize continue on irrigated area and are normal. Standing irrigated crops fair.
11	Rāwalpindi ...	...	1. Scarce ... 2. (a) Do. 3. Poor.	Wheat, 5¼ ... Barley, 7¾. Gram, 5¼. Maize, 6. Bajra, 4¾. Jowar, 4¼. Prices of wheat and barley between warning and scarcity rates and of others above scarcity rate.	Standing irrigated extra rabi crops average.	Standing irrigated crops average.
12	Miānwāli ...	...	1. Insufficient ... 2. (a) Sufficient in Kacha and insufficient in Thal Circle. (b) Nammal Canal temporarily closed, Kurram Canal flowing; supply insufficient. 3. Fair in Kacha and poor in Thal Circle.	Wheat, 5¼ ... Gram, 6. Barley, 8. Bajra, 5½. Jowar, 5. Price of barley at warning rate and of others generally at or above scarcity rate.	Standing extra rabi crops average on irrigated and below average on unirrigated area. Reaping commenced. Yield expected to be below normal.	...
13	Lyallpur ...	...	1. Sufficient ... 2. (a) Do. (b) Canal working by rotation; supply sufficient. 3. Good.	Wheat, 6¼ ... Gram, 6. Price of wheat between warning and scarcity rates and of gram above scarcity rate.	Standing extra spring crops average.	Sowings of chari and moth in progress and are normal. Standing crops average.
14	Multān ...	...	1. Scarce ... 2. (b) Lower Bari Doab Canal flowing by rotation. 3. Poor.	Wheat, 6½ Barley, 7½ Gram, 6⅛. Jowar, 6¾. Bajra, 6⅜. Maize, 6⅜. Prices generally between warning and scarcity rates.	Rain badly wanted. Standing irrigated extra spring crops below average to average.	Sowings of cotton and jowar continue on irrigated area. Standing irrigated crops below average to average.

GENERAL REMARKS.

Except for light showers in parts of a few districts weather remained dry. Rain is badly wanted. Condition of standing crops is generally average on irrigated and below average on unirrigated area. Sowings of autumn crops continue and are below normal to normal. Extra spring crops being reaped in parts of the south-east. Expected yield below normal to normal. Cattle are generally weak owing to overwork and scarcity of fodder. Water for drinking purposes is scarce in some districts. Prices are generally stationary and range between warning and scarcity rates. Prices of wheat :— Rāwalpindi 5¼, Ambāla 5⅞, Ferozepore and Lahore 6 and Lyallpur 6¼ seers per rupee.

RAHIM BAKHSH,

Director of Land Records Punjab.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 28th May 1921, there were 875 births registered in the 37 large municipal towns (451 males and 424 females), giving a birth-rate of 39 *per mille* of population, and 1,000 deaths were registered (510 males and 490 females), giving a death-rate of 44 *per mille* of population. The death-rates registered in the three largest towns were as follows:—Lahore 52 against 53 in the corresponding week of the previous year; Amritsar 63 against 61 and Multán 31 against 52.

There were 6 deaths recorded from cholera in Lahore, 5 in Jhelum, 3 in Gujrát, 2 each in Amritsar, Jalálpur, and Ráwalpindi and 1 in Jagraon. Of the 11 deaths from small-pox, 2 each were registered in Lahore, Gujrát and Ráwalpindi and 1 each in Hánsi, Kasúr, Siálkot, Jhelum and Multán. Only one death was reported from plague in Ráwalpindi.

R. [illegible]. JENNINGS, SUPDT.,
for *Sanitary Commissioner, Punjab.*

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 13th June 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (*a*) Drinking. (*b*) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	0·05 at Sadr ...	1. Insufficient. Fodder is being imported. 2. (*a*) Scarce in parts. (*b*) Perennial Canals flowing; supply sufficient. 3. Fair.	Wheat, 5½ .. Gram, 6¼. Barley, 7½. Bajra, 5. Prices of wheat and barley between warning and scarcity rates and of others at or above scarcity rate.	Rain badly wanted. Standing irrigated extra rabi crops fair. Yield expected to be normal.	Sowings of cotton continue to a small extent on irrigated area.
2	Rohtak ...	0·41 at Sadr ... 0·04 at Jhajjar.	1. Insufficient ... 2. (*a*) Scarce. 3. Good.	Wheat, 6 ... Barley, 8 Jowar, 5½. Bajra, 5. Gram, 6. Prices of wheat and barley at warning rate and of others above scarcity rate.	Reaping of irrigated extra rabi crops finished.	Sowings of chari continue on irrigated area and are below normal. Condition of standing irrigated crops average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
3	Gurgaon ...	0·22 at Sadr ... 0·05 at Ballabgarh.	1. Sufficient ... 2. (a) Do. (b) Canal running, supply inadequate. 3. Generally good.	Wheat, 5½ to 6½ ... Barley, 8 to 9. Gram, 6¼ to 6¾. Jowar, 4 to 6. Maize, 5 to 7. Prices of jowar and gram at and above scarcity rate, respectively, and of others between normal and warning rates.	Rain badly wanted. Reaping of irrigated extra rabi crops continues. Expected yield normal.	Sowings of chari continue on irrigated area in Palwal Tahsil and are below normal. Standing irrigated crops good.
4	Ambála ...	0·08 at Kharar ... 0·23 at Rupar. 0·03 at Kasauli.	1. Insufficient ... 2. (a) Scarce. (b) Western Jumna Canal flowing; water adequate. 3. Cattle are generally suffering owing to scarcity of fodder and water.	Wheat, 5½ ... Gram, 6¾. Barley, 8. Maize, 7¾. Prices above scarcity rate or between warning and scarcity rates.	Rain badly wanted. Condition of standing extra spring crops on irrigated area average and on unirrigated area below average.	Condition of standing crops on irrigated area average and on unirrigated area below average.
	Jullundur ...	0·03 at Nakodar ... 0·66 at Phillour. 0·06 at Nawashahr.	1. Scarce ... 2. (a) Insufficient. 3. Cattle generally weak owing to hard work and scarcity of fodder.	Wheat, 5½ to 6 ... Gram, 5½. Maize, 6. Prices at or above scarcity rate.	Rain badly wanted. Condition of standing extra rabi crops average. Yield of melons normal.	Sowings of maize continue. Condition of sugarcane average.
6	Ferozepore ...	0·12 at Moga ...	1. Scarce ... 2. (a) Sufficient. (b) Sirhind Canal flowing; supply sufficient. Grey Canals closed. 3. Fair.	Wheat, 6½ Gram, 6. Barley, 9. Price of gram above scarcity rate and of others at warning rate.	Standing crops on irrigated area average.	Sowings of irrigated chari, &c., continue and are normal. Standing irrigated crops average.
7	Lahore ...	0·45 at Sadr ...	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Average.	Wheat, 6 ... Gram, 6. Price of wheat at warning rate and of gram above scarcity rate.	Standing extra spring crops average. Yield of melons normal.	Sowings of irrigated maize, chari and moth continue and are normal. Standing irrigated crops average.
8	Amritsar ...	0·30 at Sadr ... 0·21 at Tarn Taran.	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing by rotation; supply sufficient. 3. Average.	Wheat, 6½ ... Barley, 7¾. Gram, 5¾. Maize, 6¾. Jowar, 5. Bajra, 5½. Prices of wheat, jowar and bajra between warning and scarcity rates and of others above scarcity rate.	Condition of standing extra rabi crops is about average on irrigated and bad on unirrigated area.	Sowings of rice continue on irrigated area and are below normal. Standing crops about average on irrigated and bad on unirrigated area.
9	Siálkot ...	0·16 at Sadr ... 0·02 at Daska.	1. Scarce ... 2. (a) Scarce. (b) Canal flowing. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, 6 to 6½ ... Barley, 8. Maize, 6. Gram, 5¾ to 6. Prices generally between warning and scarcity rates or above scarcity	Standing extra rabi crops below average on irrigated and poor on unirrigated area. Yield of onions and melons average.	Standing crops below average on irrigated and poor on unirrigated area.

No.	Reporting station.	Rain.	1 Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3 Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
10	Shahpur ...	0·07 at Sadr ... 0·02 at Shahpur. 0·07 at Khushab.	1. Scarce in parts ... 2. (a) Do. (b) Lower Jhelum Canal flowing; supply sufficient. Inundation Canals also flowing, supply inadequate. 3. Fair.	Wheat, 5¼ to 6¼ ... Gram, 5¾ to 6. Maize, 5½ to 6¾. Barley, 8. Jowar, 6. Price of gram above scarcity rate and of others generally between warning and scarcity rates.	Rain badly wanted. Standing irrigated extra rabi crops fair.	Sowings of bajra and jowar continue on irrigated area and are below normal. Standing irrigated crops fair.
11	Ráwalpindi ...	0·11 at Murree ...	1. Scarce ... 2. (a) Do. 3. Poor.	Wheat, 5¼ ... Barley, 7¾. Gram, 5¼. Maize, 6. Bajra, 4¾. Jowar, 4¼. Prices of wheat and barley between warning and scarcity rates and of others above scarcity rate.	Standing irrigated extra rabi crops average	Standing irrigated crops average. Sowings continue.
12	Miánwáli ...	...	1. Insufficient ... 2. (a) Sufficient in Kacha and insufficient in Thal Circle. (b) Nammal Canal closed, Kurram Canal flowing; supply insufficient. 3. Fair in Kacha and poor in Thal Circle.	Wheat, 5¼ ... Gram, 6½. Barley, 8. Bajra, 5 1/16. Jowar, 5¼. Prices of gram and bajra above scarcity rate and of others between warning and scarcity rates.	Standing extra rabi crops average on irrigated and below average on unirrigated area. Reaping continues. Yield expected to be below normal.	...
13	Lyallpur ...	Report not	received.			
14	Multán ...	...	1. Scarce ... 2. (b) Lower Bari Doab and Mailsi Inundation Canals flowing by rotation. 3 Poor.	Wheat, 6¼ ... Barley, 7¼. Gram, 6⅛. Jowar, 6⅜. Bajra, 6⅜. Maize, 6⅜. Prices of gram and maize above scarcity rate and of others generally between warning and scarcity rates.	Rain badly wanted. Standing extra rabi crops below average.	Sowings of cotton, indigo and jowar continue on irrigated area and are below normal. Standing crops below average.

GENERAL REMARKS.

Light rain fell in parts of nearly all the reporting districts. More rain is badly wanted. Condition of standing crops is generally average on irrigated and below average on unirrigated area. Sowings of irrigated autumn crops continue and are generally below normal. Extra spring crops being reaped. Expected yield is below normal to normal. Cattle are generally weak owing to overwork and scarcity of fodder. Water for drinking purposes is scarce in some districts. Prices are generally stationary and range between warning and scarcity rates. Prices of wheat :— Ráwalpindi 5¼, Ambála 5¼, Lahore 6 and Ferozepore 6½ seers per rupee.

KATTI RAM, Supdt.,

(a) = Mean of 10 days.
(b) = Mean of 30 days.
(c) = Aneroid.
(e) = Mean of 29 days.
* Not reduced to sea level.

Four disturbances passed into north-west India during the month, but except at Drosh the rainfall due to them was very slight.

Pressure and Winds.—Atmospheric pressure was in considerable defect in the plains. Winds were stronger than usual in many places over the Punjab plains, but were weak at Murree, Peshάwar and Cherát. Wind directions had an abnormal southerly component in the Punjab plains generally.

Temperature.—Temperature was much higher than usual, especially the maximum which on the average of the whole month was mostly between 6° and 13° above normal. Very high temperatures for the time of the year were recorded during the first three weeks

The following table shows for each day of the month the departure from the normal of the mean temperature of the Punjab and the North-West Frontier Province, with the highest maximum temperature registered and the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

Humidity and Cloud.— As might be expected from the absence of rainfall, humidity and cloud were very much below the average.

Rainfall.—The total rainfall of the month was short of the normal at all the observing stations with the exception of Drosh. The month was rainless or almost so in the Punjab plains.

The following table gives the rainfall data for the Punjab and the North-West Frontier Province stations for March 1921 :—

Station.	Actual rainfall in March 1921.	Normal rainfall in March.	Departure from normal in March 1921.

* Under enquiry. (a) Elephant Brand. (b) Victoria Brand. (c) Sun Brand.

Quotations have not been shown in cases in which there have been no wholesale transactions.

NOTES.—Prices of rice as shown in the statement are for the quality in common demand.

Variations in prices are due to fluctuations in imports and exports.

In the statement for the fortnight ending 31st March 1921, under "Oats" against "Amritsar" *read* "Rs. 6-8-0" *for* "Rs. 2-2-0".
In the statement for the fortnight ending 15th May 1921, under "Kerosine oil" against "Ambála" *read* "Rs. 4-15-6" *for* "Rs. 4-2-0".

rain-gauge station.
averages have been fixed.

KATTI RAM, HEAD ASST. OF STATISTICS,
Office of Director of Land Records, Punjab.

Notes on the condition and prospects of crops, etc, in each district of the Punjab for the month of May 1921

1.—HISSAR DISTRICT.

Weather remained dry. Rain is badly wanted. Extra rabi crops were sown on canal irrigated area to some extent. Standing crops are withering on account of shortage of canal water and high winds. The yield of spring crops is below average. Cattle are weak owing to scarcity of fodder which is keenly felt and being imported from other districts. State of public health good. Water-supply in canals is quite insufficient. Water in some wells becoming brackish and getting dry.

2.—ROHTAK DISTRICT.

Weather remained dry. Sowings of irrigated sugarcane and chari continued in parts. Area sown is normal. Germination is good. Condition and expected yield of irrigated sugarcane are below average. Onion and tobacco are being harvested. Cattle are generally in good condition. Public health generally good. Supply of canal water inadequate.

3.—GURGAON DISTRICT.

There was no rainfall during the month. It is badly wanted. Cotton and chari were sown to some extent on irrigated area in parts. Area sown below normal. Reaping of extra rabi crops on irrigated area commenced. Standing irrigated Kharif crops are in good condition. Yield of extra rabi crops is expected to be normal. Cattle are generally in good condition. Fodder sufficient. Health of people generally good. Canal running; supply of water insufficient.

4.—KARNAL DISTRICT.

There was no rainfall during the month. Sowings of extra rabi crops finished on irrigated area. Irrigated sugarcane and cotton were sown in parts. Condition and expected yield of standing irrigated crops average and of unirrigated crops poor. Condition of cattle poor owing to scarcity of fodder and water. Public health is generally good. Canals are working but the supply is short of demand. Prices still remain very high.

5.—AMBALA DISTRICT.

Rainfall during the month was insufficient. Condition of extra rabi crops and sugarcane is average on irrigated and below average on unirrigated area. Threshing of rabi crops finished. Yield below normal. Reaping of tobacco in progress. Water in tanks has dried up. Fodder insufficient. Public health is generally good. Western Jumna Canal flowed continuously and water was adequate for irrigation purposes. Prices are rising.

6.—SIMLA DISTRICT.

Statement not received.

7.—KANGRA DISTRICT.

Rainfall during the month was much below average and insufficient for sowings. Sugarcane and cotton were sown on irrigated area in parts. Standing crops are suffering for want of rains. Yield of irrigated rabi crops is below average and of unirrigated crop poor. Cattle are in poor condition. Fodder scarce. Public health generally fair. Water in streams and kuhls insufficient for irrigation purposes. Prices are very high.

8.—HOSHIARPUR DISTRICT.

Except for light showers in Garhshanker Tahsil, weather remained dry. Rice was sown on irrigated area in parts. Condition of extra rabi crops is satisfactory on irrigated area. Cattle are weak on account of scarcity of fodder. Shah Nahr Canal continued to flow. Prices rising.

9.—JULLUNDUR DISTRICT.

Rainfall during the month was below the average. Sowings of chillies and maize commenced. Condition of irrigated extra rabi crops, cotton and sugarcane is average. Threshing of rabi crops finished. Outturn below normal. Cattle are generally weak owing to hard work and scarcity of fodder. Public health is generally good. Prices have slightly risen.

10.—LUDHIANA DISTRICT.

Rainfall during the month was below average. Cotton and fodder were sown during the month. Condition of standing crops is below average on irrigated and poor on unirrigated area. Yield expected to be below average. Condition of cattle generally satisfactory. Fodder scanty. Public health is satisfactory.

11.—FEROZEPORE DISTRICT

Weather remained dry. Irrigated extra rabi crops are in fair condition. Yield of gram and of irrigated wheat and barley about normal and of unirrigated crops poor. Condition of cattle is hardly satisfactory owing to scarcity of fodder. State of public health is satisfactory. Sirhind Canal worked steadily. Fazalwah worked only for a couple of days.

12.—LAHORE DISTRICT.

No rainfall during the month. Cotton, chari, maize and moth were sown on irrigated area only. Condition of standing crops is average on irrigated area. Yield expected to be normal. State of cattle average. Fodder insufficient. Public health generally good. Perennial canals ran regularly. Prices high.

13.—AMRITSAR DISTRICT.

Light showers of rain fell during the month. More rain is badly wanted. Condition and expected yield of extra rabi crops average on irrigated and bad on unirrigated area. Condition of cattle average. Public health is generally good. Canals are working by rotation; supply sufficient. Drinking water is sufficient.

14.—GURDASPUR DISTRICT.

Practically no rain fell during the month. Sowings of cotton and cane finished and of rice commenced on irrigated and sailab lands. Condition of standing crops on irrigated lands is below average and on unirrigated lands bad. Wheat and barley were threshed. Yield below normal. Cattle are becoming weak owing to scarioty of fodder and water. Public health generally good. Government canals are flowing and irrigating lands. Prices are rising gradually.

15.—SIALKOT DISTRICT.

Rainfall during the month was below average. Sowings of cotton, chari and moth continued. Condition of standing crops below average on irrigated and much below average on unirrigated area. Cattle are weak on account of hard work and scarcity of fodder. Public health generally good. Irrigation by canal continued. Water and bhoosa scarce.

16.—GUJRANWALA DISTRICT.

No rain fell during the month. Sowings of kharif crops below normal and of extra rabi crops normal. Yield of wheat on irrigated area is normal and on unirrigated area below normal. Condition of cattle is not good. White bhoosa and grazing are insufficient. State of the public health is generally good. Canal irrigation is done by rotational turns.

17.—SHEIKHUPURA DISTRICT.

Except for light showers in Khangah Dogran Tahsil weather remained dry. Sowings of chari and bajra in progress. Condition of standing crops is not good for want of rains. Yield expected to be below normal. Condition of cattle generally good. Fodder is scarce. Public health is generally good. Canals are working well.

18.—GUJRAT DISTRICT.

No rain fell during the month. Some fodder crops on irrigated lands were sown during the month. Condition of cotton, sugarcane and extra rabi crops on irrigated lands generally fair. Threshing of wheat finished. Yield is estimated to be ¾th of the average on irrigated and ½th of the average on unirrigated area. Fodder is scarce. Condition of cattle is fair. Public health is good. Canals running.

19.—SHAHPUR DISTRICT.

Light showers of rain fell at some places during the month. Rain is badly wanted everywhere. Sowings of cotton and extra rabi crops continued on irrigated lands. Area sown normal. Germination fair. Condition of standing crops is fair on irrigated and poor on unirrigated area. Harvesting of wheat finished. Outturn below normal. Fodder and drinking water are very scarce in Thal and Mohar Circles of Khushab Tahsil and fair elsewhere. Public health generally fair. Lower Jhelum Canal flowed; water supply adequate. Inundation Canals are also flowing; water-supply is inadequate.

20.—JHELUM DISTRICT.

No rain fell during the month. Condition of standing irrigated crops is bad. Condition of cattle poor. Fodder very scarce. Public health good.

21.—RAWALPINDI DISTRICT.

Light rain fell during the month. Condition of standing irrigated crops is fair. The cattle are suffering for want of fodder. No grazing is available. Public health is good.

22.—ATTOCK DISTRICT.

No rain fell during the month. Weather remained generally dry. Condition of standing crops on irrigated lands is fair. The estimated yield per acre of the rabi crops is as follows :—

			Irrigated	*Unirrigated.*
Wheat	...	...	300 seers.	100 seers.
Barley	...	...	400 „	100 „
Gram	...	...	...	80 „
Oilseeds	...	...	...	60 „

Condition of cattle very poor. Public health is generally good. Water in wells has gone low. Prices of food grains are rising.

23.—MIANWALI DISTRICT.

Very slight rain fell during the month in Miánwáli Tahsil. It is badly wanted. Condition of standing rabi crops average on irrigated and below average on unirrigated area. Condition of cattle is fair in Kacha, but poor in Thall. Fodder and grazing insufficient. Drinking water is sufficient in Kacha, but insufficient in Thall. Public health is generally fair. The Kurram Canals in Isa Khel are watering lands; water-supply insufficient. Nammal Canal is temporarily closed. Prices have reached scarcity rates.

24.—MONTGOMERY DISTRICT.

There was no rainfall during the month. Sowings of cotton, chari, rawan and moth continued during the month. Standing Zaid Rabi crops are in average condition. Yield is expected to be much below average. Outturn of wheat is reported to be six maunds per acre on irrigated and 3½ maunds per acre on unirrigated area. Condition of cattle is not good. Fodder is scanty. Public health is generally good. Lower Bari Doab Canal continued flowing throughout the month, but Inundation Canals in Sutlej Tahsils flowed for a few days. Prices remained very high.

25.—LYALLPUR DISTRICT.

Weather remained dry. Rain is badly wanted. Condition of standing crops average. Sowings of sugarcane and cotton finished. Chari and moth were sown during the month. Area sown normal. Threshing of wheat and other rabi crops finished. Condition of cattle good. Public health generally good. Canals working by rotational closures.

26.—JHANG DISTRICT.

No rain fell during the month. Cotton, rowan, chari, maize, jawar and bajra are being sown. Standing crops are below average on irrigated and bad on unirrigated area. Outturn of wheat is very much below average. Condition of cattle is bad and they are starving owing to the scarcity of fodder. The public health is generally good. Canals are flowing. Prices of food grains remained high.

27.—MULTAN DISTRICT.

No rain fell : it is badly wanted. Cotton and Jawar are being sown on the irrigated area. Wheat crop is being harvested. Outturn below normal. Condition of cattle very poor owing to the insufficiency of fodder. Public health is generally fair. Inundation Canals flowed with small supply of water. Bari Doab Canal in Khanewal Tahsil is working by rotation. Prices rising.

28.—MUZAFFARGARH DISTRICT.

No rain fell during the month. It is badly wanted. Sowings of jawar, bajra, chari and indigo are in progress in parts. Condition of standing crops is below average on irrigated and poor on unirrigated area. Harvesting of wheat practically finished. Yield is reported to be between 6 and 8 maunds per acre on irrigated and 4 and 6 maunds per acre on unirrigated area. Condition of cattle is very poor Scarcity of fodder is keenly felt Public health is generally good. Indus Canals continued flowing. Supply of water fair. The Chenab Canals opened at the very end of the month and have a short supply of water. The Indus has risen but the Chenab is falling. Prices of food gsains are rising.

29.—DERA GHAZI KHAN DISTRICT.

Practically there was no rainfall during the month. Sowings of melons, cotton, jawar, chari and rice in progress. Tne condition of crops is average Yield is expected to be below average. Condition of cattle is not good. The river is on the rise. The canals are flowing. Supply of water insufficient. Prices are stationary.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 4th June 1921, there were 802 births registered in the 34 large municipal towns (423 males and 379 females), giving a birth-rate of 37 *per mille* of population, and 856 deaths were registered (450 males and 406 females), giving a death-rate of 40 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 43 against 51 in the corresponding week of the previous year ; Amritsar 53 against 61 and Multán 40 against 61.

There were 4 deaths reported from cholera in Jalálpur, 2 in Ráwalpindi and 1 each in Jullundur, Lahore, Gujrát and Jhelum. Of the 11 deaths from small-pox, 4 were registered in Multán, 2 each in Ferozepore and Ráwalpindi and 1 each in Hoshiárpur, Amritsar and Siálkot.

Sanitary Commissioner's Office,
Lahore :
The 15th June 1921.

R. C. JENNINGS, Supdt.,
for *Sanitary Commissioner, Punjab.*

No. 25. LAHORE, FRIDAY, JUNE 24, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 20th June 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Insufficient. Fodder is being imported. 2. (a) Scarce in parts. (b) Perennial Canals dry. 3. Fair.	Wheat, 5¼ Gram, 6¼ Barley, 7¾. Bajra, 5. Prices of wheat and barley between warning and scarcity rates and of others at or above scarcity rates.	Standing irrigated extra rabi crops fair. Yield expected to be normal.	Rain badly wanted. Condition of standing crops on irrigated area fair.
2	Rohtak ...	...	1. Insufficient ... 2. (a) Scarce. 3. Generally good.	Wheat, 6 ... Barley, 8 Jowar, 5½. Bajra, 5. Gram, 6. Prices of wheat and barley at warning rate and of others above scarcity rate.	...	Sowings of cotton continue on irrigated area and are below normal. Condition of irrigated sugarcane and cotton average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
3	Gurgaon ...	...	1. Sufficient ... 2. (a) Do. (b) Canal running, supply inadequate. 3. Generally good.	Wheat, 5¼ to 5¾ ... Barley, 8 to 8½. Gram, 5¼ to 6½. Jowar, 4 to 5½. Maize, 4½ to 7. Prices of gram and jowar above scarcity rates and of others between normal and warning rates.	Reaping of irrigated extra rabi crops finished. Yield normal.	Rain badly wanted. Sowings of chari and cotton continue on irrigated area in Palwal Tahsil and are below normal. Standing irrigated crops good.
4	Ambála ...	0·12 at Sadr ... 0·05 at Jagadhri. 0·66 at Naraingarh. 0·81 at Kharar 1·25 at Rupar. 0·32 at Kasauli.	1. Insufficient. Fodder being imported. (b) Western Jumna Canal flowing; water adequate. 3. Generally good.	Wheat, 5¾ ... Gram, 6½. Barley, 7¾. Prices above scarcity rate or between warning and scarcity rates.	Condition of standing extra rabi crops on irrigated area average and on unirrigated area below average.	More rain is wanted. Condition of standing crops on irrigated area average and on unirrigated area below average.
5	Jullundur ...	...	1. Scarce ... 2. (a) Water in wells has gone down. 3. Cattle generally weak owing to hard work and scarcity of fodder.	Wheat, 5 to 6 ... Gram, 5. Maize, 6. Prices at or above scarcity rate.	Condition of standing irrigated extra rabi crops average.	Rain badly wanted. Sowings of maize continue. Condition of sugarcane average. Crops slightly damaged by high winds.
6	Ferozepore ...	Report not received.				
7	Lahore ...	...	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Average.	Wheat, 6 ... Gram, 6. Price of wheat at warning rate and of gram above scarcity rate.	Condition and expected yield of irrigated tobacco average.	Sowings of irrigated maize, and chari continue and are normal. Standing irrigated cotton and sugarcane average.
8	Amritsar ...	...	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing by rotation; supply sufficient. 3. Average.	Wheat, 6¼ ... Barley, 7¾ Gram, 5¾. Maize, 6¾. Jowar, 5. Bajra, 5¼. Prices of wheat, jowar and bajra between warning and scarcity rates and of others above scarcity rate.	Condition of standing extra rabi crops is about average on irrigated and bad on unirrigated area.	Rain badly wanted. Sowings of rice and chari continue on irrigated area and are below normal. Standing crops about average on irrigated and bad on unirrigated area.
9	Siálkot ...	0·52 at Zafarwál .	1. Scarce ... 2. (a) Scarce. (b) Canal flowing. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, 5¾ to 6 ... Barley, 8. Maize, 6. Gram, 5¾ to 6. Prices generally between warning and scarcity rates or above scarcity rate.	Condition of standing extra rabi crops below average on irrigated and poor on unirrigated area.	Rain badly wanted. Standing crops below average on irrigated and poor on unirrigated area.

No.	Reporting station.	Rain.	1 Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3 Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Shahpur ...	...	1. Scarce in Thal and Mohor Circle of Khushâb Tahsil. 2. (a) Ditto. (b) Lower Jhelum Canal flowing; supply sufficient. Inundation Canals also flowing, supply inadequate. 3. Fair.	Wheat, 5¾ to 6 ... Gram, 5¾ to 5⅞. Maize 6 to 6¼. Bajra, 6. Barley, 8. Price of maize between warning and scarcity rates and of others at or above scarcity rate.	Standing irrigated extra rabi crops fair.	Rain badly wanted. Sowings of bajra and jowar continue on irrigated area and are below normal. Standing irrigated crops fair.
11	Râwalpindi ...	0·14 at Sadr ... 2·.9 at Murree ... 1·12 at Gujar Khan. 0·22 at Kahuta.	1. Scarce ... 2. (a) Sufficient. 3. Poor.	Wheat, 5¼ ... Barley, 7½. Gram, 5¾. Maize, 5¾. Bajra, 4¾. 12	Miânwâli ...	...	1. Insufficient ... 2. (a) Sufficient in Kacha and insufficient in Thal. (b) Nammal Canal closed, Kurram Canal flowing; supply insufficient. 3. Fair in Kacha and poor in Thal.	Wheat, 5¼ ... Gram, 6¼. Jowar, 5½. Bajra, 5. Barley, 7½. Prices of gram and bajra above scarcity rate and of others between warning and scarcity rates.	Standing extra rabi crops average on irrigated and below average on unirrigated area. Reaping continues. Yield below normal to normal.	...
13	Lyallpur ...	...	1. Insufficient ... 2. (a) Sufficient. (b) Canal working by rotation; supply sufficient. 3. Good.	Wheat, 6 ... Gram, 6. Price of wheat at scarcity rate and of gram above scarcity rate.	Standing extra rabi crops average.	Sowings of chari and moth in progress. Standing crops average.
14	Multân ...	...	1. Scarce ... 2. (b) Lower Bari Doab and Mailsi Inundation Canals flowing by rotation; supply insufficient. 3. Poor.	Wheat, 6 ... Barley, 7½. Gram, 6. Jowar, 6¾. Bajra, 5¾. Maize, 6¼. Prices of gram, bajra and maize above scarcity rate and of others generally between warning and scarcity rates.	Harvesting of extra rabi crops finished.	Rain badly wanted. Sowings of cotton, indigo and jowar continue on irrigated area and are below normal. Standing crops below average.

GENERAL REMARKS.

EXCEPT for light rain in parts of submontane districts, weather remained dry. Rain is badly wanted for autumn sowings and standing crops which are generally average on irrigated and below average on unirrigated area. Sowings of irrigated cotton, fodder and other autumn crops continue and are generally below normal. Extra spring crops being reaped. Yield below normal to normal. Cattle are generally weak owing to overwork and scarcity of fodder. Drinking water is scarce in some districts. Prices are generally stationary and range between warning and scarcity rates. Stocks of food-grains generally sufficient. Prices of wheat :— Râwalpindi 5¼, Ambâla 5¼, Lahore and Lyallpur 6 seers per rupee.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 11th June 1921, there were 793 births registered in the 33 large municipal towns (418 males and 375 females), giving a birth-rate of 43 *per mille* of population, and 755 deaths were registered (372 males and 383 females), giving a death-rate of 41 *per mille* of population. The death-rates registered in the two largest towns were as follows :—Lahore 48 against 47 in the corresponding week of the previous year; and Multán 40 against 36.

There were 28 deaths recorded from cholera in Jalálpur, 10 in Ráwalpindi, 2 each in Rewári, Lahore and Gujrát and 1 each in Kaithal and Jagraon. Of the 11 deaths from small-pox, 7 were registered in Lahore and 1 each in Hoshiárpur, Ferozepore, Ráwalpindi and Multán.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 27th June 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1 Supply of fodder. 2 Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	·19 at Sadr ...	1. Insufficient. Fodder is being imported. 2. (a) Scarce in parts. (b) Perennial canals dry. 3. Poor.	Wheat, 5½ ... Gram, 6¼. Barley, 7½. Bajra, 4½. Prices of wheat and barley between warning and scarcity rates and of others above scarcity rate.	Standing irrigated extra rabi crops fair. Yield expected to be normal.	Rain badly wanted. Condition of cotton and chari on irrigated area fair. Yield expected to be normal.
2	Rohtak	1·46 at Sadr ... 0·39 at Jhajjar. 0·10 at Gohána. 0·05 at Sonepat.	1. Insufficient ... 2. (a) Scarce in parts. 3. Generally good.	Wheat, 6 Barley, 8 Gram, 6. Jowar, 5½. Bajra, 5 Prices of wheat and barley at warning rate and of others above scarcity rate.	...	Sowings of cotton and of unirrigated millets continue and are below normal. Condition of irrigated sugarcane, cotton and chari is average.

		Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
3	Gurgaon ...	0·52 at Sadr ... 0·92 at Rewári. 0·03 at Ballabgarh.	1. Sufficient ... 2. (a) Do. (b) Canal running, supply inadequate. 3. Generally good.	Wheat, 5 to 6¼ ... Barley, 7¾ to 8¼. Jowar, 4 to 5. Gram, 5¾ to 6¼. Bajra, 4½ to 6. Maize, 4 to 7. Prices of gram and jowar above scarcity rate and of others between normal and warning rates.	...	More rain wanted. Sowings of chari and cotton on irrigated area in Palwal Tahsil and of bajra, jowar and pulses on unirrigated area in parts of Rewári and Ballabgarh Tahsils continue and are below normal. Standing irrigated crops good.
4	Ambála ...	0·86 at Kharar ... 0·40 at Rupar. 0·84 at Kasauli.	1. Insufficient ... 2. (b) Western Jumna Canal flowing; water adequate. 3. Generally good.	Wheat, 5¼ ... Gram, 6½. Barley, 7¾. Price of gram above scarcity rate and of others between warning and scarcity rates.	Condition and expected yield of standing extra rabi crops average on irrigated and below average on unirrigated area.	More rain wanted. Condition of standing crops on irrigated area average and on unirrigated area below average.
5	Jullundur ...	0·63 at Sadr ... 0·10 at Phillaur 0·77 at Nawashahr.	1. Scarce ... 2. (a) Water in wells has gone down 3. Cattle generally weak owing to hard work and scarcity of fodder.	Wheat, 5¾ ... Gram, 6. Maize, 6½. Prices above scarcity rate.	Condition of standing irrigated extra rabi crops average. Reaping of tobacco commenced. Expected yield below average.	More rain wanted. Sowings of maize continue. Condition of standing irrigated crops average. Crops slightly damaged by high winds.
6	Ferozepore ...	0·28 at Sadr ... 0·30 at Moga. 0·78 at Zira. 0·85 at Ferozepore City.	1. Scarce ... 2. (a) Sufficient. (b) Sirhind Canal flowing; supply sufficient. Grey Canal commenced to flow. 3. Fair.	Wheat, 5¾ ... Gram, 5¾. Barley, 8. Prices generally at or above scarcity rate.	Standing crops on irrigated area fair.	Sowings of chari, &c., on irrigated area continue and are normal. Standing irrigated crops fair.
7	Lahore ...	1·11 at Sadr ... 0·30 at Kasúr.	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Average.	Wheat, 6 ... Gram, 6. Price of wheat at warning rate and of gram above scarcity rate.	Condition and expected yield of irrigated extra rabi crops average.	Sowings of irrigated maize and jowar continue and are normal. Standing irrigated crops average.
8	Amritsar ...	1·22 at Sadr ... 0·10 at Ajnála. 2·08 at Tarn Táran.	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing by rotation; supply sufficient. 3. Average.	Wheat, 6 1/16. Gram, 5 15/16. Barley, 7¾. Maize, 6½. Jowar, 4½. Bajra, 5½. Prices of wheat, and bajra between warning and scarcity rates and of others above scarcity rate.	Condition of standing extra rabi crops is about average on irrigated and bad on unirrigated area.	Sowings of rice and chari continue on irrigated area and are below normal. Standing crops about average on irrigated and bad on unirrigated area.
9	Siálkot ...	0·28 at Sadr ... 0·09 at Pasrúr. 0·10 at Raya. 0·08 at Daska.	1. Scarce ... 2. (a) Scarce. (b) Canals flowing. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, 5¾ to 6 ... Barley, 8 Maize, 6. Gram, 5¼ to 5½. Price of barley at warning rate and of others at or above scarcity rate.	Condition of standing extra rabi crops below average on irrigated and poor on unirrigated area.	More rain is badly wanted. Standing crops below average on irrigated and poor on unirrigated area.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Shahpur ...	0·39 at Sadr ... Light showers also fell at other places.	1. Scarce in Thal and Mohar Circles of Khushâb Tahsil. 2. (a) Ditto. (b) Lower Jhelum Canal flowing; supply sufficient. Inundation Canals also flowing, supply inadequate. 3. Fair.	Wheat, 5¾ to 5⅞ ... Gram, 5¾ to 5½. Maize, 5¾ to 6¾. Bajra, 6. Barley, 7. Price of maize between warning and scarcity rates and of others at or above scarcity rate.	Standing irrigated extra rabi crops fair.	More rain wanted. Sowings of bajra, jowar and maize continue on irrigated area and are below normal. Standing irrigated crops fair.
11	Râwalpindi ...	0·30 at Sadr ... 0·03 at Murree ... 0·64 at Gujar Khan. 0·34 at Kahúta.	1. Scarce ... 2. (a) Sufficient. 3. Poor.	Wheat, 5¼ ... Barley, 6½. Gram, 5¾. Maize, 5¾. Bajra, 4¾. Jowar, 4½. Price of wheat between warning and scarcity rates and of others above scarcity rate.	Standing irrigated extra rabi crops average.	Standing irrigated crops average.
12	Miánwâli ...	0·97 at Sadr ... 0·02 at Isa Khel.	1. Insufficient ... 2. (a) Sufficient in Kacha and insufficient in Thal. (b) Nammal Canal closed, Kurram Canal flowing; supply insufficient. 3. Poor.	Wheat, 5¼ Gram, 6. Barley, 7½. Bajra, 5. Jowar, 5. Prices of wheat and barly between warning and scarcity rates and of others at or above scarcity rate.	Standing extra rabi crops below average on irrigated and poor on unirrigated area. Reaping continues. Yield below normal.	...
13	Lyallpur ...	0·29 at Sadr ... 1·30 at Samundri. 0·49 at Toba Tek Singh.	1. Green fodder insufficient. 2. (a) Sufficient. (b) Canals working by rotation; supply sufficient. 3. Good.	Wheat, 6 ... Gram, 6. Price of wheat at scarcity rate and of gram above scarcity rate.	Standing extra rabi crops average.	Sowings of fodder in progress. Standing crops average.
14	Multán ...	0·14 at Sadr ...	1. Scarce ... 2. (a) Inundation Canals except Sidhnai Canal flowing. 3. Poor.	Wheat, 6 ... Barley, 7½. Gram, 6. Jowar, 6¾. Bajra, 5¾. Maize, 6¼. Prices of gram, bajra and maize above scarcity rate and of others between warning and scarcity rates.	...	Sowings of rice, jowar and cotton continue on irrigated area and are below normal. Standing crops below average.

GENERAL REMARKS.

LIGHT rain fell in parts of all the reporting districts and was useful. More rain is badly needed. Condition of standing extra spring and autumn crops is generally average on irrigated and below average on unirrigated area. Sowings of irrigated cotton, fodder and other autumn crops continue and are generally below normal. Extra spring crops being reaped. Expected yield below normal to normal. Cattle are generally weak owing to overwork and scarcity of fodder. Drinking water is scarce in some districts. Prices are generally stationary and range between warning and scarcity rates. Stocks of food-grains generally sufficient. Prices of wheat :— Râwalpindi 5¼, Ambâla 5¾, Ferozepore 5¾, Lahore and Lyallpur 6 seers per rupee.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 18th June 1921, there were 956 births registered in the 38 large municipal towns (504 males and 452 females), giving a birth-rate of 42 *per mille* of population, and 950 deaths were registered (499 males and 451 females), giving a death-rate of 41 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 41 against 43 in the corresponding week of the previous year; Amritsar 58 against 43 and Multán 45 against 38.

There were 14 deaths recorded from cholera in Jalálpur, 4 in Ráwalpindi, and 1 each in Kaithal, Jullundur, Lahore and Jhelum. Of the 6 deaths from small-pox, 3 were registered in Multán and 1 each in Lahore, Amritsar and Siálkot.

Sanitary Commissioner's Office,
Lahore :
The 29th June 1921.

R. C. JENNINGS, Supdt.,
for *Sanitary Commissioner, Punjab.*

PUNJAB AND ITS DEPENDENCIES

Published by Authority.

No. 27. LAHORE, FRIDAY, JULY 8, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 4th July 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1 Supply of fodder. 2 Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·35 at Hánsi ... 0·70 at Fatehábad. 0·21 at Bhiwáni. 0·80 at Budhláda.	1. Scarce. Fodder is being imported. Cattle ponds dry. Water in wells reduced. (b) Perennial canals dry. 3. Cattle dying of starvation in some villages.	Wheat, 5¾ ... Gram, 6¼. Barley, 7½. Bajra, 4¾. Jowar, 4. Prices of wheat and barley between warning and scarcity rates and of others above scarcity rate.	...	Rain badly wanted. Sowings of bajra, jowar and moth continue in some villages of Fatehábad Tahsil and are restricted. Standing crops on irrigated area suffering from shortage of canal water. Famine test works being started.
2	Rohtak .	0·06 at Jhajjar ... 0·50 at Sángla.	1. Insufficient in parts 2. (a) Scarce. 3. Generally good.	Wheat, 5¼ ... Barley, 8 Gram, 6. Jowar, 5. Bajra, 5 Prices of wheat and barley between warning and scarcity rates and of others above scarcity rate.	...	Rain was insufficient and more is badly wanted. Sowings of irrigated cotton, mung and millets continue and are below normal. Germination fair. Condition of irrigated sugarcane and cotton is average and of unirrigated jowar and bajra below average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
3	Gurgaon ...	0·81 at Rewári ... 0·38 at Núh.	1. Scarce in parts ... 2. (a) Sufficient. (b) Canal running; supply inadequate. 3. Generally good.	Wheat, $5\frac{1}{4}$ to 6 ... Barley, $7\frac{1}{2}$ to 8. Jowar, 4 to 5. Gram, 6 to $6\frac{1}{2}$. Bajra, 4 to $5\frac{1}{2}$. Maize, 4 to 6. Price of gram above scarcity rate and of others between warning and scarcity rates.	...	Rain was insufficient and more is badly wanted. Sowings of chari and cotton on irrigated area and of bajra, jowar and pulses on unirrigated area in parts of Rewári, Gurgaon, Núh and Firozpur Tahsils continue and are below normal. Germination good. Standing irrigated crops good and unirrigated crops fair. Crops damaged by hot winds.
4	Ambála ...	0·53 at Sadr ...	1. Scarce ... 2. (a) Do. 2. (b) Canal flowing; water adequate. 3. Cattle weak owing to scarcity of fodder and water.	Wheat, $5\frac{9}{16}$. ... Gram, $5\frac{11}{16}$. Barley, $7\frac{11}{16}$. Price of gram above scarcity rate and of others between warning and scarcity rates.	Condition of standing extra rabi crops average on irrigated and below average on unirrigated area. Expected yield below normal.	Rain is badly wanted. Condition of standing crops average on irrigated and below average on unirrigated area. Crops suffering from drought.
5	Jullundur ...	0·12 at Nakodar ...	1. Scarce ... 2. (a) Water in wells has gone down. 3. Cattle generally weak owing to hard work and scarcity of fodder.	Wheat, $5\frac{3}{4}$ ... Gram, $5\frac{1}{4}$. Maize, 6. Barley, 7. Prices at or above scarcity rate.	Standing irrigated extra rabi crops average. Reaping of tobacco continues. Yield below normal.	Rain badly wanted. Sowings of maize continue. Condition of standing irrigated crops average. High winds damaged the standing crops to a little extent.
6	Ferozepore ...	...	1. Scarce ... 2. (a) Sufficient. (b) Sirhind Canal flowing; supply sufficient. Grey Canal also commenced to flow. 3. Generally fair.	Wheat, $5\frac{3}{4}$ ... Gram, $5\frac{3}{4}$. Barley, 8. Prices of wheat and barley between warning and scarcity rates and of gram above scarcity rate.	Standing crops on irrigated area fair.	Sowings of chari, &c., on irrigated area continue and are normal. Standing irrigated crops fair.
7	Lahore ...	0·12 at Chunián ... 1·13 at Kasúr.	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing; water sufficient. 3. Average.	Wheat, $5\frac{3}{4}$ ... Gram, $5\frac{3}{4}$. Price of wheat between warning and scarcity rates and of gram above scarcity rate.	Condition and expected yield of irrigated tobacco below average.	Sowings of irrigated fodder continue and are normal. Standing irrigated crops average.
8	Amritsar ...	0·17 at Sadr ... 0·16 at Ajnála. 0·51 at Tarn Táran.	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing by rotation; supply sufficient. 3. Average.	Wheat, $6\frac{1}{16}$ ... Gram, $5\frac{13}{16}$. Barley, $7\frac{3}{4}$ Maize, $6\frac{5}{8}$ Jowar, $5\frac{1}{2}$. Bajra, $5\frac{1}{2}$. Prices of gram and jowar above scarcity rates and of others between warning and scarcity rates.	Condition of standing extra rabi crops is about average on irrigated and bad on unirrigated area.	Sowings of chari and irrigated rice continue and are below normal. Standing crops about average on irrigated and bad on unirrigated area.
9	Siálkot ...	0·13 at Pasrúr. ... 0·11 at Daska.	1. Insufficient ... 2. (a) Do. (b) Canals flowing. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, $5\frac{3}{4}$ to 6 ... Maize, 6. Barley, 8 Gram, $5\frac{1}{2}$ to $5\frac{3}{4}$. Prices of wheat and barley at warning rate and of others at or above scarcity rates.	Condition of standing extra rabi crops below average on irrigated area. Yield of tobacco poor on canal irrigated area.	Rain is badly wanted. Standing crops below average on irrigated area. Sugarcane and cotton crops are withering from heat. Sowings of rice and fodder continue and are below normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
10	Shahpur ...	0·38 at Bhalwal ... 0·68 at Shahpur. 0·75 at Khusháb.	1. Scarce in Thal and Mohar Circles of Khusháb Tahsil. 2. (a) Ditto. (b) Lower Jhelum Canal flowing; supply sufficient. Inundation Canals also flowing, supply inadequate. 3. Fair.	Wheat, 5½ to 5¾ Gram, 5⅞ to 6. Maize, 5¾ to 6¼. Bajra, 6. Price of maize between warning and scarcity rates and of others at or above scarcity rate.	Standing irrigated extra rabi crops fair.	Rain was beneficial to standing crops. More rain wanted. Sowings of jowar bajra and maize, continue on irrigated area and commenced on unirrigated area and are normal. Standing irrigated crops fair.
11	Ráwalpindi ...	0·10 at Gujar Khan 0·19 at Kahúta. 0·60 at Murree.	1. Scarce ... 2. (a) Sufficient. 3. Poor.	Wheat, 5¼ ... Barley, 6¼ Gram, 5¾ Maize, 5¾. Bajra, 4¾. Jowar. 3¾. Price of wheat between warning and scarcity rates and of others above scarcity rate.	Standing irrigated extra rabi crops below average.	Rain badly wanted. Sowings commenced in parts. Standing irrigated crops below average.
12	Miánwáli ...	0·10 at Isa Khel ... 0·13 at Bhakkar.	1. Insufficient ... 2. (a) Sufficient in Kacha and insufficient in Thal. (b) Nammal Canal closed, Kurram Canal flowing; supply insufficient. 3. Poor.	Wheat, 5¼ Gram, 6. Barley, 7½. Jowar, 5. Bajra, 5. Prices of wheat and barley between warning and scarcity rates and of others at or above scarcity rates.	Standing extra rabi crops below average on irrigated and poor on unirrigated area. Reaping continues.	Sowings commenced in Miánwáli and Isa Khel Tahsils and are below normal.
13	Lyallpur ...	0·71 at Sadr ... 0·90 at Samundri. 0·72 at Jaranwála. 0·91 at Toba Tek Singh.	1. Sufficient. ... 2. (a) Ditto. (b) Canal working by rotation; supply sufficient. 3. Good.	Wheat. 6 ... Gram, 6. Price of wheat at warning rate and of gram at scarcity rate.	Standing extra rabi crops average.	Sowings of fodder in progress. Standing crops average.
14	Multán ...	0·21 at Shujabád... 1·02 at Lodhrán. 0·17 at Mailsi. 0·08 at Kabirwála.	1. Insufficient. ... 2. (b) Inundation Canals except Sidhnai Canal flowing by rotation. 3. Poor.	Wheat, 5¼ Barley, 7¼ Gram, 6. Jowar, 5⅝. Maize, 5⅝. Prices of wheat, and barley between warning and scarcity rates and of others at or above scarcity rate.	Standing extra rabi crops below average.	Rain was useful for standing crops. Sowings of irrigated rice, jowar and cotton continue and are below normal. Standing crops below average.

GENERAL REMARKS.

Light rain fell in parts of nearly all the reporting districts. Rain, though useful, was quite insufficient and more is badly needed. Standing extra spring and autumn crops are generally about average on irrigated lands. They are much below average on unirrigated areas and withering in several districts. Sowings of cotton, fodder and other autumn crops continue and are generally below normal. Extra spring crops being reaped. Expected yield below normal. Cattle generally weak owing to overwork and scarcity of fodder. Drinking water scarce in some districts. Prices advanced slightly in some and stationary in other districts. Prices of wheat and barley generally between warning and scarcity rates and of others at or above scarcity rate. Stocks of food-grains generally sufficient. Prices of wheat :— Ráwalpindi 5¼, Ambála 5⅞, Ferozepore and Lahore 5¾, and Lyallpur 6 seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB AND THE NORTH-WEST FRONTIER PROVINCE DURING APRIL 1921.

(a) = Mean of 20 days.
(b) = Mean of 28 days.
(c) = Aneroid.
* Not reduced to sea level.

Six western disturbances passed into north-west India but the month's rainfall was in defect over practically the whole area.

Pressure and Winds.—Barometric pressure was above normal at the hill stations and below it generally over the plains. Wind direction was abnormal at Hissar, Ambála, Ludhiána, Murree and Peshávar. The velocity was higher than usual at Ambála and Ráwálpindi, and lower at Montgomery, Murree, Peshávar and Cherát.

Temperature.—Maximum and minimum temperatures were exceptionally high. April 1921 was indeed the hottest April in north-west India since 1892.

The following table shows for each day of the month the departure from the normal of the mean temperature of the Punjab and the North-West Frontier Province, with the highest maximum temperature registered and the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

" 15th ...	+8·7	106·0	Hissar.				
" 16th ...	+7·4	106·6	Do.				

Humidity and Cloud.—The air was much drier, and the sky was less clouded than usual.

Rainfall.—In the Punjab and the North-West Frontier Province the month's total fall was much below the normal everywhere, with the exception of Ambála where it was in excess. Little or no rain fell at Hissar, Montgomery, Lahore, Khusháb, Lyallpur, Multán and Dera Ismail Khan.

The following table gives the rainfall data for the Punjab and the North-West Frontier Province stations for April 1921 :—

Station.	Actual rainfall in April 1921.	Normal rainfall in April.	Departure from normal in April 1921.	Station.	Actual rainfall in April 1921.	Normal rainfall in April.	Departure from normal in April 1921.

No. 29. LAHORE, FRIDAY, JULY 22, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 18th July 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1 Supply of fodder. 2 Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	1·20 at Sadr ... 0·16 at Hánsi. 0·26 at Bhiwáni. 0·15 at Tohána. 0·90 at Sirsa.	1. Scarce. Fodder being imported. 2. (a) Water-supply in wells reduced. (b) Perennial canals running. Supply insufficient. 3. Cattle dying of starvation in some villages.	Wheat, 5½ ... Gram, 5¾. Bajra, 4½. Barley, 7½. Price of wheat between warning and scarcity rates and of others above scarcity rate.	...	Rain was useful but more is wanted. Sowings of bajra and jowar commenced in Hissar Tahsil. Area sown below normal. Standing irrigated crops good. Test works commenced.
2	Rohtak ..	2·67 at Sadr ... 1·42 at Jhajjar. 0·10 at Gohána. 0·98 at Sonepat.	1. Insufficient in parts. Recent rain will improve the situation to some extent. 3. Generally bad.	Wheat, 5 ... Gram, 5½. Jowar, 5. Bajra, 5. Barley, 8. Price of barley between warning and scarcity rates and of others at or above scarcity rate.	...	More rain wanted. Sowings of unirrigated jowar, mung and bajra commenced and are below normal. Condition of irrigated sugarcane below average; of cotton and bajra average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for — (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
3	Gurgaon ...	0·50 at Sadr. 1·01 at Rewari. 0·03 at Nuh. 0·41 at Firozpur. 0·14 at Palwal. 0·03 at Ballabgarh.	1. Scarce. Leaves of trees being used as fodder. 2. (a) Sufficient. Water in wells becoming short to some extent in parts. (b) Canals running; supply inadequate. 3. Cattle generally good, but in parts of the district they are becoming weak on account of scarcity of fodder.	Wheat, 5 to 6½ ... Barley, 7 to 7½. Jowar, 4 to 5. Gram, 5¾ to 6. Bajra, 4¼ to 6. Maize, 4 to 6. Prices of wheat, barley, bajra and maize between warning and scarcity rates and of others at or above scarcity rates Food-grains sufficient for present needs. Agriculturists generally have no stock of grains.	...	Rain was not sufficient and more is badly wanted. Sowings of irrigated chari and unirrigated jowar, bajra and pulses continue in parts and are below normal. Germination good. Standing crops fair on irrigated and bad on unirrigted area.
4	Ambála ...	0·42 at Sadr. 1·72 at Jagadhri. 2·02 at Naraingarh 0·49 at Kharar. 0·53 at Rúpar. 2·80 at Kasauli.	1. Scarce ... 2. (a) Do. (b) Canal flowing; water adequate. 3. Cattle weak owing to scarcity of fodder and water.	Wheat, 5 3/16. ... Gram, 5 1/16. Barley, 7½. Price of gram above scarcity rate and of others between warning and scarcity rates. Stocks of food-grains insufficient.	...	More rain badly wanted. Ploughing in progress. Standing irrigated crops average and unirrigated below average. Sowings of cotton, jowar, moth and maize continue and are below normal.
5	Jullundur ...	1·76 at Sadr. 0·80 at Nakodar. 1·38 at Phillaur. 1·43 at Nawanshahr.	1. Scarce ... 2. (a) Water in wells has gone down. 3. Cattle generally weak owing to hard work and scarcity of fodder.	Wheat, 5¼ ... Gram, 5½. Maize, 6. Barley, 7. Prices at or above scarcity rate. Stocks of food grains insufficient both in the hands of traders and others.	Reaping of tobacco finished. Yield below normal.	Rain was useful for standing crops and for sowings. More rain badly wanted. Sowings of fodder and of irrigated maize commenced. Standing irrigated crops average.
6	Ferozepore ...	1·49 at Sadr. 0·72 at Moga. 0·18 at Zira. 1·16 at Muktsar. 0·40 at Nathana 1·30 at Abohar.	1. Scarce ... 2. (a) Sufficient. (b) Sirhind and Grey Canals flowing; supply sufficient. 3. Fair.	Wheat, 5 ... Gram, 5⅝. Barley, 7½. Price of barley between warning and scarcity rates and of others at or above scarcity rate. Stocks of food-grains in the hands of traders sufficient.	Standing extra rabi crops on irrigated area fair. Reaping continues.	Sowings on irrigated area continue and are normal. Standing irrigated crops fair.
7	Lahore ...	0·17 at Sadr. 0·16 at Chunian.	1. Insufficient ... 2. (a) Sufficient. (b) Perennial canals flowing; supply insufficient. Inundation canals dry. 3. Cattle growing weak owing to scarcity of fodder.	Wheat, 5 ... Gram, 5 5/16. Prices at or above scarcity rate. Stocks of food-grain sufficient.	...	Sowings of irrigated rice continue and are below normal. Standing irrigated sugarcane, cotton, chari and moth average.
8	Amritsar ...	0·24 at Sadr. 0·18 at Tarn Taran. 1·20 at Ajnala.	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing by rotation; supply sufficient. 3. Cattle bad owing to scarcity of fodder and overwork.	Wheat, 5 7/16 ... Gram, 5 11/16. Barley, 7 Maize, 6¼. Jowar, 4 11/16. Bajra, 4¾. Price of maize between warning and scarcity rates and of others at or above scarcity rate. Stocks of food-grains sufficient.	...	Sowings of irrigated rice and chari continue and are below normal Standing crops about average on irrigated and bad on unirrigated area.
9	Siálkot ...	0·85 at Sadr. 1·56 at Zafarwál. 1·19 at Pasrúr. 1·27 at Raya. 1·06 at Daska.	1. Insufficient ... 2. (a) Do. (b) Canals flowing. 3. Cattle weak on account of hard work and scarcity of fodder. Many cattle died of disease and starvation.	Wheat, 5½ to 5¾ ... Barley, 8. Gram, 5½. Maize, 5½ to 6. Prices of wheat and barley between warning and scarcity rates and of gram above scarcity rate. Stocks of food-grains insufficient.	Reaping of tobacco continues in parts. Yield poor.	Rain was useful for standing crops. Sowings of maize, jowar and bajra continue and are below normal.

No.	Reporting station.	Rain.	1 Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3 Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Shahpur ...	1·24 at Sadr ... 1·67 at Shahpur. 2·25 at Khusháb. 0·95 at Bhalwal ...	1 Scarce except in canal colony. 2. (b) Lower Jhelum Canal flowing; supply sufficient. Inundation canals also flowing; supply insufficient. 3. Generally fair though weak.	Wheat, 5 to 5¼ ... Gram, 5½ to 5¾. Maize, 5¾ to 6¼. Bajra, 4. Price of maize between warning and scarcity rates and of others above scarcity rate. Stocks of food-grains sufficient in markets.	Standing irrigated extra rabi crops fair.	Rain was beneficial to standing crops and sowings. More rain wanted. Sowings of irrigated jowar, bajra and maize continue and are normal. Germination fair. Standing crops fair on irrigated lands and below average on unirrigated area.
11	Ráwalpindi ...	Report not received.				
12	Miánwáli ...	0·65 at Sadr ... 0·28 at Isa Khel.	1. Insufficient ... 2. (a) Sufficient in Kacha and insufficient in Thal. (b) Nammal Canal closed, Kurram Canal flowing; supply insufficient. 3. Poor.	Wheat, 5 ... Gram, 5¾. Barley, 7. Jowar, 5. Bajra, 5. Prices at or above scarcity rate.	Standing extra rabi crops below average on irrigated and poor on unirrigated area. Harvesting continues in Miánwáli Tahsil. Yield below normal.	Sowings in progress and are below normal.
13	Lyallpur ...	0·36 at Sadr ... 0·55 at Toba Tek Singh. 0·59 at Samundri. 0·19 at Jaránwála.	1. Green fodder sufficient. 2. (a) Sufficient. (b) Canal working by rotation; supply sufficient. 3 Good.	Wheat, 5½ ... Gram, 5½ Price of wheat between warning and scarcity rates and of gram above scarcity rate. Stocks of food grains sufficient.	Standing extra spring crops average.	Sowings of fodder continue and are normal. Standing crops average.
14	Multán ...	...	1. Scarce ... 2. (b) Innundation canals except Sidhnai flowing by rotation. 3 Very poor. Many cattle died of starvation and small-pox.	Wheat, 5 ... Barley, 7¾. Gram, 5¾. Jowar, 5¾. Bajra, 4½. Maize, 5¾. Prices at or above scarcity rate.	Standing extra rabi crops below average.	Rain badly wanted. Sowings of irrigated jowar and fodder continue and of bajra and sesamum commenced. Standing crops below average.

GENERAL REMARKS.

RAIN fell in nearly all the reporting districts. Rain though useful for standing crops and for sowings, was insufficient and more is badly wanted. Condition of standing crops generally average on irrigated and poor on unirrigated area. Sowings of fodder, millets and other autumn crops continue. Area sown below normal. Extra spring crops being reaped in some districts. Expected yield below normal. Cattle generally weak from overwork and scarcity of fodder and dying of starvation and disease in parts of some districts. Shortage of water for drinking and irrigation purposes reported, in some districts. Test works commenced in Hissar. No relief work so far considered necessary in any other district. Prices advanced slightly in some districts and remained stationary in others. Prices of wheat and barley generally between warning and scarcity rates and of others at or above scarcity rate. Stocks of food-grains sufficient except in a few districts. Prices of wheat:—Ferozepore and Lahore 5, Ambála 5 3/16 and Lyallpur 5¼ seers per rupee.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 9th July 1921, there were 946 births registered in the 35 large municipal towns (476 males and 470 females), giving a birth-rate of 47 *per mille* of population, and 612 deaths were registered (306 males and 306 females), giving a death-rate of 30 *per mille* of population. The death-rates registered in the two largest towns were as follows :—Lahore 31 against 45 in the corresponding week of the previous year and Amritsar 43 against 48.

There were 8 deaths recorded from cholera in Jalálpur, 3 each in Jhajjar and Ráwalpindi and 1 each in Hissar and Rewári. Of the 5 deaths from small-pox, 2 were registered in Ráwalpindi and 1 each in Gujrát, Jalálpur and Lyallpur.

R. C. JENNINGS, Supdt.,
for *Sanitary Commissioner, Punjab.*

Sanitary Commissioner's Office,
Lahore :

No. 30. LAHORE, FRIDAY, JULY 29, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M. Monday, the 25th July 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1 Supply of fodder. 2 Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	1·90 at Sadr ... 1·22 at Sirsa. 1·79 at Fatehabad. 1·18 at Hánsi. 2·38 at Bhiwáni.	1. Scarce. Fodder being imported. 2. (a) Sufficient. (b) Perennial canals running; supply sufficient. 3. Cattle weak.	Wheat, 5½ ... Gram, 5¾. Bajra, 4½. Barley, 7½. Price of wheat between warning and scarcity rates and of others above scarcity rate. Stocks of food-grains insufficient.	...	Rain was useful fo sowings. Condition of irrigated sugarcane, chari and cotton and of unirrigated jowar, bajra, etc. good Sowings of bajra, jowar and pulses continue. Area sown normal.
2	Rohtak ...	2·75 at Sadr ... 2·42 at Jhajjar. 4·25 at Goháns. 6·60 at Sonepat. 0·50 at Sampla.	1. Insufficient. Recent rain will improve the condition. 2. (a) Sufficient. 3. Bad for want of fodder.	Wheat, 5 to 5¼ ... Gram, 5¼. Jowar, 5. Bajra, 5. Barley, 8. Prices of wheat and barley between warning and scarcity rates and of others above scarcity rate.	...	Sowings of irrigated rice and unirrigated jowar, bajra and pulses continue and are below normal. Germination good. Condition of irrigated sugarcane and cotton normal and of irrigated jowar and bajra good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
3	Gurgaon ...	6·29 at Sadr ... 0·16 at Rewári. 2·65 at Nuh. 2·00 at Fírozpur. 2·47 at Palwal. 2·74 at Ballabgarh.	1. Scarce ... 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Generally good, but in parts of the district cattle are becoming weak on account of scarcity of fodder.	Wheat, 5 to $5\frac{1}{4}$ ... Barley, 7 to $7\frac{1}{2}$. Gram, $5\frac{3}{4}$ to $6\frac{1}{4}$. Bajra, $4\frac{1}{2}$ to 6 Jowar, 4 to 5. Maize, 4 to 6. Prices of wheat, barley, bajra and maize between warning and scarcity rates and of others at or above scarcity rates. Food-grains sufficient for present needs. Agriculturists generally have no stock of grains.	...	Rain was beneficial to standing crops, but was not sufficient for sowings. Sowings of irrigated maize, chari and cotton and unirrigated jowar, bajra and pulses continue and are below normal. Germination good. Condition of cotton below normal and of other crops normal.
4	Ambála ...	4·49 at Sadr ... 1·09 at Jagádhri. 2·07 at Naraingarh 4·93 at Kharar. 4·04 at Rúpar. 5·76 at Kasauli.	1. Insufficient ... 2. (a) Sufficient. (b) Canal flowing; supply adequate 3. Generally good.	Wheat, $5\frac{1}{4}$ ... Gram, $5\frac{11}{16}$. Barley, 7. Maize, 7. Price of wheat between warning and scarcity rates and of others at or above scarcity rate. Stock of food-grains insufficient both in the hands of traders and others.		Rainfall was sufficient for sowings. Sowings of cotton, jowar, maize, rice and pulses continue and are below normal. Standing sugarcane crop normal.
5	Jullundur ...	0·46 at Sadr ... 0·93 at Nakodar. 4·07 at Phillaur. 1·94 at Nawanshahr.	1. Scarce ... 2. Water in wells diminished. 3. Cattle generally weak owing to hard work and scarcity of fodder.	Wheat, $5\frac{1}{4}$ ... Gram, $5\frac{1}{2}$. Maize, $5\frac{3}{4}$. Barley, 7. Prices at or above scarcity rates. Stocks of food-grains insufficient both in the hands of traders and others.	...	Rain was beneficial to standing crops and sowings, but more is badly needed. Sowings of maize and other crops in progress and are below normal. Condition of rice and cotton poor and of other irrigated crops normal.
6	Ferozepore ...	1·22 at Sadr ... 0·18 at Moga. 0·46 at Zíra. 0·95 at Muktsar. 7·74 at Fázilka 2·90 at Abohar.	1. Scarce 2. (a) Sufficient. (b) Sirhind and Grey Canals flowing; supply sufficient. 3. Satisfactory.	Wheat, 5 ... Gram, $5\frac{5}{8}$. Barley, 7. Prices at or above scarcity rate. Stock of food-grains sufficient and is mostly in the hands of traders.	Reaping of extra spring crop finished. Yield normal.	Sowings in progress and are normal. Standing irrigated crops fair.
7	Lahore ...	1·09 at Sadr ... 0·78 at Chúnián. 1·39 at Kasúr.	1. Insufficient ... 2. (a) Sufficient. (b) Do. 3. Cattle weak owing to scarcity of fodder.	Wheat, 5 ... Gram, $5\frac{5}{8}$. Prices at or above scarcity rates. Stocks of food-grains generally sufficient with traders and others.	...	Condition of irrigated sugarcane, cotton, rice and chari normal. Sowings of rice, maize and fodder continue and are below normal.
8	Amritsar ...	0·21 at Sadr ... 0·18 at Tarn Táran. 1·20 at Ajnála.	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing by rotation; supply sufficient 3. Cattle bad owing to scarcity of fodder and overwork.	Wheat, $5\frac{9}{16}$ Gram, $5\frac{11}{16}$ Barley, 7 Maize, $6\frac{1}{4}$ Jowar, $4\frac{11}{16}$. Bajra, $4\frac{3}{4}$. Price of maize between warning and scarcity rates and of others at or above scarcity rate. Stocks of food-grains sufficient.		Sowings of irrigated rice and chari continue and are below normal. Standing crops about normal on irrigated and bad on unirrigated area.
9	Siálkot ...	0·51 at Sadr ... 0·48 at Zafarwál. 0·10 at Pasrúr. 0·71 at Raya. 0·12 at Daska.	1. Insufficient ... 2. (a) Do. (b) Canals flowing. 3. Cattle weak on account of hard work and scarcity of fodder. Many have died of disease and starvation.	Wheat, 5 to $5\frac{1}{2}$ ... Maize, $5\frac{1}{2}$ to 6. Barley, $7\frac{1}{4}$ to $7\frac{1}{2}$. Gram, $5\frac{1}{2}$ to $5\frac{3}{4}$. Prices of wheat and barley between warning and scarcity rates and of others at or above scarcity rate. Stock of food-grains sufficient in the hands of traders.	...	Sowings of unirrigated crops commenced and are below normal. Standing irrigated rice about normal and other crops below normal.

No.	Reporting station	Rain.	1 Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3 Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
10	Shahpur ...	0·13 at Sadr ... 1·92 at Bhalwal. 0·20 at Shahpur.	1 Scarce ... 2. (b) Lower Jhelum Canal and Inundation canals flowing; supply sufficient. There was a flood in the Jhelum river. 3. Generally fair though weak.	Wheat, 5 to 5¼ ... Gram, 5½ to 5¾. Barley, 7½. Jowar, 5. Price of barley between warning and scarcity rates and of others at or above scarcity rate. Stocks of food-grains sufficient.	...	Rain was useful, but more is wanted. Sowings of jowar, bajra and maize commenced on unirrigated area and are normal. Standing rice, sugarcane and cotton good on irrigated and generally fair elsewhere. Germination fair.
11	Ráwalpindi ...	1·75 at Sadr ... 1·16 at Kahuta .. 1·74 at Gujar Khan 1·71 at Murree.	1. Scarce ... 3. Poor.	Wheat, 4¾ ... Barley, 6. Gram, 5 Maize, 4¾ Bajra, 3¼. Jowar, 3¾. Prices above scarcity rate. Stocks of food-grains insufficient in the hands of traders.	...	Standing kharif crops on irrigated area normal. Germination good.
12	Miánwáli ...	0·36 at Sadr ... 0·50 at Isa Khel.	1. Insufficient ... 2. (a) Sufficient. (b) Nammal Canal closed. Kurram Canal flowing; supply insufficient. 3 Poor.	Wheat, 4¾. ... Gram, 5½. Barley, 7. Jowar, 5. Bajra, 4. Prices at or above scarcity rate. Stocks of food-grains insufficient.	Standing extra rabi crops below normal on irrigated and poor on unirrigated area. Harvesting continues. Yield below normal on irrigated and poor on unirrigated area.	Sowings in progress and are normal. Standing crops normal in Miánwáli and Isa Khel Tahsils.
13	Lyallpur ...	0·12 at Sadr ... 0·17 at Toba Tek Singh. 0·07 at Samundri. 0·08 at Jaránwála.	1. Green fodder sufficient. 2. (a) Do. (b) Canals working by rotation; supply sufficient. 3 Good.	Wheat, 5¼ ... Gram, 5½. Price of wheat between warning and scarcity rates and of gram above scarcity rate. Stocks of food-grains sufficient with traders and others.	...	Sowings of maize and rice in progress. Standing cotton and other crops normal.
14	Multán ...	0·03 at Sadr ... 0·51 at Mailsi. 0·75 at Kabírwála. 0·42 at Khánewál.	1. Scarce ... 2. (b) Lower Bari Doab and Inundation canals, except Sidhnai, flowing by rotation. 3 Very poor. Many cattle died of starvation and small-pox.	Wheat, 5¼ Barley, 6¾ Gram, 5¼ Jowar, 5½. Bajra, 3½. Maize, 4$\frac{1}{16}$. Price of wheat between warning and scarcity rates and of others above scarcity rate. There is a small stock of food-grains in the hands of zamindars.	...	Rain was beneficial to standing crops. Sowings of irrigated millets, fodder and sesamum continue and are below normal. Condition of rice, cotton, sesamum and indigo below normal.

GENERAL REMARKS.

RAIN fell in all the reporting districts. The fall was moderate in parts of the south-east, Ambála and Jullundur and light elsewhere. Rain was useful for standing crops and for sowings, but more is needed. Standing crops are generally normal on irrigated and below normal on unirrigated area. Sowings of rice, millets, pulses, etc., continue on both irrigated and unirrigated areas and are below normal. Germination fair. Fodder is scarce, but recent rains will improve the situation. Cattle generally weak from overwork and scarcity of fodder. Water generally sufficient. Prices generally stationary. Prices of wheat and barley generally between warning and scarcity rates and of others at or above scarcity rate. Stocks of food-grains sufficient, except in a few districts. Prices of wheat :— Ráwalpindi 4¾, Ferozepore and Lahore 5, Ambála and Lyallpur 5¼ seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 16th July 1921, there were 1,128 births registered in the 38 large municipal towns (573 males and 555 females), giving a birth-rate of 49 *per mille* of population, and 714 deaths were registered (370 males and 344 females), giving a death-rate of 31 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 30 against 33 in the corresponding week of the previous year ; Amritsar 36 against 35 and Multan 27 against 43.

There were 9 deaths recorded from cholera in Hissár, 3 in Ráwalpindi, and 2 in Amritsar. Of the 2 deaths from small-pox 1 each was registered in Lahore and Batála. Only 2 deaths were reported from plague in Multán.

Sanitary Commissioner's Office,
Lahore :
The 27th July 1921.

MAULA BAKHSH, Head-Asst.,
for *Sanitary Commissioner, Punjab.*

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
3	Gurgaon ...	0·29 at Sadr ... 0·58 at Rewári. 1·15 at Núh. 1·55 at Fírozpur. 0·06 at Palwal. 1·95 at Ballabgarh.	1. Dry fodder scarce; green grass available. 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Generally good.	Wheat, 5 to 6 ... Barley, 7½ to 7½. Gram, 5¾ to 6¾. Bajra, 4¾ to 6. Jowar, 4 to 5. Maize, 4 to 6. Prices of wheat, barley, bajra and maize between warning and scarcity rates and of others at or above scarcity rate. Stocks of food-grains sufficient with traders. Agriculturists have no stock of grains.	...	Rain was beneficial to standing crops, and was sufficient for sowings. Sowings of unirrigated cotton, jowar, bajra and pulses continue and are below normal. Germination ... Condition of cotton and sesamum below normal and of other crops normal.
4	Ambála ...	0·75 at Sadr ... 0·52 at Jagádhri. 3·37 at Náraingarh 0·03 at Kharar. 0·05 at Rúpar. 6·61 at Kasauli.	1. Insufficient ... 2. (a) Sufficient. (b) Western Jamna Canal flowing. 3. Cattle improving.	Wheat, 5 ... Gram, 5¼. Barley, 7½. Price of barley between warning and scarcity rates and of others at or above scarcity rate. Stocks of food-grains insufficient.	...	Rain was sufficient but more is needed. Sowings of rice, maize, jowar and bajra continue and are normal. Condition of sugarcane, rice, cotton and sesamum normal.
5	Jullundur ...	0·91 at Sadr ... 1·27 at Nakodar. 0·91 at Phillaur. 0·06 at Nawanshahr.	1. Scarce ... 2. (a) Water in wells diminished. 3. Cattle generally weak owing to hard work and scarcity of fodder.	Wheat, 5 to 5¼ ... Gram, 5¼. Maize, 5¾. Barley, 7. Prices at or above scarcity rate. Stocks of food-grains insufficient in the hands of traders and others.	...	Rain was beneficial to standing crops and sowings. Sowings of maize and other crops continue and are normal. Condition of irrigated crops normal, but of rice, sesamum, indigo and cotton poor.
6	Ferozepore ...	0·66 at Sadr ... 2·14 at Moga. 1·03 at Zíra. 3·84 at Muktsar. 1·40 at Fázilka 0·71 at Abohar.	1. Dry fodder scarce, green fodder available. 2. (a) Sufficient. (b) Sirhind and Grey Canals flowing; supply sufficient. 3. Satisfactory.	Wheat, 5 Gram, 5¾. Barley, 7. Prices at or above scarcity rate. Stocks of food-grains sufficient in the hands of traders and otheas.	Reaping of extra spring crops finished. Yield normal.	Sowings in progress and are normal. Condition of cotton and sesamum normal and of rice poor.
7	Lahore ...	7·72 at Sadr ... 0·16 at Chúnián. 2·14 at Kasúr.	1 Insufficient ... 2. (a) Sufficient. (b) Perennial and inundation canals flowing; supply sufficient. 3. Cattle weak owing to insufficient supply of fodder.	Wheat, 5 Gram, 5¾. Prices at or above scarcity rates. Stocks of food-grains generally sufficient with traders and others.	...	Condition of irrigated sugarcane, cotton, rice, maize and fodder normal. Sowings of rice, maize, sesamum, fodder and pulses continue and are normal on irrigated and below normal on unirrigated area.
8	Amritsar ...	4·24 at Sadr ... 1·88 at Tarn Táran. 3·37 at Ajnála.	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing by rotation; supply sufficient. 3. Cattle bad owing to scarcity of fodder and overwork. Recent rains will improve the condition.	Wheat, 5¾ ... Gram, 5$\frac{1}{16}$. Barley, 7 Maize, 6¼. Jowar, 3. Bajra, 3¼. Price of maize between warning and scarcity rates and of others at or above scarcity rate. Stocks of food-grains are sufficient with traders and some rich zamindars.	...	Sowings of rice, chari and maize continue and are below normal. Condition of cotton, sugarcane and rice is normal. Other standing crops are normal on irrigated and below normal on irrigated ...
9	Siálkot ...	6·30 at Sadr ... 5·76 at Zafarwál. 8·94 at Pasrúr. 3·14 at Raya. 9·59 at Daska.	1. Scarce; green grass expected in a few days. 2. (a) Sufficient. (b) Canals flowing. Rivers flooded. 3. Cattle weak on account of hard work and scarcity of fodder.	Wheat, 5¼ to 5½ ... Maize, 5¾ to 6. Barley, 7 to 7½. Price of maize at scarcity rate and of others between warning and scarcity rates. Stocks of food-grains sufficient in the hands of traders and rich zamindars.	...	Rain sufficient. Sowings continue. Condition of rice, cotton and other standing crops normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Shahpur ...	7·32 at Sadr ... 9·46 at Bhalwal. 8·63 at Shahpur.	1. Scarce ... 2. (b) Lower Jhelum Canal closed owing to flood in the river. Inundation canals flowing; supply sufficient. 3. Fair.	Wheat, 5 to 5¼ ... Gram, 5¼ to 5¾. Maize, 4 to 6¼. Price of Maize between warning and scarcity rates and of others above scarcity rate. Stocks of food-grains sufficient with traders and landlords.	...	Rain was beneficial to sowings and standing crops. Standing rice, sugarcane, cotton and sesamum are in good condition.
11	Ráwalpindi ...	3·39 at Sadr ... 1·11 at Kahuta 0·84 at Gujar Khan 2·66 at Murree.	1. Scarce ... 3. Poor.	Wheat, 4½ ... Barley, 6½. Gram, 5½. Maize, 4½. Bajra, 3½. Jowar, 2½. Prices above scarcity rate. Stocks of food-grains which is almost in the hands of traders is insufficient.	...	Condition of Standing cotton, bajra, maize, jowar, and rice is good.
12	Miánwáli ...	1·47 at Sadr ... 2·27 at Isa Khel. 1·59 at Bhakkar.	1. Insufficient ... 2. (a) Sufficient. (b) Nammal Canal closed, Kurram Canal flowing; supply insufficient. 3 Cattle poor for want of fodder.	Wheat, 4½. ... Gram, 5½. Barley, 7. Jowar, 4½. Bajra, 4½. Prices at or above scarcity rate. Stocks of food-grains insufficient.	Harvesting of extra spring crops continues. Yield below normal on irrigated and poor on unirrigated area.	Sowings in progress and are normal. Standing irrigated crops good and unirrigated normal. Condition of irrigated cotton good.
13	Lyallpur ...	1·65 at Sadr ... 2·88 at Toba Tek Singh. 1·10 at Samundri. 1·73 at Jaránwála.	1. Green fodder sufficient. 2. (a) Sufficient. (b) Canals working by rotation; supply sufficient. 3 Good.	Wheat, 5½ ... Gram, 5½. Price of wheat between warning and scarcity rate and of gram above scarcity rate. Stocks of food-grains adequate with traders and others.	...	Sowings of maize and rice in progress Condition of cotton and other standing crops normal.
14	Multán ...	1·28 at Sadr ... 0·30 at Shujabád. 0·95 at Lodhran. 0·42 at Mailsi. 0·42 at Kabirwála. 1·55 at Khánewal.	1. Insufficient. 2. (b) Lower Bari Doab and Inundation canals, except Sidhnai, flowing. 3 Poor.	Wheat, 5½ ... Barley, 6½ Gram, 5½ Jowar, 3½. Bajra, 3½. Maize, 4½. Price of wheat between warning and scarcity rate and of others above scarcity rates. There is a small stock of food-grains in the hands of zamindars.	...	Rain was beneficial to standing crops. Sowings of irrigated bajra and sesamum continue and are generally below normal. Condition of rice, cotton and sesamum normal and of other crops below normal.

GENERAL REMARKS.

Rain was fairly heavy in parts of Lahore, Siálkot and Shahpur and light or moderate elsewhere. It was beneficial to sowings and to standing crops which are normal on irrigated and below normal on unirrigated area. Sowings of rice, millets, pulses and other autumn crops in progress. Area sown below normal to normal. Germination good. Dry fodder is scarce, but green grass will shortly become available. Cattle generally weak owing to overwork and scarcity of fodder. Water for drinking and irrigation purposes sufficient. Prices generally stationary. Prices of wheat and barley generally between warning and scarcity rates and of others at or above scarcity rates. Stocks of food-grains sufficient, except in a few districts. Prices of wheat :—Ráwalpindi 4½, Ambála, Ferozepore and Lahore 5, and Lyallpur 5½ seers per rupee.

(a) = Mean of 21 days.
(b) = Mean of 19 days.
(c) = Mean of 18 days.
(d) = Aneroid.
* Not reduced to sea level.

The weather was exceptionally dry. Four disturbances from the west passed into the extreme north, but caused hardly any rain in the Punjab or the North-West Frontier Province.

Pressure and Winds.—Barometric pressure was very much in defect. Wind directions were abnormal at Ambála, Ludhiána, Montgomery, Lahore, Murree and Multán; the wind strength was less than usual at Montgomery, Pesháwar and Cherát.

Temperature.—Both maximum and minimum temperatures were generally much higher than usual. Very hot weather was experienced in the Punjab and the North-West Frontier Province from the 2nd to 6th and again from the 16th to the end of the month.

The following table shows for each day of the month the departure from the normal of the mean temperature of the Punjab and the North-West Frontier Province, with the highest maximum temperature registered and the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

Humidity and Cloud.—The air was very dry everywhere, and the amount of cloud was normal or in defect.

Rainfall.—Either no rain fell, or the fall was greatly in defect over the whole area.

The following table gives the rainfall data for the Punjab and the North-West Frontier Province stations for May 1921:—

Station.	Actual rainfall in May 1921.	Normal rainfall in May.	Departure from normal in May 1921.	Station.	Actual rainfall in May 1921.	Normal rainfall in May.	Departure from normal in May 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M. Monday, the 8th August 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1 Supply of fodder. 2 Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seer per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	2·23 at Sadr ... 1·38 at Bhiwáni. 0·22 at Fatehabad. 2·79 at Tohána.	1. Scarce. Grazing available in canal villages. Fodder being imported. 2. (a) Sufficient. (b) Perennial and inundation canals flowing, supply sufficient. 3. Cattle weak.	Wheat, 4¾ ... Gram, 5½. Barley, 7. Bajra, 5½. Price of bajra between warning and scarcity rates and of others at or above scarcity rate. Stocks of food-grains insufficient.	...	Rain was useful for sowings. Condition of irrigated sugarcane, chari and cotton and of unirrigated jowar, bajra and pulses good. Sowings of jowar, bajra, rice and pulses continue and are normal.
2	Rohtak ...	5·10 at Sadr 5·25 at Jhajjar. 3·22 at Gohána. 3·00 at Sonepat. 2·13 at Sampla.	1. Sufficient ... 2. (a) Sufficient. 3. Good.	Wheat, 4¾ Gram, 5½. Jowar, 5. Bajra, 5 Barley, 8 Price of barley at warning and of others at or above scarcity rate.	...	Sowings of unirrigated jowar, bajra, til and pulses continue and are normal. Germination good. Standing sugarcane, cotton, jowar, bajra and fodder normal. Chari is being reaped for feeding cattle.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
3	Gurgáon ...	7·06 at Sadr ... 0·65 at Rewári. 1·30 at Núh. 0·32 at Fírozpur. 2·64 at Palwal. 2·56 at Ballabgarh.	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canals flowing; supply adequate. 3. Cattle generally in good condition.	Wheat, 4⅞ to 5½ ... Barley, 6⅞ to 7½. Gram, 5⅞ to 6. Bajra, 4⅞ to 6. Jowar, 4 to 5. Maize, 4 to 6. Price of jowar and gram at or above scarcity rate and of others between warning and scarcity rates. Stocks of food-grains sufficient with traders. Agriculturists have no stock.	...	Rain was very beneficial to standing crops and sowings. Sowings of jowar, bajra, pulses, etc., continue on unirrigated area and are below normal. Germination good. Condition of cotton and sesamum below normal and of other crops good.
4	Ambála ...	3·01 at Sadr ... 3·39 at Jagádhri. 2·00 at Kharar. 1·71 at Rúpar. 3·53 at Náraingarh. 18·35 at Kasauli.	1. Scarce; green grass available. 2. (a) Sufficient. (b) Western Jumna Canal flowing. 3. Cattle improving though still suffering on account of scarcity of fodder.	Wheat, 4 11/16 .. Gram, 5½. Barley, 7½. Price of barley between warning and scarcity rates and of others above scarcity rate. Stocks of food-grains insufficient.	...	More rain still needed. Sowings of maize, rice, chari and bajra continue and are normal. Germination good. Standing sugarcane, rice, cotton and sesamum normal.
5	Jullundur ...	4·99 at Sadr ... 2·46 at Nakodar. 3·46 at Phillaur. 3·67 at Nawanshahr.	1. Scarce ... 3. Cattle generally weak owing to hard work.	Wheat, 4½ ... Maize, 5. Gram, 5½. Barley, 6. Jowar, 3¾. Prices above scarcity rate. Stocks of food-grains insufficient in hands of traders and others.	...	Rain was beneficial to standing crops and sowings. Sowings continue and are normal. Condition of rice, cotton, sesamum, and indigo below normal and of other irrigated crops normal.
6	Ferozepore ...	0·47 at Sadr ... 3·29 at Moga. 0·23 at Zíra. 0·58 at Fázilka. 3·21 at Abohar.	1. Scarce, green grass available. 2. (a) Sufficient. (b) Sirhind and Grey Canals running satisfactorily. 3. Satisfactory.	Wheat, 5 .. Gram, 5⅞. Barley, 7. Prices at or above scarcity rate. Stocks of food-grains sufficient in the hands of traders.	...	Sowings of maize, etc., continue. Condition of standing rice, cotton, sesamum and other crops normal.
7	Lahore ...	3·15 at Sadr ... 0·85 at Chúnián. 1·27 at Kasúr.	1 Insufficient ... 2. (a) Sufficient. (b) Perennial and inundation canals flowing; supply sufficient. 3. Cattle weak owing to scarcity of fodder.	Wheat, 5 . Gram, 5⅞. Price of wheat at scarcity and of gram above scarcity rate. Stocks of food-grains generally insufficient.	...	Rain was beneficial to standing crops. Sowings of rice, maize, bajra, til and pulses continue and are normal on irrigated and below normal on unirrigated area. Condition of irrigated sugarcane, cotton, rice, maize and fodder normal.
8	Amritsar ...	2·57 at Sadr ... 2·07 at Tarn Táran. 1·75 at Ajnála.	1. Sufficient ... 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Generally good.	Wheat, 5¼ Gram, 5⅞. Barley, 7 Maize, 4½. Jowar, 4. Bajra, 8½. Prices at or above scarcity rate. Stocks of food-grains sufficient.	...	Sowings of irrigated rice and unirrigated chari, maize and til continue and are below normal. Condition of cotton, sugarcane, rice and sesamum normal.
9	Siálkot ...	2·50 at Sadr ... 5·11 at Zafarwál. 3·04 at Pasrúr. 2·99 at Raya. 2·28 at Daska.	1. Insufficient; green grass available. 2. (a) Sufficient. (b) Canals flowing. 3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, 5¼ to 5½ ... Maize, 4. Barley, 7. Gram, 5 to 5½. Price of wheat between warning and scarcity rates and of others at or above scarcity rate. Stocks of food-grains sufficient with traders.	...	Rain was beneficial to standing crops. Sowings continue and are above normal. Condition of rice and cotton good and of sesamum normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
10	Shahpur ...	2·02 at Sadr ... 4·67 at Bhalwal. 1·32 at Shahpur. 2·32 at Khushâb.	1. Scarce in unirrigated parts. 2. (b) Lower Jhelum Canal closed. Inundation canals flowing; supply adequate. 3. Fair.	Wheat, 5 to 5¼ ... Gram, 5¼ to 5¾. Bajra, 4¾ to 5¼. Maize, 6 to 6½. Barley, 7. Price of maize between warning and scarcity rates and of others at or above scarcity rate. Stocks of food-grains generally sufficient with traders and landlords.	...	Rain was beneficial to standing crops and sowings. Condition of sugarcane, cotton, rice and sesamum good.
11	Ráwalpindi ...	2·68 at Sadr ... 4·77 at Káhuta ... 4·54 at Gujar Khan 8·14 at Murree.	1. Scarce ... 3. Poor.	Wheat, 4⅝ ... Barley, 6½. Gram, 5¼. Maize, 4¾. Bajra, 3¼. Jowar, 2¾. Prices above scarcity rate. Stocks of food-grains insufficient.	...	Condition of cotton, millets, maize and rice fair.
12	Miánwáli ...	1·08 at Sadr ... 3·17 at Isa Khel. 2·22 at Bhakkar.	1. Insufficient ... 2. (a) Sufficient. (b) Nammal Canal closed. Kurram Canal flowing; supply insufficient. 3. Cattle poor for want of fodder.	Wheat, 4¾ ... Gram, 5½. Bajra, 4½. Jowar, 4⅝. Barley, 7. Prices at or above scarcity rate. Stocks of food-grains insufficient.	Harvesting of extra rabi crops finished. Yield below normal on irrigated and poor on unirrigated area.	Sowings in progress and are normal. Standing cotton and other crops good on irrigated and normal on unirrigated area.
13	Lyallpur ...	1·05 at Sadr ... 1·04 at Toba Tek Singh. 1·04 at Samundri. 2·61 at Jaránwála.	1. Green fodder sufficient. 2. (a) Sufficient. (b) Canals working by rotation; supply sufficient. 3. Good.	Wheat, 5 ... Gram, 5¼. Price of wheat at scarcity and of gram above scarcity rate. Stocks of food-grains sufficient with traders and others.	...	Rain was useful for standing crops. Sowings of maize and rice in progress. Condition of cotton and other crops good.
14	Multán ...	3·19 at Sadr ... 0·94 at Shujábád. 0·35 at Lodhran. 1·17 at Mailsi. 1·13 at Kabirwála. 0·72 at Khánewal.	1. Scarce ... 2. (b) Lower Bari Doab and inundation canals flowing. 3. Poor.	Wheat, 5⅝ Barley, 6¾ Gram, 5¾ Jowar, 3⅜. Bajra, 2⅝ Maize, 3¼. Price of wheat between warning and scarcity rates and of others above scarcity rate. There is a small stock of food-grains in the hands of zamindars.	...	Rain was useful for standing crops. Sowings of rice, cotton, jowar, bajra and sesamum continue and are below normal. Standing crops normal.

GENERAL REMARKS.

LIGHT or moderate rain fell in all the reporting districts and was useful for standing crops and for sowings. Condition of cotton, sugarcane and other standing crops is generally normal. Autumn crops being sown. Area sown normal on irrigated and below normal on unirrigated area. Germination good. Dry fodder is scarce, green grass available. Cattle generally weak owing to overwork and scarcity of fodder. Water is sufficient. Prices have risen slightly in some districts and are stationary in others. They are generally at or above scarcity rates. No relief work so far considered necessary. Stocks of food-grains sufficient, except in a few districts. Prices of wheat:—Ráwalpindi 4½, Ambála, 4¼, Ferozepore, Lahore and Lyallpur 5 seers per rupee.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 30th July 1921, there were 1,239 births registered in the 38 large municipal towns (654 males and 585 females), giving a birth-rate of 54 *per mille* of population, and 609 deaths were registered (321 males and 288 females), giving a death-rate of 27 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 31 against 25 in the corresponding week of the previous year; Amritsar 22 against 24 and Multán 24 against 30.

There were 10 deaths recorded from cholera in Kasúr, 8 each in Hissar and Lahore, 2 in Ráwalpindi, and 1 each in Rewári and Jullundur. Of the 6 deaths from small-pox, 4 were registered in Ferozepore and 2 in Multán.

Sanitary Commissioner's Office,
Lahore :
The 10th August 1921.

SUPPLEMENT TO THE

Government Gazette.

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

No. 33. LAHORE, FRIDAY, AUGUST 19, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 15th August 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	2·43 at Sadr ... 1·94 at Hansi. 1·25 at Bhiwáni. 0·44 at Fatehabad. 2·12 at Sirsa.	1. Insufficient; green grass and chari available. 2. (b) Perennial and inundation canals flowing; supply sufficient. 3. Cattle weak.	Wheat, 4⅝ ... Gram, 5. Barley, 7. Bajra, 5¼. Price of bajra between warning and scarcity rates and of others at or above scarcity rate. Stocks of food-grains insufficient.	...	Rain was useful for sowings. Condition of irrigated sugarcane, cotton and chari and of unirrigated jowar, bajra and pulses good. Sowings of jowar, bajra, rice and pulses continue, and are normal.
2	Rohtak ...	0·41 at Sadr ... 2·07 at Jhajjar. 4·56 at Gohána. 2·70 at Sonepat. 6·70 at Sampla.	1. Sufficient ... 2. (a) Do. 3. Good.	Wheat, 4½ ... Gram, 5¼. Barley, 7½. Jowar, 5. Bajra, 5. Price of barley between warning and scarcity rates and of others at or above scarcity rate.	...	Sowings of unirrigated jowar, bajra, and pulses completed and are normal. Germination good. Standing sugarcane, cotton, jowar, bajra til, pulses and fodder normal. Chari is being reaped for feeding cattle.

927 P.G.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
3	Gurgaon ...	3·45 at Sadr ... 1·59 at Rewári. 5·59 at Núh. 4·13 at Fírozpur. 1·50 at Palwal. 0·73 at Ballabgarh.	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canal closed. 3. Generally good.	Wheat, 4½ to 5 ... Barley, 6½ to 7. Gram, 5¼ to 5¾. Bajra, 4½ to 6. Jowar, 4 to 5. Maize, 4 to 5. Price of bajra at warning rate and of others at or above scarcity rate. Stocks of food-grains sufficient with traders. Agriculturists have no stock.	...	Rain sufficient for the present crops. Sowings of jowar, bajra, pulses, etc., continue on unirrigated area and are below normal. Germination good. Standing crops good, but heavy rainfall has damaged them to some extent in parts of Gurgaon, Núh and Ballabgarh Tahsils.
4	Ambála ...	4·34 at Sadr ... 10·47 at Jagádhri. 8·25 at Náraingarh. 6·15 at Kharar. 5·67 at Rúpar. 8·05 at Kasauli.	1. Insufficient, green grass available. 2. (b) Western Jumna Canal flowing. 3. Cattle improving.	Wheat, 4$\frac{11}{16}$ ... Gram, 5¼. Barley, 7⅛. Price of barley between warning and scarcity rates and of others above scarcity rate. There are no stocks of food-grains in the hands of traders.	...	Rain is sufficient. Sowings of rice and bajra continue and are normal. Standing rice, cotton and sesamum normal.
5	Jullundur ...	2·47 at Sadr ... 1·02 at Nakodar. 2·99 at Phillaur. 3·85 at Nawanshahr.	1. Scarce ... 3. Cattle still weak owing to hard work.	Wheat, 4½ ... Gram, 5½. Barley, 6. Maize, 5. Prices above scarcity rate. Stocks of food-grains insufficient in the hands of traders and others.	...	Rain was beneficial to standing crops. Sowings continue and are normal. Condition of rice, cotton, sesamum, and indigo below normal and of others normal.
6	Ferozepore ...	0·26 at Sadr ... 0·26 at Zíra. 1·49 at Muktsar. 0·49 at Fázilka. 0·15 at Abohar.	1. Scarce, green grass available. 2. (a) Sufficient. (b) Sirhind and Grey Canals running, supply sufficient. 3. Satisfactory.	Wheat, 4⅝ ... Gram, 4¾. Barley, 6½. Prices above scarcity rate. Stocks of food-grains sufficient in the hands of traders.	...	Sowings of maize, completed. Condition of standing rice, cotton, sesamum and other crops normal.
7	Lahore ...	0·55 at Sadr ... 0·70 at Kasúr.	1. Insufficient ... 2. (a) Sufficient. (b) Perennial and inundation canals flowing; supply sufficient. 3. Average.	Wheat, 4½ ... Gram, 5. Prices above scarcity rate. Stocks of food-grains generally insufficient.	...	Sowings of rice, maize, bajra, fodder and pulses continue and are normal on irrigated and below normal on unirrigated area. Condition of irrigated sugarcane, cotton, rice, maize and fodder normal.
8	Amritsar ...	0·47 at Sadr ... 0·23 at Tarn Táran. 1·20 at Ajnála.	1. Sufficient ... 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Generally good.	Wheat, 4¾ ... Gram, 5. Barley, 6½. Maize, 4¼. Jowar, 4. Bajra, 3¼. Prices at or above scarcity rate. Stocks of food-grains sufficient in the hands of traders.	...	Sowings of rice, chari, maize and til continue and are below normal. Condition of cotton, sugarcane, rice and sesamum normal.
9	Siálkot ...	3·86 at Sadr ... 1·48 at Zafarwál. 0·65 at Pasrúr. 0·07 at Daska.	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canal closed. Rivers and nalas flooded. 3. Average.	Wheat, 4½ to 4⅝ ... Maize, 4. Barley, 7. Gram, 5 to 5¼. Prices at or above scarcity rate. Stocks of food-grains sufficient with traders.	...	Rain was beneficial to standing crops. Sowings continue and are above normal. Condition of rice and cotton good and of sesamum normal.

No.	Reporting station.	Rain.	1 Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3 Condition of cattle.	Retail prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Shahpur ...	2·34 at Sadr ... 2·46 at Bhalwal.	1. Green grass available. 2. (b) Lower Jhelum and inundation canals flowing; supply adequate. 3. Fair.	Wheat, 4½ to 5 ... Gram, 4½ to 5½. Bajra, 4½. Maize, 5½. Prices at or above scarcity rate. Stocks of food-grains generally sufficient with traders and zamindars.	...	Rain was beneficial to standing crops and sowings. Sowings of rice, maize, bajra and jowar continue and are above normal. Germination good. Condition of sugar-cane, cotton, rice and sesamum good.
11	Ráwalpindi ...		Statement not received.			
12	Miánwáli ...	1·11 at Bhakkar ...	1. Insufficient ... 2. (a) Sufficient. (b) Nammal Canal closed. Kurram Canal flowing; supply insufficient. 3. Poor for want of fodder.	Wheat, 4½ ... Gram, 4½. Bajra, 4. Jowar, 4. Barley, 7. Prices at or above scarcity rate. Stocks of food-grains insufficient.	...	Sowings still in progress and are normal. Standing cotton and other crops good on irrigated and normal on unirrigated area.
13	Lyallpur ...	1·35 at Sadr ... 2·19 at Toba Tek Singh. 2·18 at Samundri. 1·97 at Jaránwála.	1. Green fodder sufficient. 2. (a) Sufficient. (b) Canal working by rotation; supply sufficient. 3 Good.	Wheat, 4½ ... Gram, 4½. Price above scarcity rate. Stocks of food-grains sufficient with traders and others.	...	Sowings of maize, chari, gowara and rice in progress. Condition of cotton and other crops normal.
14	Multán ...	0·51 at Sadr ... 0·42 at Lodhran. 1·08 at Khánewál.	1. Insufficient ... 2. (b) Lower Bari Doab and inundation canals flowing; supply sufficient. 3. Fair.	Wheat, 4½ ... Barley, 6½ Gram, 5½ Jowar, 3½. Bajra, 3½. Maize, 3½. Prices above scarcity rate. There is a small stock of food-grains in the hands of zamindars.	...	Rain was useful for standing crops and sowings. Sowings of jowar, bajra and sesamum continue and are normal.

GENERAL REMARKS.

Light or moderate rain fell in all the reporting districts and was useful for standing crops and for sowings. Condition of cotton, sugarcane and other standing crops is generally normal. Autumn crops being sown. Area sown normal on irrigated and below normal on unirrigated land. Germination good. Dry fodder is scarce, green grass available. Cattle generally weak owing to over-work and scarcity of fodder. Water is sufficient. Prices have risen slightly in some districts and are stationary in others. They are generally at or above scarcity rates. No test work was opened during the week. Stocks of food-grains sufficient, except in a few districts. Prices of wheat :—Ambála, 4 1/16, Lahore, 4½, Ferozepore 4½ and Lyallpur 4½ seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

ANNUAL METEOROLOGICAL REPORT, PUNJAB, 1920-21.

The hot weather season, April and May.

A SERIES of western disturbances passed into north-west India during both months, but in April they produced very little rain; in May, however, wide-spread and heavy rain fell during one of these disturbances, and the total fall of that month was greatly in excess. Temperature was low generally in April, and was very low in May.

The Monsoon rains, June to September.

A storm in the Arabian Sea which struck the Kathiawar coast in the second week of June introduced the monsoon into the Punjab much earlier than usual, but afterwards the rains reached the province only occasionally. The total fall of the period was deficient everywhere over the whole province.

The statement below show the local features of the rainfall distribution during the period :—

Period October and November.

Weather was exceptionally dry in October, and no rain whatever fell in November.

The cold weather season, December to March.

Weather was dry except for occasional local rain, and the rainfall of the period was in very great defect over practically the whole province; in 16 districts out of the 29 the fall was less than 20 per cent of the normal and in the Mianwali and Muzaffargarh districts it was just 3 per cent.

The table below shows the distribution of the winter rains:—

COLD WEATHER RAINFALL.

April 1920.—Very little rain fell, but maximum temperature was generally below normal.

May 1920.—Rainfall was greatly in excess, and both maximum and minimum temperatures were greatly below the average.

June 1920.—There was an early burst of monsoon rain, but the month's fall was in defect except in the Ambala and Multan Divisions. Temperature remained somewhat below normal generally.

July 1920.—Rainfall was in defect except in the Ambala Division, and the Kangra, Hoshiarpur, Amritsar, Gurdaspur and Mianwali Districts. Temperature was about normal.

August 1920.—The monsoon continued very weak, and rainfall was in defect in every district except Multan. Temperature was on the whole normal.

September 1920.—Rainfall was in defect in every district, and maximum temperature was generally higher than usual.

October 1920.—Some light local rain fell in the hill and sub-montane districts, and very little elsewhere. Both maximum and minimum temperatures were higher than usual.

November 1920.—The month was quite dry, and temperature remained somewhat above normal.

December 1920.—Rain fell occasionally but it was mostly confined to the hill and sub-montane districts, and the total fall of the month was deficient practically everywhere. Maximum temperature was somewhat higher than usual.

January 1921.—The total fall of the month was deficient except in the Gurgaon, Ambala and Simla Districts. Maximum temperature tended to be high.

February 1921.—Some rain fell in the first week, but the month's fall was deficient everywhere. Maximum temperature was very high for the time of the year.

March 1921.—The month was practically dry, and the temperature was high.

Snowfall.

No snow fell in the Simla hills in April 1920 and there are no reports from the other Punjab hills for that month, but in May there were unusually heavy falls in Chamba, Kulu and the Simla hills. Very little snow fell on the Punjab hills during the rest of that year. Only scanty falls occurred in Kulu during January, February and March 1921. The Simla hills had a few heavy falls in the latter part of January, a fairly normal amount in February and a lighter fall than usual in March. In Kashmir the accumulations at the end of May 1920 were above normal. A few light falls occurred on the higher mountains in June, August and September. The falls extended to lower heights during October, November and December, but they continued to be below the average. They were about normal in January 1921, but below it in February and probably also in March.

Table showing the Seasonal Rainfall of the Punjab in 1920.

...averages have been fixed.

MAHBUB SHAH, Supdt.,
Office of Director of Land Records, Punjab.

Notes on the condition and prospects of crops, etc, in each district of the Punjab for the month of July 1921.

1.—Hissar District.

There has been a general rain during the month, which was not very heavy. Sowings of bajra, gowar, mung, moth and chari commenced on unirrigated area and of jowar and gowar continued on irrigated area. Area sown normal. Condition of kharif crops fair and was much improved by recent rains. Cattle are generally weak. Fodder continued to be imported. Water supply in perennial canals was sufficient for irrigation purposes in second half of the month. Inundation canals also continued to flow. Grain stock insufficient. Prices are rising.

2.—Rohtak District.

Rainfall, though unevenly, was sufficient for sowings of unirrigated jowar, bajra, mung, gowar and cotton, which were sown to a normal extent. Germination good. Condition and expected yield of irrigated sugarcane, cotton and chari and of unirrigated jowar, bajra, mung and gowar average but of unirrigated cotton is below average. Cattle are generally in fair condition. Health of people is generally good. Supply of canal water adequate.

3.—Gurgaon District.

Rainfall during the month was generally below average and insufficient for kharif sowings. Maize, chari and cotton on irrigated and jowar, bajra, gowar and pulses on unirrigated area were sown. Area sown below normal. Condition of standing crops average. Yield appears to be promising. Cattle are generally in good condition. Scarcity of bhoosa is felt but green grass is now available. Health of people generally good. Canal running; water supply sufficient.

4.—Karnal District.

Rainfall during the second half of the month improved the condition of standing irrigated crops. Sowings of kharif crops in progress. Transplantation of rice has begun. Expected yield of standing irrigated crops average and of unirrigated fair. Cattle are still suffering for want of fodder. Public health is generally good. Canals continued flowing but water was short of the demand. Prices are still high.

5.—Ambala District.

Rainfall during the month was insufficient. More is badly wanted. Sowings of kharif crops continued to a normal extent except cotton and Dhan which are below normal. Germination good. Condition of standing crops is good on irrigated and average on unirrigated area. Yield of extra rabi crops average. Cattle are generally in bad condition Public health is generally good. Western Jumna Canal flowed continuously and water was adequate for irrigation purposes. Prices are rising.

6.—Simla District.

Rainfall during the month was sufficient. Condition of standing crops poor in Simla Tahsil, and good in Kot Khái Tahsil. Condition of cattle good. Fodder and grazing sufficient. Public health good. Water in hill streams sufficient.

7.—Kangra District.

Rainfall during the month though generally below average, proved beneficial to the standing crops. Sowings of kharif crops completed. Standing crops are in good condition. Catle are comparatively in better condition because green grass is now available. Public health generally good. Water in streams and kuhls is sufficient for irrigation purposes Prices are still high.

8.—Hoshiarpur District.

Rainfall during the month was sufficient. Sowings of maize, jowar, rice and moth continued. Condition of standing crops good. Yield expected to be normal. Fodder insufficient. Public health is good. Shah Nahar continued to flow. Prices are rising.

9.—Jullundur District.

Rainfall is below average. More is badly wanted. Sowings of chillies completed and of maize on chahi lands and other kharif crops on both chahi and barani lands continue and are below normal. Condition of standing irrigated crops average. Yield of kharif crops expected to be below normal. Cattle are generally weak owing to hard work and scarcity of fodder Public health is generally good. Prices of food-grains are rising. Stocks of food-grains nsufficient.

10.—LUDHIANA DISTRICT.

Rainfall, though below average, has improved the condition of standing crops. Sowings of kharif crops continued. Yield of standing crops expected to be fair. Condition of cattle satisfactory. Fodder and grass not available in sufficient quantity. Public health satisfactory.

11.—FEROZEPORE DISTRICT.

The spell of the dry season was broken during the second half of the month and all recording stations received some rain. Fázilka had the largest amount 9·30″. Kharif sowings in progress in parts Condition of standing crops has been much improved. Yield of zaid rabi crops on irrigated lands normal. Green fodder is now available. Condition of cattle hardly satisfactory. Public health satisfactory. Sirhind and Grey Canals have worked satisfactorily.

12.—LAHORE DISTRICT.

Lahore and Kasúr received sufficient rainfall but only few showers were received in Chunián. It did good to the standing crops, which are in average condition. Rice, maize, chari, moth, mung and mash are sown on irrigated and til, moth, mung, mash and bajra on unirrigated area. Yield of standing crops expected to be normal. State of cattle average. Public health on the whole fair. Perennial and inundation canals ran regularly; water supply sufficient. Prices high.

13.—AMRITSAR DISTRICT.

Chari, maize, rice and til were sown during the month. Condition and expected yield of standing crops average. Condition of cattle average. Public health generally good. Canals are working by rotation; supply sufficient. Drinking water is also sufficient now.

14.—GURDASPUR DISTRICT.

Rainfall during the month was little above the average. Kharif sowings mostly completed. Condition of standing crops good. Condition of cattle generally good. Public health generally good. Government canals are flowing. Floods in the Ravi have irrigated certain area. Prices have risen slightly.

15.—SIALKOT DISTRICT.

Sowings of kharif crops continued everywhere which are above normal on account of continuous rains in the end of the month. Condition of standing crops average. Yield of tobacco poor. Cattle are weak on account of hard work and scarcity of fodder. Some have died of starvation. Public health good. Irrigation by canal continued. Supply of food-grains and water sufficient. Bhoosa scarce but green grass is expected in a few days. Rivers and *nalas* flooded.

16.—GUJRANWALA DISTRICT.

Rainfall during the month was above the average. Sowings of rice, jowar, bajra and maize in progress. Condition of standing crops average. Condition of cattle is still bad. White bhoosa is insufficient but grazing is expected to improve by recent rains. State of public health is generally good. Canal water is sufficient.

17.—SHEIKHUPURA DISTRICT.

Sufficient rain fell during the month. Sowings of chari, moth and bajra are in progress. Condition of standing crops was poor but recent rains have improved their condition. Yield expected to be normal. Condition of cattle is improving. Plenty of grass for grazing purposes will be available. Public health is generally good. The Lower Chenab Canal remained closed but Upper Chenab Canal continued to flow.

18.—GUJRAT DISTRICT.

Fairly good, but unevenly distributed, rainfall was received during the month. Sowings of kharif crops on barani lands in progress. Condition of cotton and sugarcane crops improving and germination of other crops generally good. Cattle are still weak and fodder is scarce. Green fodder is expected in a fortnight if the rainfall continues. Public health good. Canals running.

19.—SHAHPUR DISTRICT.

Heavy rain fell during the last half of the month and was beneficial to the standing crops and further sowings. Sowings of bajra, jowar and maize continued. Normal area is expected to be sown. Germination fair. Condition of standing kharif and extra rabi crops is good on irrigated lands. Unirrigated sowings will also improve on account of recent heavy rains. Condition of cattle has improved. Public health generally fair. Lower Jhelum Canal and Inundation Canals flowed; water supply adequate.

20.—Jhelum District.

Sufficient rain has fallen during the month. Sowings of kharif crops continued. Standing crops are generally in good condition. Fodder is still scarce. Public health generally good.

21.—Rawalpindi District.

Plenty of rain fell throughout the district. Condition of standing crops average. Condition of cattle very poor. Fodder scarce, but green grass will be available in a few days for grazing purposes. Public health good.

22.—Attock District.

Sufficient rain fell during the last week of the month. Condition of standing crops has considerably improved. Cattle will be greatly relieved by the growth of green grass. Public health generally good. Water sufficient. Prices stationary.

23.—Mianwali District.

Rainfall during the month was insufficient. Sowings of kharif crops commenced to a normal extent. Condition and expected yield of standing extra rabi crops below average on irrigated and poor on unirrigated area. Condition of standing kharif crops is good on irrigated and average on unirrigated area. Harvesting of extra rabi crops is in progress. Condition of cattle poor for want of fodder. Public health generally fair. The Kurram Canal in Isa Khel watering lands insufficiently, while the Nammal canal is closed temporarily. Prices have reached famine rates.

24.—Montgomery District.

Rainfall during the month was sufficient. Sowings of rice, chari, maize, moth, jowar, bajra and til continued. Standing crops are in good condition. Yield expected to be average. Public health good. Cattle weak on account of scarcity of fodder. Canals continued flowing. Prices are very high.

25.—Lyallpur District.

Rainfall during the month was sufficient and did much good to the standing crops. Sowings of chari, jowar, pulses, maize and rice continued and are above normal. Condition of cattle good. Public health good. Canal working by rotational closures. No complaint of water.

26.—Jhang District.

Rainfall during the month proved beneficial to the standing crops and facilitated ploughings and sowings. Bajra, til, jowar, maize, moth, mung, mash and mandwa are being sown. Standing crops are now in good condition. Cattle were in bad condition, but as green grass is expected their condition will be improved now.

27.—Multan District.

Rainfall was sufficient. It proved beneficial to standing crops as well as coming rabi cultivation. Sowings of jowar, cotton, rice, bajra and til in progress. Condition of standing crops below average on irrigated area. Condition of cattle poor. Public health generally good. Inundation canals, including Lower Bari Doab Canal, have been working. Prices of food-grains are rising.

28.—Muzaffargarh District.

Sufficient rain fell in all the tahsils and was much useful for the standing crops. More is needed. Sowings of jowar, bajra, til and rice in progress. Condition of standing crops average on irrigated and poor on unirrigated area. Condition of cattle is still poor for want of fodder. Canals are running with sufficient supply of water. The Indus has risen and there is every hope of sailab cultivation. Prices of food-stuffs are stationary and range between warning and famine rates.

29.—Dera Ghazi Khan District.

Rainfall during the month has been sufficient. Sowings of jowar and bajra continued in Pachahd. Kharif sowings in Sindh and chahi nahri tracts have been concluded. Condition and expected yield of standing crops average. Fodder is said to be insufficient in Jámpur and Sanghar Tahsils, while it is average in others. Public health is good. Canals are flowing well. There has been sufficient flow of hill torrent and river remained high. Prices are stationary.

MAHBUB SHAH, Supdt.,

for Director of Land Records, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 6th August 1921, there were 1,233 births registered in the 38 large municipal towns (641 males and 592 females), giving a birth-rate of 54 *per mille* of population, and 672 deaths were registered (320 males and 352 females), giving a death-rate of 29 *per mille* of population. The death-rates registered in the three largest towns were as follows :— Lahore 30 against 23 in the corresponding week of the previous year; Amritsar 32 against 3[illegible]; Multán 28 against 22.

There were 7 deaths recorded from cholera in Hissar, 5 each in Lahore and Kasúr, and 2 in Ráwalpindi. Of the 13 deaths from small-pox, 11 were registered in Multán and 1 each in Ferozepore and Lahore.

ERRATUM.

Weekly return of births and deaths registered in the 38 large Municipal Towns in the Punjab during the week ending Saturday, the 16th July 1921, published at page 525 in the Supplement to Punjab Gazette *for July 29th, 1921.*

1. Serial No. 38, Multán town, in Multán District, instead of "2" in sub-column 13, *read* "nil" and *for* "nil" in column 12 *read* "2."

2. Grand total, instead of "2" in sub-column 12, *read* "4" and *for* "2" in sub-column 13 *read* "nil".

3. In remarks line 6 for "of the 2 deaths from small-pox" *read* "of the 4 deaths from small-pox, 2 were registered in Multán and 1 each in Lahore and Batála" and *delete* the last sentence.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 22nd August 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1 Supply of fodder. 2 Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	3·15 at Hansi ... 1·50 at Bhiwáni. 0·29 at Fatehabad.	1. Insufficient; green grass and chari available. 2. (b) Perennial and inundation canals flowing; supply sufficient. 3. Cattle weak.	Wheat, 4¼ ... Gram, 4¾. Barley, 6½. Bajra, 4¾. Prices above scarcity rate. Stocks of food-grains insufficient.	...	Rain was useful for sowings. Condition of irrigated sugarcane, cotton and chari and of other unirrigated crops good. Sowings of jowar, bajra, rice and pulses continue, and are normal.
2	Rohtak ...	1·90 at Sadr ... 1·56 at Jhajjar. 2·27 at Gohána. 3·02 at Sonepat. 2·65 at Sampla.	1. Green grass available 2. (a) Sufficient. 3. Good.	Wheat, 4¼ ... Gram, 5¼. Barley, 7. Jowar, 5. Bajra, 5. Prices at or above scarcity rate.	...	Area sown normal. Standing sugarcane, cotton, bajra jowar, til, pulses and fodder normal. Irrigated chari is being reaped. Yield expected to be normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
3	Gurgaon ...	1·21 at Sadr ... 0·06 at Rewári. 0·26 at Núh. 0·06 at Fírozpur. 1·91 at Palwal. 0·72 at Ballabgarh.	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canal closed. 3. Generally good.	Wheat, 4 to $4\frac{1}{2}$ ... Barley, $5\frac{3}{4}$ to $6\frac{1}{4}$. Gram, 5 to $5\frac{1}{2}$. Bajra, $4\frac{1}{2}$ to 5. Jowar, 4 to 5. Maize, 4 to 5. Prices at or above scarcity rate. Stocks of food-grains sufficient with traders. Agriculturists have no stock.	...	Rain sufficient for kharif sowings. Sowings of jowar, bajra, etc., continue on unirrigated area of the Gurgaon Tahsil and are below normal. Germination good. Standing crops good, but heavy rainfall has damaged them to some extent in certain parts of the district.
4	Ambála ...	0·06 at Sadr ... 1·90 at Jagádhri. 1·96 at Náraingarh 1·10 at Kharar. 0·33 at Rúpar. 5·64 at Kasauli.	1. Insufficient, green grass available. 2. (b) Western Jumna Canal closed. 3. Generally good.	Wheat, $4\frac{3}{16}$ ... Gram, $5\frac{1}{16}$. Barley, $6\frac{11}{16}$. Prices above scarcity rate. There are no stocks of food-grains in the hands of traders.	...	Rain is sufficient. Sowings of rice, bajra and fodder continue and are normal. Standing rice, cotton and sesamum normal.
5	Jullundur ...	1·20 at Sadr ... 0·49 at Nakodar. 0·42 at Nawanshahr.	1. Scarce ... 3. Cattle still weak owing to hard work and scarcity of fodder.	Wheat, 4 ... Maize, 5. Gram, 5. Jowar, 6. Prices above scarcity rate. Stocks of food-grains insufficient in the hands of traders and others.	...	Rain was beneficial to standing crops. Condition of rice and cotton normal, and of sesamum and indigo poor.
6	Ferozepore ...	0·17 at Sadr ... 0·59 at Abohar.	1. Scarce, green grass available. 2. (a) Sufficient. (b) Sirhind and Grey Canals running, supply sufficient. 3. Satisfactory.	Wheat, $3\frac{3}{4}$ ... Gram, $4\frac{5}{8}$. Barley, $6\frac{1}{4}$. Prices above scarcity rate. Stocks of food-grains sufficient in the hands of traders.	...	Condition of standing rice, cotton and sesamum normal on irrigated area. In parts of the Zira Tahsil kharif crops have been damaged by river flood and in parts of the Moga Tahsil chari has been damaged by insects.
7	Lahore ...	0·70 at Sadr ... 0·30 at Chúnian. 0·41 at Kasúr.	1. Insufficient green grass available. 2. (a) Sufficient. (b) Perennial and inundation canals flowing; supply sufficient. 3. Generally fair.	Wheat, 4 ... Gram, $4\frac{1}{2}$. Prices above scarcity rate. Stocks of food-grains generally insufficient.	...	Sowings of maize, bajra, pulses and fodder continue and are normal on irrigated and below normal on unirrigated area. Condition of sugarcane, cotton, rice, jowar, bajra, maize, til and fodder normal on irrigated and below normal on unirrigated area.
8	Amritsar ...	0·33 at Sadr ... 0·32 at Tarn Táran. 2·40 at Ajnála.	1. Sufficient ... 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Generally good.	Wheat, $4\frac{3}{16}$ ... Gram, $4\frac{3}{4}$. Barley, $5\frac{1}{2}$. Maize, $4\frac{1}{4}$. Jowar, 4. Bajra, 3. Prices above scarcity rate. Stocks of food-grains sufficient in the hands of traders.	...	Sowings of chari and maize continue and are normal. Condition of standing irrigated cotton, sugarcane, rice and til good and of other unirrigated crops normal.
9	Siálkot ...	3·13 at Sadr ... 4·64 at Zafarwál. 4·12 at Pasrúr. 2·34 at Raya. 3·19 at Daska.	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canal flowing. Rivers and nalas flooded. 3. Average.	Wheat, $4\frac{1}{2}$ to $4\frac{3}{4}$ ... Barley, $5\frac{1}{2}$ to 6. Gram, $4\frac{1}{2}$ to $4\frac{3}{4}$. Prices above scarcity rate. Sahukars have got sufficient stock of food-grains, but others very little.		Rain was beneficial to standing crops. Sowings continue and are above normal. Condition of rice and cotton good and sesamum normal.

No.	Reporting station.	Rain.	1 Supply of fodder. 2. Water-supply for—(a) Drinking (b) Canal irrigation. 3 Condition of cattle.	Retail prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
10	Shahpur ...	2·22 at Sadr ... 4·65 at Bhalwal. 4·74 at Shahpur. 4·40 at Khushab.	1. Green grass available. 2. (b) Lower Jhelum and inundation canals flowing; supply adequate. 3. Fair.	Wheat, 4½ to 4¾ .. Maize, 3½ to 5. Barley, 6. Gram, 4¾. Bajra, 4½ to 5¼. Prices above scarcity rate. Stocks of food-grains generally sufficient with traders and zamindars.	...	Rain was beneficial to standing crops and sowings. Sowings of jowar bajra and maize continue, and are above normal. Germination good. Condition of rice, sugarcane, cotton, and sesamum good. In parts of Bhalwal and Shahpur Tahsils the kharif crops have been damaged to some extent by river flood.
11	Ráwalpindi ...	0·49 at Sadr ... 0·28 at Murree. 1·18 at Gujar Khan 0·96 at Kahuta.	1. Scarce ... 3. Fair.	Wheat, 4 1/16 ... Barley, 6. Gram, 4¾. Maize, 4½. Bajra, 3¾. Jowar, 2¾. Prices above scarcity rate. Stocks of food-grains, which are mostly in hands of traders, are insufficient.	...	Condition of cotton, bajra, maize, jowar and rice fair.
12	Miánwáli ...	2·90 at Sadr ... 0·10 at Isa Khel. 0·28 at Bhakkar.	1. Scarce ... 2. (a) Sufficient. (b) Canals closed. 3. Poor for want of fodder.	Wheat, 4½ ... Gram, 4½. Bajra, 4. Jowar, 4 Barley, 6. Prices above scarcity rate. Stocks of food-grains quite insufficient.	...	Standing cotton and other kharif crops good on irrigated and normal on unirrigated area.
13	Lyallpur ...	2·65 at Sadr ... 0·82 at Samundri. 1·97 at Jaránwála.	1. Green grass sufficient. 2. (a) Sufficient. (b) Canal flowing supply sufficient. 3 Good.	Wheat, 4½ ... Gram, 4¾. Prices above scarcity rate. Stocks of food-grains with zamindars and traders decreasing.	...	Rain was beneficial to standing crops. Sowings of maize, rice and fodder completed. Condition of cotton and other standing crops good.
14	Multán ...	0·77 at Sadr ... 0·56 at Lodhran. 1·15 at Mailsi. 0·63 at Shujabád. 1·12 at Kabirwála.	1. Scarce, green jowar and grass available. 2. (b) Lower Bari Doab and inundation canals flowing; supply sufficient. 3. Poor.	Wheat, 4½ ... Barley, 5¾ Gram, 4¾. Jowar, 6. Bajra, 4¾. Maize, 3¾. Prices above scarcity rate. Stocks of food-grains insufficient in the hands of zamindars.	...	Rain was beneficial to standing crops and sowings. Sowings of jowar, bajra, maize and pulses continue. Condition of standing crops normal. Kharif crops on the unirrigated area were damaged to some extent by a flood in the Chenab river.

GENERAL REMARKS.

LIGHT and moderate rain fell in all the reporting districts and was useful for standing crops and for sowings. Condition of cotton, sugarcane and other standing crops is generally normal. Autumn crops being sown. Area sown normal on irrigated and below normal on unirrigated area. Germination good. Dry fodder is scarce, green grass available. Cattle generally weak owing to overwork and scarcity of fodder. Water is sufficient. Prices have risen slightly in almost all the districts. They are generally above scarcity rates. No test work was opened during the week. Stocks of food-grains insufficient, except in a few districts. Prices of wheat:—Ferozepore 3¾, Lahore, 4, Ráwalpindi 4 1/16, Ambála, 4 1/16 and Lyallpur 4½ seers per rupee.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 13th August 1921, there were 1,281 births registered in the 38 large municipal towns (682 males and 599 females), giving a birth-rate of 56 *per mille* of population, and 766 deaths were registered (384 males and 382 females), giving a death-rate of 33 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 38 against 26 in the corresponding week of the previous year ; Amritsar 24 against 40 and Multán 21 against 24.

There were 23 deaths reported from cholera in Kasúr, 20 in Lahore, 10 in Kaithal, 9 in Ráwalpindi, 8 in Hissar, 6 in Sialkot, 4 in Ferozepore, 3 each in Rewári, Gujránwála and Chiniot and 2 each in Jhajjar, Jullundur and Amritsar. Of the 4 deaths from small-pox, 2 were registered in Multán and 1 each in Lahore and Ráwalpindi.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for — (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
3	Gurgaon ...	0·16 at Sadr ... 0·11 at Palwal.	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canal closed. 3. Generally good.	Wheat, 4 to $4\frac{1}{2}$ ... Barley, 6 to $6\frac{1}{2}$. Gram, $4\frac{1}{2}$ to $5\frac{1}{4}$. Bajra, $4\frac{1}{2}$ to 5. Jowar, 4 to 5. Maize, 4 to 6. Prices at or above scarcity rate. Stocks of food-grains sufficient with traders. Agriculturists have no stock.	...	Rain was beneficial for standing crops. Sowings of unirrigated jowar and bajra continue in Gurgaon Tahsil and are below normal. Germination is good. Standing crops on irrigated and unirrigated area good. Yield expected to be normal.
4	Ambála ...	0·18 at Sadr ... 1·22 at Jagádhri. 1·27 at Náraingarh 0·80 at Kharar. 0·87 at Rúpar. 1·70 at Kasauli.	1. Insufficient; green grass available. 2. (a) Sufficient. (b) Western Jumna Canal flowing; supply inadequate. 3. Generally good.	Wheat, $4\frac{1}{2}$ ... Gram, $5\frac{3}{16}$. Barley, $6\frac{11}{16}$. Prices above scarcity rate. Stocks of food-grains insufficient.	...	More rain wanted. Standing crops on irrigated and unirrigated area normal.
5	Jullundur ...	0·13 at Nawanshahr.	3. Cattle weak owing to hard work.	Wheat, $4\frac{1}{2}$ to $4\frac{3}{4}$ ... Gram, 5. Barley, 6. Maize, 5. Prices above scarcity rate. Stocks of food-grains insufficient in the hands of traders and others.	...	Rain is badly wanted. Condition of rice and cotton normal, and of sesamum and indigo below normal.
6	Ferozepore ...	...	1. Scarce ... 2. (a) Sufficient. (b) Sirhind and Grey Canals running; supply sufficient. 3. Cattle fair.	Wheat, $3\frac{3}{4}$ ... Gram, $4\frac{5}{8}$. Barley, $6\frac{1}{4}$. Prices above scarcity rate. Stocks of food-grains sufficient in the hands of traders.	...	Standing irrigated crops normal, unirrigated below normal.
7	Lahore ...	...	1. Insufficient; green grass available. 2. (a) Sufficient. (b) Perennial and inundation canals flowing; supply sufficient. 3. Generally fair.	Wheat, $4\frac{1}{2}$ ... Gram, $4\frac{3}{4}$. Prices above scarcity rate. Stocks of food-grains generally insufficient.	...	Condition of irrigated sugarcane, cotton, rice, maize, etc., normal and of unirrigated til, jowar and bajra below normal.
8	Amritsar ...	...	1. Sufficient ... 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Generally good.	Wheat, $4\frac{1}{2}$ ... Gram, $4\frac{3}{4}$. Barley, 7. Maize, $5\frac{3}{4}$. Jowar, 6. Bajra, $4\frac{1}{2}$. Prices at or above scarcity rate. Food-grains sufficient in the hands of traders.	...	More rain is wanted. Condition of standing irrigated crops good and of unirrigated normal.
9	Siálkot ...	...	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canals flowing. River flooded. 3. Cattle good.	Wheat, 4 to $4\frac{1}{2}$ ... Barley, $5\frac{3}{4}$ to 6. Gram, $4\frac{1}{2}$ to $4\frac{3}{4}$. Prices above scarcity rate. Stocks of food-grains sufficient in the hands of Sahukars.	...	More rain wanted. Sowings of maize and vegetables continue in some parts. Standing irrigated crops good and unirrigated normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Shahpur ...	...	1. Green fodder available. 2. (a) Sufficient. (b) Lower Jhelum and inundation canals flowing; supply sufficient. 3. Cattle fair.	Wheat, 4 to 4½ ... Gram, 4½ to 4¾. Bajra, 5½. Maize, 3¾ to 5. Jowar, 5. Barley, 5 to 6. Prices at or above scarcity rate. Stocks of food-grains sufficient with traders and zamindars.	Sowings of gram and taramira commenced in Shahpur Tahsil.	Condition of rice, sugarcane, cotton and til good.
11	Ráwalpindi ...	0·68 at Murree ...	1. Scarce ... 3. Cattle improving.	Wheat, 4$\frac{1}{16}$ ... Barley, 6. Gram, 4½. Maize, 4½. Bajra, 3½. Jowar, 2¾. Prices above scarcity rate. Stocks of food-grains sufficient in the hands of traders.	...	Rain badly wanted. Condition of cotton, maize, bajra, jowar and rice fair.
12	Miánwáli ...	...	1. Scarce ... 2. (a) Sufficient. (b) Canals closed. 3. Poor for want of fodder.	Wheat, 3¾ ... Gram, 4. Bajra, 4. Jowar, 4½. Barley, 6. Prices above scarcity rate. Stocks of food-grains insufficient.	...	Condition of standing crops good on irrigated and normal on unirrigated area.
13	Lyallpur ...	...	1. Sufficient. 2. (a) Do. (b) Canals flowing; supply sufficient. 3. Cattle good.	Wheat, 3¾ ... Gram, 4½. Prices above scarcity rate. Stocks of food-grains with zamindars and traders decreasing.	...	Condition of cotton and other standing crops good.
14	Multán ...	...	1. Scarce, white bhusa and green jowar available. 2. (b) Lower Bari Doab and inundation canals flowing; supply sufficient. 3. Poor.	Wheat, 4½ ... Barley, 5⅞. Gram, 4½. Jowar, 6. Bajra, 4½. Maize, 3½. Prices above scarcity rate. Stocks of food-grains insufficient in the hands of zamindars.	...	Sowings of jowar, bajra and pulses continue. Condition of standing crops normal.

GENERAL REMARKS.

Light showers fell in only a few reporting districts and were useful for standing crops. Condition of sugarcane, cotton and other standing crops is generally normal. Sowings of autumn crops still continue in parts of a few districts and are below normal. Germination good. Dry fodder is scarce, green grass available. Cattle are generally in fair condition. Water is sufficient. Prices are generally stationary. They are generally above scarcity rates. No test work was opened during the week. Stocks of food-grains insufficient, except in a few districts. Prices of wheat:—Ferozepore 3¾, Lahore, 4½, Ráwalpindi 4$\frac{1}{16}$, Ambála 4½, and Lyallpur 3¾ seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 20th August 1921, there were 1,178 births registered in the 37 large municipal towns (620 males and 558 females), giving a birth-rate of 54 *per mille* of population, and 954 deaths were registered (480 males and 474 females), giving a death-rate of 43 *per mille* of population. The death-rates registered in the three largest towns were as follows:—Lahore 44 against 26 in the corresponding week of the previous year; Amritsar 32 against 33 and Multán 33 against 24.

There were 50 deaths recorded from cholera in Kasúr, 23 in Rewári, 18 in Lahore, 17 in Hissar, 9 in Ferozepore, 8 each in Kaithal and Jullundur, 7 each in Ráwalpindi and Chiniot, 4 in Ludhiána, 3 in Gujránwála and 1 each in Jagádhri and Wazirábad. Of the 4 deaths from small-pox, 2 were registered in Multán and 1 each in Lahore and Gujránwála.

Sanitary Commissioner's Office,
Lahore:
The 31st August 1921.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	PROSPECTS OF Spring.	PROSPECTS OF Autumn.
3	Gurgaon ...	0·25 at Sadr ... 0·42 at Núh. 0·26 at Rewári 0·45 at Firozpur. 0·25 at Palwal. 0·02 at Ballabgarh.	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canals closed. 3. Generally good.	Wheat, $3\frac{3}{4}$ to $4\frac{1}{2}$ ... Barley, $5\frac{3}{4}$ to $6\frac{1}{2}$. Gram, $4\frac{1}{2}$ to $5\frac{1}{2}$. Bajra, 4 to 5. Jowar, 4 to 5. Maize, 4 to 6. Prices at or above scarcity rate. Stocks of food-grains sufficient with traders. Agriculturists have no stock.	...	Rain was beneficial for standing crops. More rain is wanted. Standing crops on irrigated and unirrigated areas good. Yield expected to be normal provided that rain falls soon. Kharif sowings finished.
4	Ambála ...	0·27 at Sadr ... 0·24 at Jagádhri. 0·65 at Náraingarh 0·17 at Rúpar. 0·76 at Kasauli.	1. Insufficient; green grass available. 2. (a) Sufficient. (b) Western Jumna Canal flowing; supply sufficient. 3. Generally good.	Wheat, $4\frac{1}{4}$ ... Gram, $5\frac{3}{16}$. Barley, $6\frac{11}{16}$. Prices above scarcity rate. Stocks of food-grains insufficient.	...	More rain is needed. Standing crops on irrigated and unirrigated areas normal. China is being harvested. Yield normal. Sowings of bajra continue in parts and are normal.
5	Jullundur ...	0·29 at Sadr ... 0·06 at Nakodar. 0·09 at Phillaur. 0·52 at Nawanshahr.	3. Cattle weak owing to hard work and scarcity of fodder.	Wheat, $4\frac{1}{2}$ ... Gram, 4. Barley, 6. Maize, 6. Prices above scarcity rate. Stocks of food-grains insufficient in the hands of traders and others.	...	Rain was beneficial for standing crops. More rain is needed for barani crops. Condition of irrigated rice and cotton normal and of unirrigated sesamum and bajra below normal.
6	Ferozepore ...	1·18 at Sadr .. 0·78 at Moga. 2·59 at Fázilka.	1. Scarce ... 2. (a) Sufficient. (b) Sirhind and Grey Canals running; supply sufficient. 3. Cattle fair.	Wheat, $3\frac{3}{4}$ ... Gram, $4\frac{5}{8}$. Barley, $6\frac{1}{2}$. Prices above scarcity rate. Stocks of food-grains sufficient in the hands of traders.	...	Standing irrigated crops normal and unirrigated below normal. Crops damaged to some extent by insects.
7	Lahore ...	1·42 at Sadr ... 0·17 at Chunián.	1. Insufficient; green grass available. 2. (a) Sufficient. (b) Perennial and inundation canals flowing; supply sufficient. 3. Fair.	Wheat, $4\frac{1}{2}$ ... Gram, 5. Barley, 6. Prices above scarcity rate. Stocks of food-grains generally insufficient.	Toria is being sown to a small extent on irrigated area.	Rain was beneficial for standing crops. Condition of irrigated sugarcane, cotton, rice, maize, chari, til, bajra and jowar fair and of unirrigated til, jowar, bajra and pulses normal.
8	Amritsar ...	0·16 at Sadr ... 0·42 at Tarn Táran. 0·31 at Ajnála.	1. Sufficient ... 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Generally good.	Wheat, 4 ... Gram, $4\frac{3}{4}$. Barley, 7. Maize, $5\frac{3}{4}$. Jowar, 6. Bajra, $4\frac{1}{2}$. Prices at or above scarcity rate. Stocks of food-grains sufficient in the hands of traders and rich zamindars.	...	Condition of standing crops, i.e., cotton, sugarcane, rice and til normal on irrigated and below normal on unirrigated area. Late sown fodder and maize are being damaged by insects.
9	Siálkot ...	0·22 at Sadr ... 1·14 at Zafarwál. 1·16 at Raya. 0·60 at Daska.	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canals flowing. River Chenab and Nalas flooded. 3. Cattle good.	Wheat, $4\frac{1}{4}$ to $4\frac{1}{2}$ ... Barley, $5\frac{3}{4}$ to 6. Gram, $4\frac{1}{2}$ to $4\frac{3}{4}$. Prices above scarcity rate. Stocks of food-grains sufficient with Sahukars.	Sowings of toria, gram and vegetables commenced in parts.	Condition of rice, sesamum and other standing crops good on irrigated and normal on unirrigated area.

No.	Reporting station.	Rain.	1 Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3 Condition of cattle.	Retail prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Shahpur ...	0·23 at Sadr ... 0·12 at Bhalwal. 0·14 at Shahpur.	1. Green fodder available. 2. (a) Sufficient. (b) Lower Jhelum Canal flowing; supply sufficient. Inundation canals closed. 3. Cattle fair.	Wheat, 3¾ to 4 ... Barley, 5. Gram, 4 to $4\frac{7}{16}$. Bajra, 4½ to 5½. Maize, 3¾ to 5. Prices above scarcity rate. Stocks of food-grains sufficient with traders and zamindars of Bhalwal and Sargodha Tahsils and insufficient elsewhere.	Sowings of turnips, gram and taramira commenced in Shahpur Tahsil.	Rain was beneficial for standing crops. Condition of rice, sugarcane, cotton and til good.
11	Ráwalpindi ...	0·25 at Sadr ... 0·32 at Kahúta ... 0·77 at Gujar Khan 0·66 at Murree ...	1. Scarce ... 3. Cattle improving.	Wheat, 3½ ... Barley, 6. Gram, 4½. Maize, 4¼. Bajra, 3¾. Jowar, 2¾. Prices above scarcity rate. Stocks of food-grains sufficient in the hands of traders.	...	Condition of cotton, bajra, maize, jowar and rice fair.
12	Miánwáli ...	0·05 at Isa Khel ...	1. Scarce ... 2 (a) Sufficient. (b) Canals closed. 3. Cattle poor for want of fodder.	Wheat, 3½ Gram, 4. Bajra, 4. Jowar, 4. Barley, 6. Prices above scarcity rate.	...	Standing crops good on irrigated and normal on unirrigated area.
13	Lyallpur ...	0·07 at Jaránwála	1. Sufficient. 2. (a) Do. (b) Canals running; water adequate. 3 Good.	Wheat. 4¼ ... Gram, 4¼. Prices above scarcity rate. Stocks of food-grains with zamindars and traders hardly sufficient.	Toria is being sown ...	Condition of cotton and other standing crops good.
14	Multán ...	...	1. Scarce, green jowar available. 2. (b) Lower Bari Doab and Inundation canals flowing by rotation. 3. Cattle fair.	Wheat, 4¾ Barley, 5½ Gram, 4¾ Jowar, 6¼. Bajra, 4¼. Maize, 3¾. Prices above scarcity rate. Stocks of food-grains insufficient in the hands of zamindars.	Sowings of turnips and taramira commenced.	Condition of cotton, rice, indigo and sesamum normal.

GENERAL REMARKS.

Light showers which were useful for standing kharif crops and rabi sowings fell in nearly all the reporting districts. Condition of sugarcane, cotton and other standing crops is generally normal. Sowings of gram, toria, taramira and vegetables commenced in a few districts. Dry fodder is scarce, green grass available. Cattle are generally in fair condition. Water is sufficient. Prices are generally stationary. They are generally above scarcity rate. No test work was opened during the week. Stocks of food-grains insufficient, except in a few districts. Prices of wheat :—Ferozepore 3¾, Lahore, 4¼, Ráwalpindi 3½, Ambála and Lyallpur 4½ seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

(a) =Aneroid.
* Not reduced to sea level.

A western disturbance caused, in conjunction with the monsoon, some rain in the Punjab and the North-West Frontier Province in the last week, but the month's fall was very deficient practically everywhere.

Pressure and Winds.— Atmospheric pressure was in decided defect everywhere. Winds were stronger than usual at Ambála, Siálkot, Ráwalpindi and Multán, and weaker at Montgomery, Lahore, Murree and Peshàwar; their direction was about normal except at Ráwalpindi, Multán and Cherát.

Temperature.— On the mean of the month the maximum temperature was 3° or more above the average at Ambála, Ludhiána and Pesháwar and minimum temperature at Lahore, Multán and Dera Ismail Khan. At Drosh the mean maximum was 3½° below the average.

The following table shows for each day of the month the departure from the normal of the mean temperature of the Punjab and the North-West Frontier Province, with the highest maximum temperature registered and the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 27th August 1921, there were 1,265 births registered in the 37 large municipal towns (635 males and 630 females), giving a birth-rate of 56 *per mille* of population, and 1,350 deaths were registered (708 males and 642 females), giving a death-rate of 59 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 72 against 28 in the corresponding week of the previous year; Amritsar 40 against 36 and Multán 33 against 32.

There were 74 deaths recorded from cholera in Kasúr, 53 in Lahore, 44 in Ráwalpindi, 43 in Rewári, 32 in Gujránwála, 28 in Chiniot, 20 in Sirsa, 16 in Kaithal, 11 in Wazirábad, 9 in Gujrát, 8 each in Jullundur, Ludhiána and Ferozepore, 6 in Hissar, 5 each in Batála and Jhelum, 3 in Pánipat, 2 each in Bhiwáni, Amritsar and Siálkot and 1 each in Karnál and Hoshiárpur. Of the 6 deaths from small-pox, 3 were registered in Multán and 1 each in Hoshiárpur, Lahore and Ráwalpindi.

Sanitary Commissioner's Office,
Lahore :
The 7th September 1921.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
3	Gurgaon ...	1·45 at Sadr ... 0·31 at Rewári 0·23 at Núh. 2·74 at Firozpur.	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canals closed. 3. Generally good.	Wheat, 4 to 4¾ ... Barley, 5¾ to 6¾. Gram, 4 to 5½. Bajra, 4 to 5 Jowar, 4 to 6. Maize, 4 to 6. Prices generally at or above scarcity rates. Stocks of food-grains sufficient with traders. Agriculturists have no stock.	...	Rain was beneficial for standing crops, but more is wanted. Standing crops on irrigated and unirrigated area good. Yield expected to be normal provided that rain falls se[illegible]
4	Ambála ...	0·55 at Náraingarh 1·60 at Rúpar. 0·85 at Kasauli.	1. Insufficient; green grass available. 2. (a) Sufficient. (b) Western Jumna Canal flowing; supply sufficient. 3. Generally good.	Wheat, 4¼ ... Gram, 5. Barley, 6 1/16. Prices above scarcity rates. Stocks of food-grains insufficient.	...	More rain badly wanted. Standing crops normal on irrigated and below normal on unirrigated area. China is being harvested. Yield below normal.
5	Jullundur ...	0·83 at Sadr ... 0·27 at Nakodar. 1·48 at Phillaur.	1. Scarce 3. Cattle generally weak owing to scarcity of fodder and hard work.	Wheat, 4½ ... Gram, 4½. Maize, 5. Prices above scarcity rates. Stocks of food-grains insufficient in the hands of traders and others.	...	Rain was beneficial for standing crops as well as rabi sowings. More rain is needed. Condition of irrigated rice and cotton normal and of unirrigated sesamum and indigo below normal.
6	Ferozepore ...	0·89 at Fázilka ...	1. Scarce ... 2. (a) Sufficient. (b) Canals running; supply sufficient. 3. Poor.	Wheat, 3¾ ... Gram, 4⅝. Barley, 6½. Prices above scarcity rates. Stocks of food-grains sufficient in the hands of traders.	...	Standing irrigated crops, *viz.*, rice, cotton and sesamum normal and other unirrigated crops poor.
7	Lahore ...	1·20 at Chunián ...	1 Scarce; green grass available. 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Fair.	Wheat, 4 ... Gram, 4½. Prices above scarcity rate. Stocks of food-grains generally insufficient.	Toria is being sown to some extent on irrigated area.	Condition of irrigated sugarcane, cotton, rice, maize, chari, til, bajra and jowar fair and of unirrigated til, jowar, bajra and moth normal. Kiri damaged the maize crop to some extent.
8	Amritsar ...	2·28 at Sadr ... 0·07 at Tarn Táran. 1·30 at Ajnála.	1. Sufficient ... 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Generally good.	Wheat, 4 3/16 ... Barley, 6. Gram, 4¼. Maize, 5. Jowar, 6. Bajra, 4¼. Prices above scarcity rates. Stocks of food-grains sufficient in the hands of traders and rich zamindars.	...	Condition of irrigated sugarcane, cotton, rice and til normal and of other unirrigated crops below normal. Late sown fodder and maize are being damaged by insects.
9	Siálkot ...	0·59 at Sadr ...	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canals flowing; River Chenab and Nalas flooded. 3. Cattle good.	Wheat, 4 to 4¼ ... Barley, 6. Gram, 4½. Prices above scarcity rates. Stocks of food-grains sufficient with Sahukars.	Sowings of toria, gram and vegetables continued in some parts.	Condition of irrigated rice and sesamum good and of unirrigated cotton normal.

No.	Reporting station.	Rain.	1 Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3 Condition of cattle.	Retail prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Shahpur ...	0·57 at Sadr ... 0·39 at Bhalwal. 0·97 at Shahpur. 0·83 at Khusháb.	1. Green grass available. 2. (a) Sufficient. (b) Lower Jhelum Canal flowing; supply adequate. 3. Fair.	Wheat, 3¾ to 4 ... Barley, 5. Gram, 4½. Bajra, 4½. Maize, 5. Prices above scarcity rate. Stocks of food-grains sufficient with zamindars and traders of Bhalwal and Sargodha Tahsils and insufficient elsewhere.	Sowings of gram, taramira and vegetables commenced in Shahpur Tahsil.	Rain was useful for standing crops and further sowings. Condition of rice, sugarcane and sesamum good and cotton doubtful.
11	Ráwalpindi ...		Report	not received.		
12	Miánwáli ...	0·83 at Sadr ... 1·32 at Isa Khel.	1. Scarce ... 2. (a) Sufficient. (b) Canals closed. 3. Poor for want of fodder.	Wheat, 3½ ... Gram, 4. Bajra, 4. Jowar, 4. Barley, 6. Prices above scarcity rate. Stocks of food-grains insufficient.	...	Condition of standing crops good on irrigated and normal on unirrigated area.
13	Lyallpur ...	...	1. Sufficient. 2. (a) Do. (b) Canals flowing; supply sufficient. 3 Good.	Wheat, 4¾ ... Gram, 4¾. Prices above scarcity rate. Stocks of food-grains hardly sufficient with traders and zamindars.	Toria is being sown ...	Condition of cotton and other crops good.
14	Multán ...	...	1. Insufficient green grass and jowar available. 2. (a) Sufficient. (b) Sidhnai Canal flowing; Lower Bari Doab and Inundation Canals working by rotation. 3. Fair.	Wheat, 4 ... Barley, 5¾ Gram, 4¼. Jowar, 6¼. Bajra, 4½. Maize, 3½. Prices above scarcity rate. Stocks of food-grains insufficient in the hands of zamindars.	Sowings of toria and vegetables commenced on irrigated and unirrigated area.	Condition of standing crops normal. Sowings of kharif crops finished.

GENERAL REMARKS.

Light showers fell in a few reporting districts and were useful for standing kharif crops. Condition of sugarcane, cotton and other standing crops is generally normal. Sowings of gram, toria, and vegetables continue in parts of a few districts. Dry fodder is scarce, green grass and chari available. Cattle are generally in fair condition. Water is sufficient. Prices are generally stationary. They are generally above scarcity rates. No test work was opened during the week. Stocks of food-grains generally insufficient. Prices of wheat:—Lahore 4, Ambála 4¼, Ferozepore 3½, and Lyallpur 4¾ seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

No. 38. LAHORE, FRIDAY, SEPTEMBER 23, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 19th September 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1 Supply of fodder. 2 Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·41 at Bhiwáni ... 0·57 at Hánsi. 0·22 at Tohána.	1. Insufficient, green grass and chari available. 2. (b) Perennial canals flowing; supply sufficient. 3. Cattle good.	Wheat, 4¼ Gram 4½. Bajra 3½. Barley, 6. Prices above scarcity rate. Stocks of food-grains insufficient.	...	More rain badly wanted. Condition of irrigated sugarcane, cotton and chari good and of unirrigated bajra, gowar and pulses below normal.
2	Rohtak .	1·87 at Sadr ... 2·07 at Jhajjar. 0·12 at Gohána. 0·54 at Sonepat. 0·70 at Sámpla.	1. Insufficient, green grass available. 2. (a) Sufficient. 3. Generally good.	Wheat, 4½ Gram, 5½. Barley, 7. Jowar, 5½. Bajra, 5¼. Prices at or above scarcity rate.	...	More rain wanted. Condition of irrigated sugarcane, cotton and bajra and of unirrigated jowar, bajra, cotton, fodder and pulses normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for — (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
3	Gurgaon ...	0·01 at Sadr ... 0·59 at Rewári 0·60 at Firozpur.	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canals closed. 3. Generally good.	Wheat, 3¼ to 4⅜ ... Barley, 5¾ to 7. Gram, 4½ to 6. Bajra, 4 to 5½. Jowar, 4 to 5. Maize, 4 to 6. Prices of maize at warning and of other generally at or above scarcity rate. Stocks of food-grains sufficient with traders. Agriculturists have no stock.	...	Rain was beneficial to the standing crops, but more rain is wanted. Condition of first sown irrigated and unirrigated crops good, and that of later sown crops fair; their yield is expected to be normal and below normal, respectively.
4	Ambála ...	2·85 at Sadr .. 0·25 at Jagádhri. 0·92 at Náraingarh 0·51 at Kharar. 0·22 at Rúpar. 3·40 at Kasauli.	1. Insufficient; green grass available. 2. (a) Sufficient. (b) Western Jumna Canal flowing; supply sufficient. 3. Generally good.	Wheat, 4½ ... Gram, 4¾. Barley, 6½. Prices above scarcity rate. Stocks of food-grains insufficient.	Gram, tatamira and toria are being sown in some places.	Rain badly wanted. Condition of rice, til and cotton poor and of sugarcane normal. China is being harvested. Yield below normal.
5	Jullundur ...	0·32 at Phillaur ...	1. Scarce ... 3. Cattle generally weak owing to scarcity of fodder and hard work.	Wheat, 4 ... Gram, 4¼. Maize, 5. Barley, 4½. Prices above scarcity rate. Stocks of food-grains insufficient both in the hands of traders and others.	...	More rain is needed for standing crops and rabi sowings. Condition of irrigated rice and cotton normal and of unirrigated sesamum and indigo below normal.
6	Ferozepore ...	...	1. Scarce ... 2. (a) Sufficient. (b) Canals running; supply sufficient. 3. Fair.	Wheat, 3¾ Gram, 4¾. Barley, 6. Prices generally above scarcity rate. Stocks of food-grains sufficient in the hands of traders.	...	Standing irrigated crops, viz., rice, cotton and sesamum normal and of other unirrigated crops poor.
7	Lahore ...	...	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Fair.	Wheat, 4½ .. Gram, 4¾. Prices above scarcity rate. Stocks of food-grains generally insufficient.	Sowings of toria continue to some extent on irrigated area. Sowings normal.	Condition of irrigated sugarcane, rice, cotton, maize, chari, jowar, bajra and til normal and of unirrigated til, jowar, bajra and pulses below normal. Kirl damaged the maize crop.
8	Amritsar ...	...	1. Sufficient ... 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Generally good.	Wheat, 4½ .. Barley, 6. Gram, 4¾. Maize, 5. Jowar, 6. Bajra, 4½. Prices above scarcity rate. Stocks of food-grains sufficient in the hands of traders and rich zamindars.	Sowings of toria commenced. Sowings below normal.	Rain is badly wanted. Condition of irrigated sugarcane, cotton, rice and til normal and of other unirrigated crops below normal. Late sown fodder and maize damaged by insects.
9	Siálkot ...	1·18 at Zafarwál. 0·54 at Pasrúr ... 0·85 at Daska.	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Cattle good.	Wheat, 4½ to 4¾ ... Barley, 6. Gram, 4½ to 4¾. Prices above scarcity rate. Stocks of food-grains sufficient with Sahukars.	Sowings of toria, gram and vegetables continue and are above normal.	Condition of irrigated rice and sesamum good and of unirrigated cotton normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Shahpur ...	...	1. Green grass available. 2. (a) Sufficient. (b) Lower Jhelum Canal flowing; supply adequate. 3. Fair.	Wheat, 4 to $4\frac{1}{4}$ ... Gram, $4\frac{1}{2}$. Bajra, $4\frac{1}{4}$ to $4\frac{1}{2}$. Maize, 5. Prices above scarcity rate. Stocks of food-grains sufficient with zamindars and traders of Bhalwal and Sargodha Tahsils and insufficient elsewhere.	Sowings of gram, toria and vegetables continue.	Condition of rice, sugarcane, cotton and sesamum good.
11	Ráwalpindi ...	0·58 at Sadr ... 3·32 at Kahúta. 5·90 at Murree.	1. Scarce .. 3. Cattle good.	Wheat, 4 ... Barley, 6. Gram, $4\frac{1}{2}$. Maize, $5\frac{3}{4}$. Bajra, $3\frac{3}{4}$. Jowar, $4\frac{3}{4}$. Prices above scarcity rate. Stocks of food-grains sufficient in the hands of traders.	...	Condition of cotton, bajra, maize, jowar and rice normal.
12	Miánwáli ...	0·04 at Sadr ...	1. Scarce ... 2. (a) Sufficient. (b) Canals closed. 3. Cattle poor for want of fodder.	Wheat, $3\frac{1}{2}$ ... Gram, $4\frac{7}{16}$. Bajra, $4\frac{1}{2}$. Jowar, 5. Barley, $5\frac{1}{2}$. Prices at or above scarcity rate. Stocks of food-grains insufficient.	...	Condition of standing crops good on irrigated and normal on unirrigated area.
13	Lyallpur ...	...	1. Sufficient. 2. (a) Do. (b) Canals flowing; supply sufficient. 3. Good.	Wheat, $4\frac{1}{2}$ ... Gram, $4\frac{3}{4}$. Prices above scarcity rate. Stocks of food-grains hardly sufficient with traders and zamindars.	Sowings of toria continue	Condition of cotton and other standing crops good.
14	Multán ...	...	1. Insufficient; green grass and jowar available. 2. (a) Sufficient. (b) Sidhnai Canal flowing; Lower Bari Doab and Inundation Canals working by rotation. 3. Cattle fair.	Wheat, 4 Barley, $5\frac{3}{4}$ Gram, $4\frac{11}{16}$. Jowar, $5\frac{1}{2}$. Maize, $4\frac{3}{4}$. Prices above scarcity rate. Stocks of food-grains insufficient in the hands of zamindars.	Sowings of gram, toria and other vegetables continue. Prospects good.	Condition of standing crops normal. Kharif sowings finished. Indigo is being harvested. Yield normal.

GENERAL REMARKS.

LIGHT showers fell only in a few reporting districts and were useful for standing kharif crops. More rain is wanted for standing crops and rabi sowings. Condition of sugarcane, cotton and other kharif crops is generally normal. Sowings of gram, toria, taramira and vegetables continue in parts of a few districts. Dry fodder is generally scarce, green grass, chari and jowar are available. Cattle are generally in good condition. Water is sufficient. Prices are generally stationary. They are generally above scarcity rates. No test work was opened during the week. Stocks of food-grains insufficient except in a few districts. Prices of wheat :—Ambála $4\frac{1}{4}$, Ferozepore $3\frac{3}{4}$, Lahore $4\frac{1}{4}$, Lyallpur $4\frac{1}{2}$ and Ráwalpindi 4 seers per rupee.

averages have been fixed.
rainfall,

PHILLOURI RAM, OFFG. HEAD ASST. OF STATISTIC

Office of Director of Land Records, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab for the month of August 1921

1.—Hissar District.

Rain received in the first half of the month was general. Sowings of unirrigated kharif crops continued to a normal extent. Standing kharif crops on irrigated area were in good condition and those on unirrigated area average. Cattle still lean, but their condition is fairly good. Green grass is available. Water supply in perennial canals sufficient for irrigation purposes. Ghaggar overflooded for a short time, but supplied sufficient water. Prices of foodstuffs have risen.

2.—Rohtak District.

Rainfall was sufficient. Sowings of unirrigated jowar, bajra, mung, moth and gowar continued to a normal extent. Germination good. Condition and expected yield of irrigated sugarcane, cotton, jowar and bajra and unirrigated jowar, bajra, gowar and mung are average. Cattle are generally in good condition. Public health generally good. Canals remained closed. Water in tanks sufficient.

3.—Gurgaon District.

Rainfall during the month was generally more than average and sufficient for kharif sowings. Jowar, bajra and pulses were sown on unirrigated area. Area sown normal. Standing crops in good condition. Heavy rainfall damaged the crops in certain parts. Yield expected to be normal. Cattle are generally in good condition. Scarcity of bhoosa is felt everywhere, but green grass is available in sufficient quantity. Health of people generally good. Canal ran with sufficient supply of water in the first fortnight and closed in the latter. Hill torrents came down, but no damage was done.

4.—Karnal District.

Rainfall during the first half of the month was sufficient and proved beneficial to kharif sowings. More rain is wanted. Condition of standing crops satisfactory. Yield expected to be normal, if rain falls next month. Condition of cattle satisfactory. Grass and water are plentiful. Public health is generally good. Canals continued flowing. Prices are still very high.

5.—Ambala District.

Rainfall was sufficient in the first half of the month, but insufficient in the second half. More is wanted. Bajra and Dhan are sown in parts to a normal extent. Condition of standing crops is good on irrigated and average on unirrigated area. Cattle are generally in good condition. Fodder and water supply sufficient. Public health is generally good. Western Jumna Canal remained closed for some days owing to abundant rains. Prices are stationary.

6.—Simla District.

Rainfall sufficient. Condition of standing crops average in Simla Tahsil and good in Kot Khái Tahsil. Condition of cattle good. Fodder and grazing sufficient. Public health good. Water in hill streams sufficient.

7.—Kangra District.

Rainfall during the month was above the average, except Bonjor, Kulu and Dehra where it was below average. It proved beneficial to the standing crops which are generally in good condition. Cattle are in fair condition. Fodder is sufficient. Public health is not good. Water in streams and kuhls was sufficient for irrigation purposes. Prices are still high.

8.—Hoshiarpur District.

Rainfall was sufficient. Condition of crops generally good. Standing crops were damaged in a few villages in Bet circle of Dasúya Tahsil by the inundation of the river Beas. Condition of cattle good. Scarcity of fodder is not so keenly felt now. Shah Nahar Canal continued to flow. Prices are rising.

9.—JULLUNDUR DISTRICT.

Rainfall is about average everywhere, except Nakodar, where it was below average. More is needed. Sowings of maize and other kharif crops completed. Condition and expected yield of standing irrigated crops average and of unirrigated crops below average. Cattle are generally weak owing to scarcity of fodder and overwork. River floods slightly damaged the standing crops in Bet villages of Phillour and Nawashahr Tahsils. Prices of food-grains have risen.

10.—LUDHIANA DISTRICT.

Rainfall during the month was below average. More is badly wanted. Condition of standing crops is satisfactory on irrigated and below average on unirrigated area. Yield expected to be normal. Condition of cattle satisfactory. Bhoosa is scarce, but green grass is available. Public health satisfactory.

11.—FEROZEPORE DISTRICT.

Slight rain fell everywhere, except Nathána. It improved the prospects of standing kharif crops. Condition of standing crops is satisfactory on irrigated and hardly fair on unirrigated area. Cattle are in a fair condition. Green fodder is available in sufficient quantities in nahri tracts and insufficient in others. Public health on the whole satisfactory. Sirhind and Grey canals have worked satisfactorily.

12.—LAHORE DISTRICT.

Rainfall was sufficient in Lahore, below average in Kasúr and insufficient in Chúniáu Tahsil. It did good to the standing crops. Rice, maize and fodder were sown on irrigated and til, jowar, moth and bajra on unirrigated area. Area sown normal on irrigated and below normal on unirrigated area. Condition of standing crops fair. Yield expected to be normal on irrigated and below that on unirrigated lands. Condition of cattle fair. Dry fodder is less procurable, but green fodder is sufficient. State of public health fair. Water supply sufficient in perennial and inundation canals. Prices very high.

13.—AMRITSAR DISTRICT.

Rainfall was below average. Sowings of irrigated and unirrigated rice and maize and unirrigated chari continued. Condition and expected yield of standing crops are average on irrigated and below average on unirrigated area. Condition of cattle average. Public health is generally good. Canals are working by rotation; supply sufficient. Drinking water is also sufficient.

14.—GURDASPUR DISTRICT.

Rainfall during the month was below average. Kharif sowings have been completed. Crops on irrigated area in good condition and those on unirrigated area are suffering for want of sufficient moisture. Condition of cattle generally good. Green fodder is sufficient. Public health generally good. Government canals are flowing and irrigating lands. Floods in the Ravi have also irrigated certain area. Prices are rising.

15.—SIALKOT DISTRICT.

On account of sufficient rainfall above average sowings of kharif crops continued everywhere. Condition of standing irrigated crops good and of unirrigated average. Condition of cattle above average. Green fodder available. Public health good. Irrigation by canal continued and by jhallars closed. Supply of water sufficient. Bhoosa scanty, but green fodder is available. Rivers and nalas flooded. Prices have suddenly jumped up and are unbearable.

16.—GUJRANWALA DISTRICT.

Rainfall above average, except at Gujránwála, where it was below average. Sowings of rice, jowar, bajra and maize finished. Condition of crops average. Condition of cattle fair. Bhoosa is insufficient, but green fodder and grazing is sufficient. State of public health generally good. Canals were running during the month. No complaint about water supply Flood in river Chenab damaged the crops and wells of the adjoining villages.

17.—SHEIKHUPURA DISTRICT.

Rainfall was average. Sowings of chari, moth and bajra are in progress. Condition of standing sugarcane, cotton and fodder is good, but it will be poor if no rain falls in near future. Yield is expected to be normal. Condition of cattle fair. Bhoosa is insufficient, but green grass is available. Public health is generally good. Lower Chenab Canal kept running, while Upper Chenab Canal remained closed.

18.—GUJRAT DISTRICT.

Good rain fell during the first fortnight of the month. Sowings of kharif crops finished. Condition of crops, excepting those affected by floods in rivers and hill torrents, is good. Yield is expected to be good if more rain is received at proper intervals. Cattle are improving and green fodder is ample. Public health generally good.

19.—SHAHPUR DISTRICT.

Heavy rainfall was received during the month, which was useful to the standing crops and further sowings, except where it was too heavy and also in flooded areas. Sowings of kharif crops finished. Area sown normal. Condition of standing rice, sugarcane, cotton and sesamum good. Considerale damage was done to kharif crops in parts. Green fodder and drinking water sufficient. Cattle in fair condition. Public health generally fair. Lower Jhelum Canal and inundation canals flowed. Water supply adequate. The latter remained closed during the last fortnight. Prices of food-grains are very high.

20.—JHELUM DISTRICT.

Rainfall sufficient. Kharif sowings have been normal. Standing crops are in fair condition, but the recent floods caused extensive damage to land crops and property in riverain tracts. Cattle are in fair condition. Grass and green fodder available. Public health is generally good. Prices of staple food-grains are very high.

21.—RAWALPINDI DISTRICT.

Rainfall below average. Condition of standing crops fair. Condition of cattle improving Fodder and grazing available. Public health fair.

22.—ATTOCK DISTRICT.

Rainfall during the month was above average. Kharif crops have been extensively sown. Condition of standing crops good. Condition of cattle on the whole good. Public health good. Water sufficient. Prices are rising.

23.—MIANWALI DISTRICT.

Rainfall during the month was sufficient, which benefited the standing kharif crops, which are good on irrigated and average on unirrigated area. Condition of cattle poor for want of fodder. Drinking water sufficient. Public health generally fair. Kurram canal in Isa Khel and Namal canal in Miánwáli are not watering lands, the former owing to floods and the latter owing to clearance of silt in syphons and falls. Prices have reached famine rates.

24.—MONTGOMERY DISTRICT.

Rainfall below average. Chari, maize, mash and til were sown during the month. Standing crops are in average condition, but there is some complaint of insect (kera), who damaged jowar and maize crops in the Ravi tahsil. Yield expected to be average. Condition of cattle generally good. Green fodder is procurable, but bhoosa is scarce. Public health is good. Canals worked satisfactorily. There was sufficient water in rivers. Prices still very high.

25.—LYALLPUR DISTRICT.

Rainfall during the month was sufficient and very beneficial to the standing crops. Sowings of maize, rice and fodder finished. Area sown above normal. Condition of cattle good. Fodder sufficient. Public health good. Canal worked regularly. No complaint of water. There were a few floods in Ravi river, but there was no damage to the crops. The prices of food-grains had considerably risen.

26.—JHANG DISTRICT.

Sufficient rainfall during the month proved beneficial to the standing crops, further kharif sowings and rabi ploughings. Jowar, maize, mash, mung, moth, rice, bajra, kangni and til were sown, but high floods in both rivers washed away crops on their banks. Standing crops are in good condition, though in Hithár unusual floods caused some damage. Cattle are recovering their former condition as green fodder is now available in large quantities, but bhoosa is scarce. Public health is generally good. Water supply in canals adequate. Prices of foodstuffs are very high.

27.—MULTAN DISTRICT.

Sufficient rain fell during the month, which was very useful. Sesamum, bajra, jowar, mash, maize, sathri, toria and chari were sown. Lands were ploughed for rabi crops. Condition of standing crops average. State of cattle fair. Green jowar is used as fodder, which is rather sufficient. Public health generally good. Inundation canals, including Lower Bari Doab Canal, have been working. Prices of food-grains are rising day by day.

28.—MUZAFFARGARH DISTRICT.

Sufficient rain fell in all tahsils and proved useful for the standing crops and sowings. Ploughings and sowings of autumn crops in progress. Condition of standing crops average, but some riverain crops were damaged by floods, and breaking of canal bunds. Condition of cattle is improving on account of the general growth of abundant green grass. Public health is generally good. Canals are running; water supply sufficient. Prices of food-stuffs are rising and have reached famine rates.

29.—DERA GHAZI KHAN DISTRICT.

Rainfall during the month has been above the average. Sowings of jowar and bajra are going on in the Pachadh. Condition and expected yield of standing crops average. Public health is good. Canals continued flowing. The river has been unusually high. Prices remained high.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 10th September 1921 there were 1,184 births registered in the 37 large municipal towns (633 males and 551 females), giving a birth-rate of 59 *per mille* of population, and 1,449 deaths were registered (802 males and 647 females), giving a death-rate of 72 *per mille* of population. The death-rates registered in the two largest towns were as follows :—Lahore 63 against 36 in the corresponding week of the previous year and Multán 51 against 32.

There were 61 deaths recorded from cholera in Pánipat, 53 in Lahore, 35 in Ráwalpindi, 28 in Gujránwála, 21 in Chiniot, 19 in Rohtak, 18 in Siálkot, 14 each in Karnál, Kaithal and Wazírábad, 12 in Shahabad, 11 in Batála, 8 each in Kasúr and Multán, 6 each in Bhiwáni, Ludhiána and Gujrát, 5 in Jullundur, 3 each in Hissar, Sirsa, Hoshiárpur and Lyallpur, 2 each in Jagádhri, Ferozepore and Jhang-Maghiána and 1 each in Ambála, Jalálpur and Jhelum. Of the 5 deaths from small-pox, 4 were registered in Multán and 1 in Ráwalpindi.

Sanitary Commissioner's Office,
Lahore:
The 21st September 1921.

9	Siálkot ...	0·48 at Sadr ... 0·81 at Zafarwál. 1·63 at Pasrúr. 1·57 at Raya. 1·02 at Daska.	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Good.	Wheat, 4¼ to 4½ ... Barley, 6. Gram, 4½ to 4¾. Prices above scarcity rates. Stocks of food-grains sufficient with Sahukars.	Sowings of toria, gram, barley, pulses and vegetables continue and are above normal.	Condition of irrigated rice and sesamum good and of unirrigated cotton normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Shahpur ...	0·69 at Bhalwal ..	1. Green grass available. 2. (a) Sufficient. (b) Lower Jhelum Canal flowing; supply adequate. 3. Good.	Wheat, 4½ ... Gram, 4½. Bajra, 4½. Maize, 5. Prices above scarcity rates. Stocks of food-grains sufficient with traders and zamindars of Bhalwal and Sargodha Tahsils and insufficient elsewhere.	Sowings of toria and gram continue.	Rain was useful for standing crops. Condition of til, rice, cotton and sugarcane good. Rice and maize are being harvested; yield normal and below normal, respectively.
11	Ráwalpindi ...	1·29 at Sadr. 0·88 at Gujar Khan. 0·82 at Kahúta. 2·83 at Murree.	1. Scarce .. 3. Good.	Wheat, 4 ... Barley, 6. Gram, 4½. Maize, 6½. Bajra, 3½. Jowar, 4½ Prices of maize between warning and scarcity rates, and of others above scarcity rates. Stocks by food-grains sufficient in the hands of traders.	...	Condition of cotton, bajra, maize, jowar and rice normal.
12	Miánwáli ...		1. Scarce ... 2. (a) Sufficient. (b) Nammal canal flowing; supply adequate. 3. Poor for want of fodder.	Wheat, 4 .. Gram, 4½. Barley, 5½. Bajra, 4½. Jowar, 5 Prices at or above scarcity rates. Stocks of food-grains insufficient.	...	Condition of standing crops, *i.e.*, cotton, etc., good on irrigated and normal on unirrigated area.
13	Lyallpur ...	0·18 at Toba Tek Singh.	1. Sufficient. 2. (a) Do. (b) Canals flowing; supply sufficient. 3. Good.	Wheat, 4½ ... Gram, 4½. Prices above scarcity rates. Stocks of food-grains hardly sufficient with zamindars and traders.	Sowings of toria and gram in progress.	Condition of cotton and other standing crops good.
14	Multán ...	...	1. Insufficient; green jowar available. 2. (a) Sufficient. (b) Sidhnai Canal flowing regularly. Lower Bari Doab and Inundation Canals working by rotation. 3. Fair.	Wheat, 4 .. Barley, 5½. Gram, 4½. Jowar, 5½. Maize, 4½. Prices above scarcity rates. Stocks of food-grains insufficient in the hands of zamindars.	Sowing of gram and vegetables continue. Prospects good.	Condition of standing crops normal. Indigo is being harvested; yield normal.

GENERAL REMARKS.

Light rain fell in nearly all the reporting districts and was useful for standing crops. More rain is wanted for standing crops and rabi sowings. Condition of sugarcane, cotton and other kharif crops is generally normal. Reaping of rice, maize, bajra and indigo commenced in a few districts; yield expected to be normal. Sowings of gram, oilseeds and vegetables continue in some districts. Area sown is generally normal. Dry fodder is generally scarce; green grass, chari and jowar are available. Cattle are generally in good condition. Water is sufficient. Prices are stationary. They are generally above scarcity rates. No test work was opened during the week. Stocks of food-grains insufficient except in a few districts. Prices of wheat:—Ambála 4¼, Ferozepore 3¾, Lahore 4½, Ráwalpindi 4 and Lyallpur 4½ seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 17th September 1921 there were 1,254 births registered in the 35 large municipal towns (667 males and 587 females), giving a birth-rate of 58 *per mille* of population, and 1,301 deaths were registered (656 males and 645 females), giving a death-rate of 61 *per mille* of population. The death-rates registered in the two largest towns were as follows :—Lahore 52 against 28 in the corresponding week of the previous year ; Amritsar 50 against 30 and Multán 42 against 26.

There were 48 deaths recorded from cholera in Shahabád, 25 in Lahore, 24 in Pánipat, 20 in Karnál, 8 in Batála, 7 each in Sonepat, Kaithal, Siálkot and Chiniot, 6 in Ferozepore, 5 each in Ambála, Amritsar and Jhelum, 3 each in Jullundur, Ludhiána, Gujrát and Multán, 2 each in Rohtak and Ráwalpindi, and 1 in Jagádhri. Only 3 deaths were reported from plague in Lyallpur.

Sanitary Commissioner's Office,
Lahore :

2	Rohtak ...	...	1. Insufficient; green grass available. 2. (a) Sufficient. 3. Generally good.	Wheat, 4¾ ... Gram, 5. Barley, 7. Jowar, 5½. Bajra, 5½. Price of barley at warning rate and others above scarcity rates.	Sowings of unirrigated gram and sarshaf in progress and are normal.	Condition of irrigated sugarcane, cotton and bajra and of unirrigated jowar, bajra, cotton, fodder and pulses normal. Bajra is being reaped; yield expected to be normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
3	Gurgaon ...	0·17 at Núh ...	1. Sufficient ... 2. (a) Do. (b) Canal closed. 3. Generally good.	Wheat, 4 to 4⅝. ... Barley, 5½ to 7 Gram, 4¼ to 5½. Bajra, 4 to 6½. Jowar, 4 to 5. Maize, 4 to 6. Prices of barley, bajra and maize between warning and scarcity rates and others above scarcity rates. Stocks of food-grains sufficient with traders.	Gram is being sown on irrigated area in parts.	Rain was beneficial to the later sown kharif crops. Standing cotton and sesamum crops below normal and other crops good and yield is expected to be normal. Reaping of early sown bajra is in progress. Yield expected to be normal.
4	Ambála ...	...	1. Insufficient; green grass available. 2. (a) Sufficient. (b) Western Jumna Canal flowing; supply sufficient. 3. Generally good.	Wheat, 4¼ ... Gram, 4⅞. Barley, 6¾ Price of barley between warning and scarcity rates and others above scarcity rates. Stocks of food-grains insufficient.	Sowings of gram and oil-seeds in progress and are normal.	Rain still needed. Condition of rice, til, cotton, sugarcane and other standing crops normal. Reaping of maize commenced; yield normal.
5	Jullundur ...	...	1. Scarce ... 3. Generally good.	Wheat, 4 ... Gram, 4½. Maize, 4½. Barley, 4½. Prices above scarcity rates. Stocks of food-grains insufficient both in the hands of traders and others.	Sowings of gram in progress on unirrigated area.	Rain still needed for standing crops and rabi sowings. Condition of irrigated rice and cotton normal and of unirrigated sesamum and indigo below normal.
6	Ferozepore ...	0·59 at Sadr ... 0·17 at Muktsar.	1. Scarce ... 2. (a) Sufficient. (b) Canals running; supply sufficient. 3. Fair.	Wheat, 3¾ .. Gram, 4⅝. Barley, 6. Prices above scarcity rates. Stocks of food-grains sufficient in the hands of traders.	...	Standing irrigated crops, viz., rice, cotton and sesamum, normal and other unirrigated crops poor.
7	Lahore ...	0·09 at Sadr ... 0·46 at Kasúr.	1. Insufficient ... 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Fair.	Wheat, 4 .. Gram, 4½. Prices above scarcity rates. Stocks of food-grains insufficient.	Sowings of gram and sarshaf continue and are normal on irrigated and below normal on unirrigated area.	Condition of irrigated cotton, sugarcane, rice, maize, til, bajra, and jowar normal, and of unirrigated til, jowar, bajra and moth below normal. Reaping of rice in progress in Hithar of Tahsil Chúnián. Yield expected to be below normal.
8	Amritsar ...	0·13 at Ajnála ...	1. Sufficient ... 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Generally good.	Wheat, 4¼ ... Gram, 4⅝ Barley, 6. Maize, 5. Jowar, 6. Bajra, 4½. Prices above scarcity rates. Stocks of food-grains sufficient in the hands of traders and rich zamindars.	Sowings of gram and oil-seeds continue and are below normal.	Condition of cotton, sugarcane, rice and til crops normal. Rice and maize are being reaped.
9	Siálkot ...	0·11 at Sadr ... 0·30 at Zafarwál. 0·16 at Pasrúr. 0·20 at Daska.	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canals flowing; supply sufficient. 3. Generally good.	Wheat, 4½ to 4½ ... Barley, 6. Gram, 4½ to 4¾. Prices above scarcity rates. Stocks of food-grains sufficient with traders.	Sowings of gram, barley, masur and oilseeds continue and are above normal.	Condition of rice and sesamum good and cotton normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Shahpur ...	0·22 at Sadr ... 0·45 at Bhalwal. 0·77 at Shahpur. 0·70 at Khushâb.	1. Green grass available. 2. (a) Sufficient. 3. Generally good.	Wheat, 4¾ ... Gram, 4½. Bajra, 4½. Maize, 5. Prices above scarcity rates. Stocks of food-grains sufficient with traders and zamindars of Bhalwal and Sargodha Tahsils and insufficient elsewhere.	Sowings of gram and oilseeds continue.	Rain was useful for standing crops. Condition of standing crops, *viz.*, rice and sugarcane good and cotton fair. Reaping of maize, bajra and rice continued and picking of cotton commenced. Yield expected to be normal.
11	Ráwalpindi ...	0·52 at Sadr ... 0·36 at Kahúta. 1·29 at Murree.	1. Scarce .. 3. Good.	Wheat, 4 ... Barley, 6. Gram, 4½. Maize, 6½. Bajra, 3¾. Jowar, 4¾. Prices of maize between warning and scarcity rates and others above scarcity rates. Stocks of food-grains sufficient in the hands of traders.	...	Condition of cotton, bajra, maize, jowar and rice normal.
12	Miánwáli ...	2·49 at Sadr ... 1·22 at Isa Khel.	1. Scarce ... 2. (a) Sufficient. (b) Nammal canal flowing; supply sufficient. 3. Poor for want of fodder.	Wheat, 4 .. Gram, 4½. Bajra, 4½. Jowar, 5 Barley, 5½ Prices above scarcity rates. Stocks of food-grains quite insufficient.	Sowings of rabi crops commenced on unirrigated area.	Condition of standing crops, *viz.*, cotton, etc., good on irrigated and normal on unirrigated area.
13	Lyallpur ...	1·11 at Sadr ... 0·31 at Jaránwála.	1. Sufficient. 2. (a) Do. (b) Canals flowing; supply sufficient. 3. Good.	Wheat, 4¾ ... Gram, 5 Prices above scarcity rates. Stocks of food-grains hardly sufficient with zamindars and traders.	Sowings of toria nearly finished and those of gram, vegetables and sarshaf in progress.	Condition of cotton and other standing crops good.
14	Multán ...	0·66 at Sadr ... 0·75 at Shujábad. 0·40 at Mailsi. 0·10 at Kabírwála.	1. Insufficient; green jowar available. 2. (a) Sufficient. (b) Sidhnai and Lower Bari Doab Canals flowing regularly. Inundation Canals flowing by rotation. 3. Fair.	Wheat, 4½ . Barley, 6½ Gram, 5½. Jowar, 5½. Maize, 4½. Price of barley between warning and scarcity rates and others above scarcity rates. Stocks of food-grains insufficient.	Sowings of gram, oilseeds and vegetables continue. Prospects good.	Rain was useful for standing crops and rabi sowings. Condition of standing crops, *viz.*, indigo, rice, cotton and sesamum, is normal.

GENERAL REMARKS.

Light rain fell in nearly all the reporting districts and was useful for standing crops and rabi sowings. More rain is still wanted. Condition of sugarcane, cotton and other kharif crops is generally normal. Reaping of rice, maize and bajra continued and picking of cotton commenced in a few districts. Yield expected to be normal. Sowings of gram, oilseeds and vegetables continued and the area sown is generally normal. Dry fodder is generally scarce; green grass, chari and jowar are available. Cattle are generally in good condition. Water is sufficient. Prices are generally stationary. They are generally above scarcity rates. No test work was opened during the week. Stocks of food-grains insufficient except in a few districts. Prices of wheat :—Ambála 4¼, Ferozepore, 3¾, Lahore and Ráwalpindi 4 and Lyallpur 4¾ seers per rupee.

RAHIM BAKHSH,

Director of Land Records, Punjab.

(c) = Aneroid.
* Not reduced to sea level.
(a)—Mean of 22 days.

During the first ten days of the month intense hot weather conditions prevailed over the Punjab and the North-West Frontier Province. The first burst of the monsoon occurred in the east and north Punjab on the 11th, about two weeks after the normal date; and by the 14th rainfall had extended into the south-west Punjab. With only slight breaks the monsoon was fairly active during the rest of the month. Towards the close of the month its activity was stimulated by the appearance of a western disturbance, the third of its kind in July, in the extreme north, and very heavy rain fell in the Central Punjab.

Pressure and Winds.—Barometric pressure was normal or in excess at all the stations. Wind velocity was stronger than usual at Hissar, Ambála, Ludhiána and Multán, and weaker at Montgomery; Pesháwar and Cherát. Wind direction was abnormal at Multán, Murree and Cherát.

Temperature.—On the mean of the month, maximum temperature was 4° or more above normal at Ambála, Ludhiána, Ráwalpindi and Pesháwar; minimum temperature was approximately normal at all the observing stations. Over the plains of the Punjab and the North-West Frontier Province temperature was higher than usual from the 1st to the 11th and on the 22nd; it was below the average on the 24th and 28th.

The following table shows for each day of the month the departure from the normal of the mean temperature of the Punjab and the North-West Frontier Province, with the highest maximum temperature registered and the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

Humidity and Cloud.—The air was drier than usual and the amount of cloud was normal or in defect.

Rainfall.—In the Punjab and the North-West Frontier Province the month's total fall was normal or in defect except at Simla, Lahore, Khusháb, Páráchinár and Cherát where it was in excess; the excess was greatest at Khusháb and amounted to 12·77″ or 333 per cent.

The following table gives the rainfall data for the Punjab and the North-West Frontier Province stations for July 1921 :—

Station.	Actual rainfall in July 1921.	Normal rainfall in July.	Departure from normal in July 1921.	Station.	Actual rainfall in July 1921.	Normal rainfall in July.	Departure from normal in July 1921.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 24th September 1921 there were 1,297 births registered in the 38 large municipal towns (667 males and 630 females), giving a birth-rate of 57 *per mille* of population, and 1,245 deaths were registered (551 males and 694 females), giving a death-rate of 54 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 38 against 21 in the corresponding week of the previous year; Amritsar 42 against 25 and Multán 38 against 33.

There were 46 deaths recorded from cholera in Shahabád, 17 in Ambála, 8 each in Kaithal, Ferozepore and Amritsar, 7 in Siálkot, 6 each in Karnál and Pánipat, 5 in Lahore, 4 in Batála, 3 each in Bhíwáni, Rohtak, Gujrát and Ráwalpindi, 2 each in Jhajjar, Sonepat, and Ludhiána and 1 each in Jagádhri, Hoshiárpur, Jullundur, Fázilka, [illegible]ránwála, Jalálpur, Bhera and Jhelum. Only 2 deaths were registered from small-pox in Multán.

R. C. JENNINGS, Supdt.,
for *Sanitary Commissioner, Punjab.*

[illegible] Commissioner's Office,
Lahore :
The 4th October 1921.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 1st October 1921 there were 1,224 births registered in the 34 large municipal towns (641 males and 583 females), giving a birth-rate of 58 *per mille* of population, and 1,121 deaths were registered (557 males and 564 females), giving a death-rate of 53 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 46 against 27 in the corresponding week of the previous year ; Amritsar 43 against 45 and Multán 42 against 33.

There were 16 deaths recorded from cholera in Shahabád, 8 in Ferozepore, 6 in Lahore, 5 in Jagádhri, 4 in Siálkot, 2 each in Karnál, Jullundur, Ludhiána and Amritsar, and 1 each in Rohtak, Hoshiárpur, Bhera and Multán. Of the 4 deaths from small-pox 2 were registered in Multán and 1 each in Hoshiárpur and Lahore. Only 1 death was reported from Plague in Ráwalpindi.

Sanitary Commissioner's Office,
Lahore :
The 12th October 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 17th October 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1 Supply of fodder. 2 Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
1	Hissar ...	1·70 at Sadr ... 2·44 at Bhiwáni.	1. Insufficient; chari available. 2. (a) Sufficient. (b) Perennial canals flowing; supply sufficient. 3. Good.	Wheat. 4¼ ... Gram, 5¼. Bajra, 5¾. Barley, 7. Price of wheat between warning and scarcity rates and of others at or above scarcity rates. Stocks of food-grains insufficient.	Condition of irrigated sugarcane, cotton and chari good and of unirrigated bajra, jowar and pulses below normal to normal. Reaping of bajra continues. Yield expected to be below normal.	Sowings of gram and sarshaf continue and are normal.
2	Rohtak ..	2·22 at Sadr ... 0·38 at Gohana. 0·77 at Sonepat. 0·25 at Sampla. 1·30 at Balabgarh.	3. Generally good ...	Wheat, 4 .. Gram, 5. Barley, 6. Jowar, 5¼. Bajra, 5½. Prices at or above scarcity rates.	Condition of sugarcane, cotton, sesamum and other standing crops normal. Picking of cotton and reaping of jowar, bajra and mung continue. Yield expected to be normal on irrigated and below normal on unirrigated area.	Sowings of unirrigated gram and sarshaf continue and are below normal. Germination good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
3	Gurgaon ...	0·21 at Sadr ...	1. Sufficient ... 2. (a) Do. (b) Canal closed. 3. Generally good.	Wheat, $3\frac{3}{4}$ to $4\frac{1}{4}$ ... Barley, $5\frac{3}{4}$ to $6\frac{1}{4}$. Gram, $4\frac{1}{2}$ to $5\frac{1}{4}$. Bajra, 5 to $6\frac{1}{4}$. Jowar, $4\frac{1}{2}$ to $7\frac{1}{2}$. Maize, 5 to 6. Prices of wheat, gram and maize at or above scarcity rates and of others between warning and scarcity rates. Stocks of food-grains sufficient with traders.	Condition of standing crops good. Reaping of bajra and picking of cotton in progress. Yield expected to be normal.	Rain was beneficial. Sowings of gram and oilseeds continue on unirrigated area and are below normal. Germination well.
4	Ambála ...	2·48 at Sadr ... 0·58 at Jagádhri. 1·54 at Naráingarh 0·13 at Rúpar. 0·58 at Kasauli.	1. Insufficient; green grass available. 2. (a) Sufficient. (b) Western Jumna Canal flowing; supply sufficient. 3. Generally good.	Wheat, 4 ... Gram, 4. Barley, 6 Maize, 6. Prices at or above scarcity rates. Stocks of food-grains insufficient.	Condition of standing crops normal. Reaping of rice, maize and chari in progress. Expected yield normal. Crops slightly damaged by hailstorm in Ambála Tahsil.	Sowings of gram, barley and oilseeds in progress and are normal.
5	Jullundur ...	1·42 at Sadr ... 0·03 at Phillaur.	1. Scarce; Chari and grass available. 3. Generally good.	Wheat, 4 ... Gram, 5. Barley, 5. Maize, $5\frac{1}{2}$. Prices above scarcity rates. Stocks of food-grains insufficient.	Rain was useful. Condition of rice, cotton and other irrigated crops normal and of sesamum, indigo and other unirrigated crops below normal. Reaping of maize, chari and mash and picking of cotton continue. Pressing of sugarcane commenced. Expected yield normal on irrigated and below normal on unirrigated area.	Rain was beneficial. Sowings of wheat, gram, barley and fodder continue.
6	Ferozepore ...	...	1. Scarce ... 2. (a) Sufficient. (b) Grey Canals closed. Sirhind Canal flowing; supply sufficient. 3. Fair.	Wheat, $3\frac{3}{4}$ ... Gram, $4\frac{5}{8}$. Barley, 6. Prices above scarcity rate. Stocks of food-grains sufficient in the hands of traders.	Condition of rice, cotton, sesamum and other irrigated crops normal and of unirrigated crops poor. Harvesting of rice continues. Expected yield normal.	Sowings of wheat, gram, barley and sarshaf in progress.
7	Lahore ...	...	1. Insufficient; green grass available. 2. (a) Sufficient. (b) Perennial canals flowing; supply sufficient. 3. Average.	Wheat, 4 ... Gram, $4\frac{1}{2}$. Prices above scarcity rate. Stocks of food-grains insufficient.	Condition of cotton, sugarcane, rice, til and other standing crops normal on irrigated and below normal on unirrigated area. Picking of cotton and reaping of rice, jowar, bajra, maize and sesamum in progress. Expected yield below normal to normal. Maize slightly damaged by ants.	Sowings of gram and sarshaf continue and are normal.
8	Amritsar ...	1·59 at Sadr ... 2·61 at Tarn Táran. 0·08 at Ajnála.	2. (a) Sufficient ... (b) Canals flowing by rotation; supply sufficient. 3. Generally good.	Wheat, $4\frac{1}{2}$ ... Gram, $4\frac{5}{8}$. Barley, 6. Maize, 6. Jowar, 7. Bajra, 6. Price of bajra at warning and of others above scarcity rates. Stocks of food-grains are sufficient in the hands of traders.	Standing crops good on irrigated and normal on unirrigated area. Harvesting of rice and maize and picking of cotton continue. Yield of rice below normal. Condition of cotton, rice and sesamum normal.	Sowings of wheat, gram and sarson continue and are below normal.
9	Siálkot ...	1·32 at Sadr ...	1. Scarce; green grass available. 2. (a) Sufficient. (b) Canal flowing. 3. Good.	Wheat, 4 ... Barley, 6 to $6\frac{1}{2}$. Gram, $4\frac{1}{4}$ to $4\frac{1}{2}$. Prices above scarcity rate. Stocks of food-grains generally insufficient.	Condition of rice and sesamum good and of cotton normal. Reaping of maize and bajra and picking of cotton in progress. Expected yield normal.	Sowings of wheat, barley and gram continue on unirrigated area and are above normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
10	Shahpur ...	...	1. Green grass available. 2. (a) Sufficient. 3. Fair.	Wheat, 4¼ to 4¾ ... Gram, 4½. Bajra, 4½. Maize, 4½. Prices above scarcity rates. Stocks of food-grains sufficient with traders and zamindars of Bhalwal and Sargodha Tahsils and insufficient elsewhere.	Condition of bajra, rice and sugarcane good, of sesamum poor and of cotton fair. Reaping of maize, bajra and rice continue. Expected yield of maize below normal and of other crops normal. Picking of cotton continues. Yield normal.	Sowings of toria and gram continue and are generally normal. Sowings of wheat in Khushab Tahsil commenced. Germination fair.
11	Ráwalpindi ...	1·16 at Ráwalpindi. 0·20 at Gujjar Khan. 1·12 at Kahúta. 1·26 at Murree.	1. Scarce ..	Wheat, 4 ... Barley, 7¼. Gram, 4¾. Maize, 7½. Bajra, 3¾. Jowar, 4¾. Price of barley between warning and scarcity rates, of maize between normal and warning rates and of others above scarcity rates. Stocks of food-grains insufficient.	Condition of cotton, bajra, maize, jowar and rice normal. Reaping continues.	Sowings in progress.
12	Miánwáli ...	...	1. Scarce ... 2. (a) Sufficient. (b) Nammal Canal flowing; supply sufficient. 3. Poor.	Wheat, 4 ... Gram, 4½. Barley, 5½. Bajra, 4½. Jowar, 4¾. Prices above scarcity rates. Stocks of food-grains quite insufficient.	Condition of cotton and other standing crops good on irrigated and normal on unirrigated area.	Sowings continue and are normal.
13	Lyallpur ...	...	1. Sufficient ... 2. (a) Do. (b) Canals flowing; supply sufficient. 3. Good.	Wheat, 4½ ... Gram, 4¾. Prices above scarcity rates. Stocks of food-grains hardly sufficient with zamindars and traders.	Condition of cotton, rice and other standing crops good.	Sowings of gram, barley and fodder continue.
14	Multán ...	...	1. Insufficient; green grass and jowar available. 2. (a) Sufficient. (b) Sutlej and Sidhnai Canals working by rotation and Lower Bari Doab Canal flowing regularly. 3. Fair.	Wheat, 4½ ... Barley, 6½. Gram, 5½. Jowar, 5¾. Bajra, 5⅓. Maize, 7. Price of barley between warning and scarcity rates and of others at or above scarcity rates. Stocks of food-grains insufficient.	Condition of standing crops average. Harvesting of rice, bajra and indigo in progress. Expected yield normal.	Sowings of gram, barley, etc., continue and are normal

GENERAL REMARKS.

Light rain has fallen in parts of nearly all the reporting districts except in the west. It was useful for standing crops which are generally normal. Picking of cotton and reaping of other autumn crops in progress. Yield expected to be normal on irrigated and below normal on unirrigated area. Sowings of spring crops continue and are generally normal. Cattle are generally healthy. Dry fodder scarce; green grass and chari are available. Water sufficient. Stocks of food-grains insufficient except in a few districts. Prices are generally stationary and above scarcity rates. Prices of wheat—Ferozepore 3¾, Ambála, Lahore and Ráwalpindi 4 and Lyallpur 4½ seers per rupee.

averages have been fixed.

MAHBUB SHAH, SUPDT.,
Office of Director of Land Records, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab for the month of September 1921.

1.—Hissar District.

The rain fell during the month was useful. Standing sugarcane, cotton and chari on irrigated area are in good condition. Unirrigated bajra, jowar, mung and moth are average in places which received last shower of rain and poor elsewhere. Cattle are in good condition. Fodder stock low, but green grass and chari are generally available. Water supply in perennial canals sufficient and in inundation canals insufficient for irrigation purposes. Prices are high.

2.—Rohtak District.

Rainfall during the month was beneficial to the standing crops. Sowings of unirrigated gram and sarshaf commenced. Area sown below normal. Condition and expected yield of irrigated sugarcane, cotton, jowar and bajra average and of unirrigated jowar, bajra and mung below average. Cattle are generally in good condition. Canals remained closed. Water in tanks sufficient. Green grass sufficient.

3.—Gurgaon District.

Rainfall was very useful for late sown kharif crops and for rabi sowings. Gram was sown to some extent during the last week of the month. Standing crops are in good condition. Early sown bajra is being reaped. Yield of kharif crops is estimated to be normal. Cattle are generally in good condition. Fodder sufficient. Health of people generally good. Canal closed.

4.—Karnal District.

There was sufficient rainfall during the month, which was beneficial to kharif crops. Sowings of gram, toria and sarshaf in progress. Condition of standing crops satisfactory. Yield expected to be average on irrigated and below average on unirrigated area. Condition of cattle satisfactory. Water and grass are plentiful. Public health is generally good. Canals flowed during the month. Prices are still very high.

5.—Ambala District.

Rainfall was generally sufficient, but more is needed for late sown rice crops. Gram, taramira, sarshaf and toria have been sown in places. Area sown below normal. Condition of standing irrigated crops good and of unirrigated average. Cattle are generally in good condition. Fodder and water sufficient Public health generally good. Western Jumna Canal remained closed for some days owing to rains. Prices have fallen to some extent.

6.—Simla District.

Rainfall sufficient. Wheat has been sown in Kot Khai Tahsil to ½th extent. Condition of standing crops average in Simla and good in Kot Khai Tahsil. Condition of cattle good. Fodder and grazing sufficient. Public health good. Water in hill streams sufficient.

7.—Kangra District.

Rainfall during the month was above average except at Banjar where it was below average. Gram and sarshaf were sown to some extent. Standing crops are generally in good condition. Harvesting of autumn corps in progress. Yield expected to be above average. Cattle are in fair condition. Fodder is sufficient. Public health is not good. Water in streams and kuhls was sufficient for irrigation purposes. Prices are still high.

8.—Hoshiarpur District.

Rainfall so far is good. Condition of kharif crops is good. Yield expected to be normal. Condition of cattle good. Fodder sufficient. Public health is good. Shah Nahar canal running.

9.—Jullundur District.

Rainfall was below average. More is needed for standing crops and for rabi sowings. Sowings of gram continue. Condition and expected yield of standing irrigated crops are average and of unirrigated crops below average. Cattle are generally in good condition. Prices of food grains have risen.

10.—LUDHIANA DISTRICT.

Rainfall during the month was below the average. More is badly needed. Condition of standing crops on irrigated area is satisfactory and on unirrigated poor. Yield of irrigated crops expected to be satisfactory. Condition of cattle satisfactory. Fodder and grass available, but their rates are high. Public health satisfactory.

11.—FEROZEPORE DISTRICT.

The rain received during the month was almost general. Condition of irrigated kharif crops good and of unirrigated fair. Harvesting of rice commenced. Expected yield normal. Fodder available in sufficient quantity. Condition of cattle generally good. Public health satisfactory on the whole. Grey and Sirhind canals worked well.

12—LAHORE DISTRICT.

Rainfall during the month was much above the average and generally proved beneficial to standing crops and rabi sowings. Sowings of toria, sarson and gram on irrigated area are normal and on unirrigated below normal. Condition of standing cotton, sugarcane, maize and other kharif crops satisfactory. Yield expected to be normal on irrigated and below normal on unirrigated area. Condition of cattle fair. Green fodder sufficient, but dry fodder is insufficient. State of public health fair. Perennial canals flowing; water supply sufficient. Prices high.

13.—AMRITSAR DISTRICT.

Rainfall below average. Toria, gram and sarson were sown during the month. Condition and expected yield of standing crops are good on irrigated and average on unirrigated area. Condition of cattle generally good. Public health is generally good. Canals are working by rotation; supply sufficient. Drinking water is sufficient.

14.—GURDASPUR DISTRICT.

Rainfall during the month was generally below average. Toria, sarshaf and gram have been sown to some extent. Condition of standing crops is generally good except in Babori Ilaqa of Shakargarh Tahsil, where it is about average. Rice and maize are being harvested in some parts. Yield is expected to be good. Condition of cattle generally good. Fodder is sufficient. Public health is generally good. Government canals are flowing and irrigating lands. Prices are rising.

15.—SIALKOT DISTRICT.

Rainfall above average. Sowings of toria, masor, gram, barley and vegetables continued. Condition of standing crops good on irrigated and average on unirrigated area. Condition of cattle generally average. Green fodder available. Public health generally good. Irrigation by canal and Jhallars continued. Supply of water sufficient. Food-grains sufficient at present. Prices are high.

16.—GUJRANWALA DISTRICT.

Rainfall was below average except at Wazirabad where it was above average. Sowings of oilseeds and gram in progress. Condition and expected yield of standing crops average. Condition of cattle fair. White bhoosa is insufficient, but green grass is sufficient. State of public health is generally good. Canals ran during the month; water supply sufficient.

17.—SHEIKHUPURA.

Rainfall during the month was insufficient. Sowings of toria, turnips and sarshaf were in progress. Condition of standing sugarcane and cotton is fair. Yield expected to be normal. Condition of cattle fair. White bhoosa insufficient. Green grass and fodder are also getting scarce. Public health is generally good. The Upper and Lower Chenab canals kept running during the month.

18.—GUJRAT DISTRICT.

Fairly good showers of rain were received during the month. Sowings of gram, turnips and oilseeds commenced. Condition and expected yield of standing irrigated crops good and of unirrigated corps average to good. Cattle are in good condition. Fodder sufficient. Public health generally good. Canals running.

19.—SHAHPUR DISTRICT.

Sufficient rain fell during the month which was beneficial to standing crops. Sowings of toria, gram and turnips continue. Area sown normal. Germination fair. Condition of standing rice and sugarcane good, and of cotton and sesamum below average. American cotton is flowering far better than desi cotton. Picking of cotton commenced in Bhalwa

Tahsil during the last week of the month. Expected outturn below normal. Harvesting of rice continued. Yield normal. Green fodder and drinking water are sufficient. Cattle generally in good condition. Public health fair. Lower Jhelum Canal flowed; water supply adequate.

20.—JHELUM DISTRICT.

Rainfall was sufficient. Sowings of gram, barley and oilseeds commenced throughout the district, and of wheat in hilly tracts of Pind Dádan Khan Tahsil Condition of standing crops good. Condition of cattle generally good. Fodder sufficient. Prices high.

21.—RAWALPINDI DISTRICT.

Sufficient rain fell during the month. Sowings of rabi crops commenced. Condition and expected yield of kharif crops average. Condition of cattle good. Fodder available.

22.—ATTOCK DISTRICT.

Rainfall during the month was generally above average and was beneficial to standing crops. Yield of standing crops expected to be normal. Cattle are in fair condition. Public health generally good. Water is sufficient. Prices are still high.

23.—MIANWALI DISTRICT.

Sufficient rain fell everywhere except in Bhakkar Tahsil. It was beneficial to standing kharif crops and rabi sowings. Condition of standing kharif crops is good on irrigated, and average on unirrigated area. Condition of cattle is still poor for want of fodder. Drinking water sufficient. Public health is generally fair. The Kurram Canal in Isa Khel is not flowing due to clearance of silt. Nammal Canal in Miánwáli is running and irrigating lands. Prices have reached at famine rates.

24.—MONTGOMERY DISTRICT.

Toria and gram were sown in the month. Standing crops are in good condition, but some damage to maize and jowar by insects is reported in Ravi Tahsils. Yield is expected to be average. Condition of cattle generally good. Green fodder is procurable, but bhoosa is scarce. Public health is good. Canals are flowing satisfactorily. Prices are still high.

25.—LYALLPUR DISTRICT.

Rainfall sufficient. Condition of standing crops good. Toria was sown during the month to a normal extent. Condition of cattle good. Public health generally good. Canal working regularly. Water supply sufficient. Prices of food-grains show some downward tendency.

26.—JHANG DISTRICT.

Rainfall during the month was below average. More is wanted. Toria was sown during the month. Standing crops are in good condition, but mash is reported to be not in very good condition in Hithar tract of Shorkot Tahsil. Cattle are recovering their former condition. Green fodder is sufficient, but bhoosa is scarce. Public health is generally good. Canals flowing. Rivers low. Prices are prevailing at famine rates.

27.—MULTAN DISTRICT.

Ordinary rain fell during the month which proved beneficial to kharif crops and rabi sowings. Condition of indigo below average, and of other standing crops average. Indigo, jowar and bajra have been harvested. Yield below normal. Condition of cattle average. Chenab Inundation Canals remained flowing by rotation in first three weeks of the month. Lower Bari Doab Canal is working by rotation. Sidhnai Canal also continued flowing; supply of water sufficient. Prices of food-grains stationary.

28.—MUZAFFARGARH DISTRICT.

Light showers of rain fell during the month. Ploughings for and sowings of autumn crops continue. Condition of standing bajra, indigo and sugarcane above average in Alipur Tahsil, and below average elsewhere. Price is in bad condition in low lands. Harvesting of rice and indigo started in Muzaffargarh. Condition of cattle not good on account of hard work. Green grass sufficient, while bhoosa is scanty. Sindh Canals are running by rotation, but Chenab Canals are dry. Prices of food-grains stationary.

29.—DERA GHAZI KHAN DISTRICT.

Light showers fell during the month. Sowings of rabi crops continue to some extent. Condition and expected yield of kharif crops average. Public health generally good. Canals are flowing well except Manka in Dera Gházi Khan and Massu in Sanghar Tahsil. There has been a good hill torrent flow in Sanghar Tahsil. Prices are high.

MAHBUB SHAH, SUPDT.,
for *Director of Land Records, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 8th October 1921 there were 1,077 births registered in the 30 large municipal towns (575 males and 502 females), giving a birth-rate of 54 *per mille* of population, and 839 deaths were registered (396 males and 443 females), giving a death-rate of 42 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 36 against 25 in the corresponding week of the previous year ; Amritsar 34 against 23 and Multán 43 against 26.

Of the 12 deaths from cholera, 6 were recorded in Ferozepore, 2 each in Lahore and Batála, and 1 each in Amritsar and Siálkot. There were 2 deaths registered from small-pox in Multán and 3 from plague in Ráwalpindi.

Sanitary Commissioner's Office,
Lahore :
The 19th October 1921.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 15th October 1921 there were 1,055 births registered in the 36 large municipal towns (588 males and 467 females), giving a birth-rate of 54 *per mille* of population, and 833 deaths were registered (430 males and 403 females), giving a death-rate of 43 *per mille* of population. The death-rates registered in the two largest towns were as follows :—Lahore 36 against 23 in the corresponding week of the previous year ; and Multán 33 against 32.

There were four deaths recorded from cholera in Ferozepore. Of the two deaths from small-pox one each was registered in Hoshiárpur and Kasúr. There were 14 deaths reported from plague in Ráwalpindi.

Sanitary Commissioner's Office,
Lahore :
The 26th October 1921.

R. C. JENNINGS, Supdt.,
for *Offg. Sanitary Commissioner, Punjab.*

Erratum.

The following corrections are made in the weekly return of births and deaths published on page 690 of the Supplement to the *Punjab Gazette* for September 30th, 1921.

1. *For* "3" in column 13 against Lyallpur *read* "nil" and *for* "nil" against the same town in column 14 read "3."
2. *For* "3" in column 13 against Grand Total *read* "nil" and *for* "622" in column 14 *read* "625."
3. *Delete* the last sentence of the Sanitary Commissioner's remarks at the bottom of return.

C. A. GILL, Lt.-Col., I.M.S.,
Offg. Sanitary Commissioner, Punjab.

Dated the 26th October 1921.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 22nd October 1921 there were 1,238 births registered in the 38 large municipal towns (646 males and 592 females), giving a birth-rate of 54 *per mille* of population, and 935 deaths were registered (450 males and 495 females), giving a death-rate of 41 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 39 against 22 in the corresponding week of the previous year ; Amritsar 30 against 20 and Multán 22 against 22.

Of the 6 deaths from small-pox, 5 were registered in Multan and 1 in Hoshiárpur. There were 20 deaths reported from plague in Ráwalpindi.

R. C. JENNINGS, Supdt.,

for *Offg. Sanitary Commissioner, Punjab.*

Sanitary Commissioner's Office,
Lahore :
Dated Lahore the 1st November 1921.

Registered No. L. 864

SUPPLEMENT TO THE

Government Gazette.

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

No. 45. LAHORE, FRIDAY, NOVEMBER 11, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 7th November 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of — Autumn.	Prospects of — Spring.
1	Hissar	...	1. Insufficient; chari available. 2. (b) Water in perennial canals sufficient. 3. Good.	Wheat, 4½. Gram, 5½. Bajra, 5¼. Barley, 7. Price of wheat between warning and scarcity rates and of others at or above scarcity rates. Stocks of food-grains insufficient.	Irrigated cotton, sugarcane and chari in good condition. Picking of cotton and reaping of irrigated chari continue. Expected yield normal.	Sowings of gram, barley and rapeseed in progress.
2	Rohtak	...	1. Insufficient. 2. (b) Sufficient. 3. Generally good.	Wheat, 4. Gram, 5. Barley, 5½. Jowar, 5¼. Bajra, 6. Prices at or above scarcity rates. Stocks of food-grains insufficient.	Condition of cotton and sugarcane average. Picking of cotton and harvesting of millets, sesamum, maize and pulses continue. Expected yield normal.	Sowings of wheat, and other crops continue and are normal on irrigated and below normal on unirrigated area. Germination good.

No.	Reporting station.	Rain	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of — Autumn.	Prospects of — Spring.
3	Gurgaon ...	...	1. Sufficient ... 2. (a) Do. (b) Canal closed. 3. Generally good.	Wheat, 4 to $4\frac{1}{2}$ ... Barley, 6 to $7\frac{1}{2}$. Gram, 5 to $5\frac{1}{2}$. Bajra, $5\frac{3}{4}$ to 7. Jowar, 6 to $7\frac{1}{2}$. Maize, 6 to $6\frac{1}{2}$. Prices of wheat and gram above scarcity rates, and of others between normal and scarcity rates. Stocks of food-grains sufficient with traders.	Condition of irrigated crops good and of unirrigated crops average. Picking of cotton and harvesting of millets, &c., continue. Expected yield normal.	Gram, barley, wheat, &c., being sown. Area sown below normal. Germination good.
4	Ambála ...	...	1. Sufficient ... 2. (a) Do. (b) Western Jumna Canal flowing; water adequate. 3. Generally good.	Wheat, $3\frac{3}{4}$ ... Gram, $4\frac{3}{4}$. Barley, $6\frac{1}{4}$ Maize, $6\frac{1}{2}$. Bajra, $6\frac{1}{4}$. Prices generally above scarcity rates.	Condition of unirrigated cotton below normal and of other crops normal. Yield of cotton below normal on irrigated area and of other crops normal.	Sowings of wheat continue and are normal. Germination good.
5	Jullundur ...	...	1. Dry fodder scarce; grass and chari available. 2. (a) Sufficient. 3. Generally good.	Wheat, 4 ... Gram, 4. Maize, 5. Barley, 4. Prices above scarcity rates. Stocks of food-grains insufficient.	Condition of irrigated cotton and rice average and of unirrigated sesamum and indigo below average. Reaping of chari nearly completed. Picking of cotton and pressing of sugarcane in progress. Expected yield normal.	Rain wanted. Sowings of wheat, gram and barley continue and are normal.
6	Ferozepore ...	...	1. Scarce ... 2. (a) Sufficient. (b) Sidhnai Canal flowing satisfactorily. 3. Good.	Wheat, $3\frac{1}{2}$ Gram, $4\frac{3}{4}$. Barley, 6. Prices above scarcity rates. Stocks of food-grains sufficient with traders.	Condition of irrigated rice, sesamum, cotton and other standing crops normal and of unirrigated crops poor in Mogha Tahsil. Maize, jowar and chari damaged by insects.	Sowings in progress.
7	Lahore ...	...	1. Dry fodder scarce; green sufficient. 2. (a) Sufficient. (b) Do. except in Chúnián Tahsil.	Wheat, $3\frac{3}{4}$ .. Gram, $4\frac{1}{2}$. Prices above scarcity rates. Stocks of food-grains generally insufficient.	Condition of irrigated sugarcane, cotton and rice normal. Picking of cotton, pressing of sugarcane and harvesting of other crops continue. Expected yield normal on irrigated and below normal on unirrigated area.	Sowings of wheat, barley and gram continue and are below normal to normal. Germination fair.
8	Amritsar ...	...	1. Sufficient .. 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Generally good.	Wheat, $3\frac{3}{4}$ Barley, 6. Gram, $4\frac{3}{4}$. Maize, 6 Bajra, 6. Price of bajra at warning rate and of others above scarcity rates. Stocks of food-grains sufficient with traders.	Condition of rice, cotton and sesamum normal. Threshing of rice, reaping of maize and picking of cotton in progress.	Sowings of wheat, gram, and rape-seed continue and are below normal.
9	Siálkot ...	...	1. Green fodder available. 2. (a) Sufficient. (b) Canals flowing. 3. Good.	Wheat, $3\frac{3}{4}$ to 4 ... Maize, $5\frac{3}{4}$ to 6. Barley, 6 to $6\frac{1}{2}$. Gram, $4\frac{1}{2}$. Prices at or above scarcity rates. Stocks of food-grains generally insufficient.	Condition of rice and sesamum good, and cotton average. Picking of cotton and harvesting of rice, maize and bajra continue. Yield expected to be normal.	Sowings of wheat and barley continue and are above normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee	Prospects of Autumn.	Prospects of Spring.
10	Shahpur ...	...	1. Green fodder sufficient. 2. (a) Sufficient. (b) Lower Jhelum Canal flowing; water supply adequate. 3. Good.	Wheat, 3¾ ... Gram, 5. Bajra, 5. Maize, 5½. Barley, 5½. Prices above scarcity rates. Stocks of food-grains sufficient with traders and some zamindars of Bhalwal and Sargodha Tahsils, and with owners in parts of Shâhpur Tahsil.	Condition of rice and sugarcane good, of bajra and maize fair and of sesamum, jowar and cotton much below average. Picking of cotton and harvesting of other autumn crops in progress. Yield of cotton and maize below normal and of other crops normal.	Sowings of wheat and barley continue and are above normal. Germination good.
11	Ráwalpindi ...	...	1. Sufficient. .. 2. (a) Do. 3. Good.	Wheat, 3¾ ... Barley, 6. Gram, 4¾. Maize, 7¾. Bajra, 3¾. Jowar, 4¾. Prices generally above scarcity rates. Stocks of food-grains sufficient with traders.	Condition of cotton, rice, bajra, maize and jowar normal. Harvesting in progress. Expected yield below normal.	Sowings are above normal.
12	Miánwáli ...	...	1. Scarce ... 2. (a) Sufficient. (b) Kurram and Nammal Canals flowing; supply sufficient. 3. Fair.	Wheat, 3½ ... Barley, 5½. Gram, 4½. Bajra, 5½. Jowar, 5. Prices above scarcity rates. Stocks of food-grains insufficient.	Condition of cotton and other crops good on irrigated and normal on unirrigated area. Harvesting of millets in progress.	Sowings continue to normal extent. Germination good.
13	Lyallpur ...	...	1. Dry fodder scarce; green sufficient. 2. (a) Sufficient. (b) Canal flowing satisfactorily. 3. Good.	Wheat, 3¾ .. Gram, 4¾. Prices above scarcity rates. Stocks of food-grains insufficient with traders and zamindars.	Condition of desi cotton and other crops good. American cotton damaged by insects. Picking of cotton, harvesting of rice and pressing of sugarcane in progress. Expected yield normal.	Sowings of wheat and barley continue and are normal.
14	Multán ...	...	1. Dry fodder scarce; green grass available. 2. (b) Sutlej, Sidhnai and Lower Bari Doab Canals flowing by rotation. Mailsi Canal also flowing; supply insufficient. 3. Fair.	Wheat, 3½. Barley, 6½. Gram, 4½. Jowar, 6½. Bajra, 5½. Maize, 7. Prices generally at or above scarcity rates. Stocks of food-grains insufficient.	Condition of rice and maize average and of bajra below average, jowar and cotton somewhat damaged by insects in Khanewal Tahsil. Yield of rice normal and of millets below normal.	Sowings of wheat, barley, etc., continue and are normal. Germination good.

GENERAL REMARKS.

WEATHER remained dry. Cotton, sugarcane and other standing autumn crops are generally normal. Picking of cotton, pressing of sugarcane and harvesting of other autumn crops continue. Remarks by the Sanitary Commissioner, Punjab.

During the week ending 29th October 1921 there were 1,155 births registered in the 37 large municipal towns (633 males and 522 females), giving a birth-rate of 51 *per mille* of population, and 874 deaths were registered (452 males and 422 females), giving a death-rate of 39 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 39 against 33 in the corresponding week of the previous year; Amritsar 29 against ... Multán 30 against 32.

Only 1 death was recorded from cholera in Ráwalpindi. Of the 2 deaths from small-pox, 1 each was registered in Hoshiárpur and Multán. There were 31 deaths reported from plague in Ráwalpindi.

Sanitary Commissioner's Office,
Lahore :
Dated the 8th November 1921.

R. C. JENNINGS, Supdt.,
for *Offg. Sanitary Commissioner, Punjab.*

KATTI RAM, HEAD ASSTT. STATISTICS,
Office of Director of Land Records, Punjab

Notes on the condition and prospects of crops, etc., in each district of the Punjab for the month of October 1921.

1.—Hissar District.

Rainfall, though not well distributed, proved beneficial to rabi sowings. Sowings of gram, barley and sarsaf continued. Area sown expected to be normal. Condition of standing sugarcane, cotton and chari is good on irrigated area. Jowar on unirrigated area is below normal to normal. Harvesting of irrigated jowar and bajra continued and picking of cotton commenced. Outturn of cotton expected to be 16 annas and of unirrigated jowar and bajra from 4 to 8 annas Cattle are in good condition. Fodder stock low. Chari is available except in Sirsa and Fatehabad Tahsils where it is scarce. Public health generally good. Water in perennial canals was sufficient for irrigation purposes. Prices are slightly falling.

2.—Rohtak District.

Sowings of irrigated wheat, barley and sarsaf continued to a small extent. Unirrigated gram and sarsaf were sown extensively. Germination good. Condition and expected yield of irrigated sugarcane and cotton average, of unirrigated cotton below average and of gram and sarsaf average. Cattle are generally in good condition. Public health generally good. Canal flowed; water supply adequate. Drinking water is sufficient. Stocks of food-grains and dry fodder short.

3.—Gurgaon District.

Rainfall during the month was quite insufficient for sowing purposes. Gram, barley, sarsaf and taramira are being sown on unirrigated and wheat on irrigated area. Area sown below normal. Germination fair. Kharif crops are being reaped. Standing crops are in good condition. Cattle generally in good condition. Fodder sufficient. Health of people generally good. Canal closed.

4.—Karnal District.

Light showers of rain fell during the month, which were useful for standing kharif crops and for sowings of wheat, barley, gram and sarsaf. Condition and expected yield of irrigated kharif crops satisfactory, and of unirrigated below average. Jowar affected by some disease in some places. Bajra is doing well. Condition of cattle satisfactory. Grass and water plentiful. Public health is generally good. Canals continued flowing. Prices are still very high and going upwards.

5.—Ambala District.

Sufficient and well distributed rain fell during the month. Sowings of rabi crops were consequently above average Their germination is good. Condition of standing kharif crops is good on irrigated and average on unirrigated area. Harvesting of cotton, rice, maize and chari continued. Yield of cotton expected to be good on irrigated and below normal on unirrigated area, and of other crops normal. Cattle are generally in good condition. Water and fodder sufficient. Public health generally good. Western Jumna Canal flowed continuously. Prices have fallen to some extent.

6.—Simla District.

Rainfall sufficient. Wheat and barley have been sown in the Simla Tahsil only to the extent of $\frac{1}{12}$th. Outturn of kharif crops in seers per acre was as follows :—

	Irrigated.		*Unirrigated.*	
	Simla Tahsil.	Kot Khai Tahsil.	Simla Tahsil.	Kot Khai Tahsil.
Maize	...	...	200	...
Rice	320	480	200	320
Koda	...	...	80	320

Condition of cattle good. Fodder and grazing sufficient. Public health good. Water in hill streams sufficient.

7.—Kangra District.

Rainfall during the month was above the average and proved beneficial to rabi sowings. Some area was sown with wheat, barley, gram and masur. Harvesting of kharif crops continued. Hailstorms damaged the crops to a great extent in the Pálampur, Kángra and Núrpur Tahsils, where rice on several tracts has totally been destroyed. Yield of crops, not affected by hailstorms, is above normal. Cattle are in good condition. Fodder sufficient. Public health was not good. Water in streams and kuhls sufficient for irrigation purposes. Prices are still high.

8.—Hoshiarpur District.

Rainfall above average. Rabi crops are being sown. Condition of standing cotton and sugarcane is satisfactory. Yield of maize normal. Condition of cattle good. Fodder sufficient. Public health is good. Shah Nahar kept running. Prices are stationary.

9.—Jullundur District.

Rainfall above average. More is needed. Sowings of wheat, barley, gram and rapeseed continue and are normal. Condition and expected yield of standing irrigated crops average, and of unirrigated crops below average. Reaping of maize and mash finished, and of chari continues. Picking of cotton also continues. Pressing of sugarcane commenced. Cattle are generally in good condition. Bhoosa is scanty, but chari and grass are available. Public health generally good. Prices of food-grains have risen.

10.—Ludhiana District.

Rainfall during the month was above average. More is badly needed for rabi sowings. The sowings of rabi crops on unirrigated area are somewhat restricted. About half of the expected sowings are over. Standing crops are satisfactory on irrigated and poor on unirrigated area. Maize has been harvested. Chari, moth and mung are being harvested. Condition of cattle satisfactory. Chari is available to some extent but its rate is high. No green grass is available. Public health on the whole good.

11.—Ferozepore District.

Rainfall generally above average. Sowings of rabi crops in progress. Condition of irrigated kharif crops good and of unirrigated poor. Harvesting of rice in progress. Yield normal. Green fodder is sufficient for cattle which are on the whole in good condition. Public health on the whole satisfactory. Grey canals remained closed. Sirhind canals have been working well.

12.—Lahore District.

Rainfall, though insufficient, benefited to standing crops and stimulated sowings of wheat, barley, gram and sarsaf. Area sown normal. Condition of standing crops satisfactory. Yield is expected to be normal on irrigated and below normal on unirrigated area. Condition of cattle fair. Green fodder sufficient but dry fodder is insufficient. The state of public health fair. Perennial canals ran; supply of water sufficient. Prices high.

13.—Amritsar District.

Toria, gram, sarsaf and wheat were sown during the month. The condition and expected yield of standing crops are above average on irrigated and average on unirrigated area. Condition of cattle generally good. Public health is generally good. Canals are working by rotation; supply sufficient. Drinking water sufficient.

14.—Gurdaspur District.

Rainfall during the month was above average. Rain and hails damaged moth, mash and rice in Patháńkot and Shakargarh Tahsils. Lands being prepared for wheat cultivation were, however, benefited by it. Condition of kharif crops is generally good, except in Bharori tract of Shakargarh Tahsil, where these are average. Rice, maize, jowar, bajra and til were harvested. Outturn is generally good. Picking of cotton has commenced. Outturn is reported to be normal. Condition of cattle generally good. Fodder sufficient. Public health generally good. Government canals are flowing but not irrigating lands. Prices are rising.

15.—Sialkot District.

Above average sowings of rabi crops continued on account of sufficient moisture. Condition of standing crops is good on irrigated and average on unirrigated area. Yield of rice, maize, bajra and cotton normal. Public health generally good. Irrigation by canal and jhallars continued; supply of water sufficient. Bhoosa scanty, but green fodder is available.

16.—Gujranwala District.

Rainfall at Wazirabád and Gujránwála was above average. The crops of some villages were seriously affected by hailstorms, but the damage in the vicinity of Gujránwála was excessive. Sowings of wheat, barley and gram are in progress, and those of toria finished. Condition of standing crops generally average, except those damaged by hailstorms. Maize

in Gujránwála Tahsil was affected by white insects. Harvesting of rice has commenced. Outturn of rice, sugarcane and cotton expected to the normal. Condition of cattle generally fair. White bhoosa and grazing are insufficient. State of public health is good. Kharif channels were closed on 15th October. There is no complaint of water where the irrigation is perennial

17.—SHEIKHUPURA DISTRICT.

Slight rain fell during the month. Sowings of gram, sarsaf, vegetables, wheat and barley in progress. Condition of standing sugarcane, rice and maize good, and of cotton somewhat lowered on account of unfavourable wind. Yield of standing crops is expected to be normal, except cotton which is below normal. Condition of cattle not very good. White bhoosa is scarce and green fodder is almost exhausted. Public health is generally good. Lower and Upper Chenab Canals kept running.

18.—GUJRAT DISTRICT.

Fairly good but unevenly distributed rain fell during the month. Rabi sowings in progress. Condition of standing irrigated and early sown barani crops good to average and late sown barani crops below average. Harvesting of kharif crops in progress. Yield is estimated to be below normal to normal. Jowar has proved a general failure. Cattle are in good condition. Fodder sufficient. Public health is good. Canals are running.

19.—SHAHPUR DISTRICT.

Light showers of rain fell during the month. It rained with hail in Khushab and Shahpur and damaged the crops. Sowings of toria, gram and vegetables finished, and of wheat continued. Area sown with wheat and gram above normal and with others normal. Germination fair. Condition of standing rice, sugarcane, toria, gram and vegetables good, and of cotton and sesamum below average. Harvesting of rice, bajra, maize and picking of cotton continued. Yield of rice normal and of other crops below normal. Green fodder and drinking water sufficient. Cattle are generally in fair condition. Public health fair. Lower Jhelum Canal flowed; water supply adequate. Price of wheat rising.

20.—JHELUM DISTRICT.

Rabi sowings in progress as there is sufficient moisture in the soil. Yield of kharif crops about normal. Cattle are in good condition. Fodder sufficient. Prices high.

21.—RAWALPINDI DISTRICT.

Sufficient rain fell during the month and helped rabi sowings, their germination good. Standing crops in average condition. Yield of kharif crops normal. Condition of cattle good. Fodder scarce, but grazing is available. Public health good.

22.—ATTOCK DISTRICT.

Rainfall generally above average and benefited the standing crops and rabi sowings. Condition of kharif crops below average. Cattle in fair condition. Fodder is at present available. Public health good. Water is sufficient. Prices are abnormally high.

23.—MIANWALI DISTRICT.

Sufficient rain fell during the month, except Isá Khel which benefited the sowings of wheat. Hailstones, however, did some damage to the standing kharif crops in parts. Condition and expected yield of standing kharif crops is good on irrigated and average on unirrigated area. Harvesting of kharif crops is in progress. Condition of cattle poor for want of fodder. Drinking water sufficient. Public health generally fair. Nammal Canal in Miánwáli and Kurram Canals in Isa Khel watering lands. Prices have reached famine rates.

24.—MONTGOMERY DISTRICT.

Average rain fell during the month. Sowings of wheat, gram and barley continued. Standing chari, maize and cotton in the Ravi Tahsils were damaged by insects and their outturn is below normal, and of other kharif crops normal. Cattle are in good condition. Green fodder is available, but bhoosa is scarce. Public health generally good. Lower Bari Doab Canal is working, but Upper Sutlej Canals are closed. Prices are still very high.

25.—LYALLPUR DISTRICT.

Rainfall insufficient. Sowings of wheat, gram, barley and chari in progress. Condition of standing crops good except American cotton, which has been damaged by insects. Harvesting of kharif crops nearly finished. Yield expected to be normal. Pressing of sugarcane commenced in parts. Condition of cattle good. Dry fodder is insufficient, while green fodder is available. Public health generally good. Canal working satisfactorily. Prices of wheat and gram have risen to some extent.

26.—JHANG DISTRICT.

Slight rain fell, which benefited the standing crops which are in average condition. Wheat, barley gram, vegetables and fodder were sown during the month. It is reported that jowar and cotton will not yield well. Outturn of rice and maize normal. Green fodder is sufficient. Cattle are in good condition. Public health good. Canals are flowing. No inundation in the rivers. Prices are high.

27.—MULTAN DISTRICT.

Rainfall during the month was above average. Wheat, barley, gram, vegetables, toria and sarsaf were sown. Germination good. Condition of standing maize and rice average, and of bajra below average. Yield of jowar and bajra below normal. Condition of cattle good. Public health is generally good. Chenab Inundation Canals remained dry. Sutlej Inundation, Lower Bari Doab and Sidhnai Canals are running by rotation. Mailsi Canal is flowing only with small water.

28.—MUZAFFARGARH DISTRICT.

Slight showers of rain fell during the month, which proved beneficial to the standing crops and rabi sowings. Sowings of rabi crops continue, but are restricted by shortage of seed. Condition of standing crops average in Alipur, Muzaffargarh and Leiah Tahsils, but of rice below average in Kot Adu Tahsil. Yield of jowar, bajra and moth is expected, below normal. Harvesting of rice and bajra continues. Pressing of sugarcane and picking of cotton commenced. Outturn of the former normal, and of the latter much below the normal. Condition of cattle bad owing to continued hard labour. White straw scanty, but green grass is sufficient. Canals are almost dry except Sindh Canals which are running by rotation with a little water. Prices of food-grains stationary.

29.—DERA GHAZI KHAN DISTRICT.

There was some rain during the month which was useful for the standing kharif crops and rabi sowings, which are in progress. Condition and expected yield of standing kharif crops except cotton average. Condition of cattle good. Fodder sufficient. Public health is good. River has gone down. Dhingana, Qutub and Dhundhi Canals are still flowing. There have been hill torrents flow in Sanghar and Jámpur Tahsils. Supply of Kalapani in the Jámpur Tahsil is reported to be normal. Prices are high.

LAL CHAND,

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 5th November 1921 there were 1,159 births registered in the 35 large municipal towns (579 males and 580 females), giving a birth-rate of 53 *per mille* of population, and 908 deaths were registered (464 males and 444 females), giving a death-rate of 42 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 34 against 26 in the corresponding week of the previous year ; Amritsar 31 against 31 and Multán 27 against 41.

Of the 6 deaths from small-pox, 4 were registered in Multán and 1 each in Amritsar and Batála. There were 66 deaths reported from plague in Ráwalpindi and 1 in Siálkot.

Sanitary Commissioner's Office,
Lahore :
Dated the 16th November 1921.

R. C. JENNINGS, Supdt.,
for *Offg. Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 12th November 1921, there were 1,163 births registered in the 37 large municipal towns (602 males and 561 females), giving a birth-rate of 51 *per mille* of population, and 937 deaths were registered (474 males and 463 females), giving a death-rate of 41 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 35 against 27 in the corresponding week of the previous year ; Amritsar 37 against 28 and Multán 29 against 27.

Of the 4 deaths from small-pox, 2 each were registered in Hoshiárpur and Multán. There were 101 deaths reported from plague in Ráwalpindi and 1 each in Siálkot and Jalálpur.

7	Lahore ...	...	1. Green fodder sufficient. 2. (a) Sufficient. (b) Water sufficient in perennial canals. 3. Average.	Wheat, 3¼ ... Gram, 4½ Prices above scarcity rates. Stocks of food-grains insufficient.	Condition of irrigated cotton and sugarcane average. Yield of cotton, rice and sugarcane normal.	Wheat and other standing crops are good on irrigated and average on unirrigated area. Sowings of wheat, barley and gram continue to some extent. Germination good.
8	Amritsar ...	...	1. Sufficient ... 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Generally good.	Wheat, 4¹/₁₆ Barley, 5½. Gram, 4⅝ Maize, 5½. Jowar, 5½. Bajra, 4½. Prices above scarcity rates. Stocks of food-grains sufficient with traders.	Condition of cotton average. Picking of cotton in progress. Yield below normal.	Rain wanted. Standing irrigated crops good and unirrigated average. Sowings of wheat, gram and rapeseed continue and are below normal.
9	Siálkot ...	...	1. Green fodder available. 2. (a) Sufficient. (b) Canal closed. 3. Cattle weak owing to overwork.	Wheat, 3½ to 3¾ ... Maize, 5½ to 7. Barley, 6¼. Gram, 4½. Prices above scarcity rates. Stocks of food-grains sufficient with traders.	Condition of rice and sesamum good, and of cotton average. Yield of cotton, sugarcane, rice, &c., below normal to normal.	Standing wheat, barley and gram in good condition. Sowings of wheat and barley continue.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for—(a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
10	Shahpur ...	...	1. Green fodde sufficient. 2. (a) Sufficient. (b) Lower Jhelum Canal flowing; water adequate. 3. Fair.	Wheat, 3¾ ... Bajra, 5½. Gram, 4½. Maize, 5¾. Jowar, 5½. Prices above scarcity rates. Stocks of food-grains generally insufficient.	Condition of sugarcane good and of cotton below normal. Harvesting of rice, maize, bajra, picking of cotton and pressing of sugarcane continue. Yield of maize and cotton below normal and of others normal.	Standing wheat and gram in good condition. Sowings of wheat continue and are above normal. Germination good.
11	Ráwalpindi ...	...	1. Sufficient .. 2. (a) Do. 3. Good.	Wheat, 3½ ... Barley, 6½ Gram, 4¾. Maize, 6½. Bajra, 4¾. Jowar, 4¾. Prices generally above scarcity rates. Stocks of food-grains sufficient with traders.	Condition of cotton average. Yield of harvested crops below normal.	
12	Miánwáli ..	...	1. Available ... 2. (a) Sufficient. (b) Nammal and Kurram Canals flowing; supply sufficient. 3. Fair.	Wheat, 3½ ... Barley, 5½. Gram, 4¾. Bajra, 5½. Prices above scarcity rates. Stocks of food-grains insufficient.	Harvesting completed. Yield normal. Condition of cotton good on irrigated and average on unirrigated area.	Standing irrigatad crops good and unirrigated average. Sowings continue and are above normal.
13	Lyallpur ..	...	1. Green-fodder sufficient. 2. (a) Sufficient. (b) Canals running satisfactorily. 3. Generally good.	Wheat, 3¾ ... Gram, 4¾. Prices above scarcity rates. Stocks of food-grains insufficient.	Standing crops good. Cotton damaged by insects. Picking of cotton and pressing of sugarcane in progress. Yield normal.	Condition of standing crops good. Sowings of wheat continue.
14	Multán ...	...	1. Green fodder available. 2. (b) Lower Bari Doab Canal flowing by rotation. Mailsi Canal also flowing; supply insufficient.	Wheat, 3½ ... Barley, 5¾. Gram, 4½. Jowar, 6½. Bajra, 5½. Maize, 5⅝. Prices above scarcity rates. Stocks of food-grains insufficient.	Condition of cotton fair. Harvesting of maize and millets and picking of cotton continue, yield normal, cotton damaged by insects in the Khanewál Tahsil.	Condition of wheat and other standing crops good. Sowings of wheat continue and are above normal. Germination good.

GENERAL REMARKS.

WEATHER remained dry. Condition of sugarcane and cotton is generally average and of wheat and other spring crops average to good. Picking of cotton and pressing of sugarcane in progress. Yield below normal to normal. Sowings of wheat and other spring crops continue and are normal. Cattle are healthy. Green fodder and water are sufficient. Stocks of food-grains insufficient except in a few districts. Prices are generally stationary and above scarcity rates. Prices of wheat:—Lahore and Ráwalpindi 3½, Ferozepore and Lyallpur 3¾ and Ambála 4 seers per rupee.

MAHBUB SHAH, SUPDL.,

for *Offg. Director of Land Records, Punjab.*

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB AND THE NORTH-WEST FRONTIER PROVINCE DURING SEPTEMBER 1921.

Station.	Pressure.		Wind.		Temperature in shade.						Humidity at 8 hrs.	Vapour tension at 8 hrs.	Amount of cloud, 10 = overcast.

(a) = Aneroid.
* Not reduced to sea level.
(c) = Mean of 19 days.

The activity of the monsoon was mostly confined to the east Punjab, the Punjab hills and the sub-montane districts. It was weak in the central districts, and did not penetrate into the south-west Punjab. After giving locally heavy rain in the south-eastern districts in connection with a depression from the Bay, it finally withdrew from the Punjab on the 23rd.

A western depression gave between the 27th and 29th fairly widespread rain in the North-West Frontier Province and the central and south-west Punjab.

Pressure and Winds.—Atmospheric pressure was normal or in slight defect. Winds varied considerably from their usual directions along the frontier and at a few stations in the east Punjab. They were above their normal strength at Ambála, Ludhiána, Siálkot and Ráwalpindi and much below at Montgomery, Multán, Pesháwar and Cherát.

Temperature.—On the mean of the month, maximum temperature was more than 3° in defect at Murree and Cherát, and 4° above it at Pesháwar. Minimum temperature was more than 3° above normal at Lahore, Multán, Dera Ismail Khan and Pesháwar. Temperature was higher than usual in the west Punjab and the North-West Frontier Province between the 10th and 19th.

The following table shows for each day of the month the departure from the normal of the mean temperature of the Punjab and the North-West Frontier Province, with the highest maximum temperature registered and the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

" 15th ...	+1·5	103·4	Do.				
" 16th ...	+2·3	102·4	Do.				

Humidity and Cloud.—The air was damper than usual at most places. Skies were clearer than usual on the hills of the North-West Frontier Province and of the north Punjab and more clouded on the south-east Punjab hills.

Rainfall.—The total fall of the month was above normal in the Punjab hills, and at Hissar, Khusháb and Multán; over the rest of the Punjab it was generally below normal. In the North-West Frontier Province Párachinár had more than the normal amount; there was little or no rain elsewhere.

The following table gives the rainfall data for the Punjab and the North-West Frontier Province stations for September 1921 :—

Station.	Actual rainfall in September 1921.	Normal rainfall in September.	Departure from normal in September 1921.	Station.	Actual rainfall in September 1921.	Normal rainfall in September.	Departure from normal in September 1921.

(a) Elephant Brand. (b) Victoria Brand. (c) Sun Brand.

Quotations have not been shown in cases in which there have been no wholesale transactions.

NOTES.—Prices of rice as shown in the statement are for the quality in common demand.

Variations in prices are due to fluctuations in imports and exports.

§ Prices are those reported by Messrs. Ralli Brothers.

In the statement for the fortnight ending 31st October 1921 under "Kerosine Oil" against Ambála *read* "Rs. 4-15-6" *for* "Rs. 4-2-0."

In the statement for the fortnight ending 31st October 1921 under "Termeric" against Lahore *read* "Rs. 16-0-0" *for* "Rs. 10-0-0."

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 19th November 1921, there were 1,070 births registered in the 31 large municipal towns (544 males and 526 females), giving a birth-rate of 52 *per mille* of population, and 730 deaths were registered (377 males and 353 females), giving a death-rate of 36 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 27 against 27 in the corresponding week of the previous year; Amritsar 35 against 31 and Multán 25 against 39.

There were 63 deaths reported from plague in Ráwalpindi and 2 in Lahore.

Sanitary Commissioner's Office,
Lahore:
The 30th November 1921.

No. 49. LAHORE, FRIDAY, DECEMBER 9, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 5th December 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
1	Hissar ..	...	1. Green grass and chari available. 2. (b) Water in perennial canals insufficient. 3. Good.	Wheat, 4½ ... Gram, 5. Jowar, 6¾. Bajra, 5¾. Barley, 6¼. Prices generally at or above scarcity rates.	Standing irrigated sugarcane and cotton good. Picking of cotton and pressing of sugarcane continue. Yield normal.	Condition of wheat and other standing crops good on irrigated and average on unirrigated area. Sowings of irrigated wheat and gram in progress and are normal.
2	Rohtak	...	1. Sufficient ... 3. Generally good.	Wheat, 4 Gram, 5. Barley, 8. Jowar, 8. Bajra, 6¼. Prices generally at or above scarcity rates. Stocks of food-grains insufficient.	Standing irrigated sugarcane and cotton good and unirrigated cotton average. Picking of cotton in progres. Yield normal.	Rain badly wanted. Condition of wheat and other standing crops good on irrigated and average on unirrigated area.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of — Autumn.	Prospects of — Spring.
3	Gurgaon ...	...	1. Sufficient ... 2. (a) Do. (b) Canals flowing; water sufficient. 3. Generally good.	Wheat, 4 to $4\frac{1}{2}$ ... Barley, 6 to 7. Gram, $4\frac{3}{4}$ to $5\frac{3}{4}$. Bajra, 6 to $6\frac{1}{2}$. Jowar, 8 to $8\frac{1}{2}$. Maize, 5 to 8. Prices generally at or above scarcity rates. Stocks of food-grains sufficient with traders.	Picking of cotton and pressing of sugarcane in progress. Yield normal.	Rain wanted. Wheat, gram, etc., being sown in parts. Area sown normal. Condition of wheat, barley and gram ...
4	Ambála ...	...	1. Sufficient ... 2. (a) Do. (b) Western Jumna Canal flowing. 3. Generally good.	Wheat, 4 ... Gram, 5. Barley, $6\frac{5}{8}$ Maize, $6\frac{1}{2}$. Bajra, $6\frac{1}{4}$. Prices generally above scarcity rates. Stocks of food-grains sufficient.	Condition of unirrigated cotton below normal and of other crops normal. Picking of cotton, pressing of sugarcane and harvesting of pulses, etc., continue. Yield of cotton below normal and of other crops normal.	Rain wanted. Standing crops good.
5	Jullundur ...	...	1. Chari is available... 2. (a) Sufficient. 3. Generally good.	Wheat, 4 ... Gram, $4\frac{1}{2}$. Maize, 5. Barley, $4\frac{1}{4}$. Prices above scarcity rates. Stocks of food-grains insufficient.	Picking of cotton and pressing of sugarcane continue. Yield normal.	Rain badly wanted. Standing irrigated crops average and unirrigated below average. Sowings of wheat nearly completed and are normal.
6	Ferozepore ...	...	1. Scarce ... 2. (a) Sufficient. (b) Sirhind Canal flowing satisfactorily. 3. Good.	Wheat, 4 ... Gram, $4\frac{3}{4}$. Barley, 6. Prices above scarcity rates. Stocks of food-grains insufficient.	Condition of cotton normal.	Standing crops average. Sowings of wheat continue.
7	Lahore ...	...	1. Green fodder sufficient. 2. (a) Sufficient. (b) Water sufficient in perennial canals. 3. Average.	Wheat, $3\frac{1}{2}$ ... Gram, $4\frac{3}{4}$ Prices above scarcity rates. Stocks of food-grains insufficient.	Condition of irrigated cotton and sugarcane average. Yield of cotton, rice and sugarcane normal.	Wheat and other standing crops are good on irrigated and average on unirrigated area. Sowings of wheat, barley and gram continue to some extent. Germination good.
8	Amritsar ...	...	1. Sufficient ... 4. (a) Do. (b) Canals flowing by rotation. 3. Generally good.	Wheat, 4. Barley, $4\frac{3}{4}$. Gram, $4\frac{1}{2}$. Maize, 6. Jowar, 6. Bajra, $4\frac{3}{4}$. Prices above scarcity rates. Stocks of food-grains sufficient with traders.	Condition of cotton normal. Picking of cotton and pressing of sugarcane in progress. Yield of cotton below normal.	Rain wanted. Standing irrigated crops good and unirrigated average.
9	Siálkot ...	0·02 at Sadr ..	1. Green fodder available; sugarcane being also used as fodder. 2. (a) Sufficient. (b) Canal closed. 3. Generally good.	Wheat, $3\frac{1}{2}$ to $3\frac{3}{4}$ ... Maize, $5\frac{1}{2}$ to 7. Barley, $6\frac{1}{2}$. Gram, $4\frac{1}{2}$. Prices above scarcity rates. Stocks of food-grains sufficient with traders.	Condition of standing irrigated crops good and unirrigated average. Yield of cotton, rice and sugarcane, average.	Standing irrigated crops good and unirrigated average. Sowings of wheat and barley continue.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of — Autumn.	Prospects of — Spring.
10	Shahpur ...	0·16 at Sadr ... 0·10 at Bhalwal. 0·14 at Shahpur. 0·10 at Khusháb.	1. Green fodder sufficient. 2. (a) Sufficient. (b) Lower Jhelum Canal flowing; supply adequate. 3. Fair.	Wheat, 3⅝ ... Gram, 5. Bajra, 5½. Maize, 5¾. Jowar, 5½. Prices above scarcity rates. Stocks of food-grains sufficient with traders of Bhalwal, Shahpur and Sargodha Tahsils.	Condition of sugarcane good and of cotton below normal. Picking of cotton and pressing of sugarcane in progress. Yield of cotton poor and of sugarcane average.	Rain was useful for standing crops which are in good condition. Sowings of wheat continue and are above normal. Germination good.
11	Ráwalpindi ...	0·08 at Sadr ... 0·14 at Murree. 0·08 at Kahuta. 0·07 at Gujar Khan.	1. Sufficient .. 2. (a) Do. 3. Good.	Wheat, 3½ ... Barley, 6½ Gram, 4¾. Maize, 6¾. Bajra, 4¾. Jowar, 4¾. Prices generally above scarcity rates. Stocks of food-grains sufficient with traders.	Condition of cotton and rice average. Yield of autumn crops below normal.	Standing crops average.
12	Miánwáli ..	0·13 at Sadr ... 0·07 at Bhakkar.	1. Procurable ... 2. (a) Sufficient. (b) Kurram and Nammal Canals flowing; supply sufficient. 3. Fair.	Wheat, 3¼ ... Barley, 5¼. Gram, 4¾. Bajra, 5¼. Jowar, 6. Prices above scarcity rates. Stocks of food-grains insufficient.	Condition of cotton good and of sesamum normal.	Standing irrigated crops good and unirrigated average. Sowings continue and are above normal.
13	Lyallpur ..	...	1. Scarce; green fodder sufficient. 2. (a) Sufficient. (b) Canals working satisfactorily. (c) Generally good.	Wheat, 3¾ ... Gram, 4¾. Prices above scarcity rates. Stocks of food-grains insufficient.	Standing crops good except American cotton damaged by insects. Picking of cotton and pressing of sugarcane in progress. Yield expected to be normal except American cotton.	Standing crops good. Sowings of wheat continue.
14	Multán ...	...	1. Green fodder available. 2. (b) Mailsi Canal flowing; supply insufficient. Sidhnai and Lower Bari Doab Canals also flowing by rotation.	Wheat, 3 1/15 ... Barley, 5⅝. Gram, 4¾. Jowar, 5½. Bajra, 5¼. Maize, 6¾. Prices above scarcity rates. Stocks of food-grains insufficient.	Picking of cotton and pressing of sugarcane and harvesting of maize and millets in progress. Yield below normal, cotton damaged by insects.	Sowings of wheat continue and are above normal. Germination good.

GENERAL REMARKS.

Except for light showers in parts of the west, weather remained dry. Rain is wanted for standing spring crops which are generally good on irrigated and average on unirrigated area. Picking of cotton and pressing of sugarcane continue. Yield below normal to normal. Wheat and other spring crops being sown. Area sown normal. Cattle are healthy. Green fodder and water are sufficient. Stocks of food-grains insufficient except in a few districts. Prices are generally stationary and above scarcity rates. Prices of wheat:—Ráwalpindi and Lahore 3½, Lyallpur 34, Ambála and Ferozepore 4 seers per rupee.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 26th November 1921, there were 1,152 births registered in the 37 large municipal towns (588 males and 564 females), giving a birth-rate of 51 *per mille* of population, and 834 deaths were registered (418 males and 416 females), giving a death-rate of 37 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 33 against 27 in the corresponding week of the previous year; Amritsar 28 against 26 and Multán 38 against 31.

There were 10 deaths registered from small-pox in Multán and 55 from plague in Ráwalpindi.

rain-gauge station.
averages have been fixed.

MAHBUB SHAH, SUPDT.,
Office of Director of Land Records, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab for the month of November 1921.

1.—Hissar District.

Weather remained dry. Sowings of gram, wheat and barley on irrigated area continued. Area sown normal. Standing sugarcane, cotton, gram and barley are in good condition. Picking of cotton continued and pressing of sugarcane commenced. Outturn is expected to be normal. Cattle in good condition. Fodder available. Water in perennial canals sufficient for irrigation purposes. Inundation canals remained dry. Prices of food-grains, though very high, remained stationary.

2.—Rohtak District.

Weather remained dry. Rain is badly wanted. Sowings of wheat, sarsaf, barley and taramira continued. Area sown below normal. Condition and expected yield of irrigated sugarcane and cotton are average. Cattle are generally in good condition. Health of people is generally good. Canal flowed; water supply adequate. Drinking water is sufficient. Stock of food-grains is short. Dry fodder is sufficient.

3.—Gurgaon District.

Weather remained dry. Rain is wanted for Rabi crops. Gram, barley and wheat being sown. Area sown normal. Picking of cotton and pressing of sugarcane continue. Yield expected to be normal. Rabi crops on irrigated area in good condition. Cattle generally in good condition. Fodder sufficient for present needs. Health of people generally good. Canal running. Supply of water sufficient.

4.—Karnal District.

Weather remained dry. Wheat and barley being sown on irrigated area. The expected yield of kharif crops in maunds per acre is given below :—

	Irrigated.	Unirrigated.
Rice	7	5
Jowar	4	$3\frac{1}{2}$
Bajra	$6\frac{1}{2}$	$5\frac{1}{2}$
Maize	10	$5\frac{1}{4}$
Cotton	$5\frac{3}{20}$	$2\frac{31}{40}$

Condition of cattle is generally good. Fodder and water are sufficient. Public health is generally good. Canals worked; water supply was short. Prices are very high.

5.—Ambala District.

Weather remained dry. Wheat, gram and sarshaf have been sown. Area sown above normal. Condition of sugarcane is average, of cotton below average, and of rabi crops good. Harvesting of maize, mash, cotton and pressing of sugarcane commenced. Yield of all kharif crops, except cotton, is average. Cattle are generally in good condition. Fodder and water are sufficient. Public health is generally good. The Western Jumna Canal flowed continuously. Prices have fallen to some extent.

6.—Simla District.

Weather remained dry. Sowings of rabi crops completed. Condition of cattle good. Public health good. Water in hill streams sufficient.

7.—Kangra District.

Weather remained dry. Sowings of rabi crops in progress. Standing crops are in good condition. Cattle are generally in good condition. Fodder sufficient. Public health generally good. Water in streams and kuhls sufficient for irrigation purposes. Prices are high.

8.—Hoshiarpur District.

Weather remained dry. The yield of cotton and sugarcane is expected to be normal. Sowings of rabi crops finished. Condition of cattle good. Public health is good. Shah Nahr Canal remained closed during the month. Prices remained stationary.

9.—JULLUNDUR DISTRICT.

Weather remained dry. Rain is badly needed for rabi crops. Sowings of gram, barley and rapeseed completed and of wheat on chahi lands continue to a normal extent. Condition of standing rabi crops average on irrigated and below average on unirrigated area. Yield of irrigated kharif crops normal and of unirrigated below normal. Picking of cotton and pressing of sugarcane commenced. Cattle genarally in good condition. Bhusa scanty, but chari is available. Public health generally good. Prices of food-grains have risen.

10.—LUDHIANA DISTRICT.

Weather remained dry. Rain is badly needed for rabi crops. Sowings of rabi crops finished on unirrigated, but continue on irrigated area. Standing crops on irrigated lands are average and on unirrigated poor. Condition of cattle satisfactory. Green grass is scanty, but chari is available. Public health satisfactory.

11.—FEROZEPORE DISTRICT.

Weather remained dry. Sowings of rabi crops in progress. Condition of standing crops fair. Yield of maize expected to be below normal owing to damage done by insects. Green fodder is available in a fair quantity for cattle, who are in good condition. Public health is satisfactory on the whole. Sirhind Canals have worked well.

12.—LAHORE DISTRICT.

Weather remained dry. Wheat, gram, barley, sarsaf and fodder crops were sown during the month. Area sown above normal. Condition of standing crops is good on irrigated and average on unirrigated area. Condition of cattle average. Green fodder sufficient; dry insufficient. State of public health good. Perennial canals ran by turn. Inundation canals dry. Prices are high.

13.—AMRITSAR DISTRICT.

Weather remained dry. Wheat, gram and sarsaf were sown during the month. Condition and expected yield of standing crops are good on irrigated and average on unirrigated area. Condition of cattle generally good. Public health is generally good. Canals are working by rotation; supply sufficient. Drinking water sufficient.

14.—GURDASPUR DISTRICT.

Weather remained dry. Rabi sowings are in progress. Condition of standing crops is generally good. Threshing of rice, mash and moth continued. Outturn normal. Picking of cotton continued and pressing of sugarcane commenced. Outturn of the former normal and of latter normal to good. Condition of cattle generally good. Fodder sufficient. Public health generally good. Government canals are flowing, but not irrigating lands. Prices rising.

15.—SIALKOT DISTRICT.

Weather remained dry. Sowings of wheat, barley and masar continued. Condition of standing crops good on irrigated and normal on unirrigated area. Yield of rice, mash, sugarcane, cotton and sesamum normal. Condition of cattle good. Public health generally good. Canal closed. Irrigation by jhallars continued. Supply of water and food-grains sufficient. Bhoosa scanty, but other fodder is available.

16.—GUJRANWALA DISTRICT.

Weather remained dry. Rain is badly wanted. Sowings of wheat and barley are in progress. General condition of rabi crops fair. Harvesting of rice finished. Yield normal. Expected outturn of sugarcane normal and of cotton below normal. Fodder and grazing scarce. General condition of cattle fair. State of public health good. There are no complaints regarding supply of canal water.

17.—SHEIKHUPURA DISTRICT.

Weather remained dry. Sowings of wheat, barley, bejhar (mixed wheat and barley) and fodder crops in progress. Condition of standing crops average. Outturn of cotton is below normal owing to the appearance of an insect in its bud, of rice and sugarcane normal. Cattle are generally in good condition. Fodder is scarce. Public health is generally good. Canals kept running, except the kharif channel of the Upper Chenab Canal, which remained closed.

18.—GUJRAT DISTRICT.

Weather remained dry. Sowings of rabi crops finished. Germination of rabi crops generally good. Picking of cotton and pressing of sugarcane in progress. Outturn of sugarcane expected to be normal and of cotton below normal. Cattle are in good condition. Fodder sufficient. Public health good. Canal flowing.

19.—SHAHPUR DISTRICT.

Weather remained dry. Sowings of wheat continued. Area sown above normal. Germination fair. Condition of standing sugarcane, toria, gram and wheat good and of cotton below average. Harvesting of rice, bajra and maize finished. Picking of cotton

continued and pressing of sugarcane commenced. Yield of the former poor and of the latter normal. Green fodder and drinking water sufficient everywhere. Cattle in fair condition. Public health generally fair. Lower Jhelum Canal flowed with rotational closure. No complaints regarding water supply. Prices of food-grains are rising.

20.—JHELUM DISTRICT.

Statement not received.

21.—RAWALPINDI DISTRICT.

Except for light showers in Ráwalpindi and Murree, weather remained dry. Condition of standing crops below average. Yield of Kharif crops normal. Condition of cattle good. Fodder sufficient. Public health good.

22.—ATTOCK DISTRICT.

Weather remained generally dry. Sowings of rabi crops finished. Standing crops are in good condition. Estimated yield in seers per acre of kharif is as follows:—

	Bajra.	*Cotton.*	*Maize.*
Irrigated	400	25	560
Unirrigated	64	2	...

Condition of cattle on the whole good. Fodder sufficient. Public health good. Water sufficient. Prices stationary.

23.—MIANWALI DISTRICT.

Weather remained dry. Sowings of rabi crops continued. Area sown above normal. Condition of standing rabi crops good on irrigated and average on unirrigated area. Harvesting of kharif crops finished. Yield good on irrigated and below normal on unirrigated area. Condition of cattle fair. Fodder procurable. Drinking water sufficient. Public health generally good. Nammal canal in Miánwáli and Kurram canals in Isa Khel flowing; water supply sufficient. Prices have reached famine rates.

24.—MONTGOMERY DISTRICT.

Weather remained dry. Wheat, gram, barley and fodder crops were sown during the month. Standing crops are in moderate condition. White-ants damaged wheat in places. Expected yield of kharif crops normal. Cotton and maize have been damaged by insects. Cattle are in good condition. Dry fodder is not abundant, but green fodder is procurable. Public health is generally good. Lower Bari Doab Canal remained closed for last ten days of the month. Prices are very high.

25.—LYALLPUR DISTRICT.

Weather remained dry. Sowings of wheat and barley in progress. Condition of standing crops good, except American cotton, which has been damaged by insects. Harvesting of rice finished. Yield 32 maunds per acre. Maize has been harvested; yield expected to be normal. Pressing of sugarcane in progress. Condition of cattle good. Dry fodder is scarce, but green is sufficient. State of public health generally good. Canal working regularly. No complaint regarding water supply. Prices of food-grains are high.

26.—JHANG DISTRICT.

Weather remained dry. Wheat, barley, pulses and vegetables are being sown. Standing crops are in average condition. Yield is reported to be 3 and 5 maunds per acre of Desi and American cotton, respectively, in Shorkot Tahsil, 3½ and 2 maunds in Chiniot Tahsil and normal in Jhang Tahsil. The outturn of Jowar is below normal. Cotton has been damaged by insects. Condition of cattle good. Bhusa is scarce, but green fodder still available. Public health fair. Canals are flowing. Prices are very high.

27.—MULTAN DISTRICT.

Weather remained dry. Wheat, barley, gram, sarsaf and vegetables have been sown. Germination good. Condition of standing cotton, sesamum and sugarcane below average. Yield of cotton below normal and of other crops normal. Some damage has been done to cotton by insects in the Khánewál Tahsil. Condition of cattle generally fair. Public health fair. Inundation canals dry. Irrigation is being done with wells. Mailsi Canal is working with little water and Sidhnai and Lower Bari Doab Canals are flowing by rotation.

28.—MUZAFFARGARH DISTRICT.

Weather remained dry. Sowings of wheat and pulses continue and are restricted owing to shortage of seed. Germination good. Condition of standing kharif crops is below average to average. Threshing of rice and bajra continues. Yield normal. Pressing of sugarcane in progress; outturn normal. Picking of cotton also continues, but the outturn is much below normal. Condition of cattle is still bad owing to the continued overwork. White straw is scanty. Canals are almost dry, except a few Sindh Canals, which are running by rotation with very little water. Prices of food-grains are rising.

29.—DERA GHAZI KHAN DISTRICT.

Statement not received.

MAHBUB SHAH,

SUPERINTENDENT,

for Director of Land Records, Punjab.

The 12th December 1921.

Weekly return of births and deaths registered at the undermentioned Municipal Towns in the Punjab during the week ending Saturday, the 3rd December 1921.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 3rd December 1921, there were 1,142 births registered in the 37 large municipal towns (574 males and 568 females), giving a birth-rate of 52 *per mille* of population, and 799 deaths were registered (389 males and 410 females), giving a death-rate of 37 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 35 against 32 in the corresponding week of the previous year ; Amritsar 25 against 30 and Multán 40 against 36.

Of the 14 deaths from small-pox, 13 were registered in Multán and 1 in Lahore. There were 73 deaths reported from plague in Ráwalpindi and 1 in Jhelum.

SUPPLEMENT TO THE

Government Gazette.

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

No. 51. LAHORE, FRIDAY, DECEMBER 23, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 19th December 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
1	Hissar ...	0·06 at Sirsa ...	1. Fodder insufficient chari available. 2. (b) Water in perennial canals sufficient. 3. Good.	Wheat, 4½ ... Gram, 5. Jowar, 7. Bajra, 6. Barley, 6½. Prices generally at or above scarcity rates.	Standing sugarcane and cotton good. Picking of cotton and pressing of sugarcane in progress. Yield normal.	Rain badly wanted. Condition of irrigated wheat, gram, barley and oilseeds good and of unirrigated average.
2	Rohtak ...	...	1. Insufficient ... 2. (a) Sufficient. 3. Generally good.	Wheat, 4 ... Gram, 5. Barley, 7. Jowar, 8. Bajra, 6½. Prices generally at or above scarcity rates. Stocks of food-grains insufficient.	Condition of cotton and sugarcane average. Picking of cotton and pressing of sugarcane in progress. Yield normal.	Rain badly wanted. Sowings completed. Wheat and other standing crops in average condition.

1842 PGG

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of — Autumn.	Prospects of — Spring.
3	Gurgaon ...	...	1. Sufficient ... 2. (a) Do. (b) Canal flowing; supply sufficient. 3. Generally good.	Wheat, 4 to 4½ ... Barley, 5¼ to 7. Gram, 4¾ to 5½. Bajra, 5¼ to 6½. Jowar, 6 to 8½. Maize, 6 to 8. Prices generally at or above scarcity rates. Stocks of food-grains sufficient with traders.	Cotton is being picked and sugarcane is being pressed. Their yield is estimated to be normal.	Rain wanted. Rabi sowings finished. Area sown is normal. Wheat, barley and gram in good condition.
4	Ambála ...	0·01 at Sadr ..	1. Sufficient ... 2. (a) Do. (b) Western Jumna Canal flowing. 3. Generally good.	Wheat, 4 ... Gram, 5. Barley, 6⅝ Bajra, 6½. Maize, 6⅓. Prices generally above scarcity rates. Stocks of food-grains sufficient.	Condition of sugarcane and irrigated cotton normal, and of unirrigated cotton below normal. Picking of cotton and pressing of sugarcane in progress. Yield of cotton below normal and of sugarcane normal.	Rain wanted. Standing crops good. Wheat slightly affected by whiteants in Jagádhri and Kharar Tahsils.
5	Jullundur ...	0·14 at Sadr ... 0·15 at Phillaur. 0·31 at Nawashahr.	1. Chari available ... 2. (a) Sufficient 3 Generally good.	Wheat, 4 ... Gram, 4½. Maize, 5. Prices above scarcity rates. Stocks of food-grains insufficient.	Picking of cotton and pressing of sugarcane continue. Yield normal.	Rain was useful for standing crops but more is badly wanted. Standing irrigated crops good and unirrigated average.
6	Ferozepore ...	0·22 at Sadr ... 0·25 at Zíra. 0·05 at Muktsar. 0·10 at Fázilka.	1. Scarce ... 2. (a) Sufficient. (b) Sirhind Canals flowing satisfactorily. 3. Good.	Wheat, 4 Gram, 4½. Barley, 6. Prices above scarcity rates. Stocks of food-grains insufficient with traders.	...	Condition of wheat, gram, barley and rapeseed normal. Sowings nearly completed.
7	Lahore ...	0·13 at Chunián	1. Green fodder sufficient. 2. (a) Sufficient. (b) Perennial canals flowing by turns; supply sufficient. 3. Average.	Wheat, 3¾ .. Gram, 4½ Prices above scarcity rates. Stocks of food-grains insufficient.	Condition of sugarcane and cotton average. Picking of cotton and pressing of sugarcane in progress. Yield of cotton normal and of sugarcane good.	Rain wanted. Wheat and other standing crops good on irrigated and average on unirrigated area. Toria being harvested. Yield expected to be good on irrigated and normal on unirrigated area. Sowings of wheat, barley and fodder crops continue to some extent.
8	Amritsar ...	0·02 at Tarn Táran 0·10 at Ajnála.	1. Sufficient ... 2. (a) Do. (b) Canals flowing by rotation; supply sufficient. 3. Good.	Wheat, 4. Barley, 6¼. Gram, 4¾. Maize, 6 Jowar, 6. Bajra, 5. Prices above scarcity rates. Stocks of food-grains sufficient with traders.	Condition of cotton normal. Picking of cotton and pressing of sugarcane continue. Yield below normal.	More rain wanted. Standing irrigated crops good and unirrigated average. Sowings of fodder crops continue and are below normal.
9	Siálkot ...	0·02 at Sadr ..	1. Green fodder available; sugarcane being also used as fodder. 2. (a) Sufficient. (b) Canal closed. 3. Good.	Wheat, 3¾ to 4 ... Maize, 5½ to 6¾. Barley, 6 to 6½. Gram, 4½. Prices above scarcity rates. Stocks of food-grains sufficient with traders.	Standing cotton in good condition. Yield of cotton and sugarcane normal.	Condition of wheat, barley and gram good. Yield of toria expected to be normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for—(a) Drinking (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
10	Shahpur ...	0·20 at Sadr ... 0·46 at Bhalwal. Light showers also fell elsewhere.	1. Green fodder sufficient. 2. (a) Sufficient. (b) Lower Jhelum Canal flowing; supply sufficient. 3. Fair.	Wheat, 3½ ... Gram, 4¾. Bajra, 5. Maize, 5½. Prices above scarcity rates. Stocks of food-grains generally sufficient.	Condition of sugarcane good and of cotton below normal. Picking of cotton and pressing of sugarcane in progress. Yield of sugarcane about normal and of cotton poor.	Rain was useful. Standing wheat, gram and toria in good condition. Sowings of wheat nearly completed and are above normal.
11	Ráwalpindi ...	1·00 at Sadr ... 0·10 at Murree. 0·04 at Gujar Khan 0·10 at Kahúta	1. Sufficient .. 2. (a) Do. 3. Good.	Wheat, 3½ ... Barley, 6¾ Gram, 4½. Maize, 6. Bajra, 5¼. Jowar, 5¼. Prices generally at or above scarcity rates. Stocks of food-grains sufficient with traders.	Condition of cotton average. Yield of autumn crops below normal.	Standing crops average.
12	Miánwáli ..	1·08 at Sadr ... 0·04 at Bhakkar. 1·25 at Isa Khel.	1. Green fodder procurable. 2. (a) Sufficient. (b) Nammal Canal flowing; supply sufficient. 3. Fair.	Wheat, 3½ ... Barley, 5½. Gram, 4¾. Bajra, 5¼. Jowar, 6½. Prices above scarcity rates. Stocks of food-grains insufficient.	Condition of cotton good.	Standing gram and barley good on irrigated and average on unirrigated area. Sowings continue on irrigated area.
13	Lyallpur ..	0·23 at Toba Tek Singh. 0·07 at Samundri.	1. Green fodder sufficient. 2. (a) Sufficient. (b) Canals flowing satisfactorily. 3. Generally good.	Wheat, 3¾ ... Gram, 4¾. Prices above scarcity rates. Stocks of food-grains insufficient.	Picking of cotton and pressing of sugarcane continue. Yield normal, except of American cotton which is below normal.	Standing crops good.
14	Multan ...	0·17 at Sadr ... 0·12 at Shujabad. 0·13 at Khanewál.	1. Green fodder available. 2. (b) Sidhnai Canal flowing by rotation, supply short. Bari Doab Canal flowing regularly.	Wheat, 3¾ Barley, 6. Gram, 4¾. Jowar, 6¼. Bajra, 5½. Maize, 6¼. Prices above scarcity rates. Stocks of food-grains insufficient.	Picking of cotton, pressing of sugarcane and harvesting of sesamum and pulses continue. Yield below normal.	Rain was useful for standing crops which are in average condition.

GENERAL REMARKS.

Light rain fell in parts of nearly all the reporting districts. It was useful for standing crops, but more rain is badly needed. Picking of cotton and pressing of sugarcane in progress. Yield below normal to normal. Sowings of spring crops nearly completed. Area sown normal. Condition of wheat and other standing crops is generally good on irrigated and average on unirrigated area. Cattle are healthy. Green fodder and water sufficient. Stocks of food-grains generally insufficient. Prices are generally stationary and above scarcity rates. Prices of wheat:—Ráwalpindi 3½, Lahore and Lyallpur 3¾, Ambála and Ferozepore 4 seers per rupee.

Winter disturbances appeared much earlier than usual in the Punjab; two of these which followed in quick succession caused between the 14th and 19th central districts got comparatively much less than the others. Multán had 1·15" against a normal of 0·03", Hissár 2·21" against a normal of 0·13" usual generally in the second fortnight; the departures from normal averaged 10° or more in the east and north Punjab from the 17th to the 20th, the 10th and 16th, and inclined to be high in the south-west Punjab between the 11th and 18th.

There was a decrease of 2,749 in the number of births registered during the month under report as compared with the correspon

In regard to the number of deaths registered there was an increase of 27,359 when compared with the figures for the corresponding month of

There were 875 deaths (including 25 in large towns with a population of 20,000 or upwards) recorded from cholera

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 10th December 1921, there were 1,219 births registered in the 37 large municipal towns (641 males and 578 females), giving a birth-rate of 54 *per mille* of population, and 785 deaths were registered (379 males and 406 females), giving a death-rate of 35 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 32 against 29 in the corresponding week of the previous year ; Amritsar 22 against 30 and Multán 37 against 37.

Of the 17 deaths from small-pox, 13 were registered in Multán, 2 in Siálkot and 1 each in Lahore and Amritsar. There were 67 deaths reported from plague in Ráwalpindi and 1 in Wazírábad.

Sanitary Commissioner's Office,
Lahore :
The 20th December 1921.

No. 52 LAHORE, FRIDAY, DECEMBER 30, 1921.

PART I.

STATISTICAL.

Weather, Health and Crop Report for week ending 8 A.M., Monday, the 26th December 1921.

[Fourteen out of 28 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
1	Hissar ...	0·14 at Sadr ... 0·28 at Sirsa. 0·26 at Fatehábád.	1. Fodder insufficient; chari available. 2. (b) Water in perennial canals sufficient. 3. Good.	Wheat, 4½ ... Gram, 5. Jowar, 7. Bajra, 6. Barley, 6½. Prices generally at or above scarcity rates.	Standing sugarcane and cotton good. Picking of cotton and pressing of sugarcane continue. Yield normal.	Rain badly wanted. Condition of irrigated wheat, gram, barley and oilseeds good and of unirrigated average.
2	Rohtak ...	...	1. Sufficient ... 2. (a) Do. 3. Generally good.	Wheat, 4 ... Gram, 5. Barley, 7. Jowar, 8. Bajra, 6½. Prices generally at or above scarcity rates. Stocks of food-grains sufficient.	Condition of irrigated sugarcane average. Pressing of sugarcane continues. Yield normal.	Rain badly wanted. Condition of wheat, gram, barley and oilseeds average.

1893 PGG

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for — (a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of — Autumn.	Prospects of — Spring.
3	Gurgaon ...	0·02 at Sadr ... 0·12 at Firozpur. 0·20 at Palwal. 0·07 at Rewári.	1. Sufficient ... 2. (a) Do. (b) Canal flowing; supply sufficient. 3. Generally good.	Wheat, 4 to 4½ ... Barley, 5¾ to 7. Gram, 4¾ to 5½. Bajra, 5½ to 6½. Jowar, 6 to 8½. Maize, 6 to 8. Prices generally at or above scarcity rates. Stocks of food-grains sufficient with traders.	Cotton is being picked and sugarcane being pressed. Yield normal.	More rain wanted. Wheat, barley and gram in good condition. Sowings completed. Area sown normal.
4	Ambála ...	0·21 at Kharar ... 0·37 at Rúpar. 0·41 at Kasauli.	1. Sufficient ... 2. (a) Do. (b) Western Jumna Canal flowing, water adequate. 3. Generally good.	Wheat, 4 ... Gram, 5. Barley, 6⅝ Maize, 6⅝. Bajra, 6¼. Prices generally above scarcity rates. Stocks of food-grains sufficient.	Condition of sugarcane and irrigated cotton normal, and of unirrigated cotton below normal. Picking of cotton and pressing of sugarcane in progress. Yield of cotton below normal and of sugarcane normal.	Rain badly wanted. Standing crops good on irrigated and normal on unirrigated area.
5	Jullundur ...	0·47 at Sadr ... 0·34 at Nakodar. 0·12 at Phillaur. 0·16 at Nawashahr.	1. Scarce, chari available. 2. (a) Sufficient 3. Generally good.	Wheat, 4 ... Gram, 4. Maize, 6½. Barley, 4. Prices generally above scarcity rates. Stocks of food-grains sufficient.	Picking of cotton nearly finished. Pressing of sugarcane continues. Yield normal.	Rain was useful for standing crops, but more is badly needed. Standing irrigated crops good and unirrigated average.
6	Ferozepore ...	0·31 at Sadr ... 0·11 at Moga. 0·11 at Zíra. 0·10 at Muktsar. 0·22 at Fázilka. 0·19 at Abohar.	1. Scarce ... 2. (a) Sufficient. (b) Sirhind Canal flowing satisfactorily. 3. Fair.	Wheat, 4 ... Gram, 4½. Barley, 6. Prices above scarcity rates. Stocks of food-grains insufficient with traders.	Standing crops average ...	Condition of wheat, gram, barley and sarshaf average.
7	Lahore ...	0·35 at Sadr ... 0·11 at Chúnián. 0·50 at Kasúr.	1. Green fodder sufficient. 2. (a) Sufficient. (b) Perennial canals flowing by turns; supply sufficient. 3. Average.	Wheat, 3¾ ... Gram, 4¾ Prices above scarcity rates. Stocks of food-grains insufficient.	Condition of sugarcane and cotton average. Picking of cotton and pressing of sugarcane in progress. Yield of cotton normal and of sugarcane good.	Rain was useful for standing crops. Wheat and other standing crops good on irrigated and average on unirrigated area. Toria is being harvested. Yield expected to be good. Sowings of wheat and other spring crops continue and are above normal.
8	Amritsar ...	0·21 at Sadr ... 0·22 at Tarn Táran 0·08 at Ajnála.	1. Green fodder sufficient. 2. (b) Canals flowing by rotation; supply sufficient. 3. Generally good.	Wheat, 4 ... Barley, 6½. Gram, 4⅝. Maize, 6 Jowar, 6. Bajra, 5½. Prices above scarcity rates. Stocks of food-grains sufficient with traders.	Picking of cotton and pressing of sugarcane in progress. Yield below normal.	Standing irrigated crops good and unirrigated average. Fodder crops being sown. Area sown normal.
9	Siálkot ...	0·73 at Sadr ... 0·30 at Zaffarwál. 0·23 at Pasrúr. 0·22 at Daska.	1. Bhusa scarce, green fodder available; sugarcane also being used as fodder. 2. (a) Sufficient. (b) Canal closed. 3. Good.	Wheat, 3¾ to 4 ... Maize, 5½ to 6¾. Barley, 6 to 6½. Gram, 4½. Prices above scarcity rates. Stocks of food-grains sufficient with traders.	Condition of cotton average, and of sugarcane good on irrigated and average on unirrigated area. Yield of cotton and sugarcane normal.	Condition of wheat, gram and barley good. Yield of toria expected to be normal. Sowings completed and are above normal.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply for—(a) Drinking. (b) Canal irrigation. 3. Condition of cattle.	Retail prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
10	Shahpur ...	1·41 at Sadr ... 1·20 at Bhalwal. 2·20 at Shahpur. 2·50 at Khusháb.	1. Green fodder sufficient. 2. (a) Sufficient. (b) Lower Jhelum Canal closed. 3. Fair.	Wheat, 3¾ ... Gram, 4½. Bajra, 5½. Maize, 5½. Prices above scarcity rates. Stocks of food-grains generally sufficient.	Condition of sugarcane good and of cotton poor. Picking of cotton and pressing of sugarcane in progress. Yield of sugarcane normal and cotton poor.	Rain was useful. Standing wheat, gram and toria in good condition. Harvesting of toria commenced. Expected yield normal.
11	Ráwalpindi ...	2·77 at Sadr ... 2·24 at Kahúta 2·10 at Gujar Khan 5·81 at Murree.	1. Sufficient .. 2. (a) Do. 3. Good.	Wheat, 3½ ... Barley, 6¾. Gram, 4½. Jowar, 5½. Bajra, 5½. Prices generally at or above scarcity rates. Stocks of food-grains sufficient with traders.	Condition of cotton average. Yield of autumn crops below normal.	Standing crops average.
12	Miánwáli ..	2·53 at Sadr ... 2·79 at Bhakkar. 1·37 at Isa Khel.	1. Green fodder procurable. 2 (a) Sufficient. (b) Nammal Canal closed, Kurram canal flowing; supply sufficient. 3. Fair.	Wheat, 3½ ... Barley, 5½. Gram, 4½. Bajra, 5½. Jowar, 6½. Prices above scarcity rates. Stocks of food-grains quite insufficient.	Condition of cotton good ...	Standing crops good on irrigated and average on unirrigated area. Sowings finished.
13	Lyallpur ..	0·40 at Sadr ... 0·76 at Toba Tek Singh. 0·42 at Samundri. 0·35 at Jaránwála.	1. Dry fodder scarce, green fodder sufficient. 2. (a) Sufficient. (b) Canals flowing satisfactorily. 3. Generally good.	Wheat, 3¾ ... Gram, 4¾. Prices above scarcity rates. Stocks of food-grains insufficient.	Picking of cotton and pressing of sugarcane continue. Yield normal, except of American cotton, which is below normal.	Standing crops good.
14	Multán ...	1·31 at Sadr ... 1·66 at Shujabad. 0·78 at Lodhrán. 0·28 at Mailsi 1·38 at Kabírwála. 1·31 at Khánewál.	1. Green fodder sufficient. 2. (b) Canal dry.	Wheat, 3¾ .. Barley, 6. Gram, 4¾. Jowar, 6½. Bajra, 5½. Maize, 6½. Prices above scarcity rates. Stocks of food-grains insufficient.	Picking of cotton and pressing of sugarcane in progress. Yield below normal.	Rain was useful for standing crops which are in average condition. Sowings completed.

GENERAL REMARKS.

LIGHT rain fell in nearly all the reporting districts and was useful. More rain is wanted. Picking of cotton and pressing of sugarcane continue. Yield below normal to normal. Sowings of spring crops completed. Area sown normal to above normal. Wheat and other standing spring crops are generally good on irrigated and average on unirrigated area. Toria being reaped in some districts. Expected yield normal. Cattle are healthy. Green fodder and water sufficient. Stocks of food-grains generally insufficient. Prices are generally stationary and above scarcity rates. Prices of wheat:—Ráwalpindi 3½, Lahore and Lyallpur 3¾, Ambála and Ferozepore 4 seers per rupee.

ZAMAN MEHDI KHAN,

Director of Land Records, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 17th December 1921, there were 1,016 births registered in the 33 large municipal towns (540 males and 476 females), giving a birth-rate of 48 *per mille* of population, and 651 deaths were registered (333 males and [illegible] females), giving a death-rate of 31 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Lahore 29 against 37 in the corresponding week of the previous year; Amritsar 24 against 34 and Multán 34 against 36.

There were 44 deaths reported from plague in Ráwalpindi, 2 in Jhelum and 1 in Siálkot. Of the 18 deaths from small-pox, 13 were registered in Multán, 2 each in Hoshiárpur and Amritsar and 1 in Siálkot.

MAULA BAKHSH, Head Assistant,

No. 2 LAHORE, FRIDAY, JANUARY 21, 1921.

PART II.

GENERAL.

REVIEW OF THE ACCOUNTS AND ADMINISTRATION OF MUNICIPALITIES IN THE PUNJAB FOR THE YEAR 1919-20.

Proceedings of His Honour the Lieutenant-Governor of the Punjab in the Boards and Committees (Committees) Department, No. 30060, dated 31st December 1920.

READ—

The Annual Municipal Administration Reports for the year 1919-20.

PART I.

1. The year under report saw no addition to the number of Municipalities, which remained at 101. The total of notified areas, however, increased from 103 to 105 ; three new notified areas were created, namely, Pindi Baha-ud-Din, Ambala Civil Station and Sheikhupura ; while the notified area of Dharmsala was amalgamated with the Municipality The Commissioner of Lahore remarks that it will probably be advisable, in the near future, to promote the Hafizabad and Narowal Notified Areas to the status of Municipalities in consequence of their growing prosperity.

2107 PGG

The only Municipality in which the elective system was newly introduced was Thanesar. The elections are reported to have been keenly contested, four out of six vacancies being contested and 64 per cent. of voters going to the poll.

Full Municipal Elections under the new rules were held at Rohtak, Sonepat, Palwal and Firozpur-Jhirka in the Ambala Division, and at Montgomery in the Multan Division. His Honour notes, with regret, that there was no improvement in the conduct of the elections at Rohtak; the contests were keen, but marked as before by corruption. One successful candidate was convicted of malpractices by the Commissioner and forbidden to stand for any Municipal election for the next ten years. It is hoped that this sentence will have a salutary effect on future elections. In Sonepat no poll was taken, all the old members being re-elected unopposed. No details are given of the elections in Palwal and Firozpur-Jhirka. In Montgomery four seats out of eight were contested, but there was no keenness. Ten seats fell vacant in the Hoshiarpur Municipality, and of these eight were keenly contested. Much activity is reported in the preparation of the voters' lists in Rawalpindi, and it is to be regretted that in this case also the Commissioner has to report bribery and corruption on an extensive scale.

Elections were due to be held in the year under report in Gujranwala, but the disturbances of April 1919 intervened, and it was found necessary to fill up the vacancies temporarily by nomination. Affairs having now resumed a more normal aspect the elections will be held in due form in the present year.

2. The number of meetings held by committees exceeded the prescribed minimum in all Municipalities, and only fell below that standard in the case of a few notified areas in which either the business was insufficient to warrant a larger number or circumstances were abnormal during a period of the year owing to the disturbances; the small number of meetings at Hafizabad, Qila Didar Singh, Pindi Bhattian, and Akalgarh are all ascribed to this latter reason. For the deficiency at Rajanpur a somewhat unsatisfactory excuse is made of the President's frequent absence on tour. The absence of officials on tour is also made the excuse for poor attendance in some of the committees in the Karnal District (in Shahabad the percentage is as low as 15 per cent.) and in Kasur it is reported that it is difficult to collect a quorum when it is known that the official President will not be present. Attendance in the Lahore Division was elsewhere satisfactory, except at Wazirabad, where there were special reasons for the absence of some of the members. As many as nine meetings of the Rawalpindi Committee were adjourned for want of a quorum, and a larger number were adjourned for the same reason at Bhiwani. The attendance in the Jampur and Dajal Committees in the Multan Division were very inadequate, a fact which is attributed to the absence of members from the town, or their inability to attend for private reasons.

3. The general attitude of members in regard to their responsibilities shows, on the whole, an improvement, and there are few committees which are reported as conspicuously lacking in public spirit, or as swayed entirely by personal interest and party faction. It is regrettable that these latter considerations still seem to have a preponderating influence in Rohtak, Nurmahal, Wazirabad, Sangla, and Jhang. In most other committees the reports show distinct signs of an awakening sense of civic responsibility. The Commissioner of Jullundur considers that the policy of the withdrawal of official control has undoubtedly increased interest in Municipal affairs and has created a desire among citizens generally to become members of committees. In Ambala Division there are said to be still few real workers, most being content to depend on official suggestion. One reason given for this is that the complicated Account Code and departmental rules militate against much interest being

shown by the poorly-educated majority of members. The Murree Committee is commended for a real sense of responsibility and a genuine desire for improvement, not dependent merely on official suggestion; and the smaller committee of Gojra is also held up as a model for its energy and public spirit, but in the latter case it is evident that much is due to its Chairman.

4. The manner in which Municipal Committees have carried out their statutory functions is generally reported to be satisfactory. The work of sub-committees shows in many cases a marked improvement, the Finance and Education sub-committees in Lahore and the Finance, Works, and Health sub-committees in Amritsar being singled out for special commendation by the Commissioner. There is a tendency, however, on the part of some sub-committees, notably in Dera Ghazi Khan, to delegate their functions unduly to individual members. Thanesar and Shahabad committees are reported to have little control over their executive and clerical establishment, a fact which is partly attributed to the non-employment of paid secretaries. Jhelum does not appear to have made any improvement in this respect, and it is to be regretted that a very unsatisfactory state of affairs was brought to light in the office of the Dera Ghazi Khan Committee, which resulted in the resignation of the Secretary.

Many committees are making conscientious efforts to deal with over-crowding. Lahore has taken steps to acquire land and house property in five localities with a view to relieve congestion, and the Rohtak Committee have also proposed to acquire a plot of land with the same object. Similar measures are being taken by Ambala, Jagadhri, Sadhaura, Gurgaon, and Shahpur. Lahore and Amritsar both submitted schemes for an Improvement Trust, but, as Government is considering legislation on this subject, these schemes have been temporarily held over.

A considerable number of local bodies have already applied, or announce their intention of applying for the extension of the adulteration of Food Act to the areas under their control, but nothing can be done until rules have been framed under the Act by Government. The subject is engaging the attention of the Sanitary Commissioner and rules will be passed as soon as his proposals have been received and considered. In the Jullundur Municipality whose bye-laws for the control of the milk supply had received the sanction of Government, popular agitation has prevented their being brought into force. All committees claim to have made efforts to improve the sanitation of their towns, but much still remains to be done. Comprehensive drainage schemes are in various stages of advancement in Jullundur, Ludhiana, Multan, Sialkot, Gujranwala, Lalamusa, Jhang, Maghiana and Sonepat, and altogether the year has been marked by considerable progress in this respect. Problems of water-supply are also exercising several committees, notably Rawalpindi, where, as elsewhere, there is great opposition to any system of metering private connections, although enquiries conducted show that some 18,000 gallons are being wasted daily in Rawalpindi from faulty connections; the waste from public stand-pipes is also incalculable. Medical relief in municipalities is in most cases rather severely limited owing to lack of funds. The levying of fees from the well-to-do continues to be unpopular but in the Rawalpindi Division the committees of Pindigheb and Hazro are said to be making definite efforts to realise such fees. A remarkable increase in attention to medical institutions is reported in the case of Jhang, whose expenditure on this object has risen from Rs. 15,262 to Rs. 1,51,916. Measures taken include the appointment of a Lady Assistant Surgeon, and in this direction there is plainly a great need for improvement. The infant mortality in Rawalpindi during the year was no less than 284 per thousand, and in Lahore also was about 230, figures which tell their own tale of the conditions in which children and mothers are

compelled to live and the crying need for greater medical attention. Education has received a full share of attention, particularly in Lahore and Multan; the latter Committee proposed to introduce free Primary education in schools maintained by the Committee and was also the first Municipality in the Province to draw up a complete scheme of compulsory education, which has been duly sanctioned by Government and will shortly come into force.

5. The year under report has seen the withdrawal of official Presidents and the election of non-officials in the Karnal, Hoshiarpur, Jullundur, and Gurdaspur Municipalities. It is unnecessary to repeat that this gradual substitution of non-official control is the settled policy of Government and will continue to be carried out to the full as opportunity occurs.

PART II.—TAXATION.

6. The total receipts from taxation during the year amounted to Rs. 59,18,354. A complete comparison cannot be made with last year's figures owing to the destruction of Amritsar's Municipal records for that period. Excluding Amritsar the figures are Rs. 52,80,208, as against Rs. 49,11,581. The incidence per head of population rose from Rs. 3-5-6 to Rs. 3-10-3, octroi receipts amounted to Rs. 53,11,134, an increase of Rs. 10,16,538; while realisations from terminal tax totalled Rs. 49,049. The marked increase in octroi receipts is everywhere attributed to the continued rise in prices of commodities on which an *ad valorem* duty is charged, but good harvests are also advanced as a reason in some areas. The decrease of Rs. 15,443 and Rs. 7,267 in receipts from terminal tax in Fazilka and Muktsar is apparent only, being due to collections made by the Railway not being credited to Municipal funds before the close of the year.

7. The year may be said to have been remarkable for a considerable movement in favour of the establishment of a terminal tax in place of octroi. Its institution was sanctioned in the Municipalities of Montgomery and Pathankot and the Notified Areas of Abohar, Jahanian, Khanewal, Mian Channu, Chichawatni and Patti, but among committees which have submitted proposals or are said to have the matter under consideration may be mentioned Ambala, Ferozepore, Jullundur, Ludhiana, Lahore, Amritsar, Sialkot, Multan, and Jhelum. Rawalpindi, on the contrary, is reported to have shelved the proposal. A terminal tax has certain obvious advantages over octroi, but at the same time it will be for the advantage of all committees to give careful attention to the considerations suggested on this subject in last year's Municipal review, and not to adopt the change with too great precipitation. Gujranwala again shows results which may almost be called disastrous, and a careful revision of the schedule is being made. The receipts for the whole year under report amounted to Rs. 30,630 only, whereas previously octroi yielded as much as Rs. 22,280 in three months. The Committee are finding it difficult to defeat traders who evade the tax by unloading their goods at neighbouring stations.

Other taxes present no special features. Muktsar has imposed a tax on sales of gram and oil-seeds effected through brokers, and a few other municipalities have obtained sanction for the levy of house-tax or profession tax. The Commissioner of Rawalpindi calls attention to the good results obtained by the Murree Entrance Toll, and suggests that other hill Municipalities would do well to imitate it.

PART III.—ACCOUNTS.

8. The total income of municipalities during the year under review was Rs. 1,06,29,131,—a figure which has never been reached before. As already explained in paragraph 6 above, a comparison with the last year's figures

will not be of much use, as figures for the Amritsar Municipal Committee for the year 1918-19 are not available. The incidence of taxation in the year was Rs. 3-10-3 per head. The increase under the head "Octroi" has already been mentioned, but improvement is noticed under several other heads. Rents of lands, houses, Serais, &c., amounted to Rs. 4,62,510 as compared with Rs. 3,56,433 in 1917-18. Fees from educational institutions rose to Rs. 1,87,921 and Government contributions increased by more than 1⅓ lakhs to Rs. 9,81,806.

Total expenditure for the year amounted to Rs. 97,07,157. The cost of collection of taxes was Rs. 5,62,605 which shows an increase of more than a lakh over the figure for 1917-18. The expenditure on public instruction rose to Rs. 11,04,064. A sum of Rs. 9,45,504 was spent on hospitals and dispensaries and Rs. 7,13,796 on roads. The total expenditure under head "Public Health and Convenience" amounted to Rs. 52,04,627.

The Accountant-General's annual report on the funds of Municipalities and Notified Areas is printed as an appendix to the report. Where there is any discrepancy in figures those published in the present report, which have been checked with the latest information, may be considered correct.

PART IV.—General.

9. A satisfactory number of municipalities in the Province are taking steps to carry out comprehensive schemes of drainage and water-supply, most of which have been long held up under conditions produced by the war. The Water-works at Rewari should now be working, but it is reported that there are still many difficulties to be faced before a regular and constant supply will be available. Karnal, Rohtak and Sonepat also have drainage schemes pending, and Government has given a grant of Rs. 65,800 to Ambala for the project of a pumping station at Sarangpore, which is badly needed. In the Jullundur Division Hoshiarpur has put in hand a drainage scheme involving an outlay of Rs. 2 lakhs, while Jullundur proposes to spend about Rs. 11 lakhs on schemes of drainage and water-works. The plans and estimates for several important schemes at Amritsar were destroyed in April 1919, and have not yet been replaced. Sialkot, Gujranwala, Jhang, Maghiana, and Muktsar are other municipalities where comprehensive drainage schemes are pending. The drainage and water-supply schemes at Multan are at present at a standstill owing to alternative schemes which have been put forward and require examination. Electric supply is engaging the attention of Lyallpur, Multan, Sialkot and Gujranwala, and Lahore is considering the introduction of an Electric Tramway Service but has as yet reached no definite decision on the subject. Lahore has also paid attention to methods of beautifying the Municipality by means of tree-planting and grass plots.

10. These projects naturally involve the holding of large balances by the municipalities concerned, and in consequence the closing balances of many committees is in excess of what is ordinarily advisable. Unexpended Government grants and earmarked accumulations are in almost all cases the explanation of these balances. There are few committees which closed the year with balances below the prescribed minimum; they include Firozpur-Jhirka, Rahon, Patti, and Dinga. No reason is given for the first-named; Rahon is still struggling against old deficits and hopes to improve its position by revising the octroi schedule; Patti's deficiency was due to the loss of three months' income from terminal tax, on account of delay in its enforcement; while the failure of the Haisiyat tax is said to have been the cause in Dinga. In the latter case Government has recently sanctioned the imposition of octroi as a tentative measure, and it is hoped that this will be found to improve the situation.

11. The outstanding event of the year was, of course, the disturbances of April 1919, and the enforcement of Martial Law in the following months, which naturally threw out of gear the Municipal machinery in the towns most affected, Lahore, Amritsar, and Gujranwala. Amritsar, as mentioned above, suffered the loss of its Municipal Office and records.

Fires caused some destruction, notably in Sialkot, where the Deputy Commissioner's English office was destroyed in November 1919, and in Rawalpindi, where no less than five fires occurred, one of which resulted in damage to the extent of about Rs. 60,000, while another caused the loss of two lives. There was a somewhat severe outbreak of plague at Multan, which spread to Muzaffargarh, but prompt measures were taken and relief works were carried out by both the Municipal Committee and the local Sewa Samiti.

In consequence of the hardships caused to the poorer classes by the high prices of cloth, fuel, and other necessaries several committees opened and managed shops for the retail sale of standard cloth, firewood and salt, Multan spending nearly Rs. 15,000 on these objects and Rawalpindi some Rs. 25,000.

12. In conclusion His Honour the Lieutenant-Governor wishes to express his acknowledgments to all those non-official members of committees to whose services in the cause of Municipal Administration the Commissioners have called attention in their reports.

ORDER.—Ordered that the copies of the foregoing remarks be forwarded to all Commissioners of Divisions and Deputy Commissioners in the Punjab and the Secretary to Government, Public Works Department, Buildings and Roads Branch, and be submitted to the Government of India in the Education Department.

Ordered, also, that the remarks and a translation of them be published in the *Punjab Government Gazette*, English and Urdu version, respectively, and that copies of the Urdu translation be supplied to Deputy Commissioners for the information of the Municipal Committees.

By order of His Honour the Lieutenant-Governor of the Punjab.

B. T. GIBSON,

Financial Secretary to Government, Punjab.

Appendix A.

PUNJAB.

No. Book 1-2398.

From

F. DUKOFF GORDON, Esq.,

Accountant-General, Punjab,

To

The Hon'ble Mr. J. P. THOMPSON, C.S.I., I.C.S.,

Chief Secretary to Government, Punjab.

Dated Lahore, the 19th August 1920.

Sir,

As required by Article 1384-I of the Civil Account Code, I have the honour to submit a report on the Local Funds in the Punjab for the year 1919-20.

* * * * * * *

MUNICIPAL FUNDS.

There are now in all 103 Municipalities and 98 Notified Areas against 103 and 99, respectively, in 1918-19. The net decrease in the number of Notified Areas is due to the addition of 1 new Notified Area, *viz.*, Sheikhupura in the Sheikhupura District, and the abolition of Lower Dharmsala in the Kangra District and Kila Sobha Singh in the Sialkot District.

19. The total transactions of these funds are shown in the statement below, the transactions of each fund being shown separately in Annexure E. The figures for 1918-19 are also shown for purposes of comparison :—

Name of Fund.	Opening balance.			Receipts.			Total.			Payments.			Closing balance.		
	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.
Municipal Fund ...	28,27,146	9	0	90,73,101	9	5	1,19,00,248	2	5	81,69,420	2	0	37,30,828	0	5
Notified Areas ...	7,49,811	15	9	11,54,605	7	1	19,04,417	6	10	8,33,015	9	11	10,71,401	12	11
Total 1919-20 ...	35,76,958	8	9	1,02,27,707	0	6	1,38,04,665	9	3	90,02,435	11	11	48,02,229	13	4
Total 1918-19 ..	33,59,706	5	2	89,21,257	10	0	1,22,80,963	15	2	87,04,005	6	5	35,76,958	8	9

The receipts and payments for 1919-20 differ from the books by Rs. 13,516-2-7, the balance, however, remains unaffected.

The proportion which the closing balance bears to the expenditure varies considerably in different municipalities and notified areas. Instances of very high balances are the Rewari (Gurgaon), Hoshiarpur, Ludhiana, Muktsar (Ferozepore), Sialkot, Gujranwala, Jhelum, Khushab, Mianwali Multan, Jhang, Dera Ghazi Khan, Montgomery, and Kamalia Municipalities and Dabwali, Kaithal Mandi, Moga, Abohar, Gidderbaha, Pattoki, Sangla, Chuhar Kana, Silanwali, Campbellpur, Mian Channu, Okara, Chichawatni and Gojra Notified Areas. On the other hand there are no less than 5 municipalities where the closing balances are less than the average monthly expenditure, *viz.*, Sirsa (Hissar), Firozpur (Gurgaon), Rahon (Jullundur), Rawalpindi, Dinga, (Gujrat). The position of these municipalities should be strengthened.

20. With the exception of the Lahore and Simla Municipalities all municipalities and notified areas bank with the Government Treasuries.

I have the honour to be,

Sir,

Your most obedient servant,

F. DUKOFF GORDON,

Accountant-General, Punjab.

ANNEXURE E.

Statement showing the opening balances, total receipts, payments and closing balances of the several Municipalities and Notified Areas in the Punjab for the year 1919-20.

REVIEW OF THE ADMINISTRATION REPORT OF THE PUNJAB, PUBLIC WORKS DEPARTMENT, BUILDINGS AND ROADS BRANCH, FOR 1919-20.

Proceedings of His Excellency the Governor of the Punjab in the Public Works Department, Buildings and Roads Branch, No. 98-B., dated the 18th January 1921.

READ—

The Administration Report of the Punjab, Public Works Department, Buildings and Roads Branch, for 1919-20.

REMARKS.—The feature of last year's report was the hardening of prices of all commodities and labour rates at the post-war level and the difficulties owing to shortage of transport and shortage of personnel owing to the non-return of many officers who had been faced with military duty. The year under review witnessed the amelioration of the latter condition only. Rates far from being stable developed a further advance, and difficulties in respect to railway transport due largely to the absorption of rolling stock and the carriage of Bengal coal by rail, which was prior to war carried by sea, became if anything worse owing to the natural industrial expansion and military activities on the North-West Frontier.

2. The expenditure on Provincial works was practically equal with previous maximum in 1913-14 though naturally owing to the very marked increase in prices this figure does not represent the same amount of work carried through. At the same time His Excellency appreciates the fact that the execution of work under the trying conditions brought to light in the report with a frequent analysing of figures of cost for the preparation of every project in place of using standard schedules of prices must have been attended with far more labour than that required for the execution of a larger programme of 1913-14; and there is little room for doubt, therefore, that the year under review has been the most strenuous and difficult in the history of the department.

3. A reference was made in last year's review to the Lahore and Simla building schemes. Owing to lack of funds it has not been possible to make very great progress with these and owing to uncertainty of prices it has not been thought advisable to forward these schemes to the Government of India for consideration. As, however, it now appears to be hopeless to wait for any stabilisation of prices, and as a question of rent to be charged for those buildings which have already been made available in connection with the two schemes must be put upon a proper footing, the matter is being referred to the Government of India for orders.

4. With respect to communications it is satisfactory to note that notwithstanding the shortage in railway transport facilities good progress was made in the restoration up to the proper standard of our Provincial trunk roads. It is to be hoped that the current working season will witness the completion of the Chenab and Pulkhu bridges; those over Tangri and Omlah being already, it is understood, completed. Photographs of the old and new Bhai Khan and Bishendore bridges show very clearly what is being done towards replacing old structures which will most efficiently serve their purpose and which are up to the standard required by a trunk road. A very complete survey project for the construction of the Mandi-Rupar Cart Road has been prepared and is now under consideration of Government. The estimate has been prepared in the light of the experience gained in the construction of the Larji-Mandi Road and on the basis of present prices, while it is only to be expected that the cost will exceed that of the forecast made after reconnaissance some 18 months ago. The cost is now so heavy that the whole scheme is being reconsidered. The value of road communications especially in a case like this where none previously existed cannot be estimated in annas and pies. Though the project is undoubtedly an important one the funds at the disposal of Government are not inexhaustible and it is for consideration whether in the face of other more urgently needed projects Government would be justified in expending the sum required for the construction of this road.

5. His Excellency notices with pleasure the business-like way in which the Communications Board has got to work and the comprehensiveness with which all questions are dealt with by it. It is only too early to expect any fruitful results of the labours of the Board, but these, he has no doubt, will be forthcoming before very long.

6. The two Assistant Engineers for whose services application has been made to the Secretary of State may be expected to arrive in India very shortly, and it is hoped that with their assistance the Sanitary Engineer may be able to make good progress with the many projects awaiting investigation or construction. An experimental tube well near Handesra provided instructive results, but the fate of that in the Empress Gardens, Jullundur, has been most unfortunate. His Excellency understands that all attempts to complete the well have been abandoned and that a fresh boring is going to be made in the site.

7. The Assistant Consulting Architect, whose services were applied for from the Government of India, joined the office of the Consulting Architect to Government in March last, and it is hoped that, with the assistance of Mr. G. E. Francis, considerable progress in the many architectural schemes awaiting development will be made. Owing to the recent return of Mr. Sullivan from long leave it has not been found possible to give more than a brief sketch in connection with the Architectural Section of the Administration Report of the Department for the year under review, but a more detailed report on the various architectural projects of the Province is under preparation for incorporation in the Architectural Report to be compiled by the Government of India in March next.

8. There is a steady increase in the work of the Consulting Architect, and demands for his designs and for his advice on architectural matters are growing more numerous every month. Evidence of the excellence of Mr. Sullivan's architectural treatment is apparent in the many buildings in Lahore and elsewhere which stand out in contrast to the barrack-like edifices with which we had often to be content prior to his assumption of office.

9. The post-war development of electric power schemes expected in last year's review has to a certain extent materialised. Out of 16 applications for licenses however only 2 have been actually granted; 5 being under consideration in the Military Department who are asked to co-operate with the schemes affecting municipalities and cantonments and 7 having been withdrawn. There is little doubt that though considerable difficulty is felt in raising money for such industrial schemes at the moment on rate of interest which can be paid without charging high rates new public utility companies started with prices at their present level are bound to compare unfavourably with those which existed prior to the war. In time these matters will be fully realised by the public who understand that they will have to pay a higher rate for power in new concerns.

10. The department was ably administered during the year under review by Mr. Montgomery, the Chief Engineer and his staff. Among these His Excellency the Governor would specially wish to mention Mr. V. Stainton, Superintending Engineer, 2nd Circle, Mr. Anderton, Assistant Engineer on the Chenab Bridge, Mr. C Salt, Assistant Secretary and Mr. Moss, S. D. O., Simla, whose industry and success in their several branches of work have been specially brought to His Excellency's notice. He is also greatly indebted to Mr. Mitchell, late Under-Secretary to the Department, for his good work in the head-quarter office and as Secretary to the Communications Board.

ORDER.—Ordered that copies of the review be forwarded to all Heads of Departments, Public Works and Civil officers concerned, other Local Governments and Administrations, and be submitted to the Government of India in the Public Works Department.

Also that the review be published in the *Punjab Gazette*.

By order of His Excellency the Governor,

A. S. MONTGOMERY,

Secretary to Government, Punjab,

P. W. D., Buildings and Roads Branch.

PART II.

GENERAL.

REVIEW OF THE ANNUAL REPORT ON THE WORKING OF CO-OPERATIVE SOCIETIES IN THE PUNJAB FOR THE YEAR ENDING 31ST JULY 1920.

Proceedings of the Government of the Punjab (Ministry of Agriculture), No. 1995-R., dated 19th January 1921.

READ—

Letter No. 491—44-L.-2, dated 4th November 1920, from the Junior Secretary to the Financial Commissioners, Punjab, submitting the annual report on the working of Co-operative Societies in the Punjab for the year ending 31st July 1920.

REMARKS.—During the year under review the co-operative movement continued to expand rapidly, and the total number of societies rose from 5,465 to 7,174, while their membership increased from 168,306 to 205,405. In agricultural societies, while credit remains the chief type and object of co-operation, there has been a marked development in supply societies, while other societies have embarked on new and interesting enterprises. Societies were started for arbitration, consolidation of holdings, silt clearance, co-operative irrigation or brick-making, and reclamation of *chos,* among other objects; the success of such experiments should impress more than ever on the rural

2147 PGG

community the economic and social benefits of co-operation. The public is being gradually taught the lesson of self-help and the influence of the village money-lender who is naturally obstructive to any scheme interfering with his trade is slowly being undermined.

2. During the year 11 inspectors were added to the staff and one post of supply inspector was brought under reduction ; so that there are now one honorary and 44 stipendiary inspectors in the Province. The total number of sub-inspectors is 229, of whom 49 are engaged on propaganda and supply work and 24 are working without any remuneration. The Local Government is glad to see that the staff is gaining the confidence of the people in an increasing degree, and that the inspectors are pursuing the study of rural economics with reference to special conditions in their various circles in order to equip themselves for the solution of various problems that may arise in the discharge of their duties. For the training of sub-inspectors and paid or honorary secretaries of societies special classes are being started under the supervision of the newly-sanctioned educational inspector. Of the honorary workers Sardar Sahib Dalip Singh, of the Lyallpur District, deserves special mention for the enthusiasm displayed by him for the last 13 years in the general cause and for his brilliant management of his own village society. The succession of a widow to her husband's office as president of a society in Chak No 102 R. B. is a remarkable incident of the year under review and is a happy augury for the future educational and economic development of the Punjab.

3. The financial position of the Central Banks has improved. Their working capital has increased from 57·7 lakhs to 70·8 lakhs, the reserve fund amounts to 3·25 lakhs as compared with 2·9 lakhs last year, and the paid-up capital shows a slight increase of half-a-lakh to 10·7 lakhs. The concession of a refund to the societies of 75 per cent. of the amount disbursed as money order commission on remittances between the societies and the central financing bodies has resulted in a much more rapid flow of capital ; nearly 8 lakhs were thus remitted during the year under review. The directors of the Lyallpur Central Bank are to be congratulated on their efforts to visit constituent societies and supervise their working. Government will be interested to hear of the progress made in the scheme for the foundation of a provincial bank.

4. The number of Agricultural Credit Societies has risen from 5,087 to 6,614, and it is gratifying to note that in only 4 districts is the number of societies less than 100. The number of members has increased by over 30,000 to 176,763. The prompt payment of shares is insisted on, and the arrears of instalments now amount to only a little over one lakh as compared with 4 lakhs three years ago. The loans advanced to members amounted to Rs. 67·18 lakhs, of which, if the figures collected for a number of societies are typical of the whole volume of transactions, 23·7 per cent. was devoted to the purchase of cattle and 22·8 involving more than 15 lakhs of rupees to the repayment of old debts. These figures throw an interesting light on the question of cattle losses and the cost of replacements and justify the Registrar's endorsement of the efforts being made in the Veterinary Department to improve the breed of cattle and to secure greater immunity from disease. The bye-laws of a large number of societies provide that instalments of shares will be paid only for ten years, after which share money will be returned and profits will remain indivisible for ever. As in most societies ten years old share money was returned during the year under review ; the paid-up share capital shows little increase.

Government agrees with the Financial Commissioners and the Registrar that no attempt should be made to confine different factions or different tribes in the same village to one society, for the maximum degree of homogeneity in membership is the best guarantee of smooth working and avoidance of feuds and dissensions.

5. Non-agricultural societies have increased from 172 to 240. In two years they have more than quintupled. Sixty of them are industrial, 68 are for credit, and 112 for supply. The dyers have started 8 societies, and the weavers' societies have increased from 38 to 49. The Weavers' Central Co-operative Stores were patronised as usual by the North-Western Railway and made a profit of Rs. 6,700 on a turn-over of more than [illegible] lakhs. The towns do not possess that social organization which is a feature of the Punjab villages, and lack of mutual confidence is at present the chief obstacle to the progress of urban supply societies. The social reformer has here got a splendid opportunity for impressing the advantages of combination for mutual help. Government will watch with interest the success of such societies as the Mughalpura Industrial Settlement Supply Society, which has been started among the members of the criminal tribes located at the railway workshops.

6. In paragraph 39 of his report the Registrar has given an interesting account of the large part that co-operation is capable of playing and has begun to play in the consolidation of small holdings. The reduction in one village of the number of fields from 425 to 25 and the increase in their average size from 3 to 35 kanals is a striking testimony to its possibilities. Kilabandi in certain irrigated districts has already demonstrated the economic superiority of a compact block of land over scattered fragments of equal area, but kilabandi as practised by the Revenue Officer has only touched the fringe of the difficulties. A compact block fetches more rent and lends itself more easily to economic irrigation and to treatment by improved methods of agriculture. One owner whose 31 acres divided into 40 fields in 26 different places brought him a rental of only Rs. 6 an acre has now a single compact block of land renting at Rs. 10 per acre. Incidentally litigation which varies directly with the number of fields decreases. The Punjab is proverbially a litigious Province, but as the people have realised that proceedings in a court of law are protracted and expensive they may be expected to welcome a suitable substitute for the settlement of differences. The system of arbitration has been applied to disputes between societies and their members and the award of arbitrators has given no ground for complaint. It is to be hoped that under the tactful guidance of the department co-operators may agree in increasing measure to their individual differences being referred to arbitration instead of by resort to the courts. If this much-desired reform is achieved a large part of the wealth of the Province will be available for productive uses.

7. Cattle Insurance Societies are at present confined with one exception to the Rohtak District, but they are gaining in popularity. They have increased from 8 to 22. In order to save local societes from absolute collapse in the case of outbreaks of epidemic diseases a cattle re-insurance union has been formed. It will receive not more than one-half of the premium income of the affiliated insurance societies and will be responsible for the equivalent proportion of the indemnities which the affiliated societies are liable to pay to their members during the period covered by the premiums. The question of financial support to be given to such re-insurance unions is under the consideration of Government.

8. The year has been one of steady progress under the able guidance of Messrs. Calvert, Darling and Strickland, and the success of the Co-operative Department is in no mean measure due to the sympathy and enthusiasm of

the staff. The Local Government endorses the Registrar's appreciation of the work of the numerous officers and non-official gentlemen without whose help the success so far obtained would not have been possible. He congratulates Mr. Calvert on a most interesting and suggestive report.

ORDER.—Ordered that a copy of the foregoing remarks be published in the *Punjab Gazette* and communicated to the Financial Commissioners, Punjab, and that a copy, with copy of the report, be forwarded to the Government of India in the Revenue and Agricultural Department and to all Local Governments and Administrations for information.

By order of the Punjab Government Ministry of Agriculture.

E. JOSEPH,

Secretary to Government, Punjab,

PART II.

GENERAL.

REVIEW OF THE PROGRESS REPORT OF THE FOREST ADMINISTRATION IN THE PUNJAB, FOR THE YEAR ENDING 30TH JUNE 1920.

Proceedings of the Government of the Punjab in the Forest Department, No. 3770, dated 4th February 1921.

READ—

The progress report of the Forest Administration in the Punjab, for the year ending 30th June 1920, submitted by the Conservator of Forests, Eastern Circle, Punjab, with his letter No. 1723, dated 15th September 1920.

REMARKS.—The area under the charge of the Forest Department at the close of the year was 6,744 square miles or 300 square miles less than in the previous year. The decrease is largely due to the transfer of certain areas in Kangra to district management and to the surrender of 99 square miles in Lahore and Multan for colonization purposes.

2. No new forest settlement was undertaken during the year and little advance was made with the settlements in progress at its commencement. The state of the cadre made it impossible to carry out the demarcation of the high-lying pine and fir forests of the Sutlej valley.

2274 PGG

On the other hand considerable advance has been made with the revision of working plans. The working plan for Shahdara plantation has been sanctioned and plans for the Kulu and Kangra Forests have been completed. The latter plan, however, requires amendment. Schemes for fellings in Bhajji and Tharoch State Forests, for the management of the Civil Forests of Dharmsala and for the browsing of the 53rd Silladar Camel Corps, have been approved. Scarcity of staff has prevented fulfilment of the hope expressed two years ago that the revision of the Chamba and Bashahr plans, which are urgently needed, would be put in hand.

Except in Kulu and the two Rawalpindi divisions, where labour and transport difficulties have been experienced, the provisions of existing working plans have been carried out.

3. The total number of forest offences shows a continued decrease. The number fell from 8,269 to 7,862 in 1919-20. Cases of unauthorised fellings show a decrease of 868 cases, but this is largely due to cases of lopping being now shown under "other offences." Only 5·4 per cent. of the total cases were taken into court as compared with 7·3 per cent. during the triennium ending with the year 1918-19, while the proportion of cases compounded rose from 90 to 93 per cent. The Conservator has not attributed the decrease in the number of forest offences to any particular cause, but it is obviously an index of steady improvement in the relations between the people and the Department. In respect of protection from fire the year was a successful one, the total number of fires being 202 as compared with 250 in the preceding year, the area affected 8,933 acres as compared with 29,952 acres. Only one-fourth of the fires appear to have been caused intentionally.

4. Last year comment was made on the misuse by the people of the Jhelum District of the opening of the forests to grazing. In the year under report the concession was withdrawn. The area open to grazing has been further diminished by the disforestation of areas for colonization in Multan and by the transfer to district manangement of forests in the Kangra Division The present scarcity of fodder may make it again necessary to open considerable areas which are at present closed.

5. The irrigated plantations have been somewhat unfortunate in the past year. Considerable damage was done by late frosts and a number of trees were uprooted by storms. The supply of water in nearly all is inadequate, and for this reason the starting of the Pir Mahal plantation had to be postponed. To the same cause is largely attributable the failure of the entire sowings in the Daphar plantation. The question of the supply of water and the remodelling of distributaries where necessary will be commended to the consideration of the Chief Engineer, Irrigation Department. Scarcity of labour also has handicapped development, but in the case of Chhanga Manga, the difficulty has been met by settling on the plantation one hundred families of the Bauria criminal tribe, while in the Khanewal plantation, in order to accelerate progress, Government has entrusted the work of digging and sowing up trenches to a contractor. In spite of all drawbacks the irrigated plantations are distinctly remunerative and the five recently formed plantations have already brought in a net income of 4½ lakhs.

6. The outturn of the forests—timber, firewood and minor produce—was greater than in the previous year. This is satisfactory, especially in view of the extension of departmental working as in the case of departmental fellings only the net outturn of sawn timber is shown while in the case of private fellings the gross volume of the trees sold is returned.

During the year the Department resumed the exploitation of the Kulu forests on the lapse of the lease held by a private firm. Consequently more than 26 per cent. of the total outturn of timber was extracted by departmental agency as against 22·55 per cent. during the previous year and 12·83 per cent. during the triennium ending with 1918-19.

The respective advantages of working by departmental agency or through private firms have not been finally determined, but if we may judge by the signal success which has been achieved in the working of the Jallo resin factory the Department has little to fear from comparison with private enterprise. The factory shows improvement all round this year. In the total outturn there has been an increase of 24 per cent.; while the proportion of the best quality turpentine extracted per unit of resin has improved, the loss in redistillation has been reduced and the net income has risen by over 1½ lakhs or 65 per cent. The factory now yields a net return of 396 per cent. on the capital invested. This is very satisfactory. The management is alive to the advantage of developing bye-products and a progressive policy is being followed in this direction. The development of the Kangra bamboo forests is another example of departmental enterprise. Experiments are being made with certain Burmese species and methods of protecting the produce from borers are under consideration. At the same time an extended market has been sought and Government departments requiring bamboos are being supplied direct.

7. The total revenue for the year increased from Rs. 24,60,650 to Rs. 40,75,361. This is due among other things to increased departmental activity in the Bashahr and East Rawalpindi Divisions and to larger sales of rosin and turpentine from the Jallo factory. The auction of leases for temporary cultivation in the Chichawatni plantation fetched high prices while the demand for timber and firewood in the Lahore and Multan Divisions was keen and prices favourable. Not least among the factors which have contributed to the increased revenue is the high range of prices obtained throughout the year. The report mentions an extreme instance in which mulberry used for making implements of sport and which sold for 14 annas per cubic foot before the War, on one occasion fetched as much as Rs. 12-8-0 per cubic foot. The gross expenditure rose by about Rs. 6,60,000, mainly as the result of extended departmental working, the cost of the Chhanga Manga tramway, and the increased salaries of officers and subordinate staff of the Department. In paragraph 7 of the review on the Report for the year 1917-18, Government endorsed the Conservator's opinion that the annual surplus may reasonably be expected to reach Rs. 15 lakhs within five years. That expectation has already been fulfilled and the cash surplus has reached the unprecedented figure of Rs. 15,23,318, the previous record being only Rs. 9,34,704, in 1917-18. This result is very gratifying, but it is safe to say that it is insignificant compared with what the forests can produce provided that adequate staff and capable guidance are forthcoming. A scheme to meet these requirements by the appointment of a Utilization Conservator and the entertainment of increased staff has been submitted by the Local Government and orders thereon are anxiously awaited.

8. Owing to the grant of leave, long overdue, to a number of officers, the Department has again been handicapped by a reduced staff, while the development of departmental exploitation has also thrown a heavy burden on those who remained on duty. Scarcity of staff has made it necessary to restore to the Public Works Department the management of canal and roadside trees and plantations. The Department has been further handicapped by the growing difficulty of obtaining labour and transport and it is clear that increasing resort must be made to mechanical means of working and transporting forest produce. In this connection a tour made by one of the Consulting Forest Engineers to the Government of India in the Bashahr and Kulu Divisions has led to the preparation of a number of projects, but they will have to be postponed till the employment of qualified engineers and subordinates. In the meantime efforts are being made to secure the material for steam tramways in the plains and for ropeways in the hills, but considerable delay has been experienced in obtaining delivery. Among the more interesting schemes under consideration is one for the construction of a perma-

nent ropeway from Simla to Bashahr. It is required mainly for the import of foodstuffs for the labour employed in Bashahr, but it should also provide an outlet for timber which cannot be floated and is now wasted. The Conservator anticipates further economic results from this line which will benefit both the people of Bashahr and the inhabitants of Simla.

9. In spite of constant changes in the charges of the two Circles, the administration of the Department has been carried on with marked efficiency and ability. The thanks of Government are due to the officers who held charge of the post of Conservator and to all ranks of the Department for the good work done by them during the year under review.

ORDERED that the foregoing remarks be published in the *Punjab Gazette*, and communicated to the Conservator of Forests, Eastern Circle, Punjab, for information and guidance. Also, that they be forwarded with copies of the report to the Government of India, Department of Revenue and Agriculture (Forests).

By order of His Excellency the Governor-in-Council

GENERAL.

REVIEW OF THE ANNUAL REPORT OF THE DEPARTMENT OF LAND RECORDS FOR THE YEAR 1919-20.

THE following is published for general information :—

No. 6388 (Rev.—Rev.), dated Lahore, 28th February 1921.

From—D. J. BOYD, Esq., I.C.S., Revenue Secretary to Government, Punjab,

To—The Senior Secretary to the Financial Commissioners, Punjab.

I AM directed to acknowledge the receipt of the annual report of the Department of Land Records for the year 1919-20, which was submitted with your letter No. 491-54-E-12, dated the 5th February 1921. I am to request that the report may be submitted on the due date, 15th January, in future.

2. The supply of patwari candidates is sufficient, except in the Hissar District, and as an ample number of applications for the vacancies in Hissar has been received from other districts, there need be no anxiety regarding the recruitment of the patwari staff. Their educational qualifications are not on the average as good as in recent years, but the great improvements recently made in the conditions of service will probably attract men of the right standard.

2445 PGG

An assistant patwari, whose pay varied from Rs. 6 to Rs. 10 before now draws Rs. 15 per mensem, while the salary of a patwari has been raised according to his grade to Rs. 26, Rs. 23 or Rs. 20, the proportion of incumbents in the three grades being 1 : 2 : 2. More liberal rules have been sanctioned for travelling and halting allowances, and facilities have been provided for the grant of leave and the monthly payment of salary It has also been recognized that a residence should be provided for each patwari by Government, and the question of a provident fund is under consideration.

Patwaris have maintained their record for good conduct and efficiency. Wherever agitation existed in their ranks, it was not of a political nature and was based on economic causes.

3. The inadequacy of the pay of Kanungos had long been admitted by Government. An increase in their emoluments has recently been announced, and in place of the existing field allowance, a horse allowance of Rs. 20 per mensem has been sanctioned. *Pari passu* with the increase in the pay of Field Kanungos, who are now graded in 2 grades of Rs. 40 and Rs. 35 per mensem, the pay of Office and District Kanungos has also been raised. The work and conduct of Kanungos during the year has been satisfactory. It is a matter of regret that the supervision of their work should again have been inadequate and that the rules contained in Standing Order No. 13, to which presumably the attention of District Officers was drawn in accordance with paragraph 3 of last year's review, should have remained practically a dead letter. Under modern conditions, in the more important districts at any rate, it may not be easy for Deputy Commissioners to find time for detailed inspections of the work of Kanungos, but they should at least see that their Revenue Assistants perform this duty.

4. The maintenance of the records appears to have received adequate attention except in a few cases to which the Financial Commissioner has directed attention. The only matter that requires comment is the growing practice of using the Patwari's diary and mutation register as a convenient means of recording the conditions of transfers of land and so escaping stamp duty. While this practice indicates a gratifying faith in the land record system, it is hardly one to be encouraged and the Governor in Council agrees with the Financial Conmissioner that no thumb-impressions other than those of lambardars should be taken on mutation sheets and diaries.

5. The year has been a strenuous one for the record agency, as various calls were made on them in connection with the census, cattle enumeration and preparation of electoral rolls. As the Financial Commissioner has elsewhere remarked, the patwari is the handy man of Government, and it falls to his lot to discharge much useful work of a miscellaneous admininistrative nature which deserves and receives the recognition of Government.

Khan Bahadur Sheikh Rahim Bakhsh is now on the eve of retirement. The Governor in Council would record his appreciation of the valuable work performed by him as Director of Land Records.

D. J. BOYD,

Revenue Secretary to Government, Punjab.

PART II.

GENERAL.

REVIEW OF THE ANNUAL REPORT ON THE PUNJAB COLONIES FOR THE YEAR ENDING 30TH SEPTEMBER 1920.

Proceedings of the Governor of the Punjab in Council in the Department of Revenue and Agriculture, No. 7316, dated 8th March 1921.

READ—

Letter No. 251—325-P.-1, dated the 14th February 1921, from the Junior Secretary to the Financial Commissioners, Punjab, submitting the Financial Commissioners' remarks on the Annual Report on the Punjab Colonies for the year ending 30th September 1920.

REMARKS.—Agricultural conditions in the Lower Jhelum Colony in the year under review were favourable. Harvests were good, prices and rents ruled high, and the rates obtained in sales and leases of agricultural land increased. In the towns, too, the rents of houses and shops have risen and record prices have been obtained at auctions of sites. Horse-breeding operations were successful, thanks mainly to the peasant breeder. The Safedposh grantee is reported to take little interest in horse-breeding, and only two out of the five stud farms are really satisfactory.

3514 PGG

About 53,000 acres are available for allotment, but much of this area is not yet irrigable, and a considerable proportion consists of inferior soil. It would appear, therefore, that the prospect of providing in this Colony for grantees disappointed elsewhere is not very satisfactory. Nor have the dry Thal rakhs afforded much relief hitherto even although the area of each grant in this dry tract has been doubled to compensate for the want of irrigation.

The Colony towns are prosperous, but their public funds are not in proportion to the private prosperity of their inhabitants. The remedy is obvious, and, if the townsmen will not help themselves, they cannot expect Government to increase the contribution originally made in order to give the towns a start. The cramped position of Sargodha gives ground for anxiety, and, if necessary, measures should be taken to ensure that the development of the headquarters of a flourishing district shall not be warped and stunted by the accident of its surroundings.

The Co-operative movement has got a good hold in the Colony, and progress has been made with the provision of facilities for education. The state of communications is not satisfactory, and it is to be hoped that the Communications Board may be able to effect some improvement now that its attention is to be drawn to the matter.

2. The Lower Bari Doab Colony is at present the most interesting of all the Punjab colonies, and the report this year has done the subject justice. It portrays the miracle of the transformation of a desert into a fertile garden where wheat and cotton are grown on something like scientific lines, and novel experiments in agriculture, fruit-growing, cattle-rearing, horse-breeding, and the distribution of water are in progress, villages and towns are springing up, roads are being made, and Co-operative methods are spreading.

The main feature in the history of the Colony during the year has been the allotment of grants to military men selected under the orders of the Commander-in-Chief. About half the total area reserved for the Army has now been allotted and many new problems have arisen in consequence. That they will be dealt with in a spirit of sympathy and tactfulness is indicated by the Colonization Officer's experiment of handing over to committees of Indian officers the responsibility for reporting breaches of conditions, thus eliminating the opportunity for vexation and corruption which subordinate Revenue officials enjoyed under the old system. Military grantees, whose social status makes their presence in their original districts advisable, have now been exempted from the condition of residence.

The year was fairly successful from the agricultural point of view, although a hail-storm and late rains went some way to spoil what promised to be a bumper spring harvest. Prices were good, and their effect is seen in the results of the auctions of land which fetched an average of Rs. 593 per acre. The recent slump in the value of cotton will probably check the tendency to excessive cultivation of this crop, which has threatened to become an evil through over-taxing the soil and causing neglect of fodder crops. The Colonization Officer is optimistic with regard to the chances of reclaiming inferior lands, and special inducements are being offered to tenants with this object; but, as the Financial Commissioner has noted, success has not yet been achieved with the "bara" land, of which there is a very large area in the Colony. Colony towns are progressing, but, as in the Lower Jhelum Colony, their financial position is weak and Government grants meant for original works have been wrongly spent upon maintenance. The state of communications is not satisfactory, and the Financial Commissioner has suggested that in future schemes of colonization communications should form an integral part of the project. This recommendation will receive the careful consideration of Government. It is quite clear that a more speedy development of communications in the colonies is essential if their progress is not to be seriously impeded.

Mr. Puckle's work has received handsome acknowledgment from the Commissioner and Financial Commissioner. His report indicates the enthusiasm with which he has taken up his work and gives proof of its success. His commendation of Khan Sahib Rajab Ali, Lala Dharu Lal, and his other assistants is obviously deserved.

3. The Upper Chenab Colony has made some progress, but is far from having reached a satisfactory position. An inferior soil, with irrigation confined to the autumn harvest over a considerable portion of the Colony, has militated against its development. The grantees cultivate rice mainly and then return to their original homes for the spring harvest. The past year, however, gave signs of some improvement. Wells are being constructed, and the colonists are beginning to settle permanently on their grants. As in the other colonies the big grantee has been the least successful in the management of his land. Orders have recently been passed, which should lead to greatly-increased efficiency in irrigation arrangements. Vexatious, though well meant, restrictions on the irrigation of well lands have been removed, and the entire system has been simplified. It is to be hoped that the present year will see further advance in the process of settling down in this Colony.

4. The report on the Upper Jhelum Colony conveys very little idea of its condition and progress beyond the fact that the harvests were good. The next report should be somewhat more illuminating.

5. The report on the Colonies was due with the Local Government on the 1st February, but was not received till the 21st of the month. In future it should be submitted on due date.

ORDER.—Ordered that the above remarks be printed and circulated with the report; also, that they be published in the *Punjab Gazette*, be communicated to the Financial Commissioners, Chief Engineer, Irrigation Works, Punjab, the Agent, North-Western Railway, the Inspector-General of Police, and forwarded to the Government of India, Department of Revenue and Agriculture, with the usual number of copies of the report.

By order of the Governor in Council,

D. J. BOYD,

Revenue Secretary to Government, Punjab.

PART II.

GENERAL.

REVIEW OF THE ANNUAL REPORT ON THE LAND REVENUE ADMINISTRATION OF THE PUNJAB FOR THE YEAR ENDING SEPTEMBER 1920.

Proceedings of the Governor of the Punjab in Council in the Department of Revenue (Revenue) No. 12572, dated 20th April 1921.

READ—

The Annual Report on the Land Revenue Administration of the Punjab for the year ending September 1920 forwarded with letter No. 491-53 M.L., dated 14th March 1921, from the Senior Secretary to the Financial Commissioners, Punjab.

FROM the agricultural point of view the year 1919-20 was distinctly better than its predecessor. The kharif-sown area was 10 per cent. above the normal and only 17 per cent. failed to mature as against a normal of 21 per cent. The monsoon of 1919 started late and ceased early, but while it was present it gave heavy and general rain. The winter rains were fair and canal supplies good. The result of these conflicting factors in rabi 1920 was a total matured area 5 per cent. better than the normal, and the outturn of the various crops was considerably better than the normal. The good harvests combined with restrictions on export produced a fall in prices, but they still ruled very high as compared with the rates prevailing before the war.

184 PGG

2. The demand of fixed land revenue rose from 236·61 to 239·39 lakhs, of which 96·9 per cent. was collected. The amount suspended was only 2·69 lakhs and the total under suspension was reduced from 21·82 lakhs at the beginning of the year to 13·29 lakhs only at its close. In the Gurgaon District practically a lakh had to be suspended owing to damage from floods. The favourable agricultural conditions combined with extensions of canal irrigation and the revision of the Dera Ghazi Khan settlement led to an increase of 22·24 lakhs in the amount of fluctuating land revenue which was collected, the total sum being 155·62 lakhs. "Other land revenue" also increased by nearly 13 lakhs owing mainly to larger purchases of proprietary rights in Government estates in the canal colonies. A noteworthy feature of the year's fiscal history was the grant of 36 new jagirs to non-official gentlemen in recognition of conspicuous public services, rendered especially in connection with the war and the disturbances of 1919.

3. As was to be expected from the improvement in agricultural conditions the collection of the land revenue demand was attended with less resort to coercive processes than in the preceding year. The south-western portion of the province as usual accounted for a large proportion of the coercive processes. This is attributable partly to the habitual unpunctuality of the revenue payers and the scattered nature of the population in that tract. In the Lahore District the urban assessments apparently involve difficulty in the collection of the demand because of the constant transfers of holdings. Some extension has been made in the system of serving through the post processes other than those for the recovery of land revenue, and where it has received a fair trial it appears to have been distinctly successful. In a few districts lack of postal facilities is said to be a stumbling block, but success or failure probably depends on the attention given to the experiment. So far it has not resulted in any reduction in the number of process-servers, but the other advantages attending this system make its more general adoption advisable. The payment of land revenue and other dues through the post office by money order and by means of insured currency notes is gradually increasing in popularity. 19·77 lakhs were paid by the former method and 7·91 lakhs by the latter. In the Rawalpindi District a remittance by currency notes was lost in the post and this misfortune has checked recourse to the practice. The Legislative Council has recently passed a resolution in favour of the abolition of money-order fees in the case of remittances of land revenue and other Government dues and the matter will be referred to the Imperial Government. In order to meet the convenience of revenue payers Government has agreed to permit the payment of land revenue at the head-quarters of another district with the special permission of the Commissioner or Commissioners concerned.

4. Settlement operations were started in the Sirsa Tahsil and in part of the Montgomery District and good progress was made with measurement and the revision of records in spite of interruptions due to the quinquennial cattle census, the preparation of electoral rolls and a certain amount of economic unrest among the patwaris. The work of the Multan Settlement was carried on punctually in spite of similar difficulties. The Ambala Settlement was brought to a close and that of the Dera Ghazi Khan District was practically completed. The Survey Department rendered valuable aid in the riverain of the Sutlej and Chenab rivers and also in the rectangulation of the Thal of the Mianwali, Muzaffargarh and Jhang Districts. Their work in the Thal has been continued by a revenue staff which is engaged in breaking up 100 acre rectangles into smaller ones measuring 10 acres each.

5. The Drainage Board has considered various schemes for the prevention of water-logging, notably in connection with the water-proofing of canal channels. Its activities have been hampered, however, by the fact that it was not possible to appoint a Drainage Engineer before the close of the year. This is

unfortunate as the problem of water-logging caused by canals is proving serious in the Sialkot. Sheikhupura and Gujrat Districts. In the Wazirabad and Hafizabad Tahsils the remedial measures adopted by the Irrigation Department have proved successful and extensive tracts of water-logged land have again come under cultivation.

The recently formed Board of Economic Enquiry has already started investigations into the economic condition of agriculturists, clerks and factory operatives and the question of the size and fragmentation of agricultural holdings. The results promise to be of considerable value, especially in connection with the solution of industrial problems. The Board of Economic Enquiry is further considering the consolidation of holdings by means of exchanges. This has been the subject of interesting experiments made by the Co-operative Department which are discussed in paragraph 6 of the review of the report on the working of Co-operative Societies.

6. From the point of view of canal irrigation the year was very successful. River supplies were good and the inundation canals, with the exception of the Chenab and Indus series in Muzaffargarh, showed a great improvement in area irrigated and in revenue as compared with the preceding year. A few miles of new distributaries on the Lower Bari Doab Canal were opened for irrigation, and the total length of canal channels under control of the Irrigation Department is now 19,562 miles irrigating crops whose annual value is 2½ times the total capital outlay on all the canal systems up to date.

Most of the canals under district management also showed a considerable improvement on the working of the previous year. The Grey Canals in the Ferozepore District were particularly successful, the matured area of the preceding year being more than doubled. Extensive silt clearances and a continuously high river combined to bring about this very satisfactory result. The Namal Canal in the Mianwali District is an experiment, unique in the province, of irrigation by a canal taking out of an artificial lake formed by damming a natural catchment area. Unfortunately the rainfall of the tract is light and capricious and the year 1919-20 proved a bad one, the supplies in the lake sufficing for only half the area watered in the previous year. It is premature to pronounce any final judgment on the chances of similar schemes, but in view of the urgent calls on public finances for more promising projects, the decision to postpone the construction of the Kotki dam in the same district would appear to be wise.

7. The amount advanced for land improvements was Rs. 1,87,000 which is slightly more than last year. This sum was spent mainly on the construction of wells, of which 288 were made with the aid of loans from Government, while 2,526, or nearly nine times as many, were built without Government assistance. The punctuality with which Government loans are realised militates against their popularity, but considering the low rate of interest charged—3¼ per cent.—and the fact that instalments are suspended in bad years, it is fairly clear that the financing of land improvements from private sources, including Co-operative Banks, presents little difficulty to the Punjabi agriculturist.

As was to be expected from the improved agricultural conditions advances under the Agriculturists Loans Act fell from 8·9 lakhs in 1918-19 to 3·1 lakhs in the past year. Little progress was made with the recovery of outstanding debts, however, and the result of the year's working under this Act was a loss of Rs 12,307 to Government. Against this must be set off the gain of Rs. 16,290 on the working of the Land Improvement Loans Act.

8. In the Kangra District 325,132 acres have been transferred from the control of the Forest Department to that of the Deputy Commissioner. In the forests affected by the transfer the villagers had extensive rights which

were hardly consistent with efficient forest conservancy on departmental lines. These forests will now be managed under Deputy Commissioner's orders by Naib-Tahsildars assisted by committees of three members chosen in each zail. It is hoped by this arrangement to secure to the people the free exercise of their rights, and at the same time to ensure their co-operation in the work of conservancy and regeneration.

With regard to the reclamation of the Chos and reafforestation of the Siwaliks, the most notable feature of the year has been the attempt to induce the people of the villages mainly affected to adopt the remedial measures prescribed in the Chos Act voluntarily rather than under the orders of Government. This policy is now being further extended under the advice of Mr. Courthope, Conservator of Forests, whose experience of similar work in the United Provinces is likely to prove of great value in the Punjab. That the Chos Act has produced benefit to the people is apparent from the fact that in the villages where its more stringent provisions are in force the supply of fodder has been more abundant than elsewhere, and the villagers have benefited by its sale. Its working, which has formed the subject of some discussion in the Legislative Council, is now to be the subject of a special enquiry.

9. There has been a slight increase in the area of land sold during the past year, and a considerable increase in the area mortgaged. The area redeemed exceeded that mortgaged by 88,500 acres and the position so far is satisfactory. But, as the Financial Commissioners have remarked, while the total area under usufructuary mortgage is diminishing, the total debt secured shows a progressive increase. Suggested explanations of this phenomenon are given in an interesting discussion in paragraph 29 of the report, and special attention has been recently drawn to it by Mr. Darling, C.S., in an article in the "Indian Journal of Economics" but the problem requires exhaustive investigation and this is to be undertaken by the Board of Economic Enquiry. Usufructuary mortgages made under the Punjab Alienation of Land Act, 1900, should lapse in increasing numbers with effect from the current year, and this factor will effect some reduction in the mortgage-debt which is automatically extinguished with the mortgage, but inasmuch as from two-thirds to three-fourths of the area annually mortgaged is now taken by members of agricultural tribes the effect of the automatic extinction of mortgages held by others will not be very great.

10. The sale price of land in the last four years has been Rs. 227, 252, 184 and 275 per acre, respectively: the mortgage-price has been Rs. 106, 140, 124 and 163. The drop in values last year appears to have been purely temporary. The causes of the growing rise in value are to be investigated by the Economic Board. Doubtless the depreciation of money is one great cause, but it may also be fairly surmised that it is to some extent an index of growing prosperity.

11. Members of agricultural tribes continue to gain ground by the purchase of land and lose by the joint effect of mortgage and redemption. The figures for the past year are not abnormal. Probably one explanation of the position is that agriculturists borrow in order to buy. The annual loss by mortgage, therefore, is no so alarming as at first sight it would appear to be. Again, under the Alienation of Land Act it is exceedingly difficult for non-agriculturists to purchase land while mortgages in certain prescribed forms can be made freely.

The evasion of the Act through a combined bond and lease which is mentioned in paragraph 31 of the report is common throughout the Province. As it can generally be fitted within the four corners of the law it is difficult to deal with, but it is doubtful whether the ill effects of this form of evasion are sufficient to justify the adoption of special measures to check it.

12. Revenue work, judged by statistics, was much the same in volume as in the preceding year, and the only matter calling for comment is the increased resort to the summary procedure provided in the Redemption of Mortgage Act and in section 7 of the Alienation of Land Act. The approach of the constitutional reforms and of the census, the winding up of the Imperial Indian Relief Fund and other work connected with the aftermath of the war, have thrown a considerable burden on the district staff. The Governor in Council would thank all revenue officers for the good work done by them in the past year. He would speciblly acknowledge the unfailing assistance received by Government from the Financial Commissioners under whose administration the efficiency of the Revenue Department has been fully maintained throughout the year.

ORDER.—Ordered that a copy of the above review be forwarded to the Senior Secretary to the Financial Commissioners, Punjab, for information and guidance, also that it be published in the *Punjab Government Gazette* and circulated with the report as usual.

By order of the Governor of the Punjab in Council,

D. J. BOYD,

Revenue Secretary to Government, Punjab.

REVIEW OF THE REPORT OF THE CHEMICAL EXAMINER TO GOVERNMENT, PUNJAB, FOR THE YEAR 1920

Proceedings of the Punjab Government (Ministry of Education), No. 14363-Medl., dated the 6th May 1921.

READ—

A letter from the Inspector-General of Civil Hospitals, Punjab, No. 4791-G., dated the 22nd April 1921, submitting the report of the Chemical Examiner to Government, Punjab, for the year 1920.

REMARKS.—The progressive decrease in the number of cases and articles examined continues. Nine hundred and sixty-five cases were investigated in 1920 as against 1,950 and 1,919 in 1912 and 1913; and 2,817 articles were examined as against 5,619 and 5,902 in the same years. This gradual fall has hitherto been explained by the withdrawal of the work sent by the Military Department: but this would scarcely explain so great a decrease, which is equally marked in every class of work. The matter deserves further examination.

350 PGG

2. Human poisoning cases still supply more than half of the medico legal work. There is no variation in the popularity of the best known poisons. Among drugs, however, there is an indication that chloral hydrate may be taking the place of cocaine.

3. Now that the laboratory has been moved into the new building, it is hoped that it will with further improvements become one of the finest of its kind in India.

4. His Excellency the Governor desires to acknowledge the valuable work of Lieutenant-Colonel Black, as well as of Senior Assistant Surgeon Sayad Muhammad Hussain and Captain Clive Newcomb, I.M.S., who have in turn carried out the duties of Chemical Examiner during Colonel Black's absence on leave, and to endorse the Chemical Examiner's remarks on the work of his staff. His Excellency desires also to record his appreciation of the help given to the Province by Major R. B. Lloyd, I.M.S., Imperial Serologist, Calcutta.

ORDER.—Ordered that a copy of the foregoing remarks be forwarded to the Inspector-General of Civil Hospitals, Punjab, for information.

Ordered, also, that a copy of the report, the Inspector-General of Civil Hospitals' forwarding letter and the foregoing remarks be forwarded to—

(1) the Government of India, Home Department, for information ;

(2) the Registrar, High Court of Judicature at Lahore, for the information of the Hon'ble Judges ;

(3) all Commissioners of Divisions, Deputy Commissioners and Divisional Judges in the Punjab for information ; and

(4) the Inspector-General of Police, Punjab, for information.

By order of the Punjab Government (Ministry of Education)

FAZL-I-HUSAIN,
Minister for Education.

GENERAL.

REVIEW ON THE REPORT ON THE PUNJAB LUNATIC ASYLUM FOR THE TRIENNIUM ENDING 1920.

Proceedings of the Punjab Government (Ministry of Education) in the Home (Medical and Sanitary) Department, No. 262-S., dated 23rd May 1921.

READ—

A letter from the Inspector-General of Civil Hospitals, Punjab, No. 4967-G., dated 27th April 1921, submitting the report on the Punjab Lunatic Asylum for the triennium ending 1920, together with his own note thereon.

Remarks.—The report covers the three years 1918-1919-1920. These years show a further increase in the population of the Asylum, which has been progressive through the triennia since 1900, the year of inauguration. There were then only 465 patients as against 1,248 in 1920. The highest point was touched in 1918 when the total population reached 1,346; the slight decrease since is due to the falling off in military patients since the end of the war.

2. The daily average strength was 863 in 1920, as against 837 in 1917, when overcrowding was already noticed. This has now become serious, but the proposals contained in the last Triennial Report for the construction

of a separate enclosure for criminal insanes has now received administrative approval. Two evils will be met by this expansion of the accommodation and the Government trusts that no time will be lost in carrying out a measure which has now become urgent.

3. The Superintendent justly remarks that the progressive increase in population since 1909 does not point to an increase of insanity throughout the province, but to an increase in the popularity of the Asylum, as the benefits of treatment become more widely known. The Government notes with satisfaction the high percentage of cures effected. A change in popular views is to be anticipated with the growing realization of the function of the Asylum as not mere confinement, but cure. At present the tendency is to bring in only such lunatics as are actively harmful or destructive in their homes, while a knowledge of the restricted accommodation available is apt to influence public authorities in the same direction. There is consequently a not inconsiderable insane population at large which receives no treatment at all.

4. The problem of obtaining a suitable attendant staff has not yet been solved, in spite of an increase in pay. The report does not indicate how far Sir Michael O'Dwyer's suggestion that a continued effort to secure the services of retired army men has proved impracticable. With the increase in accommodation when the new enclosure is built, this difficulty is not likely to diminish.

5. The figures for sickness and mortality were naturally affected by the influenza epidemics of 1918 and the succeeding years. There has also been a rise in the cases due to tubercle.

6. During the whole of the period Major J. F. Fleming, I.M.D., held charge as Superintendent of the Asylum. Government wishes to record its appreciation of the remarkable way in which Major Fleming carried on his onerous duties single-handed without any relaxation of the high standard of efficiency already shown, until his health broke down under the strain. The good services rendered by the European warder and the Head Clerk are also noted. As in previous years the Franciscan Sisters have worked among the female patients with a devotion and self-denial which mere thanks are inadequate to repay. An especial tribute is due to Sister Agnes, whose health has also broken down under the strain.

ORDER.—Ordered that a copy of the report and of the foregoing remarks be forwarded to the Government of India, Home Department, for information, also that the review be published in the *Punjab Gazette*.

Ordered also that a copy of the foregoing remarks be forwarded to the Inspector-General of Civil Hospitals, Punjab, for information.

By order of the Government (Ministry of Education).

PART II.

GENERAL.

REVIEW OF THE REPORT ON THE ADMINISTRATION OF THE JAILS IN THE PUNJAB DURING THE YEAR 1920.

Proceedings of His Excellency the Governor of the Punjab in Council in the Home (Jails) Department, No. 674-S., dated 3rd June 1921.

READ—

The report on the administration of the Jails in the Punjab during the year 1920.

REMARKS.—The average jail population during the year under review was 13,998 as compared with 15,231 during 1919. No special reason need be sought for this large decrease as the figures for 1919 were swelled by the disturbances in that year. Leaving the Borstal Institution out of consideration the average population of the Central Jails exceeded the accommodation by 1,087 and the need of a fifth Central Jail is very urgent. Its construction has been delayed owing to the fact that it formed part of a larger scheme in which the interests of several departments were involved, but in view of the recommendations of the Indian Jails Committee the project cannot be postponed further. The sub-jails at Jhelum, Miánwáli, Rohtak and Jhang, were restored to the status of district jails, but the jail at Ambála has still to be kept as a sub-jail on account of scarcity of water.

521 PGG

2. The Dháriwál Camp Jail was closed after an existence of over 3 years, but juvenile labour continued to be supplied to the Woollen Mills at Dháriwál by granting conditional release to the inmates of the Borstal Institution The proposal of the Inspector-General of Prisons to credit a sum of Re. 0-2-0 *per diem* to the private account of each prisoner working at the Khewra Salt Depôt has been sanctioned. Such a scheme, besides interesting the labourer in his work, is calculated to provide him with a sum of money at the time of his discharge from prison and to afford him means to seek an honest livelihood. It is a matter of regret that no society in the Punjab has yet been organised to take care of prisoners after release or to help them in earning an honest living. The subject has been under consideration during the year but so far the suggestions made by district officials at the instance of Government have met with little or no response.

3. The Borstal Institution has been engaging the special attention of Government. The system of conditional release was tried in 182 cases as compared with 3 in 1919, and it is gratifying to know that only two lads abused the trust reposed in them. The new grade system described in paragraph 13 of the report provides substantial concessions to inmates bearing good conduct. The staff has been greatly strengthened and several kinds of industries have been introduced. But the institution is largely overcrowded, and the Governor in Council agrees with the Inspector-General that a population of over 1,400 is far too big to deal with adequately.

The Inspector-General has again found it necessary to comment on the number of convicts under the age of 16 years who have been sent to prison for short terms. He has also drawn attention to the practice of committing to prison in default of payment of fine without first giving the convict a chance to pay. His remarks on these subjects will be brought to the notice of the High Court.

4. The year under review was the healthiest on record in the history of Punjab Jails, the death rate being only 15·25 per *mille*. The department deserves to be congratulated on the results achieved by its efforts in combating disease. Hospital admissions totalled 10,401 as against 14,876 in the previous year, while the average number of sick *per diem* fell from 549 to 461. The number of admissions due to malarial fever decreased from 4,585 to 2,744. The reduction is attributed to the dryness of the year and the special measures taken to remove mosquito breeding areas. The special jail for tuberculosis at Shahpur is continuing to do good work, and it is hoped that medical officers in charge of other jails will help in decreasing the mortality from this disease by removing patients at an early stage to the special jail.

5. It is a matter of regret that the old standard of conduct and discipline in the jails was not maintained. A serious disturbance took place in the Lahore Central Jail between Sikhs and other Punjabis on one side and Pathans on the other, while a serious attempt to escape was made by a gang of 47 men at the Multán Central Jail. Assaults were made on various jail officials at Lahore and Montgomery Central Jails and at Lyallpur and Ludhiána District Jails. There were seven escapes during the year, of which only two occurred from inside the walls. The conduct of convict officials was on the whole satisfactory, although no less than 13 of them took part in the riot in the Lahore Central Jail. The general lack of discipline is attributable to the spirit of unrest prevalent everywhere, but in the Lahore Central Jail it was accentuated by laxity of control.

6. Since the close of the year under review the Governor in Council has allowed certain concessions to prisoners of various denominations in the matter of dress, food, etc., so as to satisfy their religious scruples. Sikh prisoners have been permitted to wear a turban and a *kachh* and to keep a

miniature *kirpan.* Muhammadans have been permitted to wear trousers, while Hindus are allowed to retain their sacred thread.

7. The expenditure during the year increased from Rs. 17,14,313 to Rs. 18,27,603, and the cost per head from Rs. 113-9-6 to Rs. 132-3-11 chiefly owing to rise in prices. The daily cost of feeding each prisoner rose from Re. 0-2-1 to Re. 0-2·3, but the population being less than last year, the dietary charges show a reduction of Rs. 30,674. Expenditure on sanitary measures has slightly increased, but the increase is justified by the remarkable improvement in the health of the jail population. The total cash profits rose from Rs. 4,02,017 in 1919 to Rs. 4,21,627 chiefly owing to the disposal of large stocks of printed forms and castor oil in the Lahore Central Jail. A profit of Rs. 17,307 was obtained from farming operations. The farm at Miánwáli has financially proved a success, while the agricultural demonstration farm attached to the Montgomery Central Jail serves a useful purpose by imparting instruction to prisoners in improved methods of agriculture.

8. The office of Inspector-General was held by Major (now Lt.-Colonel) R. M. Dalziel, I. M. S. until the 28th April 1920, when he went on leave, and was succeeded by Major W. T. Finlayson, D. S. O., I. M. S. Lt.-Col. Ward, C. B. E., returned from leave on the 19th October 1920, and relieved Major Finlayson. The thanks of Government are due to Lt.-Colonel Ward for an interesting and suggestive report and to all officers whose names have been brought to notice for helping in the administration of the department during the year under review.

Order.—Ordered that a copy of the report and of the review be forwarded to the Government of India in the Home Department and that a copy of the review be forwarded to the Registrar, Higt Court of Judicature at Lahore, for the information of the Hon'ble Judges, and to the Inspector-General of Prisons, Punjab, for information and guidance.

Ordered also that the review be published in the *Punjab Gazette* and circulated with the report as usual.

By Order of the Governor in Council.

D. J. BOYD,

Revenue Secretary to Government, Punjab.

REVIEW OF THE AUDIT AND APPROPRIATION REPORT ON THE ACCOUNTS OF THE PUNJAB FOR THE YEAR 1919-20.

Proceedings of the Governor in Council in the Finance Department, No. 17022-F., dated 13th June 1921.

READ—

The Audit and Appropriation Report on the Accounts of the Punjab for the year 1919-20.

Remarks.—The year under review was a year of very high prices, and the grant of additional allowances to nearly all Government servants employed in non-gazetted establishments was necessary, involving a greater amount of work on the part of all Government officers concerned in the disbursement and accounting of public money. High prices also brought about much extra work in the Public Works Departments offices owing to the necessity of revising estimates and arranging for additional funds. The total Provincial Expenditure increased from Rs. 5,37,33,000 to Rs. 6,31,16,000, and the expenditure debited to Service Heads audited during the year from Rs. 4,14,53,000 to Rs. 4,65,40,000. It is, therefore, a matter for congratulation that the Audit and Appropria-

tion Report shows results which are in many respects an improvement over previous years. The percentage of expenditure representing serious deviations from rules to total expenditure has decreased from 5·1 to 4·1, and the total amount brought under objection has decreased considerably. Although the balance of unsettled objections on 31st July 1920 related to items totalling Rs. 3,53,000 as compared with Rs. 3,07,000 in the previous year, the increase is not serious in view of the large increase in expenditure.

2. It is obvious, however, that much improvement could still be effected, if some of the frequently occurring irregularities were avoided, as they easily could be, by the exercise of a little care. It should be easy to give more attention to such simple matters as seeing that hours of journey are recorded in travelling allowance bills, that vouchers concerned with deposits are stamped "Paid" or "Paid by transfer," that vouchers are submitted with contingent bills, that detailed bills are promptly submitted, and that totals are correct. Laxity on the part of supervising officers encourages laxity in the subordinate staff and paves the way to peculation, and, what is also very important, attention to these matters means the reduction of correspondence between controlling and audit officers.

3. In the Public Works Department the Irrigation Branch system of submitting monthly to Government a list of works started without estimates appears to have had a most salutary effect as the expenditure objected to under this head has decreased from Rs. 2,42,000 to Rs. 80,000, all of which was adjusted in the year under report. The total amount placed under objection in this branch also shows a reduction to Rs. 11,38,000 (representing 8½ per cent. of total expenditure) of which all but Rs. 1,74,000 was adjusted by the end of July 1920. The Buildings and Roads Branch shows the extraordinarily high total of Rs. 54,50,000 brought under objection during the year, being 47 per cent. of the total expenditure and nearly twice the corresponding total of the previous year. It is so far satisfactory, however, that the balance unadjusted by the end of July was nearly 6 lakhs less than at the same period in the preceding year. It is to be hoped that this indicates an increasing improvement, where there is obviously much room for improvement. Expenditure on works started without an estimate increased from Rs. 11,35,000 to Rs. 21,34,000, and the Chief Engineer should consider whether the Irrigation Branch system of submitting monthly lists of such works to Government should not be adopted.

4. It is gratifying to observe that the Buildings and Roads Branch of the Public Works Department shows a reduction in expenditure taking place in the last month of the financial year. The Irrigation Branch expenditure in March, however, increased from 18 per cent. to 22½ per cent. The Governor in Council attaches great importance to the March expenditure being reduced to the minimum compatible with efficiency. Heavy March expenditure tends to promote many serious irregularities, particularly with regard to measurements and stock, as the numerous instances quoted from time to time in the various annual audit and appropriation reports of the Comptroller-General show.

ORDER.—Ordered that a copy of the foregoing remarks be submitted to the Government of India, Finance Department, and forwarded to the Comptroller-General, the Accountant-General, Punjab, and all Heads of Departments in the Punjab, also that the remarks be published in the *Punjab Government Gazette* for general information.

By order of the Governor in Council,

B. T. GIBSON,

Financial Secretary to Government, Punjab.

PART II.

GENERAL.

REVIEW OF THE REPORT ON THE SANITARY ADMINISTRATION OF THE PUNJAB FOR THE YEAR 1920.

Proceedings of the Punjab Government (Ministry of Education) in the Home (Medl. & Sany.) Department, No. 984-S., dated 10th June 1921.

READ :—

The Report on the Sanitary Administration of the Punjab for the year 1920.

REMARKS.—During 1920 rainfall over the Province as a whole was either normal or defective during most months, a considerable excess being recorded only in May; the monsoon failed after the first week in August. The resultant health conditions were similar to those of 1919 and the year was a healthy one. The prices of food-grains continued high, particularly in Rawalpindi, though a good rabi and restricted exports produced some improvements. Wages continued to rise.

2. The birth rate was 42·9, and was identical with the rate for the previous quinquennium. The greatest increase was in the new and prosperous colony district of Montgomery, the greatest decrease in Karnal. The rate for towns was 44·5, Multan showing a large decrease owing to local conditions. The Punjab still holds the premier position among the provinces for birth rate,

555 PGG

while it stands low on the list of death rates. The death rate was 28·6, a very small increase on the previous year, but considerably below the last quinquennial average. Simla shows the very high rate of 55·3; in that district, and in those of Ambala and Gurdaspur, respiratory diseases play a large part. The unusual feature of the figures for seasonal mortality was the rise in the second quarter, due to simultaneous epidemics of relapsing fever and measles. Usually the last quarter is the worst.

3. The mortality from cholera touched the lowest point since 1899 and except for the third quarter, the Province remained practically free from the disease. The figures 138 in 1920 as against 8,561 in 1919 speak for themselves, and the little cholera the Punjab had was probably imported by pilgrims returning from Hardwar. The small-pox epidemic continued from the previous year, but showed a decrease: rigorous vaccination measures helped the natural wane of the disease, and a comparison with the last epidemic in 1912-13 shows the improvement in methods for tackling the disease at the outset.

4. The year 1920 was a mild plague year, the weak monsoon and the plague department co-operating to make conditions unfavourable for the flea to breed. Gujranwala and Attock suffered 1,565 deaths each from plague Rawalpindi and Jhelum continued to be badly infected, but several districts in the centre of the Province remained uninfected throughout the year. Dissemination centres are now receiving particular attention, and rat destruction is being carried out on a larger scale. Government wishes to record its thanks to the officers to whose efforts the improvement is due.

5. Deaths shown as due to "fever" during the year amount to 371,432-this is an increase over the year before of 6,387. The rate is 19·2 *per mille*, which is considerably below the quinquennial average of 29·2; it is, as usual, higher in the rural areas than in the urban. Influenza re-appeared in a few districts, particularly Karnal, Simla and Muzaffargarh. Relapsing Fever also broke out, and has been made the subject of a special study, as it appears to be fairly widespread throughout the east of the Province. An Assistant Surgeon was deputed to enquire into the outbreak in the Simla Hills, and another put on special duty to deal with the matter generally. Government hopes that the steps taken to make the main features of the disease and the methods of prevention more widely known will enable the Sanitary and Medical Departments to cope with it.

6. An important feature of the year has been the attention paid to rural health measures. Village sanitation is still checked by the antipathy of the villagers themselves to the necessary measures, though it is hoped that the rules recently sanctioned will be adopted by a number of villages in the districts of Lyallpur and Muzaffargarh. District medical officers of health are being appointed, but there is great difficulty in obtaining trained men. In this connection Government attaches great importance to the newly formed Faculty of Public Health, and the facilities which it is hoped to provide for the training of students.

7. Mr. Astbury continued to hold charge of the post of Sanitary Engineer, while Rai Sahib Diwan Amar Nath officiated for him during six months' leave. Government wishes to commend the work of both these gentlemen during the year under review. Their work as regards sewage has lain chiefly in Lahore where important schemes have been carried out in connection with the new Legislative Council Buildings. Government trusts that the work of regrading the storm drains at Amritsar will soon be taken in hand. The chief water supply problems are at Ambala and Simla; Government notes with regret that there is a lack of efficient management by the Municipal Committee of the former town. In Simla the Guma project is still under consideration.

8. Lieutenant-Colonel Forster remained in charge of the office of Sanitary Commissioner during 1920. Government cannot commend too highly the keenness with which he has continued to apply his great abilities to the new and difficult problems arising in his department as old remedies are seen to be inadequate and new fields of research and development are surveyed. Thanks are also due to Lieutenant-Colonel Mackenzie who has been in charge of the Vaccine Institute, and to Dr. K. A. Rahman whose jurisdiction extended over the whole Province, a charge too big for one man to hold, but held efficiently by him.

ORDER.—Ordered that a copy of the foregoing remarks be circulated with the report and be furnished with the usual number of copies of the report to the Government of India; also that the review be published in the *Punjab Government Gazette.*

Ordered also that a copy be furnished to the Sanitary Commissioner, Punjab, for information.

GENERAL.

REVIEW OF THE REPORT ON THE ADMINISTRATION OF THE ESTATES UNDER THE COURT OF WARDS IN THE PUNJAB FOR THE YEAR ENDING 30TH SEPTEMBER 1920.

THE following is published for general information :—

No. 1847-S. (Rev.—Genl.), dated Simla, 30th June 1921.

From—D. J. BOYD, Esquire, I.C.S., Revenue Secretary to Government, Punjab,

To—The Secretary to Government of India, Department of Revenue and Agriculture.

I AM directed to submit, for the information of the Government of India, a copy of the report on the administration of the estates under the Court of Wards in the Punjab for the year ending 30th September 1920.

2. Statement VI of the report shows only one estate as released from management during the year, but from the first paragraph of the report it appears that the number of estates under the superintendence of the Court of Wards fell during the year from 45 to 44, 3 estates having been released and 2 brought under management. At the time of assumption of charge by the Court of Wards in 1904 the estate of Khan Bahadur Makhdum Hasan Bakhsh

730 PGG

was in debt to the extent of over $1\frac{3}{4}$ lakhs, but the debt was all cleared off by 1920 when the estate was released. The success of the administration of the other two estates released from management is proved by the fact that not only have their debts been cleared off but their total assets show an enormous increase.

3. The main problems in the management of estates are the repayment of debt and the utilization of balances. Satisfactory progress has been made in regard to the former question, especially in the case of the estates of Sidhowal and Arnauli, but the same cannot be said of the employment of balances. The high cost of immoveable property continues to put a check upon the purchase of land and house property, and although the amount invested in Government securities is more than double that invested last year, cash balances lying idle in the Treasury exceed 10 lakhs. The new Government loans should provide a profitable means of utilizing these balances. The amounts advanced to tenants and expended on permanent improvements show a regrettable decrease as compared with the previous year, and there is considerable ground for the complaint made in the report that the management of estates exhibits a certain want of enterprise and a lack of new ideas. With regard to the permanent improvements undertaken it is to be noted that the experience of the Court of Wards with tube-wells has not been encouraging, those at Guru Harsahai and Jalalabad having been out of action during the year. On the other hand, the various farms run by different estates, such as the sheep farm at Jalalabad, the Poultry and Dhanni Cattle Farms, the dry farm at Kot and the Colony farm are all doing well and provide a useful demonstration in new methods to agriculturists who have not the capital required for experiments. In another direction also the Court of Wards has shown a useful example as its relations with its tenants are generally excellent save in one or two cases where exceptional circumstances exist. The Financial Commissioner has quoted the case of the Kot estate where advances without interest are made to tenants for short periods, and it is understood that a similar policy is followed in other estates also.

4. While due care has been bestowed on the management of estates the responsibility of the Court of Wards for the proper upbringing and education of wards has been faithfully discharged. The best possible arrangements are made for their education and efforts are made to train them in the management of their estates after they have left school. The Kot Sardar is at Sandhurst and the reports of his work there and of his relations with the other cadets are favourable.

5. The total liabilities at the end of the year amounted to Rs. 9,29,240 or only a little over 2 per cent. of the total assets. The successful management of the Court of Wards is also shown by the fact that the total cost of management, though varying in different estates, is on the whole only 11 per cent. of the total ordinary income. The Governor in Council is glad to recognise the good work done by the managers referred to in paragraph 9 of the report, and his thanks are due to the Financial Commissioners for their efficient discharge of the responsibilities which devolve upon the Court of Wards and to all who have contributed to the success achieved by the Court.

6. There are one or two inaccuracies in the figures contained in the statements appended to the report. These will be corrected.

I have the honour to be,

SIR,

Your most obedient servant,

D. J. BOYD,

Revenue Secretary to Government, Punjab.

No. 15 LAHORE, FRIDAY, JULY 22, 1921.

PART II.

GENERAL.

REVIEW OF THE NOTES ON VACCINATION IN THE PUNJAB FOR THE YEAR 1920-21.

THE following is published for general information :—

No. 2513-S. (Home—Sany.), dated Simla, 13th July 1921.

From—E. JOSEPH, ESQ., I.C.S., Secretary to Government, Punjab, Transferred Departments,

To—The Secretary to the Government of India, Department of Education.

I AM directed by the Punjab Government (Ministry of Education), to forward, for the information of the Government of India, a copy of the Sanitary Commissioner's notes on vaccination in the Punjab for the year 1920-21.

2. There was no change in the numbers of the superior ranks of the Department, but the number of vaccinators employed by local bodies fell from 295 to 285, temporary vaccinators specially employed last year to deal with the outbreak of small-pox being brought under reduction. The pay of the estabilshment has been generally revised, and this, with the raising of

the sale price of vaccine from annas 12 to rupee one per tube of one gramme, has brought the cost of the Department up from Rs. 1,63,182 in the previous year to Rs. 2,09,402 in 1920-21. The average cost of a successful vaccination shows a corresponding increase of one anna, and now works out at Re. 0-4-5.

3. The total number of operations performed was 916,000, the decrease of 12,822, being a natural result of the lesser prevalence of small-pox. There was an increase in the work of the district staff; more primary vaccinations were performed, and fewer re-vaccinations. The work of the special staff shows a falling off, the number of re-vaccinations being only two-thirds of that of the previous year. Non-co-operation is mentioned as one of the causes for the decrease in re-vaccinations. The percentage of success in primary vaccinations throughout the province was 96·40, and in re-vaccinations 72·60. Both these figures are lower than in the previous year.

4. In the cities to which the Vaccination Act has been extended the percentage of successful vaccinations on children available rose to 86; in the cities in which it is not in force the percentage sank to 48.

5. The output of vaccine in one gramme tubes from the Punjab Vaccine Institute fell by nearly four thousand to 45,687 tubes. This was due to decreased demands from outside the Province.

E. JOSEPH,

Secretary to Government, Punjab,

Transferred Departments.

NOTES ON THE ANNUAL STATEMENTS OF THE DISPENSARIES AND CHARITABLE INSTITUTIONS OF THE PUNJAB FOR THE YEAR 1920.

Proceedings of the Punjab Government (Ministry of Education) in the Home (Medl. & Sany.) Department No. 2549-S., dated 14th July 1921.

READ—

Notes on the annual statements of the Dispensaries and Charitable Institutions of the Punjab for the year 1920.

REMARKS.—The number of dispensaries open on the last day of the year 1920 was 540, being an increase of no less than 36 over that with which the year started. This advance is greater than that achieved during the triennium 1917-1919 (26), and just three times as great as the increase that occurred in the three years ending with 1916. It was, as the Inspector-General of Civil Hospitals has pointed out, only the shortage of medical subordinates which prevented the number of new dispensaries opened from being larger still.

2. The total number of in-patients treated was 96,783, an increase of 3,642 and the number of beds maintained was also greater. Out-patients decreased by 224,907. The drop, which was less than 5 per cent., is, like that of 1918, attributable to climatic conditions, which were unfavourable in 1920 to malaria in epidemic form. Not only with regard to malaria, but cholera and small-pox, also, the year was a healthy one, as has already been noted by the Sanitary Commissioner, Punjab, in his report. Influenza, however, was still prevalent, though not in epidemic form, and helped to swell the figures for infectious diseases and diseases of the respiratory system. Rheumatism and tubercular diseases also showed an increase. Surgical operations numbered 250,568, which is less than in 1919, but more than in 1918 and about the same number as were performed in 1917. No reason for the decrease is given; but it may be due to the fact that the province is still short of its full complement of I.M.S. Civil Surgeons. Assistant Surgeon Rai Bahadur Mathra Das, as for many years, holds the provincial record; he performed 13,001 operations in

1920, including 8,102 for cataract. The Punjab Government (Ministry of Education) wishes to thank the Civil Surgeons, Assistant Surgeons and Sub-Assistant Surgeons brought to notice by the Inspector-General of Civil Hospitals, for the creditable work performed by them.

3. Receipts amounted to Rs. 26,14,244, and expenditure to Rs. 24,15,570 ; the cash balance of roughly two lakhs left over is slightly less than last year. Establishment charges show a marked rise from Rs. 8,68,200 to Rs. 10,01,370 ; and a further rise is in prospect with the revision of pay in the medical services, which has been increased all round during the year under review. New rates of pay for compounders have been announced since Colonel MacWatt wrote his note, and the service regraded. The high price of drugs still forms a heavy burden on the Medical Budget.

4. The dearth of trained female workers has been the subject of complaint for several years past, and still continues. Government hopes that the scholarships recently sanctioned will induce more non-Christian students to come forward for the Punjab Medical School for Women, Ludhiana, but there are at present few signs of the disappearance of that apathy which has hitherto proved the stumbling block. The training of dais, however, makes satisfactory progress. A recent report on Simla showed that the majority of the confinements in the bazaar are now attended by trained dais, and a public demand is one of the best guarantees of the increased supply of this class of midwife.

5. Lieutenant-Colonel D. M. Davidson, C.I.E., officiated as Inspector-General of Civil Hospitals, until Colonel MacWatt's return on June 30th, 1920. The decoration conferred upon him on New Year's Day is a well deserved reward for his long and meritorious service. Government wishes to thank Colonel MacWatt for the energy and ability with which he has continued to conduct the administration of his Department during a period of expansion which must throw an exceptional strain on himself and his subordinates. It also notes with regret the loss of Lieutenants-Colonel Coleman, Buist, H. Smith and G. Mc. I. C. Smith, all able officers, who have proceeded on leave preparatory to retirement during the year.

ORDER.—Ordered that a copy of the foregoing review be forwarded to the Inspector-General of Civil Hospitals, for information.

Ordered also that the Review be published in the *Punjab Gazette* and be circulated with the Report, the usual number of copies of the Review and the Report being communicated to the Government of India, Department of Education.

By order of the Government (Ministry of Education).

FAZL-I-HUSAIN,
Minister for Education.

E. JOSEPH,
Secretary to Government, Punjab,
Transferred Departments.

REVIEW OF THE ANNUAL REPORT ON THE LAWRENCE GARDENS, LAHORE, FOR THE YEAR 1920-21.

THE following is published for general information :—

No. 720—204—1., dated Lahore, 21st September 1911.

From—C. M. KING, Esquire, C.I.E., I.C.S., Financial Commissioner (Development), Secretary to Government, Punjab,

To—The President, Lawrence Gardens Committee, Lahore.

I AM directed by the Punjab Government (Ministry of Agriculture) to acknowledge receipt of your letter No. 2577, dated the 4th July 1921, forwarding the annual report on the Lawrence Gardens, Lahore, for the year 1920-21, and to say that the improvements in the gardens reflect credit on Mr. Hardie, who carried on single-handed the duties appertaining to two appointments and was not relieved of the extra charge till the 18th March 1921.

C. M. KING,

Financial Commissioner (Development),

Secretary to Government, Punjab.

GENERAL.

REVIEW OF THE REPORT ON THE ADMINISTRATION OF THE POLICE IN THE PUNJAB FOR THE YEAR 1920.

Proceedings of His Excellency the Governor in Council of the Punjab in the Home (Police) Department, No. 24651-Police, dated 12th October 1921.

READ—

The report on the Administration of the Police in the Punjab for the year 1920.

Remarks.—The total number of true cognizable cases of all kinds dealt with by the Police during the year was 38,544 against 38,002 in the previous year. Leaving out petty crime the total is 29,572 cases for the year under report as against 28,959 in 1919. Crime has been steadily increasing since the year 1917 when, owing to war conditions, it reached its lowest water mark. The figures, however, for the year under report are considerably less than the figures for the years immediately before the war. This is true not only of the total of all classes of cognizable crimes, but also of the totals of dacoities, burglaries and cattle thefts. In these circumstances it appears impossible to accept the opinion of the Deputy Inspector-General, Central Range, that a large proportion of increased criminality is ascribable to a supposed "psychological change in the temperament of the people" and another large proportion to the non-investigation of certain classes of cases by the Police.

1823 PGG

2. The increase in cases for the year 1919 over that for 1918 was attributed in last year's review to the following causes :—The removal of restraint imposed by four years of war and the unsettling effect of demobilisation ; poor rabi and kharif crops and the high prices of the necessaries of life ; and acute political unrest culminating in the disturbances of April 1919. Several of these causes still continued to affect the life of the Province during the past year. Demobilisation of the forces raised in the war was still in progress. Prices of food-stuffs continued high and though the rabi crop was a very fair one the kharif was bad. The monsoon failed and there was little sowing for the kharif of 1920 or ploughing for the rabi of 1921 and enforced idleness for the agriculturist or want of employment for the labourer naturally resulted in an increase in criminal offences over the preceding year. It is very doubtful whether the political situation and the non-co-operation movement produced any marked effect outside of the towns, but they may have contributed slightly to the increase in some areas.

3. The increase in crime during the year is mainly confined to the Central Range and within that range to the districts of Sheikhupura, Amritsar, Montgomery, Gujránwála, Lyallpur and Lahore. In this range the increase is attributed to economic conditions, to general unrest and weakening of regard for authority and to the non-investigation of cases by the Police. The latter factor is not accepted as a cause by the Inspector-General of Police and the Governor in Council is inclined to agree with him. This subject will be treated later on in this review. In the colony districts included in this range, where conditions both social and economic have been changed and the very composition of the population altered by the new settlements, the rapid increase in wealth and the enterprising character of the population have no doubt contributed to the increase in crime.

4. There were 468 true cases of rioting in the province last year as compared with 453 in 1919. Seeing that the figures for the latter year included cases that arose during the disturbances of 1919 this increase is noteworthy. Murders too increased from 509 in 1919 to 550 and for this increase no special reason is assigned. Burglaries rose from 13,239 to 14,179. On the other hand there was a decrease in dacoities from 130 to 80. The most striking feature in this class of serious crime is the number of offences committed by gangs of men from across the border, who owing to famine in their own districts resorted to raiding the Attock and Miánwáli Districts, chiefly the Isa Khel Tahsil of the latter. Measures were taken last year to deal with raiders in the latter tahsil by the strengthening of the Police force and a further increase has recently been sanctioned. Arrangements have also recently been made for the extension of telephones to link up Isa Khel with the police posts of the neighbouring frontier districts, while in the Bannu District a chain of posts has been established with the object of intercepting raiders on their return journey. The formation of a new police post at Paniala in the Dera Ismail Khan District is also under consideration with the same object. A notable feature in the dacoities reported during the year is the extent to which fire-arms have been carried and used in the commission of the crimes and the brutal murders that have been committed and the serious bodily injuries that have been inflicted by the dacoits on their victims. The Governor in Council is pleased to note that in several cases the villagers in co-operation with the Police turned out to pursue bands of these raiders.

5. The Inspector-General of Police complains in his report of the inadequate sentences in certain cases of dacoity owing to their being tried by magistrates with the limited powers given by section 3 of the Criminal Procedure Code, the maximum sentence awardable by such magistrates being the minimum allowed for the crime of dacoity armed with a deadly weapon under section 397 of the Indian Penal Code. This question is at present under the consideration of Government.

6. There is a marked increase of nearly 370 cases, from 1,761 to 2,130 true cases, in cattle theft. Special measures were taken to deal with this class of crime on the Amritsar and Lahore Sutlej riverain border while success attended the river patrolling and other measures taken on the Indus, Chenab and Sutlej. There was some decrease in the number of cases of kidnapping or abduction. There was a small increase of 142 cases in cases of nuisance under class VI and a small decrease in cases under Local and Special laws, while cases under the Criminal Tribes Act fell from 631 to 520.

7. The percentages of cases convicted to true cases reported, of cases convicted to cases tried and of persons convicted to persons tried (28, 70 and 54, respectively) show a considerable falling-off on the figures for the previous year (31, 72 and 57, respectively). The falling-off has been in every class of case except in dacoities in which there has been some improvement. The Inspector-General of Police is of opinion that both the Police force and the courts are understaffed and that the falling-off is due to great pressure of work. The inadequacy of the prosecuting staff is also considered by him to be a contributory cause not in the case of more serious crimes but in the ordinary though not petty cases. This matter should be referred separately by the Inspector-General of Police. The duration of cases in the court is about the same as for the year 1919. The Commissioner of Multán in criticising delays in the Lyallpur District thinks that decision might be expedited if the magistrate framed the charge after hearing one or two witnesses and so the delay caused by the recall of witnesses for cross-examinations by the accused were obviated.

8. It is satisfactory to note that there has been a decrease in the number of cases referred to the Police for inquiry under section 202 of the Criminal Procedure Code. Reference was made in last year's review to the inauguration of a new policy in the matter of withholding police investigation under section 157 (*b*) of the Criminal Procedure Code, where the offences are trivial and when the complainants express a desire that there should be no investigation. In the year under report the number of all cases left uninvestigated under these instructions was 18 per cent. and of burglaries 35 per cent. There is a considerable difference of opinion among Police officers as to the effect of these orders on crime. Some hold that an abstention from investigation leads to an increase in crime, others are unable to accept this view. There is this much at any rate to be said for the policy that it enables the heavily worked Police staff to devote their attention to the investigation of the more serious classes of crime. The subject should be watched and rediscussed in dealing with the report of next year.

9. The number of persons called upon to furnish security for a bad livelihood shows a small decrease of 104 persons from 2,230 to 2,126. As in the last year security was more freely taken in the Western and Central Ranges than in the Eastern Range. In some areas a difficulty is experienced in inducing persons to give evidence against known bad characters probably owing to fear of reprisals at the hands of the criminal, a fear that may not be altogether unfounded. The number of persons restricted under the Habitual Offenders' Act rose from 1,471 to 2,048. The Act is said to be proving specially useful in dealing with cattle thieves and is approved in most districts. The Inspector-General of Police, however, is of opinion that probably the most effective method we could find to control crime would be a large increase in the number of Police Stations. There seems little doubt that in some districts the Police have to deal with an amount of work greater than they can satisfactorily cope with, and if an increase in their number or in the number of police stations can be shown to be necessary, financial difficulties will not be allowed to stand in the way. The attention of Magistrates is directed to the remarks of the Inspector-General that the control of the criminal would undoubtedly be more efficient if a greater care was exercised in accepting sureties under the preventive sections.

10. During the year under review the police kept under surveillance 12,970 men of a doubtful character. They dealt with 30,972 history sheets of registered bad characters and suspects, 19,532 rolls relating to the movement of bad characters, and 13,031 information sheets regarding the arrivals in police station jurisdictions and the movement therein of suspicious travellers. The Inspector-General of Police is of opinion that the order which directed that chowkidars were to visit police stations once a fortnight in place of once a week and the order preventing patrolling of villages has done much to weaken the surveillance over criminals and he would like to see the village chowkidar entirely under the Superintendent of Police. This is a misinterpretation of the functions of that official, who is a village servant assisting the lambardar to discharge his police functions within the village.

11. There were only 10 punitive police posts in existence at the end of the year, those which were posted owing to the disturbances of April 1919 having been withdrawn early in the year.

12. The Frontier Crimes Regulation is said to have worked well in the Dera Gházi Khan District. The whole question of this Regulation is about to be examined by a Committee appointed by Government in accordance with a resolution of the Punjab Legislative Council.

13. A sum of over twenty thousand rupees was distributed in rewards amongst the public as compared with over forty thousand during the previous year, when special circumstances existed. Amongst those rewarded there were 140 zaildars, 431 lambardars, 394 chowkidars and 1,505 other persons.

14. Revised rates of pay for the non-gazetted ranks of the force were introduced with effect from the 1st of April 1920, and this revision and the extra duty allowances sanctioned for Upper Subordinates resulted in an increase in expenditure of Rs. 16,47,600. There was also an increase in horse and camel allowances, and house-rent allowances were granted to constables. The pay of the clerical establishment of administrative offices was also revised.

15. During the year 225,908 processes were served by the Police in cognizable cases against 213,625 in 1919. In non-cognizable cases the Police were called upon to serve 139,536 processes against 129,667 in the previous year. The marked decrease commented on in the report for 1919 in processes served in non-cognizable cases has unfortunately not been maintained. The total number of persons arrested in magistrates' cases amounted to 38,143 and the number of those convicted was only 5,776. From this it would appear that magistrates issue warrants for the arrest of accused hastily and without proper consideration and the Police have to bear the odium of the unnecessary arrests.

16. The Governor in Council is pleased to observe that the co-operation between the Police of the Punjab and the adjoining Indian States and Provinces has been cordial, and the same remark applies to the relations between the Police and the Magistracy.

17. There has been a decrease in the number of punishments inflicted departmentally and the number of judicial punishments also fell from 149 to 125. Only one case of gross misconduct was reported. More than one district officer remarks on the corruption among Police officers. There is no doubt that a considerable amount of corruption exists in the Police as in other Departments, and that this is a cause of serious weakness to the administration, and the subject will now come under enquiry by the Commission recently appointed by Government to investigate the question of bribery and corruption in the public services.

18. The number of resignations decreased from 824 to 679, and this is no doubt largely attributable to the increase of pay granted to the rank and file of the force. Recruits are readily found in all districts except Simla. All the Upper Subordinates of the Police except one are educated, and in the lower ranks nearly one-third can read and write.

19. Six officers of Police received the King's Police Medal during the year and 9 received honorary titles. Other rewards were granted to 7,238 officers and men.

20. The figures that have been given show the volume of work that the Police force had to deal with in the course of the year. This work is now attended with growing difficulties, and in a number of cases with greater dangers as is shown by paragraph 15 of the report. In spite of this heavy work and of these difficulties and dangers, the Governor in Council is pleased to observe that all ranks are reported to have done their duty well, loyally and cheerfully, and for this he conveys his thanks to the Inspector-General of Police and all officers and ranks serving under him. The object of making the public understand and appreciate the security which they enjoy, and the agency to which they owe it, must be steadily pursued, and the Governor in Council does not despair of attaining it if the reproach of corruption can be eliminated.

21. Mr. Cocks was in charge of the Criminal Investigation Department during the whole of the year, and the work done by the department in his charge was of a very heavy character. It is a branch of the Police Department whose functions are misunderstood by the public, and which has to bear much undeserved odium. The great value of its work in the identification of criminals (by means of the Finger Print Bureau) and in the detection of specially difficult types of crime is not generally appreciated, but the Government is well aware how much it owes to this small but highly efficient body of selected Police officers. The attitude of many of the released Martial Law convicts was unsatisfactory, and returned Sikh emigrants again began to take part in anti-Government agitation. The North-Western Railway strike, the Hijrat movement and the adoption of non-co-operation by the Sikh League in October threw a heavy burden on the department. Records were taken of over 1,400 public political meetings and 375 of these were attended by officers of the Criminal Investigation Department to report on the speeches made. The important Gujránwála bomb case in which bombs and fire-arms were found to have been brought into India from the Chamarkand Colony of Hindustani fanatics with the intention of committing fanatical outrages on Europeans was cleverly investigated by this department, and two accused were sentenced, respectively, to 14 years' and 8 years' imprisonment for conspiracy to murder and offences under the Arms Act. With the help of this department, too, a band of dacoits, who were implicated in over 60 cases of dacoity, was run to ground, and 18 accused were convicted and sentenced. The Finger Print Bureau had a successful year's working, and 28,508 references were received and 5,626 were traced during the year. Expert evidence was given in 1,604 cases.

22. Mr. Cocks is shortly going on leave after administering his branch with skill, energy and efficiency for nearly three years, and the thanks of Government are due to him and to the officers under him for their successful work in the department.

23. The office of Assistant Inspector-General of the Punjab Railway Police was held during the year successively by Mr. E. Chisholm, Mr. G. H. Prickard and Mr. C. Stead, and 3,401 cognizable cases were investigated by the department during the year as against 2,916 in the previous year. It is reported that part of the increase is due to the fact that the attention of the ordinary criminal is being increasingly diverted towards the rich and easy plunder of the railway line, and greatly increased skill and daring is being shown in carrying out thefts in running trains and goods waggons. It is hoped that the measures recently recommended by the Railway Commission will lead to a decrease in this class of crime.

24. Mr. A. C. Stewart, M.V.O., was the Head of the Department for the whole year until his retirement on the 18th of October. He was succeeded by Mr. Farquhar, who remained in charge for the rest of the year. The

Governor in Council again wishes to record his grateful acknowledgment of the good work by Mr. Stewart, whose administration of the Police of the Province was very efficient and who carried through the important and difficult task of the revision of the pay of the department. Mr Farquhar has submitted an interesting report.

ORDER.—Ordered that a copy of the review be forwarded to the Inspector-General of Police, Punjab, for information and guidance, and that the report and review be circulated as usual to the Government of India, Home Department, and to the Registrar, High Court, Punjab, for the information of the Hon'ble Judges.

Ordered also that the review be published in the *Punjab Government Gazette.*

By order of the Governor in Council,

V. CONNOLLY,

Home Secretary to Government, Punjab.

PART II.

GENERAL.

REVIEW OF THE ANNUAL REPORT ON THE EXCISE ADMINISTRATION OF THE PUNJAB FOR THE YEAR 1920-21.

Proceedings of the Punjab Government (Ministry of Agriculture) in the Department of Commerce and Industry, No. 26035 (C. & I.), dated 24th October 1921.

READ—

Letter No 551—56-1, dated the 29th August 1921, from the Junior Secretary to the Financial Commissioners, Punjab, forwarding the Annual Report on the Excise Administration of the Punjab for the year 1920-21.

REMARKS.—The Punjab Excise Report for 1920-21 contains much that will hearten workers in the cause of temperance. The consumption of wines and spirits (local and imported), which was steadily rising since 1915-16, has at last been checked, the issues for 1920-21 being 788,830 gallons including exports against 974,345 gallons of 1919-20—a decrease of 185,515 gallons. The consumption of beer (local and imported) fell from 2,602,173 gallons to 1,989,136 gallons—a decrease of 613,037 gallons. Opium and the hemp drugs also continue to show decreases. The fall in wines and spirits was effected by the closure of liquor shops representing a consumption of 16,000 gallons and also by increases in license fees and in the duty. The fall in beer was, it must be admitted, abnormal, and largely due to the lessened demand after demobilization. The fall in opium was helped by the system of rationing the shops, but the lesser consumption of this as well as of the other intoxicating drugs indicates perhaps a change of fashion rather than a growth of temperate habits.

2. As anticipated in last year's report the gross receipts in 1920-21 very nearly touched Rs. 1,48,00,000, a rise of over Rs. 18,00,000 from the preceding year—a rise the more remarkable in view of the decreased consumption. Among the items making up the increase in receipts the duty on opium is more than double the figures for 1919-20, being an actual rise of over Rs. 1,50,000. The only head under which receipts have decreased is beer which shows a drop of 52 per cent. Expenditure shows a small rise due to an increase of 20 per cent. in establishment charges. This is less than what the higher cost of living has necessitated in other departments.

3. Issues from the distilleries show a decrease in potable country liquor, but an increase in rectified and denatured spirits. It may be noted that spiced spirit continues to gain in popularity at the expense of plain spirit, thanks, partly, to the sealed bottle system which was further extended during the year.

4. Although opium and the hemp drugs together show further decreases, the removals of hemp drugs from the Ladakh warehouse are still well above the quinquennial average. A corner was effected in *charas* in Hoshiárpur. Also fluctuations in the price of hill opium, consequent on the arrangements to find a licit market for this opium, gave opportunities to speculations. It is hoped that such opportunities will not recur under the system by which excise opium is cut off from the Jullundur Division and non-excise opium from the rest of the province.

5. A number of liquor shops were closed during the year on the recommendation of the few local bodies that chose to move in the matter. A more important step was the working out by the Financial Commissioner, on the decision of the Excise Committee of the Council, of a scheme by which in nine districts a maximum allowance per shop for the retail vend of country liquor is fixed at 10 per cent. below the consumption of 1919-20. The scheme was introduced with the new year 1921-22, and it is hoped that it will be more effective in checking the consumption of liquor and expenditure thereon than a mere increase in excise taxation has been in the past. The special campaign against illicit distillation in selected districts was continued, and a careful local enquiry made into the methods of distillers and the best means of combating them : but complete success will only be achieved by a closer co-operation between the different departments concerned on the one side and officials and public spirited non-officials on the other. Towards the end of the year under review a resolution on local option was carried in the Council, and rules are now being drafted on the recommendations of the Government Committee that considered this resolution.

6. It has been stated above that this report contains much that will hearten workers in the cause of temperance : at the same time Punjab Government (Ministry of Agriculture) must endorse the Financial Commissioner's estimate of the difficulties in the way of temperance reform. There exists a demand for intoxicants in this province which neither increased taxation nor the closure of licensed shops appears altogether to check. The danger is that misguided zeal might not only divert the masses to their bad old favourites—opium, *charas*, *chandoo* and *bhang*, but also give a further impetus to illicit distillation, which, as the Financial Commissioner observes, is an easy and paying industry which public opinion tolerates. The Deputy Commissioners of Karnál and Hissar in fact report that the reduction in the number of licensed liquor shops has been followed by a substantial

increase in illicit distillation. It is also ominous that side by side with a decreased consumption of liquor, convictions for the sale of unlicensed spirits rose to 12 this year against 3 in the year preceding.

7. The Punjab Government (Ministry of Agriculture) are in entire sympathy with the cause of temperance. But they are constrained to observe that non-official workers have hitherto failed to touch the root of the drink evil. The real problem is not how to end the sale of licensed liquor—this can be done by a single resolution of Legislative Council—but how to **suppress illicit distillation.** Let illicit distillation be suppressed and temperance has won. Is it too much to hope that the many zealous and earnest workers in the cause will now range themselves with the officers of excise, and with them push on to this great objective?

8. The Punjab Government (Ministry of Agriculture) place on record their appreciation of the ability and energy with which Mr. Fagan has carried on the Excise administration in succession to Sir John Maynard. They also thank the officials and non-officials named in the body of the report and its appendix for their assistance to the administration during the year.

ORDER.—Ordered that the foregoing remarks be published in the *Punjab Gazette* and communicated to the Financial Commissioners and Inspector-General of Police, Punjab, also that they be forwarded with copies of the report to the Government of India in the Department of Commerce.

By order of the Punjab Government (Ministry of Agriculture),

HARKISHAN LAL,
Minister for Agriculture.

A. LATIFI,
Offg. Secy. to Govt., Punjab,
Transferred Departments.

Proceedings of the Punjab Government, Ministry of Education, No. 13375-X, dated 29th October, 1921.

READ—

The Report of the Director of Public Instruction, Punjab, for the year ending the 31st March, 1921.

REMARKS.—An interesting feature of the period reviewed by this report, is that it was the time of transition from the old to the reformed *regimé*. The report itself is thus a description of the educational system of the province as it existed, when the new Councils came into being, and education, as a transferred subject, came under the control of a Minister, responsible to the Legislative Council of the Punjab.

2. During the year the work of the Education Department was not only to develope and expand the provision of education on lines previously determined, but to overhaul its machinery to meet new and changing conditions. A substantial measure of decentralisation has been introduced and means of effecting more economical working have been explored.

3. The extent of the educational problem in the Punjab may be gauged from the selections, here given, from the statistical returns of the year.

There were in all 7,559 public educational institutions attended by 500,837 scholars, representing an increase in the year of 377 institutions, and of 36,65 scholars. These figures include 1,136 institutions for girls and 61,840 girl pupils. If figures for private institutions be added the grand totals are 9,359 educational institutions and 556,989 pupils.

Expenditure also increased by about thirty-three per cent. In all Rs. 1,84,06,424 were spent on education. Of this total Government (Imperial and Provincial) revenues provided Rs. 85,01,614, and District and Municipal Boards Rs. 32,93,920. Fees produced Rs. 34,88,545—an increase of more than 3½ lakhs over the previous year.

4. As regards Collegiate education the Punjab University continued the development of the Honours Schools and proceeded to the appointment of three University Professors, all of whom entered on their duties during the year.

Further consideration was given by the University to the Report of the Calcutta University Commission, though no definite policy was evolved. Four Intermediate Colleges were opened during the year at Multan, Ludhiana, Rawalpindi and Ambala.

The decline in the number of students attending Arts Colleges has now persisted over a series of years. A probable explanation of this decrease is to be found in the fact that public opinion is now more in favour of technical and vocational training than before.

5. The Punjab Government, Ministry of Education, note with satisfaction, that the medical inspection of secondary schools, which had to be suspended during the war, has been re-started, also that beneficial results are to be expected from the improved system of physical training.

They look to the cordial support of the public in their measures to improve the health and physique of the rising generation. Unless this be forthcoming, but little success can be attained in this supremely important matter.

It is satisfactory also to note that agricultural and manual training schools are making steady progress. The public demand for the combination of vocational with general education may be considered a healthy sign. A note of warning however must be sounded in this connection. If the enthusiasm for vocational training results in the disappearance of a knowledge of history and geography from the pupils of Punjab schools, then vocational training will have been bought at a very high price, and a generation of an extremely restricted outlook will arise. This would be a most serious drawback in the circumstances that now exist, wherein some knowledge of general world conditions is rapidly becoming essential.

6. In primary education the progress made has been substantial, though uneven, so far as district boards are concerned Much remains to be done in the improvement of buildings and of the qualifications of teachers. It is satisfactory to see that these problems are being vigorously handled by the department.

The introduction of the Compulsory Education Act of 1918, by Lahore and Amritsar, raises the number of municipalities in which compulsion is to be applied, to three. It is understood that other local authorities contemplate following this lead.

7. The training of teachers continues to expand; but the supply of qualified persons is not equal to the demand. Hence the opening of a new training college at Hoshiarpur was essential. Similarly the steps taken to increase the outturn of other training institutions were timely and justified on every ground of efficiency and economy.

8. Technical and professional education looms large in the public eye, and the assumption of the control of technical education by the department of industries will be watched with interest. The increased popularity of the medical profession and the rising standard of efficiency in engineering, as evinced by the remarks on the Government School of Engineering at Rasul, are of interest.

9. Education among girls shows steady progress in the primary stages, but in the higher its expansion is slower. This fact may be a hindrance to the future educational development of the province; as it is from the scholars of high schools and colleges that teachers are to be recruited.

10. The number of Europeans being educated in the Punjab remains practically stationary when allowance has been made for the exclusion of the figures relating to the Lawrence Royal Military School, Sanawar.

The munificence of Miss Warburton of Kasauli in founding a scholarship in memory of her father, the late John Paul Warburton, C.I.E. of the Indian Police, is worthy of imitation.

The European schools in the Punjab are capable of further improvement, especially in the matter of the provision of science teaching.

A noteworthy feature of the figures for the total expenditure on European education is the large proportion of the total cost which is d[illegible]

11. The Government notes with pleasure that expenditure in aid of the education of the children of men who served in the Indian army during the war has so greatly expanded.

It is hoped that the same publicity as was given to the scheme in the last year will be continued, till all who are entitled to its benefits have received them.

The progress of the scheme for instituting public libraries in small towns has been gratifying.

12. There has been a substantial increase in the number of Muhammadan scholars in institutions of all kinds, and they are now in a majority of about 9,000. The number of Sikhs and Hindus has also increased, in the former case by nearly 8,000 and in the latter by more than 11,000.

The increase, however, is uneven among the Muhammadans, *e.g.*, in Multan division, where they have increased in a much smaller ratio than either of the other two communities.

13. It is a matter of regret that the finances of the Aitchison Chiefs' College caused so much anxiety during the year.

14. The Director has referred to the retirement of his predecessor, Colonel W. T. Wright, M. A., from the service of Government.

Government desires to associate itself with the remarks made in the Report on the services rendered by Colonel, now the Reverend and Colonel Wright. In all the multifarious and onerous tasks that he undertook he showed zeal and enthusiasm. In his capacity and eagerness for work he set a good example to his colleagues and by his retirement Government has lost the services of a faithful, efficient and conscientious officer.

It is, however, fortunate for the province that the services of Mr. G. Anderson, C.I.E., I. E. S., have been secured to fill this office of ever increasing difficulty and importance. His wide and varied experience of university problems and of education in all its grades render him eminently fitted to grapple with the difficulties inherent in the transition from the old to the reformed *regimé* and in transition from the old ideals and methods of education to new aspects and schemes.

ORDER.—Ordered that the above remarks be printed and circulated with the Report; also that they be published in the *Punjab Government Gazette*, and be forwarded to the Director of Public Instruction, Punjab, for information, and be submitted to the Government of India, in the Department of Education, together with copies of the Report.

GENERAL.

REVIEW OF THE PROGRESS REPORT OF THE FOREST ADMINISTRATION IN THE PUNJAB FOR THE YEAR ENDING 31ST MARCH 1921.

Proceedings of the Government of the Punjab in the Forest Department, No. 29723 (Forests), dated 29th November 1921.

READ—

The progress report of the Forest Administration in the Punjab, for the year ending 31st March 1921, submitted by the Chief Conservator of Forests, Punjab.

1. The area controlled by the Department was reduced during the year under review by 118 square miles, and is now 6,626 square miles. The claims of colonization are almost wholly responsible for this reduction, 117 square miles being disforested for this purpose in the Multan and Chenab Forest Divisions. The Chief Conservator has drawn attention to the fact that only 7 per cent. of the total area under forest is now managed by the Department, with the result that the Punjab compares unfavourably with other provinces in this respect. No new Forest settlements were completed, although that of the Daphar plantation is nearing completion, and the report of the Sutlej Valley Settlement, Bashahr Division, has been sent to the Press.

2. The position as regards working plans is regarded as serious, and only satisfactory in Kulu, the Changa Manga irrigated plantation, and the Murree and Kahuta hill-forests in the Rawalpindi Division. There is no plan at all for the immensely valuable forests in the Pabar Range near Simla, while the plan for the Bashahr forests is entirely unsuited to present day conditions. Other plans either require revision or expire within three years. This is due to the existing shortage of officers possessing the necessary training for

this most scientific of all branches of forest work: and for the same reason it has been found impossible to prepare even preliminary working plan reports. At one time early in the year there were actually only four Imperial Forest Service officers, including Conservators, employed in the Punjab. Nor is the position much better in the case of the subordinate service. At the close of the year the cadre of Rangers was 15 below the sanctioned strength, while the reorganization proposals foreshadow the increase of this cadre by 40 above this strength. With the increased intensity of working plans, and the adoption of a policy of departmental exploitation it is clear that a large number of well trained officials is necessary. The lower subordinate staff is also insufficient and the Chief Conservator concludes that the Punjab Forest School must be enlarged, as soon as the strength of Imperial and Provincial Establishments permits of the employment of extra Instructors.

3. Under existing conditions it has, as a rule, proved impossible to work up to the yield prescribed by a working plan in force. This is due partly to a scarcity of skilled labour, particularly of sawyers, but mainly to the lack of up-to-date means of extracting the timber in log. Several logging schemes are now under consideration, but there is again a dearth of qualified engineers and, most important of all, of communications. The problem of communications is one of the most important which the Forest Department has to solve. It has been realized that it is impossible to convert all the yield of the great hill-forests into scantlings *in situ*. For one thing the necessary labour is not forthcoming, and indeed this process is opposed to all economical principles. It is necessary as far as possible to bring timber to market in the form of logs. In certain parts of the Province, but mainly in the Eastern Circle, the great Punjab rivers float down the logs efficiently, but most of the timber from the two Rawalpindi divisions has to be brought to rail-head by land transport at a prohibitive cost. In spite of the shortage of staff considerable progress has been made in the improvement of communication. Eleven ropeways, with fittings complete and remodelled, have been received, and 18 more are on order. The average saving effected in carriage by their use may be taken at Re. 0-6-0 per sleeper, including depreciation. The construction of the Simla-Narkanda ropeway is still under consideration; but it is hoped that this project may shortly mature. The successful development of the almost endless forest resources of Bashahr depends very largely on the acceleration of transport facilities, for in this Division animal transport is not only slow but insufficient in quantity. A tramway is under construction at Changa Manga and three miles were completed before the end of the year.

The most interesting achievement in road building during the year was the completion of the Karcham-Shongthong bridle-path, opening up communication with the Kailas Range in the Bashahr Division. Its construction has been a most difficult and dangerous operation, as it involved blasting a way along the face of the Rabi cliff, overhanging the Sutlej River. The successful completion of the work is a matter for congratulation. In addition 71 miles of new paths have been hewn out, and 1,017 miles of roads and paths repaired in the various divisions throughout the Province.

4. One of the features of the report is that it covers a period of only nine months (from July 1920 to March 1921). This is due to the proposed synchronization of the forest and financial years, and its bearing on all the figures submitted is of course considerable. Comparisons with the results of the previous year, or the averages of previous years, have all to be made with the reservation that the year under review is not a full year. Thus the total number of forest offences reported, as compared with last year, has fallen by 342 to 7,020; but the decrease is fictitious, and would probably have become an increase, had the report covered a full period of 12 months. There were 207 fires, burning 14,215 acres, as compared with 202 fires, burning 8,933 acres in the previous year. The greater part of this area was burnt in the Kulu and Multan Divisions largely by intentional firing.

5. The work of regeneration has been seriously affected by the prevailing drought. The natural reproduction of silver fir and blue pine is an exception, for these trees grow at high altitudes where, even in a dry year, the soil is sufficiently moist to ...

have been killed in large numbers, while in Rawalpindi all the young chir trees, under 3 years old, are reported to have been destroyed. The want of water has also been detrimental to the extension of the irrigated plantations in the plains, though it has been found possible to add 620 acres. Eighty-six acres were however excluded as failures, and the balance now stands at 7,441 acres. The future of these irrigated plantations seems to be assured, seeing that on the five newer plantations the expenditure incurred amounts to Rs. 3,44,559 against a revenue of Rs. 8,15,061. An interesting experiment in reproduction is that started in Bashahr in 1909, the main feature of which is the attempt to raise coniferous crops in combination with field crops. Further experiments on these lines are now in progress in other Divisions, but it is as yet too early to prophesy success. The villagers are still suspicious of the innovation, but it is hoped that the unfortunate tradition of hostility between the people and the Department may be overcome by some such means, which demands co-operation between the parties concerned, and should have an important bearing on the attitude of villagers towards forest reservation.

6. The out-turn of all classes of produce extracted by departmental agency compares very favourably with the average out-turn of the three preceding years, when it is remembered that the figures for the year under review are for 9 months only. The figures are as follows:—

	Timber.	*Firewood.*	*Minor Produce.*
	Thousands of c. ft.	Thousands of c. ft. (stacked).	Value in lakhs.
1920-21 ...	2,578	2,584	20·45
Average 1917-18 to 1919-20	1,646	2,245	13·86

The results are partially attributable to a more plentiful supply of labour due to scarcity of food in the hills. The output of the Kulu Division has trebled since the introduction of departmental working, while that of Bashahr rose from 24,000 cubic feet last year to 60,000 cubic feet in the period under review. The quantity of timber extracted will doubtless increase steadily with the gradual introduction of more intense systems of management and with improved methods of extraction. At present, except in abnormal years, large advances have to be given to induce men to undertake the necessary work, with the result that the department is still largely at the mercy of its labour force.

7. Thirty-five thousand five hundred and forty-one maunds of resin were collected as compared with 38,427 maunds in the preceding year. In addition 3,544 maunds of the same product were purchased from Kashmir and Hazara. 26,782 maunds were distilled against 30,656 maunds last year and the total quantity of turpentine obtained from the primary distillation amounted to 54,219 gallons. The proportion of quality I turpentine obtained on re-distillation increased from 1·49 to 1·56 gallons per maund of resin, a result which is due to the application of laboratory control tests, whereby standard turpentine is produced. The average price obtained for rosin, the bye-product of resin, was Rs. 17-8-0 per maund as compared with Rs. 17-4-0 last year, and that for quality I turpentine Rs. 5-12-0 as compared with Rs. 5-11-0. As a result of these tests and the progress in standardization attained, 'Jallo' products are now well established on the Indian market. It remains to build up an export trade, and during this process large profits cannot be expected. The Indian factories are competing with a finely organized American trade, and future success will depend on their being content with a small profit per unit of manufacture attaining magnitude by reason of a large turn-over. The industry is in a sound financial condition, and its future success should be assured, provided that departmental control is not permitted to hinder the application of business methods.

8. Research in other fields has been greatly hampered by shortage of officers. The floating capacity and general characteristics of red spruce have been under investigation. Strangely enough this timber sells at a higher price than the ordinary white spruce, as the reddish brown colour has attracted the attention of furniture-makers in the province, and purchasers appear to

As a wood it has been found hard and tough, and it seems likely that, if floated down in large quantities, the river losses are not likely to exceed the 5 per cent. normal to any great extent. The natural and artificial seasoning of timber was the subject of experiment in various divisions. The immersion of wood in water has, it is known a considerable effect in this direction, but a large proportion of the timber supplies is brought overland to market. Natural seasoning is a slow process and uncertain under Indian climatic conditions; and it must be remembered that the important problem is how to convert timber into money as quickly as possible, and yet to supply the market with a seasoned article. This necessitates artificial seasoning on a large scale, as resorted to in the great lumber-producing countries of the world. It is proposed in the near future to experiment with timber-seasoning kilns.

9. The financial results of the year's working are on the whole satisfactory. As no financial comparison of the forest year under review with previous years can be of much value for the reasons already stated, the actual figures of revenue and expenditure for the *financial* years 1919-20 and 1920-21 are quoted below:—

Revenue.			Expenditure.		
1919-20—1920-21.			1919-20—1920-21.		
	Lakhs.	Lakhs.		Lakhs.	Lakhs.
Major produce ...	22·66	22·29	Exploitation ...	17·71	27·39
Minor produce ...	10·88	9·12	Administration ...	6·45	8·30
Other revenue ...	4·92	6·63	Cash surplus ...	14·30	2·35
Total ...	38·46	38·04	Total ...	38·46	38·04

It will be seen that the cash surplus has very largely decreased during the year under review; it also stands low in comparison with the average for the last 3 years, which is 9·09 lakhs. The reason for this decrease is the large increase in expenditure which is due partly to increase of staff, executive and clerical, and chiefly to the general expansion of forest operations which has not yet had time to bear fruit in increased revenue. Even on a consideration of these figures the Governor in Council does not apprehend that the position is in any way serious. The true results are perhaps better shown in the following table, which shows a surplus of 18·56 lakhs on the year's working:—

	Lakhs
Increase in value of stock	4·96
Capital expenditure, less interest	4·99
Increase in outstanding of revenue	·80
Total ...	10·75
Less cash deficit for the forest year under review, not for financial year, as shown in the preceding table	·17
Total ..	10·58
Timber afloat	7·98
True surplus	18·56

10. Figures of areas under forest growth, and areas treated as waste, have been collected as a preliminary step towards a more thorough survey of the Punjab's forest resources with the object of determining the capital value of the total estate, and thus demonstrating whether an adequate rate of interest is being earned on the capital involved in management. This is an important step, which when completed will enable the stewards to render an account of their stewardship.

The Punjab Government has finally recognized that the development of one of the greatest outstanding assets in the province can no longer be entirely effected by the application of surplus revenues, and two alternatives were discussed with a view to placing the finances of the Department on a more businesslike footing. These are the raising of loans by Government for the purpose, and the inauguration of co-operative schemes on a profit-sharing basis. Shortly after the conclusion of the year under review both these schemes began to materialise. The Punjab Legislative Council, realising the immense importance of the subject, has passed proposals for the raising of a loan, while a co-operative project is being closely examined in connection with the further development of the Jallo factory, and of sawmills.

11. The scheme of reorganization was sanctioned at the close of the year and Mr. J. W. A. Grieve and Mr. A. J. Gibson were appointed to the new posts of Chief Conservator and Utilization Conservator, respectively. Appointment to the Imperial Forest Service is now open to officers of the Punjab Forest Service and one such appointment has been made since the close of the year. The Department lost a promising officer by the death of Mian Lekh Chand of the Provincial Service. The year has been in some respects a difficult one, and the thanks of Government are due to all ranks of the Department for excellent work done, in spite of sometimes disheartening conditions and a serious shortage of officers in all grades. The Governor in Council offers his special acknowledgments to the Chief Conservator for his energatic administration of the forest property of the province and to the Utilization Conservator whose exceptional business capacity will, he is confident, insure its profitable development.

ORDERED that the foregoing remarks be published in the *Punjab Gazette* and communicated to the Chief Conservator of Forests, Punjab, for information and guidance. Also that they be forwarded with copies of the Report to the Government of India, Department of Revenue and Agriculture (Forests).

By order of the Governor in Council,

D. J. BOYD,

Revenue Secretary to Government, Punjab.

1658 PGG—750—2-12-21—SGPP Lahore.

The Punjab Government has finally recognised that the development of one of the greatest outstanding assets in the province can no longer be entirely effected by the application of surplus revenues, and two alternatives were discussed with a view to placing the finances of the Department on a more business-like footing. These are the raising of loans by Government for the purpose, and the inauguration of co-operative schemes on a profit-sharing basis. Shortly after the conclusion of the year under review both these schemes began to materialise. The Punjab Legislative Council, realising the immense importance of the subject, has passed proposals for the raising of a loan, while a co-operative project is being closely examined in connection with the further development of the Jallo factory, and of saw-mills.

11. The scheme of reorganization was sanctioned at the close of the year and Mr. J. W. A. Grieve and Mr. A. J. Gibson were appointed to the new posts of Chief Conservator and Utilization Conservator, respectively. GENERAL.

REVIEW OF THE ANNUAL REPORT OF THE DEPARTMENT OF INDUSTRIES, PUNJAB, FOR THE YEAR ENDING 31ST MARCH 1921.

Proceedings of the Punjab Government (Ministry of Agriculture), in the Industries Department, No. 719—20-1, *dated the 2nd December* 1921.

READ—

Annual Report of the Department of Industries, Punjab, for the year ending 31st March 1921.

REMARKS.—The report on the Department of Industries for the year 1920-21, the second of the series, deals with a Department still in its infancy, and making rapid growth. In spite of economic conditions unfavourable to existing industries and to new developments, among which may be mentioned uncertain exchange, restricted railway facilities, and shortage of coal supply, progress has been made. The Punjab Government (Ministry of Agriculture) notes with approval that several large factories have been started during the year, and trusts that private enterprise will, with the encouragement which Government is now prepared to afford it, soon take a larger share in this work; in particular that such development will strike out more into new lines like the cement works at Hassan Abdal rather than continue the multiplication of ice, flour and cotton factories with which the province already abounds.

2. The coal shortage has been serious throughout the year, and the future does not at present seem very hopeful. While every effort will be made to secure assistance in this matter for the province, which does not itself produce much coal of the highest class, it is a matter for consideration whether such a fuel as oil in the local production of which rapid strides have been made, could not to some extent replace coal.

3. While the total expenditure of the Department from its inauguration until the commencement of the year under review was a little over half a lakh, 3·7 lakhs were budgeted for expenditure during 1920-21, almost the whole of which was actually spent. An even greater expenditure is contemplated during the coming years in order to keep pace with the needs of the industrial development of the province. It should be noted, however, that much of the present expenditure was previously incurred through other departments. The appointment of six Industrial Surveyors to travel constantly through the province and keep the Director in touch with local industries was experimentally sanctioned in accordance with the recommendations of the Industrial Commission. This is, however, a purely tentative measure, and it remains to be seen how they fit in with the organization of the Department, and whether they meet a real need which cannot be met otherwise.

4. Although the Department was only able to conduct a small amount of chemical research work for itself during 1920-21, this is a natural concomitant of the fact that the chemical side of industry must await the reaching of an advanced stage by the technical side. Henceforward, however, expansion will be necessary, and it will depend upon the decision of the Government of India regarding the formation of a chemical service for India as a whole whether the expansion will be through such a service or through provincial institutions. Government agrees that the supplying of technical advice and assistance to industrialists in the province is among the most important functions of the Department. Here again, what has been done can only be regarded as experimental. It will be necessary to frame some general rules as to what advice the department can undertake to supply and who will be entitled to it, as soon as the working of the Department can give sufficient practical grounds for framing them; it will then be necessary to secure widespread publicity of the facilities available. At present there are a Mechanical Engineer, a Tanning Superintendent, and a Dyeing Research Assistant, whose services will always be obtainable in cases approved by the Director of Industries. To secure publicity, a provincial "Industrial Bulletin" was started, but lapsed for want of a trained editor. The editor has since been obtained, and Government has sanctioned the re-issue of the Bulletin.

5. The supply of electricity throughout the province has received the special consideration of Government from two standpoints: to ensure adequate supply they have kept in touch with the Engineer-in-charge of the Sutlej Hydro-Electric Project; for its distribution to the more important cities they have been working on a regulated system.

6. Among existing institutions, Government have under consideration the improvement of the Central Museum at Lahore and the Mayo School of Arts. Among newer institutions not only have they opened weaving schools (a central school at Amritsar and four others in Multan, Sialkot, Jalal-

pur Jattan and Sham Chaurasi), but instruction in the schools has now been put on scientific basis. The District Advisory Boards have worked well during the year, and Government wishes to thank the gentlemen mentioned by the Director of Industries for their valuable services. The establishment of a central advisory board is now under contemplation. It also wishes to thank Mr. Scott, the Director of Industries, for the energy and keen interest which he has brought to the administration of the new department.

7. In conclusion, they would remark that though the Department has now been organized and is extending its activities as rapidly as the laws of growth will permit, until private enterprise appears to a greater extent than hitherto, no substantial increase in the development of provincial industries is possible. In this connection, they view with satisfaction the efforts of the Attock Oil Co., which it is understood is investing a million sterling in the further development of its oil fields. Such a sum is greater than it would be advisable for a Government, which desires to encourage and not to compete with private industry, to invest in any one undertaking—even were its resources unlimited.

ORDER.—Ordered that a copy of the foregoing review be forwarded to the Director of Industries, Punjab, for information.

Ordered also that the review be published in the *Punjab Gazette*, and be circulated with the report, and copies be sent to the Government of India, Department of Industries.

By order of the Government (Ministry of Agriculture).

HARKISHAN LAL,
Minister for Agriculture.

PART II.

GENERAL.

REVIEW OF THE ANNUAL REPORT ON THE PUNJAB VETERINARY COLLEGE, CIVIL VETERINARY DEPARTMENT, AND GOVERNMENT CATTLE FARM AT HISSAR, FOR THE YEAR 1920-21.

THE following is published for general information :—

No. 718-24—1, dated Lahore, 7th December 1921.

From—E. R. ABBOTT, Esquire, C.I.E., I.C.S., Financial Commissioner (Development), Secretary to Government, Punjab,

To—The Secretary to the Government of India, Department of Revenue and Agriculture.

I AM directed to submit, for the information of the Government of India, a copy of the annual report on the Punjab Veterinary College, Civil Veterinary Department, and Government Cattle Farm at Hissar, for the year 1920-21, together with a review of Veterinary progress in the Province by the Director of Agriculture, Punjab.

Veterinary College.

2. At the Veterinary College the record of the year was one of steady if uneventful progress under the able direction of the Principal, Lieutenant-Colonel Walker, C.I.E., O.B.E. The new members of the superior staff underwent various kinds of training during the year and will be ready to assist in making the new four years course a success. The number of new students in this the last year of the old three years course was only one less than in the preceding year. The large increase in the number of Punjab Civil students is of special importance to the Province. The percentage of

passes in the various examinations was very satisfactory. The work at the hospital attached to the College was well maintained. The number of in-patients rose from 1,280 in 1919-20 to 1,297, though there was a decrease from 1,904 to 1,790 in the number of out-patients. Continued success attended the anti-rabic treatment of dogs. There have been only 9 known failures out of 224 cases dealt with since the system was adopted, and 31 dogs were treated during the year under report.

It is to be regretted that the Lahore Municipal Committee has been unable to accept the liabilities of the Branch Veterinary Hospital which it was proposed to establish in the city.

District work.

3. There was a remarkable decrease, attributable to the dryness of the year, in the mortality from contagious diseases. The total number of reported deaths decreased from 56,089 in 1919-20 to 25,200. There were no cases of glanders, anthrax or dourine, and only 37 deaths from Surra compared with 65 in the previous year. Rinderpest accounted for 14,594 deaths among cattle as against 42,155 in 1919-20. The number of deaths from foot-and-mouth disease dropped from 2,592 to 301, and from Hæmorrhagic Septicæmia from 6,319 to 4,459. The only figures that show an increase are those of deaths from Black-quarter which rose from 242 to 604, the heaviest mortality occurring in the Dhanni Tract of the Attock District where the disease is endemic. It is gratifying to learn that public opinion is showing signs of responding to the persistent propaganda of the Department in favour of preventive measures by inoculation and vaccination. The number of anti-rinderpest inoculations rose from 106,626 in the previous year to 115,584, though the number of the outbreaks of the disease declined from 816 to 524. A similar decline (from 73 to 50) in the number of outbreaks was responsible for a slight decrease from 18,741 to 13,279 in the number of inoculations against Hæmorrhagic Septicæmia. Vaccinations against Black-quarter increased from 2,912 to 6,380 and while those against Hæmorrhagic Septicæmia decreased from 57,336 to 47,551, the number of villages in which they were performed rose from 213 in 18 districts to 232 in 20 districts.

4. The addition of eight new Veterinary Hospitals during the year raised the total number to 139. The number of animals treated in these hospitals and in the 5 dispensaries of the Province increased from 319,712 in the previous year to 337,407 and the number of castrations performed from 12,397 to 13,791. The growing interest taken by the public in the activities of the Veterinary Department is evinced by the fact that private contributions were received during the year towards the opening of three new hospitals and numerous offers were made of buildings or of assistance towards their erection. An adequate supply of Veterinary hospitals together with a numerous and well qualified Veterinary staff is of vital importance to the Province and despite the many other calls on its purse, Government is rendering every assistance in its power. A grant of Rs. 48,000 out of wheat profits was placed at the disposal of 16 District Boards to help towards the building of Veterinary Hospitals and the subordinate Veterinary staff has been increased by the addition of 4 new Veterinary Inspectors and 10 Assistants. The cadre at the end of the year numbered 226 as compared with 210 in the previous year.

5. There were 1,440 stud bulls at work in the Province at the close of the year under report as against 1,352 in the previous year. A record number (236) of Hissar Bulls was supplied to districts from the Hissar Farm. The Dhanni Bull Breeding Scheme had a successful year despite the shortage of fodder arising from the failure of the rains and there are 42 selected bulls now working in the Dhanni country. This part of the Punjab suffers from an absence of any irrigated tract from which reserves of fodder can be drawn in times of famine nor has the local cultivator yet learnt to store his fodder in stacks to provide for bad years. These matters are rightly receiving close attention from the Department, and Mr. Townsend's suggestion that Government should purchase wheat bhusa in the Canal Colonies in good years and store it for use in bad years in the dry tracts of the Province, merits further investigation. The cattle census showed a decline of 7 per cent. in the number of cattle in the province. For this Mr. Townsend gives interesting and fairly conclusive reasons. There are signs of a reaction however and it is hoped that the greater area now being put down under fodder crops is evidence of a revival of interest in cattle-breeding which will have beneficial results on this essential factor in the prosperity of the Punjab.

Hissar Farm.

6. The Hissar Cattle Farm had to face a series of misfortunes resulting in a loss of Rs. 90,832 in the profit and loss account of the year's working as against a loss of Rs. 29,766 last year and a profit of Rs. 11,534 in the previous year. These figures however take credit for bulls and donkey stallions sold to District Boards at the concession rates and not at the full value, but for which the loss this year would have been reduced to Rs. 53,582. The shortage of rain produced a fodder famine, while outbreaks of Anthrax, Black-quarter, contagious abortion and Rinderpest, which occurred in spite of the dryness of the season, threatened to undo the good work of years. At the same time record receipts (Rs. 2,02,500) from sale of Farm stock and a record supply of bulls to District Boards are redeeming features and Mr. Branford and his staff are to be congratulated on the care and efficiency with which they administered the Farm throughout a very trying year.

General.

7. The almost irreparable loss which the Veterinary Department of the Province sustained by the untimely death of Lieutenant-Colonel Farmer, C.I.E., at Dublin on the 29th August 1920, while on leave, was noticed in the previous year's review. Government is fortunate in finding in Mr. Quirke an able and zealous successor who is keeping alight the sacred fire of enthusiasm kindled by Lieutenant-Colonel Farmer. Both he and his staff and the whole Veterinary Department deserve commendation for an excellent year's work in very up-hill circumstances. The Punjab Government (Ministry of Agriculture) is also indebted to Mr. Townsend for an interesting and suggestive review.

I have the honour to be,

SIR,

Your most obedient servant,

E. R. ABBOTT,

Financial Commissioner (Development),

Secretary to Government, Punjab.

PART II.

GENERAL.

REVIEW ON THE ANNUAL REPORT ON THE DEPARTMENT OF AGRICULTURE, PUNJAB, FOR THE YEAR ENDING 30TH JUNE 1921.

Proceedings of the Punjab Government (Ministry of Agriculture), No. 491—50-1, dated 29th November 1921.

READ—

Letter No. 5011, dated 3rd November 1921, from the Director of Agriculture, Punjab, forwarding the Annual Report on the operations of the Department of Agriculture in the Punjab for the year ending 30th June 1921.

REMARKS.—There was a slight decrease this year, from 268 to 228, in the number of applicants for admission to the Agricultural College at Lyallpur. The proportion of agriculturists, which has increased so remarkably in the last two or three years, was, however, well maintained and the Director of Agriculture was very favourably impressed with the good type of candidates seeking admission. Altogether 54 were admitted, of whom 45 were agriculturists. The record of work done is good. The Final Examination for the B. Sc. Agriculture was held at the College this year for the first time, and out of 11 who went in, 6 passed. In the F. Sc. (Agriculture) 17 passed out of 26, and 17 out of 23 obtained the Leaving Certificate. But the necessity for the devotion of a large part of the students'

time to learning English and Elementary Science is, as Mr. Townsend remarks, a weak point in the curriculum and further particulars of the scheme which he adumbrates for limiting admission to candidates who have passed the Intermediate Examination in Science of the Punjab University and for the institution of Intermediate Colleges, will be awaited with interest. The Vernacular class, the Teachers' class and the Rural Economy class continued to do valuable work The College is also to be congratulated on its sensible and level-headed behaviour, under the tactful guidance of the Principal and the staff, during the Non-co-operation agitation of the past winter.

2. Bearing as they do directly on the Agriculture of the Province the labours of the Economic Botanist are of particular interest The evolution of improved types of wheat and cotton have already greatly added to the wealth of the Province. Finality can never be achieved and the results of the past year show that better types of both staples than have hitherto been given out, are already available. Gram, oats, sugarcane and potatoes have not been neglected. In view of its value as a food crop an extension of the cultivation of the potato in the plains seems eminently desirable and the possibility of supplying good seed tubers, and of demonstration with this crop on the various farms should not be lost sight of.

The popularity of Arab date palms in the south-west of the Punjab is assured. The demand for young plants is keen. The value of the date to supplement the ordinary food supply was very marked during the autumn of 1921 in the western districts.

Little or no attention has as yet been paid to the improvement of the fodder crops of the Province. This is a subject which should be taken up without delay as there is reason to fear that much effort and considerable areas are wasted in the cultivation of inferior fodder crops.

3. In the Agricultural Chemist's Branch the routine work, though reduced since fees were authorised for work done for private persons, is still considerable and encroaches on the time available for research. Much valuable work was, however, undertaken.

The experiments with a view to the reclamation of the barren Bara soil in the Montgomery District are expected to extend over some years and are at present in their initial stages. So far the results are of a negative character, but there is no reason to fear that this intractable soil will not in the end yield the secret of its infertility to the importunities of the scientist.

4. The labours of the Entomologist are conducted largely in the laboratory and research has been diligently prosecuted. Travelling exhibitions, however popular, do little more than excite curiosity. Efforts should be made to demonstrate on private gardens the value of spraying as conducted during the year at Shalamar. The importance of freeing stored wheat from weevils can hardly be exaggerated and if, as stated by the Entomologist, superheating kills the insects without affecting the germinative capacity of the grain it might be possible to instal machines at some of the principal mandis in the Province.

The year was a most unfavourable one for sericulture, but the efforts of the department to develop this industry are not being relaxed. The Department of Industries is now responsible for further processes after the cocoon has been produced.

5. The account of the Agricultural Engineering section is disappointing. In a year of drought, however, the importance of securing an increased supply of water by borings in existing wells is intensified and it is satisfactory that, in spite of the difficulties referred to by the Agricultural Engineer, the number of successful borings secured was increased. In view of the frequently temporary success of borings it is of great importance that a cheap form of pipe and strainer may be evolved. It is to be hoped that some record of the experiments already made will be available, and that the importance of the subject is not lost sight of.

Little information appears to be available at present as to the commercial value of tube wells operated by mechanical power. In view of the large areas in the Province to which canal irrigation cannot be extended, the possibility of extending this form of irrigation is of great importance and a beginning might be made by ascertaining and collating results already achieved. The high price of materials undoubtedly hinders private effort, but valuable information would be derived from an experimental Government installation on which water rates would be charged. If eventually found to be successful this form of activity would appear to be a promising field for co-operative effort.

6. The sections of the report most interesting to the general public are those which deal with the methods by which the results of the labours of the scientists are brought home to the cultivators. It is probably true that the ignorance of the masses is, as stated by the Entomologist, appalling, but it is clear that cultivators are not slow to adopt improved seed recommended by the Department and the accounts of the few seed depôts exhibit a profit for the year though the Gurdaspur Depôt returned a loss on cotton seed transactions. Cultural improvements are being gradually introduced and improved implements are gaining in popularity. Propaganda as understood in other countries is inapplicable to a community almost wholly illiterate. Much propaganda work can be done through the agricultural associations. The system of demonstration plots also is a promising means of propaganda as it is free from the criticism to which Government or District Board demonstration farms are open, that the methods employed are beyond the means of peasant cultivators. In particular, the cure for earcockle in wheat could be shown to cultivators on such plots.

The Punjab Government (Ministry of Agriculture) agrees that District Board demonstration farms are not a success owing partly to the inevitable divided control and to the want of sustained interest of members of District Boards in such farms. It is doubtful indeed whether such farms have much direct effect on the agriculture of a district as their sphere of influence must in any case be restricted.

7. The district work of the Department extends at present roughly to only about half of the Province, including the most progressive districts. The proposed Multan experimental farm is long overdue in a part of the country

where the agriculture of the Province is at its poorest and where uphill work of the most patient description will be necessary to overcome the ignorance, apathy and conservatism of the cultivator.

8. The Government of India have not as yet agreed to give up the cavalry runs, and it is too early as yet to say whether it will be possible to add to the area at the disposal of the Department any part of these runs. An extension of the Lyallpur farm is no doubt desirable. Additional seed and demonstration farms are probably not required in the areas where the cavalry runs have been allotted; but it is possible that a farm run as a commercial venture like the Military farm at Okara on ordinary Zamindari lines with improved methods and implements, might afford useful information to the department and prove a valuable object lesson not only to the great landlords but also to the peasant cultivators themselves.

9. The Punjab Government (Ministry of Agriculture) is glad to find that the Director is in touch with the Superintendent of the Okara farm, and that the Agricultural and Co-operative Departments, the operations of which so largely interlace, are working in close co-ordination for the common good.

10. It was most unfortunate that the first complete working year of the Lyallpur wheat elevator should have been signalised by the practically total prohibition of export of wheat from India. A certain amount of wheat was however passed through it for the Indian market, and it is satisfactory to learn that the quality was so good that it commanded a higher price than the best bazar wheat. Messrs. Clement Robson & Co. continued to work the elevator on behalf of Government.

11. The Agricultural Department suffers, and must for some time to come continue to suffer, from a paucity of staff, but something has been done to remedy matters by the addition of 12 new Agricultural Assistants during the year and the recent sanction of six additional Imperial Officers. The Department, however, maintained its high record of enthusiasm and achievement and is to be congratulated on the substantial progress made during the year. Mr. Townsend has now resumed his old connection with the Department as its Director and the Punjab Government (Ministry of Agriculture) is indebted to him for a comprehensive and stimulating report.

ORDER.—Ordered that a copy of these remarks be forwarded to the Director of Agriculture, Punjab, for information, that they be published in the *Punjab Gazette* and submitted with copies of the report to the Government of India, in the Department of Revenue and Agriculture.

By order of the Punjab Government (Ministry of Agriculture).

E. R. ABBOTT,

Financial Commissioner (Development),

Secretary to Government, Punjab.

No. 25 LAHORE, FRIDAY, DECEMBER 30, 1921.

PART II.

GENERAL.

REVIEW OF THE ANNUAL ACCOUNTS OF THE PUNJAB FOR THE YEAR 1920-21.

Proceedings of the Governor in Council, Punjab, Finance Department, No. 32355 Budget, dated 21st December 1921.

READ—

March Final Accounts for the year 1920-21.

REMARKS—As this was the last year of the pre-reforms era, and from the 1st of April, 1921, a new financial settlement on radically new lines came into being, it may be useful to give a brief outline of the financial history of the province in the previous few years.

The following table exhibits the Provincial revenue and expenditure and the closing balance for each year from 1914-15 to 1920-21:—

(Figures in thousands of rupees.)

Year.	Revenue.	Expenditure.	Closing balance.
	Rs.	Rs.	Rs.
1914-15	4,94,76	4,76,06	52,21
1915-16	4,88,51	4,77,18	63,59
1916-17	5,17,69	4,58,49	1,22,75
1917-18	5,50,30	4,78,53	1,94,52
1918-19	5,73,76	5,37,33	2,30,95
1919-20	6,60,88	6,31,90	2,59,93
1920-21	6,75,58	7,47,86	1,87,36

1893 PGG

In these seven years, the revenue of the province has improved by two crores per annum or 42 per cent. despite the fact that 1920-21 was a bad year. The years 1914-15 to 1918-19 were years of enforced economy on account of war conditions with the result that the provincial balances increased from Rs. 52 lakhs to Rs. 2,31 lakhs. 1919-20 showed a further increase in the closing balance to Rs. 2,60 lakhs. Of this a part can be attributed to the exceptional and unforeseen increase in the receipts of that year, totalling Rs. 6,61 lakhs. 1920-21, on the other hand, has shown a reduction in the closing balance of Rs. 73 lakhs, as compared with the previous year.

The following table shows the Provincial share of the receipts under the principal heads of Revenue since 1914-15 :—

(Figures in lakhs of rupees.)

Year.	Land Revenue.	Stamps.	Excise.	Forests.	Irrigation Public Works Department (Major Works).	
					Direct receipts.	Indirect receipts.
1914-15 ...	1,42	27	35	14 (5·5)	1,22	51
1915-16 ...	1,40	29	35	17 (8·0)	1,19	54
1916-17 ...	1,43	30	38	17 (7·5)	1,39	60
1917-18 ...	1,56	30	43	21 (9·6)	1,36	53
1918-19 ...	1,43	30	53	22 (5·5)	1,39	68
1919-20 ...	1,56	39	65	38 (14·3)	1,62	63
1920-21 ...	1,51	41	74	38 (2·3)	1,67	67

The receipts shown under each head mentioned above (except Forests) are half the total receipts under that head, the other half being "Imperial receipts."

In the column headed "Forests" are shown in brackets the net receipts after deducting Forest expenditure.

These figures illustrate the large expansion which has taken place in—

Stamp revenue (owing to increase in rates and expansion of trade) ;

Excise revenue (owing to general prosperity and the devaluation of money) ; and

Irrigation (owing to the development of Irrigation) ; but

Land Revenue has proved a very inelastic source of revenue, the increase in six years being only some six per cent., although the depreciation in the value of money has very much exceeded the latter figure.

These Land Revenue receipts include large amounts of a non-recurring nature due to the sale of Government estates and the sale of waste land, these receipts being almost entirely on account of land made available for cultivation in the Canal Colonies. Of a similar nature are the receipts from the sale-proceeds of town sites (through Imperial assignment) due to the creation of new towns in the colony-areas. All these receipts, due to the expansion of canals are of a capital nature and ought to be reserved for capital expenditure. The following table shows the Provincial share of the receipts for a series of years. The Imperial Government has received as its share amounts equal to those tabled below. The figures show that the Pro-

vincial revenues have benefited to the extent of 1,49 lakhs in the last seven years through the sale of such lands and sites :—

(Figures in thousands of rupees.)

Year.	Sale of Government Estates.	Sale of waste land.	Sale-proceeds of town sites.
1914-15	4,11	15,09	19
1915-16	3,24	12,30	1,52
1916-17	3,28	11,39	3,80
1917-18	3,70	13,48	1,76
1918-19	4,53	15,22	2,14
1919-20	6,74	16,09	10,24
1920-21	3,87	10,15	5,82

The following table shows the Provincial expenditure under the main heads during the last seven years. It indicates the extent to which war economies operated to lower expenditure, and also how much increased prices and increased salaries together with pre-war expansion operated last year to raise the totals :—

(Figures in lakhs of rupees.)

Year.	Land Revenue.	General Administration.	Law.	Jails.	Police.	Education.	Medical and Sanitary.	Civil Works, Public Works Department.	Irrigation Working Expenses, Public Works Department.
1914-15 ...	50	13	46	16	62	42	28	70	44
1915-16 ...	49	12	47	18	64	44	20	52	52
1916-17 ...	47	12	45	18	65	43	16	39	52
1917-18 ...	47	12	44	19	66	44	19	47	52
1918-19 ...	49	12	46	23	71	54	20	62	51
1919-20 ...	58	15	54	24	85	57	24	90	58
1920-21 ...	74	21	64	24	96	73	32	1,10	66

4. Early in the year under review it became obvious that retrenchment would be necessary if the scheme for the revision of all non-gazetted establishments was to be financed with effect from 1st October 1920. A Departmental Committee met in June, and proposed the following reductions in the Budget Estimates :—

			Rs.
3—Land Revenue	...	...	1,10,000
7—Excise ...	...	...	7,500
19—Law and Justice	...	...	50,000
22—Education ...	...	...	2,00,000
24-A—Medical	...	...	75,000
24-B—Sanitation	...	...	2,69,000
26-A—Agriculture	...	...	84,000
32—Miscellaneous	...	...	5,000
45—Civil Works	...	...	7,67,600
	Total	...	15,68,100

5. The budgeting of the year has been moderately successful. The original budget estimate of revenue and receipts was Rs. 6,64 lakhs which ultimately turned out to be low by Rs. 11 lakhs (or nearly two per cent.). The revised estimate overshot the mark by anticipating receipts of Rs. 6,83 lakhs, or Rs. 7 lakhs (one per cent.) more than was actually realised, the total actual receipts of the year amounting to Rs. 6,76 lakhs.

6. On the expenditure side, the budget estimate of Provincial expenditure was Rs. 7,35 lakhs which was Rs. 13 lakhs (or 1½ per cent.) less than the amount actually disbursed. The revised estimate of expenditure at Rs. 7,41 lakhs was only Rs. 7 lakhs less than the ultimate actuals which came to Rs. 7,48 lakhs. For various reasons the actual closing balance of the year (Rs. 1,87 lakhs) was practically the same as the closing balance which had been estimated in the original budget.

7. Variations between the budget estimate of the year and the actuals (or anticipated actuals) of 1919-20 have already been explained in the Financial Memorandum presented to the Council in February 1921. The increase of Rs. 9 lakhs in 'actual' receipts under "Land Revenue," as compared with the budget estimate, is due to unexpected realisations under ordinary land revenue. The Forest receipts were about Rs. 10 lakhs less than the budget owing to—

(1) low sale of colophony and turpentine from the Jallo Factory owing to the trade depression;

(2) the Bashahr Division estimates having been unduly optimistic;

(3) the late arrival in the plains of timber extracted from the Kulu Division.

"XXV—Miscellaneous" shows an improvement of nearly two lakhs over the original estimates owing to unexpected receipts from sales of town sites in the Shahpur and Montgomery Districts.

The Irrigation receipts (XXIX) (Major Works, Public Works) are nearly Rs. 8 lakhs more than was originally estimated owing, apparently, to insufficient allowance having been made for the extension of Canal Irrigation in the new colonies.

8. In general, most of the expenditure heads show increases over the original budget estimates owing to—

(1) increases in salaries which came into force on the 1st October 1920, of the non-gazetted establishments, and at other dates, of the gazetted establishments;

(2) increased rates of travelling and conveyance allowances coming into force on 1st April 1920 and other dates;

(3) high price of grain which necessitated grain compensation allowance being paid on a higher scale than was anticipated, and the general rise in the price of all commodities.

Provision for these increases was originally made partly by the inclusion of lump sum grants under "32—Miscellaneous" and partly by reduction in expenditure under other heads. It was also anticipated that some of the extra cost would have to be met by a draft on the balances in excess of the amount budgeted for, but the final results show that no such draft took place. This was partly due to the fact that increases of pay due to various establishments could not in every case be drawn before the end of the financial year, and partly owing to expenditure under other heads being less than was originally contemplated.

Apart from these factors, the following additional points are to be noticed. High prices necessitated greater expenditure under Jails than was originally estimated. Under Sanitation, the expenditure was about Rs. 4½ lakhs less than originally estimated. This is chiefly due to the curtailment of the budget as noted in paragraph 4 above. Agriculture also showed a decrease of nearly Rs. 4½ lakhs on the original Budget. This is partly attributable

to (*i*) purchase of a smaller quantity of seed for sale to the zamindars than had been anticipated and (*ii*) impossibility of carrying out expenditure on the purchase of well boring apparatus.

9. The increase of Rs. 10 lakhs under "45—Public Works" over the budget estimate has not been fully explained so far. As noted above reductions to the extent of Rs. 7½ lakhs were undertaken under this head, and the extra cost of establishment cannot explain the excess of Rs. 10 lakhs in the actuals over the budget estimate.

10. A statement is appended showing figures, under the Major Heads for the year, of budget estimate, revised estimate and actuals along with the actuals of 1919-20. This relates only to Provincial expenditure and revenue.

ORDER.—Ordered that a copy of the above review, together with the statement of Provincial Revenue and Expenditure, be published in the *Punjab Government Gazette*; also that a copy be forwarded to the Accountant-General, Punjab, for information.

By order of His Excellency the Governor, Punjab,

B. T. GIBSON,

Financial Secretary to Government, Punjab.
